This book, published in honour of the late Tun Suffian, and written by well-known author and columnist Prof. Salleh Buang (with two other individuals contributing their respective chapters) is the first major publication commissioned by the Tun Suffian Foundation. Although the opening and closing chapters of the book focused on the life, contributions and legacy of the late Tun Suffian, this publication is not intended to be a biography of this man, born a kampong boy in Perak but who later quickly rose to greatness and left his indelible mark on the nation. Whilst the reader will catch glimpses of the life and times of the former Lord President as he climbed the ladder of judiciary and continued to serve the nation in so many ways, he will also get insight into the development of Malaysian law through these decades until the present day.
