

***“The aim of turning
Kuala Lumpur into a world class city
is a journey without end”***

SUN 31/10/2003 - 7 PRECISE

*“Kuala Lumpur,
the capital city, has finally
become a garden city of lights.
From a small town with only
300,000 people, Kuala Lumpur
now has two million people,
several five-star hotels, modern
office buildings and shopping
centres where many branded
goods are sold.*

*Kuala Lumpur is now a
cosmopolitan city which is on
par with the large cities of
developed countries in the
world. It is clean and
beautiful. And in the middle
of the city there is the world
renowned landmark – the
Petronas Twin Towers –
the tallest twin building
in the world.”*

*– Prime Minister Datuk Seri
Dr Mahathir Mohamad in his
2001 New Year address*
