

PAK MAN TELO - NEW YORK

Chedet.co.cc

December 15, 2008

by Dr. Mahathir Mohamad

1. Today's Starbiz reports that 50 billion US dollars of investor's money were lost by just one man.
2. Bernard Madoff invested US5000 of his money to set up an investment firm. Such was his personality and sales talk that he was able to convince lots of rich people to invest their money with him. The returns were so good that his fund became exclusive, open to select people only.
3. When he was arrested recently by the FBI he admitted that "There is no innocent explanation".
4. We got on to Pak Man Telo ponzi scheme quite early. He caused the naïve Malaysian who invested in his scheme several millions, I believe.
5. Apparently the Securities and Exchange Commission (SEC) of America did not detect Madoff's operation for years. He was even made Chairman of Nasdaq Stock Market.
6. He was living a high life, with a 5 million dollar mansion in Manhattan and membership of the most exclusive clubs.
7. Pak Man Telo would probably have done better if he had gone to New York where he would not have the Malaysian Government overseeing such activities. Or perhaps the SEC might learn some lessons from Malaysia as indeed the US Government has learnt about bailing out companies.

Tun,

For the first time, I think I beat you into posting this story about Pak Man Telo of USA.

Madoff made consistently positive and high returns, a sign of a Ponzi scheme. And he did not disclose his investment accounts to his investors, another sign of trouble.

The US investors are not as smart either.

Salam Tun,

- 1) Those Americans watch too much movies, they can't even differentiate between fact and fiction.
- 2) They can be fooled by anyone including a fool like Bush.
- 3) In Saudi you can be stoned to death but in Iraq he nearly got a shoe mark on his face.
- 4) Some Malaysians looks highly towards Americans, but quietly some prominent American is learning from Malaysia.
- 5) I think you should be their advisor, you know our good friend Anwar almost did become the Governor of World Bank thru his good friend Wolfowitz!!!!

Wassalam.

Dear Tun,

Yes it is quite unbelievable. I find most people quite gullible, even highly educated, top notch Wall Street investors were duped by this name aptly named 'maddox' (sounds like mad dog). The strange thing is they say he never even published regular sets of accounts, yet people still trusted him. And he was also appointed Chairman of the NASDAQ for a while.

And the amount of money lost in the scam is about USD50.0 Billion. In Ringgit this is about RM176 Billion or almost half our GDP.

During Pak Man Tello's time even Bank Negara auditors (who were sent to investigate him) were actually

'investors' in his scheme. In fact Bank Negara's initial report was that nothing was wrong with Pak Man Telo. Only later when the losses became too big, then Pak Man Telo was exposed for what he was doing, running a pyramid scheme.

I believe there is yet another pyramid scheme going on right now in Malaysia. Its called 'gold bar' investment. Returns are said to be in excess of 30% a year, capital guaranteed. I think the window will shut down on this too. More fingers may get burnt.

Syed Akbar Ali.
By geeHam on December 15, 2008 5:41 PM

Salam Tun,

Pak Man Telo tu kalau semuanya jujur semua dapat merasa dah..tu lebih kurang sistem piramid.. anyway kena legalised dan dapatkan BNM's consent on the concept... boleh jadi program bantuan untuk yang memerlukan ..macam konsep derma..cuma strategically dan legally done... ada pemantauan dan sistem yang boleh dipercayai..

Regards....Semoga Tun dan Keluarga dalam keadaan sihat walafiat..Aminn.

Dear Tun,

It is amazing that Bernard Madoff can operate such a scheme undetected and unsuspectingly by greedy US investors and SEC.He is so convincing that he being made Chairman of Nasdaq. It is incredible. You are right, if Pak Man Telo operates in New York he would probably can match the status of George Soros becoming sought after Hedge Fund Manager giving very high returns of investment to investors. Bernard Madoff, I think is classic example of 'Fake It until you Make principle's that can be done only in a dreamland USA.

I think, there are many things that US can learn from Malaysia besides bail out and curbing Pak Man Telo typed operations. So, not only in Malaysia that people get attracted to Getting Rich Scheme, it is world wide phenomena. If not because of the serious financial collapse, Bernard Madoff might still be living in HISO and highly respected in America. There is lesson to learn here...Control Greed.

Salam. Betul tuh chedet. Saya baru terbaca 1 tulisan dari blog satu nih (link dibawah). Sekarang rakyat Malaysia ada kegilaan baru, menjual ebook cara buat duit dari program internet seperti adsense dsb. Tp si penjual bukan buat duit banyak pon dari program adsense dsb tetapi sumber pendapatan utama adalah hasil dari penjualan ebook tuh. So, isi buku tu takderlah apa sangat sebab penulis pon x sucess

dlm program tuh... tetapi marketing sempoi, menjadilah produk itu. pembeli dpt apa? x tau lah.

Dear Tun,

Life is difficult. It is so so so hard to make money but it is so so so easy to spend all the money. So it is very hard to save large sum of money for retirement. That is why most people easily get lured into fast-money scheme. People prefer to have at least some hope rather than no hope at all.

Same problem in UMNO's corruption issue. It is very easy to tell them not to accept bribe and fight for justice. Who will pity you if you end up being poor after retirement? Nobody cares. So always take good care of yourself 1st. Rakyat 2nd lah.

There are a lot for America to learn from Malaysia. America is like a rich family where they suddenly become poor family overnight. They are in shocked and do not know how to live on without money.

Salam Tun!

Ya lah tu Tun. American ni kalau orang buat dulu dari dia...dia kata tak bagus...barbaric katanya.

Tapi bila mana suasana sama berlaku di tempat dia. Di cari option of actions. Kalau boleh pakai dia pakai.

Bottom line....tak malu nak jilat ludah sendiri. Maksudnya bijak yang tak bermaluah.....janji survive.

Kita? Di Malaysia ni? Tinggal tanya diri sendiri. Nak survive atau nak maruah?

Saya rasa kalau pilih maruah kita akan survive. Kalau pilih survive dulu.....yalah...survive jugak...tapi won't last.

Sekian Wassalam.

Takpa Tun... buat sahaja apa yang betul, lantaklah apa orang nak kata..

setiap orang ada agenda sendiri.. yang penting diri sendiri mempunyai agenda yang murni...

Dear Tun,

You knowlah, the American is so self righteous that they refused to be corrected, what more to be taught. They see the world from their own perspective only, other views do not count. But they want the world to count on their view. Arrogant and snobbish are their menu in breakfast, lunch and dinner. Over more than 100 years of reaching independent, they taught they are 'God selected species', there for earn the right to police and patronise the world in every aspect.

God bless you Tun and wife . Me, my wife and 7 kids will love you both always, second to our own parent.

Salam...Kat Malaysia ni byk gak yang mcm Madoff (Mad Off..)

Nak gtau ni..Last week saya balik Sibü (my wife hometown)..

Pak mertua sy kerja kat sebuah syarikat Perladangan/Pembalakan as operation officer.Actually that company owned by chinese guy but the license is under Bumi.During audit, the upper floor where all the Chinese guys (Top Management) positioned were closed and only the ground floor opened for the auditing because all the lower ranking people were Bumi...Dia punyer boss maki hamun pkerja mcm anjing ..(Patut pun kalu Teresa Kok diberi makanan Anjing sebab Orang dia jadi orang besar buat orang Bumi yang kerja dgn diaorg mcm anjing).

Sakit Hati siot..Dah ler Fuchow Sibü ni bawa keta x ikut law.. Time nak air asia, siap berebut2 macam x pernah naik kapal terbang..

Ini sumer kerana Kerajaan BN punya dasar non Bumi kaya raya..

Tun.. Kenapa Melayu dulu sanggup bagi chance kat Cina and India duk kat sini dan dibagi warganegara semata2 untuk mendapat kemerdakaan yang cepat...Adakah orang Melayu x cukup bersabar sedangkan Melayu itu Islam and Sabar adalah separuh dari Iman.. Adakah orang Melayu Islam ketika itu kurang berIman??

Assalamualaikum YABhg Tun.

Terima kasih diatas pandangan YABhg Tun mengenai penipuan bentuk baru dengan janji manis menerusi skim pelaburan yang memberi pulangan lumayan.

Ingatkan orang Melayu saja yang tertipu melalui skim Pak Man Telo. Orang putih pun tertipu dengan Mandoff Telo.

Sekarang masih berleluasa skim pelaburan seperti ini di Malaysia. Ada yang telah ditutup atau sengaja menutup projek bila penganjur sudah kenyang. Bila ada peluang buka semula skim baru.

Ramai orang tidak beramanah yang sentiasa ingin mengambil kesempatan diatas kelemahan kita. Pelbagai skim diujudkan seperti jualan langsung, pelaburan internet, pelaburan pelbagai tingkat, pemasaran pelbagai tingkat, duit buat duit, sms berduit, hadiah misteri, panggilan berbayar, skim

usahawan mikro, skim pelaburan gerenti untung, projek usahawan biotek dan pelbagai.

Akhirnya ramai orang Melayu tertipu. Ada yang bergolok-bergadai. Ada yang jatuh miskin.

Siapa tak hendak kaya dengan cara mudah. Tetapi harus diingat bahawa bukan mudah nak mudah dan bukan susah nak susah. Jadi perkara mudah jangan diambil mudah. Berfikirlah sebelum bertindak. Berilmu sebelum berdagang.

Walaubagaimanapun mudah-mudahan perjalanan hidup kita dipermudahkan.

Semoga YABhg Tun sekeluarga drahmati Allah.

Perhaps we can now think of cloning Tun in the near future.

More ambitiously, we can start the ball rolling on a truly just and humane financial system for the whole wide world...minus the cheats, the greed, the riba' (interest), the inequalities for the poor countries, no making money for debts (or thin air), no unsustainable development which is killing this earth,....

May Allah Bless you, all Malaysians and Tun.

you are frustrated about malays and through renong,you saw opportunities you gave to the malays were abused.economically,we need to have bumiputras who complete the whole business cycle within the malays only.this will solve the rent seekers who sells their project to the chinese.
a 100 mil rgt project given to a bumi contractor is readily sold to a chinese for 98mil who profits 18mil upon completion of a govt project.the chinese subs it to other chinese and the malay will be left behind!
dsai was your rightful heir.it was not to be and hence everyone looses.your man beat and locked him up and he came out and told the arabs what you did and paklah is totally lost on his ncer,acer and what not..

Salam YAB Tun,

Ada kemungkinan juga kalaulah skim Pak Man Telo dahulu tidak dapat dikesan, beliau juga mungkin akan berjaya seperti Bernard L. Madoff. Pulangan pelaburan sebanyak 8% - 10% setiap tahun tentunya

akan menarik minat ramai pelabur dari mana sahaja.

Pak Man Telo New York ini dengar khabar menjalankan operasi perniagaan dipejabat yang kecil sahaja dan completely paperless. Pekerja sepenuh masa kebanyakannya terdiri daripada ahli keluarga beliau sendiri.

Adalah mustahil bagi sebuah negara maju seperti US dengan pelbagai kecanggihan serta menjadi pusat kewangan dunia, kegiatan Ponzi Scheme seperti ini tidak dapat dihidu lebih awal oleh sesiapa termasuk syarikat-syarikat besar Hedge Fund yang juga terbabit melabur bersama.

