

## Premier touch

The Star 21/6/2004: 2

Prime Minister Datuk Seri Abdullah Ahmad Badawi comforting 30-month-old Intan Syafiqah. The toddler is suffering from a clogged bile duct (biliary atresia) and her parents Mohd Fauzi Abdullah, 30, and Norhayati Omar, 28, need to come up with RM300,000 for her liver transplant. Intan has just three months to live if the surgery is not carried out. Mohd Fauzi and Norhayati gate-crashed the Bertam Umno delegates' meeting in Kepala Batas yesterday to bring their problem to the Prime Minister. — STARpic by CHIN CHENG YEANG
