IF the Malays are ever to be destroyed, it will be the present government that will do the job, said Dr Mahathir Mohamad in a blog post today.

In a stinging attack, the former prime minister said Muhyiddin Yassin's government has inherited the kleptocratic government that had come before the Pakatan Harapan one.

"Why not? The people's will are ignored. Their leaders break promises and think only of themselves, or are easily influenced by perks and posts.

"Many have no qualifications other than their support of Muhyiddin as prime minister. A government such as this will ruin and destroy the country, including the Malays," the Langkawi MP wrote in the post.

Dr Mahathir said some political figures loyal to Muhyiddin are busy offering posts and money to increase support while those who reject the offers are threatened and harassed.

"I wish to congratulate those who have rejected Muhyiddin's offers and are willing to be dropped from the party (illegally) and lose all sorts of allocations for the areas they represent," he said, likely referring to Bersatu lawmakers who had opted to stay out of Muhyiddin's government.

“Only such people can save the country and the Malay race. Trust that those who sell their dignity, who accept that ‘cash is king’; these people will destroy the country and the Malays.”

Muhyiddin’s Bersatu coalition has 32 lawmakers, who had, during the Sheraton Move earlier this year, caused the fall of the PH government by forming Perikatan Nasional with Umno, PAS, GPS and other components.

Likely alluding to Umno, Dr Mahathir said that the political party that was rejected by the people in the 2018 election had instead seized power to form the government.

“This happened because the party that was rejected by the people has scared some politicians from Pakatan Harapan, especially Bersatu politicians, into believing that the PH government was controlled by the DAP and that the DAP will destroy the Malays. To prevent this, (they were led to believe) the government must be a Malay-Muslim.

“The Bersatu president (Muhyiddin) saw an opportunity to become prime minister if Bersatu were to cause the collapse of the PH government by joining the kleptocrats to form a new one.”

“There may be Bersatu leaders who were led to believe that the DAP could destroy the Malays – to the point that they are willing to cause the fall of the PH government – but many others saw the opportunity to become ministers, deputy ministers and so forth in the new Perikatan Nasional government.” – June 16, 2020.