Manusia kadang-kadang akan hilang pertimbangan dan kewarasan akal fikiran apabila terlalu mementingkan harta, kekayaan dan kuasa.

Wassalam.

Dear Tun Dr M,

I am not surprised by the ability of Bernard Madoff to raise such huge amount to be invested in his concern. Today, many people fall for sweet talks and convincing gestures more than actual fundamentals and true state of affairs. They will never learn.

Together For 1 Nation, 1 Malaysia as 1 United Bangsa Malaysia

15 December 2008

To Tun and All Malaysians,

Pak Man Telo, must have gained his reputation and trust from the highest echelons of American society painstakingly for his scam to persist for so long. Where do we; Malaysians, stand against such sleek operators? Do we have the right Human Capital with the required skills and knowledge and strength of character to uncover Mr. Madoff when we are still bickering on the issue of Vernacular and National

Schools?

Human Capital is undoubtedly the most important asset in a family/corporations and Malaysia which mould 1 Nation, 1 Malaysia as 1 United Bangsa Malaysia. Is the solution found in Vernacular Schools or National schools or simply coexist as it is now? How many of our leaders (political/businesses/NGOs; etc.) and their children are 100% educated at vernacular and National schools in Malaysia right up to tertiary level? 30%, 20%, 10% or 1 % perhaps!

Why retard ourselves and that of our children when we should have the best education system for all Malaysians regardless of race/religion/languages etc.? Not to forget the RM' millions spent in foreign exchange of our hard earned money on overseas education.

What are the Root Ingredients for Malaysia's Human Capital excellence requirements? The pillar should built around Languages, strong character with universal principles and values which cut across race and religion, analytical and thinking populace who strive for continuous improvements to achieve excellence.

In this real world one must have good command of at least dual languages of English Language and the Mother Tongue. In Malaysia context, I would humbly suggest that it should be trilingual to include Bahasa Malaysia as the National Language. All these Languages must be taught in One Unified School System for all Malaysians. The implementation of course, is base on the needs of the Rakyat's basis. Even with such a system I am sure not all Rakyat's would opt to specialize in their Mother Tongues (Bahasa Malaysia/Mandarin/Tamil) for various reasons. Once the Rakyat's have made their choice of 3 Languages preference they will not be able to blame the government but themselves should their choice was proven wrong later in life.)

Perhaps with the right Human Capital nurtured by the best education system in Malaysia Pak Man Telo could not wreak havoc in Malaysia.

Thank you.

Together for 1 Nati

ANOTHER INTERESTING SNIPPET FROM YOU TUN, AWAY FROM THE SUBJECT OF MALAYSIAN POLITICS!

GREED! HUMAN NATURE!

THE SHEER PASSION OF GETTING A LOT FROM NOTHING BY DOING NOTHING IS THE ATTRACTION HERE.

SOMETIMES EVEN THE SMARTEST OF PEOPLE FELL INTO THE TRAP.

LET ME RELATE TO YOU MY PERSONAL EXPERIENCE DURING THE HEIGHT OF PAK MAN TELO. I WAS A BANKER ONCE AND I STILL REMEMBER VIVIDLY HOW PEOPLE WERE JUST RUSHING TO SEND TENS OF THOUSAND OF RINGGIT THRU MY BANK TO PAK MAN TELO.

THE CROSS-SECTION OF PEOPLE WERE SENIOR POLICE OFFICERS, PROFESSORS, ENGINEERS, BUSINESSMEN AND NOT TO MENTIONED HOUSE-WIVES AND THE REST!

I WAS SHOCKED AT THE INTENSITY OF PEOPLE WILLING TO PART WITH THEIR MONEY JUST AT THE PROMISE OF A RETURN OF 40 TO 60%. AND STRANGELY NO QUESTIONS ASKED !!!

MANY WITHDRAW FROM THEIR SAVINGS AT ASB, ASN AND BANKS MAINLY BECAUSE THE RATES WERE LOW!

WHEN THE GOVERNMENT RAIDED PAK MAN TELO SOMEWHERE IN TAIPING, HIS HOUSE WERE FULL OF CASH(MILLIONS I WAS TOLD!!)

I WONDER WHAT HAPPEN TO ALL THE MONEY! THE GOVERNMENT MUST HAVE KEPT IT OR BANK NEGARA KEPT IT. WHATEVER, NO-ONE DARE MAKE A CLAIM FROM THE GOVERNMENT FOR THESE MONEY SIMPLY BECAUSE THE FELT FOOLISH OR THERE IS NO RECEIPT TO PROOF ITS THEIR MONEY.

THE BOTTOM-LINE IS GREED! IF YOU KNOW HOW TO MANUPLATE THIS HUMAN FALACIES, YOU CAN BE RICH TOO.

MEANWHILE, TUN, I AM STILL AWAITING YOUR PROVOKING THOUGHTS ON MY EARLIER POSTING TO YOU ON THE "SIGNS OF END OF DAYS!!".

REGARDS.

Both the Malaysian Government under the Barisan Nasional administration and the US Government under the Republican administration are equally incompetent and inefficient in providing the checks-and-balances on financial fraud and economic excesses.

"Bailing out companies" is a painful and shameful lesson for everybody to learn about. There is no need to boast about the Malaysian government's success in bailing out companies because it is just an unnecessary waste of the taxpayers' money, which by right should be avoided if there is indeed a good governance being constantly and continually delivered by a good government.

Petrol, Diesel Prices Down 10 Sen Tomorrow, 7th Reduction Since August

KUALA LUMPUR, Dec 15 (Bernama) -- Petrol and diesel prices have been reduced by 10 sen a litre from Tuesday.

comment:

It is good to reduce the petrol price further. But the damage has already being done. The prices of consumer goods and services still remain high without substantial reduction. It defeats the purpose.

Assalaammualaikum Tun,

Our local "pak man telo" companies here made "big" money in all sort of scam. Some are straight forward con artiste but some are really honorable companies.

Those who run the scam have cheated millions of ringgit from small investors..those bumiputra companies that are true in their business cannot get loan or the loan process would take ages to approve. If the government are serious in helping the bumi companies, why not look into cutting the loan process...PUNB has done great job eventhough the process took minimum 3 month to approved.

I got my loan from PUNB and it took one whole year to be approved.

YBHG TUN,

Selamat sejahtera untuk terus berjuang membela dan membetulkan perjuangan melayu.

Trend yang berlaku dinegara kita ialah bila ekonomi merudum, skim cepat kaya tumbuh macam cendawan. Ramailah yang akan hilang wang simpanan selain hilang pekerjaan dan pendapatan. Sudah berkali-kali ianya berlaku. Ia tetap berulang.

Kepimpinan Abdullah Badawi lebih pentingkan 'moral', modal insan dan dipromosi melalui islam hadari - yang tidak dapat difahami hingga hari ini.

Perkembangan ekonomi tidak penting untuk melayu tapi satu kemestian bagi ahli keluarga tertentu.

Masihkah kita ingat akan CITOS? 90% dari yang disenarai hitamkan oleh syarikat ini orang melayu.

Sebahgiannya tidak dapat penjelasan mengapa. Tidak ada tindakan dapat diambil. Orang yang disenarai dan ingin tahu sebab musababnya kena bayar wang. Maklumat pula dijual kepada bank. Semua bank pakai tapa soal. CITOS dilapur berpendapatan 80 juta setahun.

Tidak siapa pun ambil tahu, kenapa majority orang melayu yang tersenarai? Apakah kaum bukan melayu tidak berhutang lansung?

Ada kalanya jika kita lihat dan cuba cari jawapan, kita tenggelam bingung dan cukup menyampah dengan retorik kerajaan.

Apakah agaknya bayaran royalti minyak kepada negeri trengganu yang diwar-warkan pada masa ini dapat sokongan atau membuat rakyat tambah loya??? Sekali-sekala pemimpin perlu meletak diri mereka kedalam kasut rakyat supaya dapat melakukan perkara-perkara yang boleh diterima dan tidak menjijikan rakyat.

Pa habaq Tun,

Berkenaan perkara diatas, pada siapakah yang Tun tujukan?? :)

Biasalah pemerintahan sekarang ni, bila rakyat panjang akal sikit nak menjana duit, mulalah segelintir 'golongan' tak senang duduk.

Tapi bila segelintir 'golongan' menjana 'pendapatan' dengan duit rakyat, buat tak tahu saja bila rakyat tak senang duduk.

Pasal duit, sejuta satu perkara boleh terjadi.

Rakyat yang terhimpit dan tersepit dari segi kewangan, macam-macam cara yang mereka akan reka untuk keluar dari masalah tersebut.

Yang kelakarnya, segelintir 'golongan' yang bijak pandai ini dengan pantas mendapat maklumat dan mulalah 'melabur' beribu-ribu didalam 'skim' oleh rakyat - seperti Skim Cepat Kaya Pak Man Telo.

Akal fikiran dan ilmu pengetahuan segelintir 'golongan' bukan calang-calang, tapi itu pilihan mereka, duit mereka.

Bila rugi saja, mulalah salahkan rakyat biasa yang panjang akal.

Tapi akal fikiran dan ilmu pengetahuan kebanyakan rakyat, tidaklah sebijak pandai mereka. Dan rakyat pula hanya akan berputih mata bila mana duit dan hasil tenaga mereka 'dirampas' dan digunakan sewenang-wenangnya oleh segelintir 'golongan' ini untuk kepentingan mereka.

Tiadalah pula mereka datang membela.

Agaknya, segelintir 'golongan' ini tidak didik oleh ibubapa mereka - tentang salahlaku dan biadapnya jika mengambil hak orang lain tanpa keizinan dari tuannya.

Pemerintahan kita tidaklah sehebat mana jika inginkan negara luar belajar tentang selok-belok aktiviti salah/jenayah. Cumalah orang Melayu kita yang suka mengadu-domba dan pantang datuk nenek mereka melihat Melayu lain maju. Bangsa lain maju, takpa, digalakkan! :P

Hendak jadi kaya-raya, tidaklah salah. Tapi janganlah sampai ada satu pun jiwa yang dianiaya...

Salam Ayahanda Tun. Madoff was on a franchise scheme from Pak Man Telo Worldwide Inc. An equal opportunity business entrepreneurship program and member of the FDIC. In any case, it's the hedgers over-exposing themselves to each other and walking away almost stark naked by now. I am wondering how many in Malaysia got exposed to this guy's Ponzi scheme? Surely there would be a handful few who are shaking like ayam sakit now. I am by now quitting on wondering why all the SETI super reaching intergalactic radar dish in America that's in search of extra terrestrial intelligence are pointed outwards from earth into space. Now I finally know why. And I must recommend Tun to watch the flying Iraqi shoe scene of Bush latest visit to Iraq. He ducked that most professionally, and was certainly well trained. New York New York, Sinatra said that so well.

:) Reminded me of a personal experience meeting one of these people a few years back when I was in charge of raising finance for a large project. We met a lot of people offering 'easy' and 'cheap' loan from their overseas funds. One came from trillion dollar unspent Arab fund, another from 'underground Chinese money' and so on.

