

Dr M: Don't be too calculative

The Star - 28/8/2006

SERI ISKANDAR: Don't be too calculative about salaries and the number of hours you put in at work.

This was the advice of Tun Dr Mahathir Mohamad, the chancellor of Universiti Teknologi Petronas, to graduates at UTP's sixth convocation yesterday.

"When you step out into the working environment, you must work hard. Don't be too calculative about the number of hours you work and the salary.

Dr Mahathir said sooner or later, those who worked hard would reap their just reward.
