KUALA LUMPUR, March 24 (Bernama) -- The Langkawi International Maritime and Aerospace Exhibition 2019 (LIMA '19) which will be taking off on March 26, will be a platform for local defence industry to continue sharing ideas and technologies with new and leading defence industries from all over the world.

The biennial programme which will be on until March 30, has been held for almost three decades and it has become a benchmark for Malaysia to organise a world standard defence exhibition.

The confidence of Defence Minister Mohamad Sabu on the event stems from his belief that the local defence industry is capable of giving an impact to the country's economy in terms of employment, skill development and penetration of the global supply chain.