What I learned is that these people can be convincing, especially when you are desperate and they come with sweet promises.. it's amazing how easy you can lost your rationale and common sense. We hosted this old man who can barely speak english but claimed that he's a trustee for a trillion dollar Arab fund. It's amazing to see well-suited businessmen - Malay, Chinese notwithstanding - listened and followed him, even brought a plane to pick him up. By that time, I've learnt my lesson and avoided the trap (months later we heard he was scooped up by Bukit Aman for investigation)

The lesson was If it seems to be too good to be true, it usually is.

Dear Tun,

You made a mistake by not registering a patent of your 'bail-out' and the 'Pak Man Telo' scheme.

If you have done so we Malaysians would be earning good money on royalties by now. With our oil and natural gas running out leaving only the hot air blowing in Parliament, we sure do need the money.

Tun, imagine a 1% royalty on USD 7 trillion from the US alone. What about UK and Europe? We Malaysian would be set up for life and might even bring Vision 2020 in 2010.

Salam and best regards, Tun.

Good evening Tun,

Bernard Madoff looks so kind and holy by appearance, no wonder many people trusted him.... Is he a jewish???

Here is the latest fraud caused by Bernard-

A "systemic failure" of American regulators seems to have allowed Mr Madoff to preside over the alleged swindle for years. "It is astonishing that this apparent fraud seems to have been continuing for so long, possibly for decades, while investors have continued to invest more money into the Madoff funds in good faith. The allegations appear to point to a systemic failure of the regulatory and securities markets regime in the US."

Here is list of the banks and financial institutions affected so far, according to company statements and agency reports:

1. Access International Advisors said some of its funds were invested with Bernard Madoff. The New York-based investment firm said it was working with counsel to assess the situation, describing it as "a shocking development".
2. Insurer Axa said that it faced losses because of the Madoff scandal, but said that its exposure amounted to less than €100m (£90m).
3. Spain's Banco Santander, which owns Abbey and Alliance and Leicester, said its hedge fund unit invested €2.33bn (£2bn) of client funds with Bernard Madoff.

4. The Geneva-based Banque Benedict Hentsch Fairfield Partners SA said its exposure is 56m Swiss francs (£32m) of client assets.
Spain's second-largest bank, BBVA, said it could potentially lose €300m (£270m) in the alleged scam run by New York trader Bernard Madoff.
5. Boston philanthropist Carl Shapiro's charitable foundation - \$145m (source Boston Globe).
6. Bramdean Alternatives Ltd - 9.5pc of its assets, according to a company statement.
7. BNP Paribas, France's biggest listed bank, said it could face a potential €350m (£313) loss from an exposure to Bernard Madoff's investment activities.
8. EIM Group - \$230m (£153m) (source Reuters, citing Le Temps Newspaper).
9. Elise Wiesel Foundation for Humanity - undertermined (source Wall Street Journal).
10. Fairfield Greenwich Group - \$7.5bn, according to a company statement.
11. Fix Asset Management - \$400m (£266m), according to a company statement.
12. GMAC chairman Jacob Ezra Merkin's Ascot Partners - Most of its \$1.8bn (£1.2bn) of assets (Wall Street Journal).
13. Harel Insurance Investments and Financial Services - \$14.2m (£9.5m), according to a company statement.
14. HSBC is reported by the Financial Times to have a potential exposure of about \$1bn (£688m) in loans provided to clients who invested about \$500m of their own money in the venture.
15. Julian J. Levitt Foundation - \$6m (£4m) (source Washington Post).
16. Kingate Management Ltd - \$3.5bn (£2.3bn) (source Bloomberg).
Korea Life Insurance - \$50m (£33m) (source Yonhap news).
17. Korea Teachers' Pension - \$9.1m (£6m), according to a company statement.
18. Man Group said that its institutional fund of funds business RMF has approximately \$360m (£239m) invested in two funds that are directly or indirectly sub-advised by Madoff Securities and for which Madoff Securities acts as broker/dealer executing the investment strategy.
19. Madoff Family Foundation - \$19m (£13m) - (source Washington Post).
20. Maxam Capital Management - \$280m (£186m) - (source Wall Street Journal).
21. Neue Privat Bank, a Zurich-based bank, said its clients may lose as much as \$5m (£3m) invested in the fund linked to Bernard Madoff. The money was invested through Nomura Bank International, Neue Privat Bank said in a release.
22. New York Met's owner Fred Wilpon's Sterling Equities - undertermined, according to a company statement.
23. Nomura Holdings, Japan's largest brokerage, said it has 27.5 billion yen (\$302 million) at risk linked to Bernard Madoff's investment funds
24. Norman Braman, former owner of the Philadelphia Eagles Football Team - undertermined (source Wall Street Journal).

25. North Shore-Long Island Jewish Health System - \$5m (£3.3m), according to a company statement.
26. Notz, Stucki & Cie - undertermined (source Reuters, citing Le Temps newspaper)
27. Pioneer Alternative Investments - almost all of its \$280m (£187m) of assets (source Bloomberg).
28. Robert I. Lappin Charitable Foundation - \$8m (£5.3m) (source Washington Post).
29. Royal Bank of Scotland said it had exposure through trading and collateralised lending to funds of hedge funds invested with
30. Bernard L Madoff Investment Securities.If as a result of the alleged fraud the value of the assets of these hedge funds is nil, RBS's potential loss could amount to approximately £400m.
31. Reichmuth and Co's Reichmuth Matterhorn fund - \$330m (£221m) (source letter to clients).
32. Societe Generale - less than €10m, according to a company statement.
33. Tremont Capital Management - undertermined (source Wall Street Journal).
34. Yeshiva University - undetermined (source Washington Post)

Rationale of the story Tun is "High Risk, High Return" lo...

"There is no innocent explanation" as Bernard admitted to FBI after his arrest. Who's fault then?

Wondering who are the naive Malaysian who believe in this fomula... Well, if people are greedy, they will be trapped and believed in this formula, I sincerely hope that the boys at "tingkat 4" are not one of those naive Malaysian....

Good night Tun.

Tun,

I have this comment in that the authority should put him in a room with an unlock window of a high rise building.If he chooses to escape,then,it is his business.The authority and the officials may not be culpable to homicide charges.

I detest people like him who cheat on others on such a massive scale for the benefits of himself.

Using the above the analogy to apply to the malaysian scenario,there are many doing it albeit on a smaller scale,some even prey on the gullibility of the masses to amass a fortune for oneself.Yet these people received awards after one another.These people have not created any real value but they shout and the irony is that they get noticed ,recognised and endorsed by the leaders.

Why are they doing it?

I am opined that they have extremist thoughts ,some politically while others economically.

There will be one or two "pop up" every now and then as long as man exists.

Kenapa dalam dunia ni ada orang yang macam Madoff atau Pak Man Telo yang orang2 kaya dan banyak duit boleh percaya kat depa yang tak banyak mana duit pun, untuk melaburkan duit mereka?

Kenapa Madoff boleh sapu sampai 50 billion USD baru orang sedar, tapi Pak Man Telo baru beberapa juta RM, ciput aje, dah kena cekup?

Tak kan mungkin Pak Man Telo boleh buat lebih baik dari Madoff sebab Madoff buat kat orang2 yang memang dah cukup kaya yang nak jadi lebih kaya, sementara Pak Man Telo buat kat orang2 yang tak kaya tapi nak cepat kaya. Di USA ada banyak orang kaya yang buat duit cara kotor dan haram dan melabur dengan Madoff adalah caranya untuk money laundering duit2 haram tu.

Di Malaysia orang melabur duit gaji dan duit simpanan dengan Pak Man Telo.

Agaknya ada tak orang2 kaya dari Malaysia yang melabur duit haram mereka dengan Madoff?

Tun,

hari ni macam-macam skim ponzi piramid ala-ala Pak Man Telo diperkenalkan.Macam-macam cara digunakan untuk menipu duit orang. Mula-mula kita heboh dengan skim-skim pelaburan internet seperti swishcash dan sebagainya.Kemudian dah surut pasal pelaburan internet ni keluar pulak pelaburan piramid dengan disebalik topeng syarikat , alasannya nak tolong orang melayu la,dapat pendapatan lumayan la, macam-macam tapi sebenarnya ambil deposit tanpa lesen jugak. Peserta nak dapat keuntungan mesti membawa masuk pelabur lain,alih-alih pi mai pi mai tang tu jugak, piramid jugak rupanya.Maka banyaklah rakyat malaysia terpedaya terutamanya orang Melayu.Hai kenapalah banyak orang yang nak kaya cepat tapi berusaha tak mau,alih- alih jadi seperti Tipah terpipu la pulak.Jadi masuklah pelaburan yang sah seperti bank dan saham amanah terutamanya PNB.Tapi ada juga orang kata amanah saham oleh PNB ini adalah skim piramid terbesar.Hujahnya bila nak bagi dividen, PNB akan menjual unit-unit saham terbaru berbillion ringgit,lepas tu bolehla bayar dividen.Boleh pakai juga pendapat tu sebab beberapa hari lepas unit-unit saham baru dikeluarkan dan dijual habis.Hari ini pula diumumkan bayaran dividen pula.Yang bezanya dari skim ponzi piramid lain cuma yang ini dijamin oleh kerajaan.Tapi ini cuma pendapat sahaja,betul tidak lain kira.

Salam Ayah Tun dan semua bloggers..

Kira hebat gak ler Pak Man Telo tu ekk Ayah Tun..ade jugak Mat Salleh yang ngikut jejak langkah dia sampai bertaraf Don Corleone..hehehe

Tapi arwah Atok saya slalu pesan kalu dah buat keje salah tu camne hebat skali pon lambat laun kantoi jugak...takde mane nyer hebat lagi dah akhirnya kena ludah!

Ayah Tun...Salam lagi skali ekk!

Saya tau Ayah Tun memang SANGAT sibuk tp saya tetap nak mintak jasa baik Ayah Tun kalu ader masa terlebih tolong tengok2kan "PROGRAM USAHAWAN MEKANIK BERGERAK - RSQ". Saya teringin sesangat nak dengar pandangan yang realistik dari orang yang bijaksana macam Ayah Tun.

PROGRAM USAHAWAN MEKANIK BERGERAK - RSQ ni saya buat dengan kerjasama MeCD, MARA & GiatMARA untuk beri peluang kepada pelatih2 GiatMARA dan masyarakat bumiputera supaya dapat peluang untuk membuka perniagaan dalam industri motosikal tempatan dan jadi usahawan.

maklumat lanjut ada kat <http://rsqmobile.blogspot.com/>

Bukan apa Ayah Tun...statistik pengguna motosikal kat Malaysia ni ada lebih 8 JUTA tetapi agak malang kerana selepas 50 tahun merdeka, industri ini masih gagal dikuasai dengan baik oleh orang melayu baik dari segi jualan motosikal dan alat ganti hinggalah ke bengkel-bengkel walaupun 80% daripada pemilik motosikal itu sendiri adalah terdiri dari orang Melayu.

Saya harap PROGRAM USAHAWAN MEKANIK BERGERAK - RSQ ni boleh dijadikan pelantar untuk membuka peluang kepada orang melayu untuk jadi usahawan dalam industri motosikal tempatan...terutama pada saat Negara kita sedang bergelut dengan ekonomi yang hampir gawat kelak.

