KUALA LUMPUR, Oct 11 (Bernama) – Persatuan Kesejahteraan Rakyat Malaysia (PKRM) has offered itself to be a conduit for the government to convey current information to the public.

Its chairman, Datuk Ranjith Raja, said in a statement that PKRM has set up a platform to assist the government, especially with regards to community and charity work that can help those in need.

“PKRM, through its investment company, is ready to help the government get financial returns as well as to gain profit.”

The association has brought its proposal to Prime Minister Tun Dr Mahathir Mohamad to review contracts and purchase policy agreements, which will enable the government to secure savings.

“The government has high expectations for the GLCs/GLICs /corporate sector group, especially involving the people’s well-being and welfare, and to enable the government to secure sufficient financial resources to finance the country's debt.”

According to the statement, the process of reviewing the relevant insurance programme or policy will in no way interfere with the current contract/agreement previously agreed upon with the insurance company.