Walau hanya sepatut sahaja pon nasehat Ayah Tun akan tetap saya simpan untuk saya jadikan panduan...tima kaseh yer Ayah Tun!

Camry: Perak Government Not Practising What It Preaches

IPOH, Dec 15 (Bernama) -- Perak Gerakan chairman Datuk Chang Ko Youn said the state government is 'not practising what it preaches' by deciding to replace the Proton Perdana V6 Executive with the Toyota Camry 2.4 as the official car for its State Executive Councillors (ExcOs) and senior officers.

comment:

This is a reflection how Anwar is going to lead the country if ever he manage to run the Federal Government. He will make all the existing policies of Barisan Nasional including the NEP "tonggang terbalik".

Anwar actually has got no brain. A brainless politician. He is only good and very creative in organising events likee JOM HEBOH or Street Demos !!Yes, he has all the qualities to be top class Event Manager in events management company but certainly not as Prime Minister of Malaysia. He is NOT a thinker but a bullshitter!! Make no mistake about it and yet some idiots are being taken for a ride by his "salesmanship". What a pity!!

By zaki_77 on December 15, 2008 10:18 PM

That the US is at the beginning of it's end as far as it's economic and military supremacy is concerned is fast becoming a fact. To hear of these unbelievable accounts of white collar crimes begs some serious questions about the competencies of those in authority.

America's not practising what it's preaching and has lost all moral authority to 'advise'/dictate to any other country.

By hanifAuthor Profile Page on December 15, 2008 10:18 PM

Salam tun,

Memang banyak yang kita boleh pelajari dan ambil iktibar dari US atau mana-mana negara luar baik negara maju, membangun atau negara mundur.

Begitu juga banyak yang negara-negara tersebut boleh pelajari dari kita seperti yang Tun sebutkan.

Di Malaysia, orang merujuk ke luar dan ingin meniru apabila perkara yang dikatakan itu melibatkan kepentingan diri mereka. Contohnya kemenangan Barrack Obama sebagai Presiden kulit hitam US pertama.

Yang jelasnya, apabila sesuatu perkara itu tidak memihak kepentingan diri mereka, mereka takkan berkata apa-apa, sekadar diam membisu dan membawa perspektif lain yang sekali lagi dan sudah semestinya mewakili kepentingan diri mereka. Contohnya, kenapa tiada pemimpin politik cina atau India yang menyokong pandangan Mukhriz yang juga merupakan cadangan dalam penyata Razak untuk mewujudkan satu sistem persekolahan kebangsaan, walaupun semua negara termasuk di US mempunyai satu sistem sekolah kebangsaan. Kenapa tak nak ikut?

Bukan nak hapuskan sekolah vernakular, tetapi sekali lagi dinyatakan, faham betul-betul 'mewujudkan satu sistem sekolah kebangsaan'. sekolah vernakular tu nak wujud boleh, tapi sebagai entiti persendirian.

Saya bukan nak menghasut sesiapa, sekadar dahagakan perpaduan. Perpaduan yang tulen di peringkat kanak-kanak sekolah yang suci murni dan bukan perpaduan yang hanya dilaungkan secara retorik di peringkat kuasa politik.

Jelek dengan sikap politician yang kata orang Melayu racist sedangkan dialah sebenarnya yang racist.

salam Tun.

as a matter of fact, my parents were the victim of pak man telo himself. they lost around rm50,000. and that was before the '97 recession. to recover, my dad had to sell our house. we were lucky that by being a government officer, we could live in government quarters with comfort. only recently he was able to acquire a new house. as a lesson, my dad preached to us, for as long as i can remember, that "if it sounds too good to be true, it probably is."

that being said, many of my friends had been doped by MLM scheme. in a way, it resembles a pyramid scheme. however, people are easily blinded with fast money, they seldom remember that there is no such thing as free lunch. in fact, most of them had involved in various MLMs again and again only to find that they have been doped yet another time. remorse as they might, upon hearing the word 'mudah je dapat duit', they will again be blinded...

MLMs should be banned. no matter how good the product is, the way they market their product is by bringing the greed out of people. success stories are often being told while the countless failures are never even whispered. this is not fair. marketing by using the human weakness. such examples also include using sexy models to market cars or clothes.

i hope the government do something about MLM scheme. and the sexy models. not that i hate them (hey, i'm a guy too!), but it is just wrong to manipulate the weakness of humans to sell products.

By Anis Ahmad Abdul Rahman Author Profile Page on December 15, 2008 10:25 PM

Dear Tun

This crisis we are having today is caused by pure greed...human will lose all their moral values when it comes to money, power and to certain extent, sex...

Oil price shot up to \$150/bbl then crash to only \$40/bbl today because of greed and lots of producing countries cannot even balance their budget today..

I suggest we ban speculation altogether...put a time limit on ownership of every assets ie shares, house, land, commodity etc..Let people the true value of products, not what they believe it will be in future or what they made to believe...

After all, speculation is just one form of riba..

Thanks..

Salam Tun, serta isteri dan keluarga..

What you have done for the country in making friendship with other development countries was a tremendous strategy. By not totally depending on developed countries especially US and Europe, we still apparently survive during the current economic crisis, salute to you sir. For those people who always oppose you, like it or not, must accept the fact that all of your financial, business and economic thinking and ideas during your reign were so practical and reliable. What you have done to bail out GLCs during economic crisis is emulated now by so called super economic power regions, whose one condemned your decision tremendously. US government should protect their super companies such as Citibank, GM, Crysler, Ford, GE etc, or else they would be handed over to foreigners, as what Malaysia had to do to protect BCB, MAS, Proton etc. I cannot imagine if MAS would be sold to British Airways, or Proton sold to VW then. What ever happens, with all cost, those companies should and must be remained as national companies. Now americans realize it. Hehe.

Fools rush in where angel fear to tread, thats what happen when you succumb to greed. I once invested with Pak Man Telo for the hope of good return. Lucky enough I managed to get back the amount invested before Pak Man Telo was exile to Kuala Berang. If not... Malaysian just like American are easily duped by all sort of scam run by rouge cheaters. They study the victim's need and used

psychology to con the 'investers'. True enough those scroungers got away scot free most of the time. Very few dared to take the matter to court. Mostly kept silence over the loss. When will we learn from the mistake of others, till you yourself got cheated then only you will stand to correct. Its an expensive experience of course.

Dearest YAB TUN,

Unlike Pak Man Telo of New York, Pak Man Telo of Taiping started his so called investment firm with nothing. He operated under the counter in his house in Asam Kumbang in Taiping sometime in 1985. Words got around among friends in Taiping that Pak Man pays a very high dividends for investment with him. Pay RM 600/- and received RM 1,000, at the end of the month. Words got around that he was playing with the stock market in New York, London Tokyo and Kuala Lumpur. He was seen at a cement factory in Ipoh, he was seen at a 5 star hotel project in Lankkawi etc. People believed the stories, and soon people in Taiping were investing, some, small, some big I couldnt resist the temptation and invested RM 600/- and sure enough at the end of the month I was paid RM 1,000 as dividend, in other words I got back my investment and Rm 400/profit. I had nothing to loose, and for more than 2 years I was collecting RM 1,000 every month

After the second year people from all over the country were investing heavily. There were many top government servants among them. Pay Rm 60,000 and collect Rm 10,000 every month and so on. It was the talk of Taiping, people were buying cars, T>Vs Fridge, etc I think it was getting out of hand and after the middle of the 3rd year, Bank Negara, Bukit Aman, SC etc came to investigate, and Pak Man was arrested, and banished to Trengganu where he died as a pauper. All the money collected were lost, God only knows where it went, and the late big investors lost their money. It was hard luck for the late investors. I really dont know what happen after that, as I left Taiping. wasalam may Allah bless and keep you Tun

Salam Tun & fellow bloggers,

1. Pak Man Telo scheme was 'created' 15 years ago to fulfill the greed amongst Malaysian for cepat kaya
2. New players has emerged with different modus operandi ie multi level scheme using cheap imported product from China
3. Hiding behind a certain health product testimony, they mark up a magnetic bracelet up to 4000% from actual price!
4. The business can be accessed, monitored & participated through the internet. Profit, bonus, overriding will be paid direct to bank account
5. The focus of course not on the benefit of product but how to make your first 100k of 1mil

6.The idea is to 'strike the iron while it's hot',before the product become jaded,faded or too flooded in the market

7.By that time the top people of the pyramid structure has already reaped their millions

8.Even though it was legally licensed and registered,the questions about business ethics,such as price without membership,membership without buying product or exorbitant prices compared to same product in the market,return of investment with monthly maintenance purchase,remained unanswered

9.Having more than 800 registered multi level marketing company in a relatively small market like Malaysia explained the desire to cepat kaya among the average Joes

10.Relevant authorities please take note of the above findings

11.It won't take a rocket scientist to figure out who are the major players

Leadership Change Brings New Opportunities For US, Malaysia - Envoy

KUALA LUMPUR, Dec 15 (Bernama) -- The United States (US) and Malaysia will see new opportunities rising in their bilateral ties with the coming in of new administrations in the two countries next year, US Ambassador to Malaysia James R. Keith said.

He said that new opportunities would rise not only in the fields of economic and trade but also in terms of interaction in the social and political arena, both regionally and globally.

comment:

Salam Tun and Tun Hasmah

Pak Man Telo didn't have the chance to make it big in Malaysia, thanks to the Government under your premiership. Only God knows but I suspect that he would've gotten away with it if it is the current administration was in power then.

Tun, why are there so many `licensed money lenders' these days and how come there sprout out like mushrooms at the low-rent districts of the our cities? This is a bad, bad phenomenon, it is hurting the people more than it is helping. And funnily enough, these goons are under the jurisdiction of not the Finance Ministry but the Housing and Local Government Ministry!! WHY?

God help us all.

Legal Action Considered Against Developer Over Incomplete Police HQ Projects

SUNGAI PETANI, Dec 15 (Bernama) -- The Home Ministry is considering legal action against the developer which failed to complete the construction of the Pendang and Yan district police headquarters.

Its minister Datuk Seri Syed Hamid Albar said failure to complete the RM55.7 million projects had forced the government to do replanning, resulting in the cost to go up to RM90 million.

However, he added, the construction of the two police district headquarters, each costing RM45 million, was expected to begin next year with injection of funds through the Private Financing Initiative.

comment:

Nothing will happen. I bet you. The haprak and HP6 government of Pak Lah being taken for a ride by the developers. Who were developers involved. Make a guess!! Yes, you are sure to get the right answer. Make no mistake about it !! kah, kah, kah !! Koncu siapa dan kroni siapa ??

Salam Tun & all,

hahahaha...Tun u r funny.

Today is not bad, no bad at all. In the morning watch G. Bush video of Flying shoes & being call a dog!. Then finishing read all the bloggers comment here.

Even tough there are few Bugs & flies here, but they don't botter me much nowadays.

I would like to said also, this article and cheese article is quite interesting & refreshing.

And also, regards the X Nibiru, i now understand what the heck is "X Nibiru" is. Quite interesting also.

Recommend people to get to know what it is.

May Allah bless us Malaysian.

May Allah bles u & family.

Perlis Do Not Want NCER Project To Be A White Elephant

KANGAR, Dec 14 (Bernama)-- Kedah Menteri Besar Datuk Seri Dr Md Isa Sabu wants to ensure that projects under the Northern Corridor Economic Region (NCER) would not be just white elephants.

He said three projects in Perlis under NCER - the Kuala Perlis port, Agarwood Oil Industry and Dry Port in Padang Besar (an inland commercial depot) - are expected to take off.

comment:

All these projects are just "daydream" projects. The failure rate will certainly be very high indeed. Why? I doubt whether they really did thorough viability studies on these projects. PROJEK "SYOK SENDIRI" for Pak Lah's personal ego.

Anyway, all these failure projects later on can be used as case studies for students at the Universiti Utara . The students can identify why the projects failed.

TUN,

AFTER MORE READING INTO THE STORY OF BERNARD MADOFF FROM VARIOUS SOURCES, IT SUDDENLY DAWN ON TO ME THE SERIOUSNESS AND THE FINANCIAL REPERCUSSION THE LATEST DISCLOSURE TO THE WORLD!

YOU DON'T NEED TO GO TO HARVARD OR OXFORD TO KNOW THAT THE RIPPLE EFFECT ON THE FINANCIAL MARKETS WORLD-WIDE WILL TURN INTO A TSUNAMI AND MORE FINANCIAL INSTITUTIONS WILL GO BUSTS!

JUST LIKE THE BLACK HOLE, MORE FINANCIAL BODIES, PRIVATE FUNDS, HEDGE FUNDS AND INDIVIDUALS WILL BE SUCK INTO OBLIVION.

WHO CARES? NO, THATS WHERE WE ARE WRONG IF WE SAYS WE DON'T CARE.

IMAGINE IF THE WHEEL OF WORLD ECONOMY SLOWLY GRIND TO A HALT ! IMAGINE IF PEOPLE ARE NOT BUYING ANYTHING OTHER THAN BASIC NEEDS !
IMAGINE UNITED STATES CANNOT PAY FOR WHAT IT BUYS !
OUR FACTORIES HERE WILL CLOSE DOWN, WORKERS OUT OF JOBS, CRIME RATES GOES UP AND UP, HOSPITAL FULL OF STRESSED OUT PEOPLE, WE HAVE LESS MONEY, TOURISTS VISITS TO MALAYSIA DOWN AND SO ON SO ON.

THIS IS WHAT IS GOING TO HAPPEN TO UNITED STATES AND TO LARGE EXTEND TO EUROPEAN COUNTRIES BECAUSE PEOPLE WILL BE CAREFUL IN THEIR EXPENDITURE.

DUE TO POOR SALES, MOST IF NOT ALL THE BIG CORPORATIONS IN UNITED STATES AND EUROPE WILL REPORT BIG LOSSES WHICH MEANS THE GOVERNMENT WILL HAVE LESS REVENUE...

IMAGINE UNITED STATES SPEND HUNDREDS OF BILLIONS OF US DOLLARS JUST TO FINANCE THEIR PRESENCE IN IRAQ AND ALSO OTHER PARTS OF THE WORLD EACH YEAR.

IF THE UNITED STATES COLLAPES, THE US CURRENCY IS WORTHLESS AND IMAGINE ALL TRADES ARE QUOTED IN US DOLLAR. LETTER OF CREDIT WILL BE AS GOOD AS TOILET PAPER. BANKS WILL COLLAPES AS MORE WITHDRAWALS ARE MADE BY FOREIGN COMPANIES AND GOVERNMENTS JUST TO PLACE THEIR MONEY ELSEWHERE. STRIKES AND RIOTS WILL BE COMMON IN THE STREETS.

OH MY GOD! MY HEAD IS IN TAILSPIN JUST TRYING TO PICTURE THE SENARIO.

JUST IMAGINE, JAPAN AND CHINA ARE THE BIGGEST HOLDERS OF US TREASURY BILLS, AND IF IT IS WORTHLESS.. THEY CAN GO TO WAR JUST TO RECOVER THEIR MONEY !

HOW IS THE US GOVERNMENT GOING TO HONOUR ITS TREASURY BILLS WHEN ITS DUE? THEIR REVENUE FROM TAXATION WILL BE DOWN, THEY WILL HAVE PROBLEMS JUST TO PAY THE WAGES IN THE STATES...

THE PICTURE IS NOT ROSY AT ALL. SURVIVING WILL BE THE NAME OF THE GAME FOR MANY YEARS TO COME!

ALREADY, THERE ARE SIGNS THAT THE WORLD WILL END ON FRIDAY 21 DEC 2012.(LONDON TIME)

MAYBE THIS IS THE BEGINNING OF THE END.

MAYBE THIS IS THE EVOLUTION OF MANKIND...

Salam sejahtera buat Tun sekeluarga dan pejuang Che Det sekalian.

Kesian kat si Bush tu, depa baling kasut kat dia. Orang Iraq ni pun dah lemah, kasut pun akhirnya dijadikan senjata. Macam mana nak lawan Amerika kalau cuma bersenjatakan kasut. Walau bagaimana pun syabas kepada Pak Lah, kerana merancakkan skim cepat kaya. Patut la Bahagian Kepala Batas buat sepanduk besar "Perdana Menteri Paling Unggul", nasib baik cina printing tak silap eja pi tambah 'T' pulak. Jadi dia layak diberi gelaran BAPA SKIM CEPAT KAYA. Sekian.

Pak Man Telo now probably have more idea in going global with his scheme. Haha..

Tun,

Back in the 50s when Dato' Onn left UMNO and formed his IMP and leaving UMNO as the opposition in the government. How was it like? Can you enlighten us/me on this. How was life back in Kedah during those time (Emergency with PKM and all).

Salam Tun & fellow bloggers,

1. Tun, saja nak tanya, apa kita boleh buat dengan RM39.6 billion?
2. Bukan apa tiba2 dapat ilham bertapa berkuasanya UMNO dengan keahlian seramai 3.3 juta orang
3. Kalau setiap ahli dibenarkan menyimpan RM100 sebulan selama 10 tahun
4. Memanglah tak semua mampu, tapi sekurang2nya separuh mampu simpan RM200 keatas sebulan. Tu tak masuk tauke2 besar..
5. Kita buatlah skim a la ASB
6. Jadi ahli2 ikan bilis ada la faedahnya masuk UMNO, drp melopong dok tengok orang atas bercakaran..
7. Lagi pun duit adalah senjata paling berkesan dalam survival alaf baru. Mana2 yang bising, kita beli harta/saham dia, senyap la kan..
8. Bukan apa baru aje baca buku Yahudi Israel dan MOSSAD nya menguasai ekonomi dunia (kita tak de la sampai Machiavelli: matlamat menghalalkan cara)
9. Tun, ingat lagi macamana strategi kita menguasai Sime Darby drp British? Grab them under their nose! Memang satu contoh klasik!

10. Bayangkan syarikat2 Iraq, Afghanistan, Iran menguasai pasaran New York, London, Paris maka amanlah sikit dunia Islam!

11. Tun ada pengaruh dalam OIC kan? Bila lagi?

12. Saya akui Singapura melalui Temasik Holding agak terkehadapan sikit dalam bidang ni, al-maklumlah penasihat2nya datang dari...?

13. Menjelang tahun 2019, UMNO akan menjadi sebuah parti Melayu yang paling kaya dan berkuasa di muka bumi ini!

14. Satu je syarat lulus: Kena bagi pihak independent pegang amanah pelaburan (kalau tak kena ngap dengan KJ & co..)

15. Tun & bloggers sekalian renung2kan. Satu cabaran minda!

Wassalam

Please comment on the Camry issue. I know the annual maintenance fee for Perdana is an over exegeration. We own perdanas as well. Unless you change the gearbox annually, it may cost 20k, other wise, a regular service costs less than 300. That tops up to less than 1k a year.

Please comment tun. We support Proton. Even if it received complains, we understand it is still undergoing development process and requires time to improve like Ford and Mercedes which too over a 100 years to achieve the current stage. We know Proton's vital role in the economy.

Thank You

Memang pun orang melayu Malaysia lebeh bijak dan kehadapan dari orang puteh Amerika.

Ya lah tapi kerana kita orang melayu dari Malaysia tak dapat lah pengitirafan oleh masyarakat maju ni konon nya. Tapi mereka belajar dan tiru jugak cara Malaysia.

Apa yang Malaysia buat mereka kata tak betui, kemudian bila mereka ada masaalah cuba ikut cara kita depa kata betui. Jadi kita betui lah.

Jadi kita rakyat Malaysia tak payah lah terikut2 dan bangga sangat kat apa yang Barat buat. Kita ikut lah acuan kita sendiri.

Nama pun dah 'MAD'off semacam nama MANTelo gak bunyi nya. Adik beradi kot tapi mak lain2.

Well, the least we could say of and for Bernard Madoff is that he owned up immediately and did not blame the Asian Crisis, blame the global financial crisis, blame the Jews, or blame George Soros. He confessed and he took the punishment. More importantly, it was his children who reported him to the authorities. Will the children of crooked Malaysian fathers report them to the authorities?

His story inspires in no small ways, his struggles represents hopes and determination. I have had the

opportunity to meet this most versatile enterprising soul then and I must say that he symbolize the very belief that destiny is not a matter of chance but a matter of choice, and it is never something to be waited for, but its something to be made by those who had mastered failure and fear. I copied and pasted this paragraph from <http://anaksihamid.blogspot.com/>

this extract from Sterling Seagrave's Lords of the Rim (1996). ".....the social atmosphere of Malaysia is more relaxed and wholesome, and its residents - regardless of ethnic ties - go to bed at night without dread. Mahathir's period in power has established Malay prestige without the stengun or the jackboot, in an atmosphere of civility that is remarkable for Asia and rare anywhere in the world."

I hope the blog owner does not mind. Thanks.

SALAM SEMUA...

PAK MAN TELO INI WUJUD DALAM PELBAGAI BENTUK DAN RUPA...APABILA DISEBUT PAK MAN TELO MAKA KITA AKAN TERINGAT SKIM CEPAT KAYA. SEBENARNYA SESIAPA SAHAJA BOLEH JADI PAK MAN TELO. BANK ATAU INSTITUSI KEWANGAN, BNM DAN KERAJAAN YANG MENGAMALKAN RIBA DAN RASUAH BOLEH DIKATEGORIKAN SEBAGAI PAK MAN TELO BERLESEN. MEREKA INILAH YANG BANYAK MENGHABISKAN DUIT RAKYAT UNTUK KEPENTINGAN PERIBADI MEREKA.

BARU2 INI BERLAKU OPERASI BESAR-BESARAN DILAKUKAN OLEH BNM UNTUK MENYEKAT SEMUA SYARIKAT YANG DIANGGAP MENYALAHU UNDANG2 AMLA.TINDAKAN BNM ITU MEMANG BAIK NAMUN WANG YANG DISEKAT ADALAH WANG MILIK PELABUR(RAKYAT) YANG TERTIPU TAK TAHU APA2. OLEH KERANA DIPUTAR BELITKAN SYARIKAT DENGAN PROMOSI BAHAWA SYARIKAT ADALAH SAH DISISI UNDANG2 DAN TERDAPAT MENTERI YANG MENJADI CEONYA MAKA MEREKA PUN PERCAYA LALU MELABUR DENGAN HARAPAN DAPAT PULANGAN YANG BAIK SUPAYA DAPAT MENGUBAH SEDIKIT TARAF HIDUP MEREKA.

PADA MULANYA MEMANG SYARIKAT BERKENAAN MEMBAYAR ADVANCE SEPERTI DIJANJIKAN. NAMUN SETELAH BNM MEMBEKUKAN ASET SYARIKAT BERKENAAN TERMASUK WANG YANG DILABURKAN.BERIBU-RIBU RAKYAT MENJADI MANGSA YANG MANA WANG LESAP BEGITU SAHAJA TANPA DIPULANGKAN OLEH PIHAK BNM. DI SINI...KITA LIHAT KETELUSAN PIHAK BNM BOLEH DIPERTIKAIKAN. SEOLAH-OLAH BNM PULA YANG MERAMPAS DUIT RAKYAT DAN MENIPU RAKYAT. BERJUTA-JUTA DUIT RAKYAT DIRAMPAS OLEH BNM TETAPI SEHINGGA SEKARANG BNM TIDAK PERNAH MEMULANGKAN WANG RAKYAT BERKENAAN. SEHINGGALAH

ADA CAKAP2 RAKYAT BAHAWA WANG YANG DIRAMPAS TELAH DIGUNAKAN OLEH KERAJAAN UTK PILIHANRAYA DAN SEBAGAINYA. KERAJAAN DAN BNM SEPATUTNYA LEBIH ADIL DALAM MELAKSANAKAN UNDANG2 SUPAYA YANG MENIPU DIPENJARAKAN DAN RAKYAT TIDAK MENJADI MANGSA SEPERTI INI.

JADI SIAPAKAH PAK MAN TELO SEBENARNYA???????

Salam Tun,

Saya suka point no 7. Pak Man Telo would probably have done better if he had gone to New York where he would not have the Malaysian Government overseeing such activities. Or perhaps the SEC might learn some lessons from Malaysia as indeed the US Government has learnt about bailing out companies.

Pak Lah yang sedang berkuasa sekarang pun sepatutnya sudah belajar banyak dari Tun tetapi apakah daya....

Lihatlah hari ni, harga minyak diturunkan lagi tapi harga barangan takkan menurun. Kos sara hidup semakin meninggi walaupun dan beberapa kali harga minyak diturunkan. Kalau Pak Lah dan penasihat-penasihat beliau yang tak berguna itu ikut cara Tun dahulu, keadaan tidak akan menjadi teruk seperti sekarang. Damage was done!

Mempunyai PM seperti Pak Lah sama seperti melantik Pak Man Telo sebagai PM.

Ayahanda Tun,

Yesterday when I came back home from office at about 9pm, I had seen few hundreds of cars parked everywhere near Kota Kemuning, a sight that I had never seen during my 2 years stay in this beautiful neighbourhood. I called up my wife from the car and she knew nothing abt the big congregation. Curious, when I reaced home I brough her along to see what was happening. To my surprise, those people came from all over Malaysia, driving from distance with family just to sign a petition to the government to get back their money from an investment company which has ceased the operations by the government. Each of the contributor invested RM10K minimum and the return was 8 percent per month and all of them, I repeat, ALL were Malays as the investment was exclusively for Malays.

They queue for hours just to sign and left with many of them discuss with each others on their fate and future. I am moved and saddened by all this but couldn't help to think how naive and greedy humans can be. How could one believes in all this get rich scheme? I have been confronted by this so-called agents many a times but my advised to them was to get the investment from the bank instead of me as banks can offer a lot more money, in billions, and they are more than willing to invest since the return is so promising and attractive. These agents will shy away from me everytime they listen to my advice.

Upon returning home, I explained to my children in the hope they don't fall prey to such a scheme which I believe will become more sophisticated and interesting in the future with the advent of internet and online facilities.

My conclusion, public needs to be educated, continuously.

YAB Tun,

Assalamualaikum, Selamat Sejahtera and a very good morning.

Whether it is Bernard Madoff in New York or our own Pak Man Telo, one thing for sure that these two personalities have brain, guts and the willpower to venture. They were successful....until they were exposed and apprehended by the law....but the damage were already done.

'Get rich quick' schemes will get off the ground if there are willing 'players' or 'participants'. These 'players' or 'participants' are normally people who are greedy. Greed tends to obscure rational thinking.

I am sure there are numerous 'get rich quick' scheme still operating in Malaysia right now and the public will continue to be 'willing investors'. There are people who never learn from past mistakes...there are also people who refuses to learn from past history....may be they are too stubborn to admit to their mistakes.

What can you say about George Bush ducking shoes missile being thrown at him? I am sure in the room where the media conference were being held, was filled with American Secret Service personnel. What a blow to their faces....

Just like what happened to Sept 11. The American were prepared for ICBM attack, but they were not prepared for missiles in the form of commercial airliners. I am sure The Secret Services that were present during the media conference were very prepared to thwart any attempt on the President's life, but they overlooked the flying shoes missile. They end result is the same....SHAME!!!

To HBT, posted Dec 15, 2008, 8.48 pm. Thanks for sharing that long list of Banks and Financial Institutions that were reported affected by that scheme.

On the local front. I hope the authorities will continue to check bogus 'Data Entry' job advertisements that has been cheating unsuspecting job seekers. Please check out the local newspapers and one would easily pick up more than one being advertised everyday!

May Allah SWT continue to bless Tun and Tun Siti Hasmah with good health.

Therefore, it is not too much to conclude [in this case] that ,... greed has no country nor races, religion or just limited to the uneducated.

Some works hard some just,.. hardly working.

Perhaps the same with values taught in religion. Some of us apply and some just,.. wear it.

In an interview with the Star [Sat 13Dec2/08], Datuk Mohkzani Mahathir responded to a question "How has your father shaped your life?" was :

My father taught me that there's always two sides to any story. Listen before speaking and then listen some more. Be decisive, be curious, inquisitive and alert to all the things around you as they always change. Aim for the sky and work hard to reach your goals. The list goes on but the most important one is probably 'always listen to your mother'....

True, to some of us who for some reasons have to live life without a father, [if there is a mother] then 'listen to your mother'..

Assalamualaikum. Always wishing that both Tun are in good health.

Assalamualaikum Tun,

Kita kena berhati-hati dengan apa yang telah berlaku sekarang ni. Barat dan Eropah mewujudkan dasar FTA dan IMF untuk mengawal dan menakluki kewangan dunia ini. Apa yang perlu, Tun sebagai tokoh OIC yang berpengaruh dapat mempengaruhi negara-negara anggota OIC dan ASEAN supaya tidak terlalu kepada Pro-Barat. Barat dan eropah akan terus memastikan kekuasaan mereka terhadap ekonomi dunia kini dan akan datang melalui daya pemikiran dan tipu helah mereka. Sebelum kita semua terjerat, kita perlu lebih memberi perhatian selain berbangga dengan apa yang telah kita lakukan untuk menyelamatkan ekonomi negara kita.

Petrol, Diesel Prices Down 10 Sen Tomorrow, 7th Reduction Since August

KUALA LUMPUR, Dec 15 (Bernama) -- Petrol and diesel prices have been reduced by 10 sen a litre from Tuesday.

comment:

It is good to reduce the petrol price further. But the damage has already being done. The prices of consumer goods and services still remain high without substantial reduction. It defeats the purpose.//

Dear pakbelalang,

Kalau harga consumer and services cannot come down after 7th time reduction in petrol bermaksud "story of pak man telo and mortgage meltdown(in Malaysia)" dah berlaku lo kerana sikap tamak Pak Lah (he was our Finance Minister kan). Kini pak lah bekerja keras untuk mencegah rasuah, set up another new kempen, ini bermaksud dia dah kalam kabut dan hilang akal nak solve masalah ini kerana BNM akan report to rakyat the actual kadar inflasi negara kita, 3 - 4% or maybe more for year 2008. Itu lah sebab dia tak boleh undur bukan tak nak undur!

Kalau pak lah bijak, dia sebenarnya boleh minta advice from Tun kalau dia malas baca che det.

Kerana Pak Lah dah hilang akal, jadi Anwar berani lo kerana ini lah best time untuk kantoi duit rakyat and tunjuk kuasa dan egonya.

Rakyat dah sedar kerana Tun..... mereka masih tidur lagi kerana malu nak minta advice from Tun.

Good day Tun.

askum Tun dan sahabat2,

saya sokong saudara 123, the only person yang berada di luar 'dunia tempurung kelapa.'

kewujudan skim pak man telo di negara kita, adalah disebabkan keadaan semasa yang menutup segala peluang dan bentuk perniagaan yang berasaskan pelaburan & etc.

Mungkin itu, kehendak kerajaan dan bank negara...

Perniagaan MLM tu lain la..hanya menjanjikan pulangan lumayan, tetapi hakikat, hanya buat duit di kalangan ahli sendiri.

Pak man telo ka, swisscash ka, abb fund ka...bagi pendapat saya, masih boleh digunakan pakai tapi gunakan sistem yang lebih terang.

Kena sebutkan risiko yang sepatutnya dihadapi oleh pelabur. Perniagaan & pulangan yang tiada risiko bukanlah satu perniagaan tetapi Riba!

There is another 'get rich quick scheme', and it is called 'consultancy'.
You can never go wrong. The only qualification one needs is contact, ie with the right people.
One can get rich if the govt wants to buy submarines or fighter airplanes.
If the govt decides to buy a commercial property from a private developer, as in the case of FELDA buying a property in KLCC (nothing less), one can also act as a go between and get lots of money by

merely be a CON sultant. Cost of acquisition:RM900million+
But nothing can beat this one: A statutory body, ie UDA, was corporatised and went public. Millions of shares were allotted to some officials. Then the govt bought back all these shares for RM500million and now the company is back to where it originally belong, ie 100% govt owned.
So, we must really be ahead of the financial geniuses in the US at making easy money.

Good day to you Tun,

There is no free lunch in this world.

We only have free air and sunshine.

I got cheated by my neighbor of 10 years.

I just can't believe i will be his target and be victim to him.

The sad part is, i reported to police, went to see state CPO and a few high ranking police officers due to very slow investigation by a police investigation officer.

I was given a run round for so many times and in the end (after pushing for almost 2 years to charge this guy), i got a reply from police saying that 'No further action'.

To me it is definitely a cheating case due to 2 reasons below:-

- 1.Issue me a bounced cheque i.e the bank account had closed
- 2.He was still a bankrupt when he asked personal loan from me.

In fact during the 'meet the people session by state CPO, he commented that my case is obviously a 'cheating case' after i presented all my facts and documents.

I hope i won't be in this situation again in my life time.
I am so frustrated to seek police help after this 1st bad experience.

Anyway, i learn my lesson and i also learn not to place high hope on government agencies to assist you.

Best regards to Tun,

Assalamualaikum Tun,

Heard of Pak Man Telo while I was working in Perak in the 80's from a friend but never got involved in it as my intuition said no.
I think these western people, especially the Americans like to intai and tala their teropong at Malaysia. So they tiru le whether the good or the not so good.

Tun, read about the Japanese professor who had never gone to conferences abroad as he was petrified about speaking English and he won a Nobel Prize in Physics. His first-ever foreign trip was to collect the prize in Sweden. I think he must know English only just gementar to speak the language if not how to accumulate knowledge from books written in English kan Tun. I guess he gave lectures in Japanese only.

All languages are language of knowledge. Anyone who has never been overseas and whose sons and daughters have no opportunity to study abroad be not ashamed. Nobel Prize winner Professor Toshihide Maskawa is a very good example.

Have a nice day Tun and May Allah Look Upon Ypu Always.

Salam Tun,

1. Dengan krisis kewangan yang melanda dunia maka kerajaan Amerika sekarang akan mengurangkan perbelanjaan untuk Foreign Policy-nya. Hanya kegiatan yang mustahak akan disalurkan kewangannya dan yang lain akan dikurangkan perbelanjaan atau ditangguhkan dahulu.

2. Malaysia tidak terkecualikan dari Policy of Internal Interference-nya dan sumber kewangan juga dikurangkan. International Funding yang menyalurkan dana kepada pihak tertentu menerusi negara-negara tertentu, institusi penyelidikan, pertubuhan NGO dan Foundation dikurangkan dengan banyaknya.

3. CIA yang menerajui aktiviti-aktiviti ini terpaksa buat masa kini menanggung kebanyakan campurtangannya oleh kerana kekurangan kewangan dan menunggu arahan terbaru apabila pemerintah Amerika bertukar tangan dari Bush ke-Obama.

3. Malaysia tidak terkecuali dari dasar ini. Parti pembangkang di Malaysia juga menerima tempiasnya. Lihatlah PKR, parti yang dulu agresif dengan kempen yang hebat. Boleh keluar negara, kewangan yang hebat setanding DAP (dananya dari singapura) tetapi sekarang senyap sahaja. Adakah kemungkinan kurang idea atau kurang fulus?

4. Dasar yang dibawa oleh pembangkang sekarang adalah untuk aliran kepada agenda negara luar, perkauman, self-interest dan glamour. Mereka berkuasa sekarang disebabkan menyampahnya rakyat terhadap pemerintah sekarang yang juga sama alirannya dengan perjuangan pembangkang. Lihatlah PM kita yang lembab, dengan menantunya yang tamak (bernaung dibawah Temasek holding). Pejuang UMNO sekarang boleh dibeli dengan serendah-rendahnya RM50.00 atau kain pelikat sehelai.

5. Senario politik sekarang menjurus Malaysia kepada kehancuran. Baik BN dan PR, semuanya tidak membantu negara ini kepada kemajuan. Generasi akan datang akan mendoakan mereka-mereka ini dihumbang kedalam neraka. Dengan akal yang dianugerahkan Allah SWT mereka tidak menggunakan dengan baik tetapi untuk kepentingan masing-masing. Termasuk Pak Lah, Anwar Ibrahim dan lain-lain

8. Sendiri mahu ingat.....

Tun.

Memang pun orang melayu Malaysia lebeh bijak dan kehadapan dari orang puteh Amerika.

Ya lah tapi kerana kita orang melayu dari Malaysia tak dapat lah pengitirafan oleh masyarakat maju ni konon nya. Tapi mereka belajar dan tiru jugak cara Malaysia.

Apa yang Malaysia buat mereka kata tak betui, kemudian bila mereka ada masaalah cuba ikut cara kita depa kata betui. Jadi kita betui lah.

Jadi kita rakyat Malaysia tak payah lah terikut2 dan bangga sangat kat apa yang Barat buat. Kita ikut lah acuan kita sendiri."

Sy setuju dgn cucu tok buyong ni.

Bukan bermakna kita syok sendiri.

Tapi kenapa kita nak meng-agung2 kn sesuatu yg gagal.

Liberalisme/open-market yg menyuapkan Barat mendiskriminasikan kita.

Bukan lah bermakna anti-Barat. Dulu Amerika jugak yg berkontang-kanting mengutuk tindakan Tun bail-out syrkt2 di Malaysia.

Sekarang mereka ini ibarat jilat balik ludah sendiri.

So pi mai pi mai mereka jer yg betui, kita jer yg salah.

Kesian Barat.

Tun,

1. US Currency will lose its power soon enough. With market determine its power and certainly not gold based standard anymore, US in the making of collapse.

2. Sure that there are many solutions made up by the financial experts, but human greedy will not take

into account in their financial reports. They will try explaining of what happen in their own perspective ways. They will give miles of figures to make sure that US still is the dominant power in the world.

3. Well, after WW2 is over, the dominant power like US wants to take control of world by setting up Bretton Woods System as a financial agreement between countries who want to trade their goods to other countries (in US dollar only). After a while US had made so confident that they will not have to peg their currency to gold anymore because this will slow the economy process. 'Let the market determine the power of the currency itself'...once they've told the world.

4. As per starting point, all traders had made their profit because of this freedom. We not know what happen in near future, but for sure this system made us so arrogant that we have forgotten the balance of the finance situation.

5. Year 1997 and now year 2008 have shown us how fragile the system was, if not handle carefully, it will eat us alive. Every system has their enemy. For examples, Internet & virus, Human body & disease, Bank & robber and so on. Police, doctor, lawyer and so on are the guardian to protect us from these enemies.

6. The system need a guardian to make sure that no one will be a virus (greedy) and destroy all living things.

7. Maybe this is the right time for us to use gold standard again. We may be late, but if not now, the cancer will became so serious and nothing can be done anymore.

8. Bailout is one way to solve the problems, but it will not stand long. We have lost our confident to US currency. The currency will doom. No one will trust each others. Traders get upset with their income and avoid from trade their goods in US currency anymore. A slow down will occur in economy and lots of people will suffer.

9. Year 2009 is not promising us a better day. We need to strength up our economy. Yet the recovery process is taking place and this will take a long journey. I hope we can pass this war and make our stand in economy in near future. Still the systems need to be corrected and be perfected against disease.

Regards,

kobe

Funny isnt it? It just goes to show that people believe what they want to believe even when it doesnt make sense. How can someone with no money like Madoff managed to get backing from European Banks worth billions to fund his operation? Mind bogging isnt it?

It seems being gullible isnt restricted to certain race only.

Dear Tun,

Kalau nak diikutkan Melayu ni bukan tak pandai... Pandai sangat tapi malas. Saya sebenarnya nak salahkan sistem pembelajaran disekolah. Bukan nak sentuh pasal sistem vernekular tapi semasa disekolah kita tidak pernah diajar bagaimana nak mengendalikan duit. Orang kata kaya tu bila banyak duit. Tapi saya nampak banyak juga yang kaya sebab kena loteri tak kaya-kaya pun. Nikmat duit tak sampai sebulan pas tu kalau jadi balik ketempat asal takpa gak, ini kena dikler bangkrut... Kenapa ? Sebab tak diajar nak manage duit. Jadi kalau nak kaya ada beberapa cara yang saya nak cadangkan. 1. Jadi manusia paling kedekut dalam dunia. Semua duit simpan bawah bantal. Pas tu jalan kaki pegi kerja.

Makan ala kadar jak. Asal kenyang. Sewa rumah yang penting ada tempat tidor dan tempat melabur waktu pagi. 2. Menipu. Ini cara yang banyak digunakan. Nasib baik kalau tak kena tangkap. Nasib tak baik masuk jel. 3. Belajar supaya kita tahu mengendalikan duit. Ini sebenarnya yang tak ada disekolah. Apa lah salahya kalau kementerian pelajaran masukkan ilmu bagaimana nak merancang kewangan peribadi. Barangkali pegawai yang ada kat kementerian pun tak ada yang pandai. Financial IQ adalah yang patut dipelajari kalau IQ IQ lain dah baik. Disekolah yang diajar adalah supaya lulus periksa dengan cemerlang supaya boleh masuk universiti. Lepas tu kalau dah kluar, harap2 ada orang yang nak ambil keja dan bagi gaji besar. Keja makan gaji bia besar manapun tak cukup nya... Alih alih cari jalan mudah. Kalu pandai menipu, menipu lah. kalau pandai mencuri lak em mencuri lah. Pas tu nak tengok orang melayu kaya... cam na???

Duit kerajaan dah dilabur berbilion2 kononnya nak naikkan taraf orang melayu. Biar dia boleh berniaga. Berniaga keapanya kalau basic nak atur duit pun tak pandai. Alih-alih bengkrap.... APO NOK DIKATO.....

Saya sangat tidak berpuas hati di atas kebanjiran pendatang asing di negara kita, seolah2 tiada tindakan di ambil oleh pihak berwajib.. Sebagai contoh, bila menggunakan kemudahan awam seperti keretapi tanah melayu (KTM) komuter, hampir separuh di dalam gerabak adalah indon dan bangla..mereka ini buat sesak je datang ke Malaysia..Kami rakyat malaysia terpaksa berebut dgn indon dan bangla..Sepatutnya kemudahan seperti ini di utamakan untuk rakyat Malaysia..kita lihat senario sekarang, ramai rakyat malaysia sendiri tidak mendapat pekerjaan di tanah air sendiri..salah satu faktor, kerana peluang mereka untuk mendapat pekerjaan semakin sempit kerana terpaksa bersaing dgn pendatang asing nie..bagi saya mereka ni hanya penyebok yang menyusahkan..menyempitkan keselesaan kita sebagai rakyat Malaysia..Itu belum termasuk pendatang asing yang melakukan jenayah, melarikan anak org dan bermacam2 lagi..saya harap, pihak imigresen giatkan operasi menjejaki mereka ini.. peluang untuk rakyat asing menduduki di Malaysia hanya diberi kepada mereka yg betul2 layak dan terbukti mampu menyumbang kepada pembangunan nefara.. - Benci pendatang asing

Salam Ybhg Tun, there is much that has been said and written of the ways of governing and social engineering successes of the WEST and those of our southern tip neighbors, and I am sure as long as we shall continue to exist, argument on both side shall continue unabated but again in hindsight one can always see with perfect 2020 vision of what were the results of the approach taken by the different sides.

I must put pen to paper to your approach to instill diligence, persistence and pure hard work to achieving the different successes that surround us Malaysian nowadays. Your LOOK EAST POLICY was already a break through in changing the mindsets of most MALAY if not all Malaysian that it takes a lot of hard work before one can actually savor and enjoy the fruit of success, till today emulating the work ethics of the

Japanese have produced so many success stories of Malaysian made products and Malaysian making their mark in the world trade. You had shown to us that the successes of the Japanese in moving themselves from the strife of a race beaten in World II to emerging as the second largest economy in the free world, as an example well worth emulating. Strangely enough even though the Japanese work ethic are more superior than ours, the Japanese have always look forward to your brand of leadership and your insight, to position themselves against competing forces of the west. I am not one that has the luxury of moving in foreign circles, but from what a simpleton Malay might be able to read the Japanese have always high regards to your opinion, as compared to the rest of the leadership from South East Asia.

Though we have emulated the Japanese we have never really become one with the Japanese, when I say we, I would mostly mean the Malays, as the other races because of their past history involving the Japanese had never really come to terms with your LOOK EAST POLICY. But even though we were not "TURNING JAPANESE" through the imported work culture established in companies like PROTON and other joint ventures with Japanese companies, we were open enough to accept other foreign values. Maybe if we had included teaching of Sciences and Mathematics in Japanese we would have had a much more easy access to the knowledge and innovation being driven by the Japanese. I must say the Japanese as an island nation without easy access to natural resources, and always having to battle natural disasters like earthquake and typhoon are a much more resilient race, then us coming from South East Asia.

The point is Ybhg Tun, where we are today as MALAYS are the results of your moulding of our destiny for the last 2 decades, actually if I were to make a comparison between the former leader of our neighbor to the south, I would say he had an easy job, whilst yours involved the fate and fortune of the Malay Sultanate, the 13 diverse state with different economic of development status, a much wider mix of population and being generous enough to still let our southern neighbor to prosper though your instilled PROSPER THY NEIGHBOR POLICY. I am sure you could have easily stopped all raw material including food, water, Malay labor work force to the our southern neighbor, but you have always been fair. Our southern neighbor should be grateful to your generosity as a Malay neighbor.

There is so much we have yet to learn from you to make us achieve our rightful position in the world stage and being good neighbors.

Once again Ybhg Tun a simple thank you from a simpleton Malay - please do keep well

TUDUHAN RASUAH POLITIK: BPR NAK SIASAT TAPI DISEKAT?

Singkatan perkataan BPR ni apa ertinya? Badan Pencegah Rasua atau Badan Pelindung Rasuah? Kalau BPR ertinya Badan Pencegah Rasuah, BPR kenalah kerja kuat banteras rasuah. Kalau ada aduan mengenai dakwaan rasuah, BPR kenalah siasat aduan tu. Jangan siasat main-main. Siasat betul-betul.

Hari ni kita memang kurang pasti BPR ni Badan Pencegah Rasuah atau Badan Pelindung Rasuah. Sebabnya, ada salah seorang calon Timbalan Presiden UMNO dikatakan sudah dibabitkan dengan hampir 400 dakwaan rasuah. Dakwaan ini dipercayai sudah pun dilaporkan kepada BPR. Tapi, kata yang punya cerita, BPR langsung tidak bertindak. Betul ke ni? Kalau betul, kenapa jadi bengini?

Ikut ceritanya, BPR memang dah ready nak siasat seluruh dakwaan yang dah dilaporkan kepadanya. Malangnya, ada orang besar dikatakan halang BPR jangan siasat seluruh dakwaan itu. Betul ke ni? Kalau betul, kenapa jadi begini? Kalau betul, sapa agaknya orang besar yang powerful tu? Sapa?

Kesian betul pegawai BPR. Orang mana tau BPR nak siasat dakwaan-dakwaan tu tapi BPR kena halang dek seorang orang besar? Yang kita orang tau, BPR lah yang tak mau siasat. Rupa-rupanya dak. Yang halang siasatan rupa-rupanya orang besar.

Dan, betul ke orang besar yang halang BPR buat siasatan tu berkata bahawa siasatan cuma boleh dilakukan kalau ada saksi ketiga tampil buat keterangan.

Bukan ke syarat macam ni syarat bodoh? Dalam kegiatan rasuah, cuma ada si pemberi dan si penerima. Kalau ada orang ketiga selain si pemberi dan si penerima rasuah, orang ketiga tu pun boleh jadi saksi kepada pihak si pemberi atau saksi kepada pihak si penerima. Maknanya, orang ketiga tu pun turut bersubahat dalam jenayah rasuah yang sama.

Jadi, apa punya bangang orang besar tu kata, siasatan hanya boleh dilakukan oleh BPR jika ada orang ketiga yang sanggup jadi saksi? Tapi, tak mungkinkah syarat bangang ini disengajakan untuk menggagalkan BPR lakukan siasatan? Tak mungkinkah begitu?

Kalau ginilah bentuk kisahnya, jahanamlah UMNO. Pemimpin yang dah ada hampir 400 laporan mengenai dakwaan rasuah pun masih nak dilindungi oleh pembesarnya. Apa hebatnya orang yang ada dakwaan rasuah ni? Sebab dia pandai bodek dan angkat telur? Sebab dia ni boleh dijadikan perkakas oleh pihak-pihak tertentu? Sebab dia ni orang harapan pembesar terbabit?

His.. Rosak-rosak. Habis rosak binasalah UMNO kalau ada manusia rasuah seperti ni. Habis jahanamlah UMNO kalau ada pembesarnya nakindungi kaki rasuah macam ni.

Lantaklah. Kita orang apa nak peduli lagi? Kita orang dah puas cakap pasal rasuah. Tapi ada lagi pembesar UMNO yang nakindungi kaki rasuah.

Inilah kepura-puraan. Inilah kemunafikan. Inilah tanda-tanda kehancuran UMNO. Kita orang semua apa boleh buat? Tunggu dan lihat?

Tapi, dalam kita kata apa kita boleh buat, harap-harap pihak yang dah buat laporan kepada BPR mengenai calon Timbalan Presiden UMNO berkenaan, teruskanlah tindakan anda.

Kalau dah buat laporan dan BPR dihalang untuk lakukan siasatan, sebarkanlah salinan laporan anda kepada BPR tu kepada semua pihak berkenaan.

Taborkanlah salinan laporan tu kepada bloggers, kepada akhbar-akhbar nyamok atau kepada semua pemimpin UMNO. Lepas tu, kita sama-sama tengok dan tunggu apa akan terjadi. – <http://politica-net.blogspot.com>

Akum TUN dan semua

Pak man telo makin banyak berleluasa sekarang dan terdapat dimana pelusuk dunia. Malaysia pun tidak kurang hebatnya dan kebanyakan yang terlibat adalah orang melayu. Semuanya ingin cepat kaya dan ingin wang mudah yang akhirnya sengsara.

begitu jugak lah sekarang ni perwakilan UMNO utk march 2009 saya dapat tahu calon vice presiden dah hulur RM 1000 sebagai wang pendahuluan dan akan gugur lagi bila makin dekat. Juga maklumat tentang calon timb presiden belanja RM 60k untuk dapatkan pencalonan dari satu bahagian (RM 500 kepada setiap perwakilan ke bahagian). Calon ini agak 'desperate' kerana agak jauh ketinggalan berbanding dgn Ts Mahyudin.. siapa dia ? mungkin ramai yang tahu.. hee hee

akhirnya melayu tergadai kerana ada calon2 yang akan bertanding jawatan tertinggi parti memang terkenal suka tido tapi pandai berbodek dan berpolitik gosok bahu. Karakternya sama seperti mentor dia AAB.

tapi apa boleh buat perwakilan suka tengok duit dan suka tengok yang pandai gosok bahu.. akhirnya kita tunggu PRU 13 samada calon gosok bahu dan RM RM akan dipandang tinggi oleh rakyat pengundi.

wassalam

SALAM SEMUA...

PAK MAN TELO INI WUJUD DALAM PELBAGAI BENTUK DAN RUPA...APABILA DISEBUT PAK MAN TELO MAKA KITA AKAN TERINGAT SKIM CEPAT KAYA. SEBENARNYA SESIAPA SAHAJA BOLEH JADI PAK MAN TELO. BANK ATAU INSTITUSI KEWANGAN, BNM DAN KERAJAAN YANG MENGAMALKAN RIBA DAN RASUAH BOLEH DIKATEGORIKAN SEBAGAI PAK MAN TELO BERLESEN. MEREKA INILAH YANG BANYAK MENGHABISKAN DUIT RAKYAT UNTUK KEPENTINGAN PERIBADI MEREKA.

BARU2 INI BERLAKU OPERASI BESAR-BESARAN DILAKUKAN OLEH BNM UNTUK MENYEKAT SEMUA SYARIKAT YANG DIANGGAP MENYALAHAI UNDANG2 AMLA. TINDAKAN BNM ITU MEMANG BAIK NAMUN WANG YANG DISEKAT ADALAH WANG MILIK PELABUR(RAKYAT) YANG TERTIPU TAK TAHU APA2. OLEH KERANA DIPUTAR BELITKAN SYARIKAT DENGAN PROMOSI BAHAWA SYARIKAT ADALAH SAH DISISI UNDANG2 DAN TERDAPAT MENTERI YANG MENJADI CEONYA MAKA MEREKA PUN PERCAYA LALU MELABUR DENGAN HARAPAN DAPAT PULANGAN YANG BAIK SUPAYA DAPAT MENGUBAH SEDIKIT TARAF HIDUP MEREKA.

PADA MULANYA MEMANG SYARIKAT BERKENAAN MEMBAYAR ADVANCE SEPERTI DIJANJIKAN. NAMUN SETELAH BNM MEMBEKUKAN ASET SYARIKAT BERKENAAN TERMASUK WANG YANG DILABURKAN. BERIBU-RIBU RAKYAT MENJADI MANGSA YANG MANA WANG LESAP BEGITU SAHAJA TANPA DIPULANGKAN OLEH PIHAK BNM. DI SINI...KITA LIHAT KETELUSAN PIHAK BNM BOLEH DIPERTIKAIKAN. SEOLAH-OLAH BNM PULA YANG MERAMPAS DUIT RAKYAT DAN MENIPU RAKYAT. BERJUTA-JUTA DUIT RAKYAT DIRAMPAS OLEH BNM TETAPI SEHINGGA SEKARANG BNM TIDAK PERNAH MEMULANGKAN WANG RAKYAT BERKENAAN. SEHINGGALAH ADA CAKAP2 RAKYAT BAHAWA WANG YANG DIRAMPAS TELAH DIGUNAKAN OLEH KERAJAAN UTK PILIHANRAYA DAN SEBAGAINYA. KERAJAAN DAN BNM SEPATUTNYA LEBIH ADIL DALAM MELAKSANAKAN UNDANG2 SUPAYA YANG MENIPU DIPENJARAKAN DAN RAKYAT TIDAK MENJADI MANGSA SEPERTI INI.

JADI SIAPAKAH PAK MAN TELO SEBENARNYA??????

Assalamualaikum Tun,

Semoga tun sekeluarga sihat walafiat...

skim cepat kaya ni dah lama beraja kat dunia ni kan tun.. cuma tahap kesedaran manusia, semua orang ada sifat tamak, tapi bila dah rugi komplek la.. apa lagi nk buat...
adat pelaburan, untung rugi tu kan hukumnya...

apa kata tun sbg pakar ekonomi dan dah bangunkan Malaysia, Masyarakat Malaysia perlu lebih didedahkan tentang risiko pelaburan jika bukan dibawah kawalan sistem kewangan kita, ciri ciri syarikat yang boleh mengambil deposit atau memberi tawaran saham supaya masyarakat kita tak tertipu dengan ayat² manis pengusaha skim cepat kaya ni... maklumlah duit, siapa tak nak? hari ni masuk, tahun dapat kaya raya... sapa tak mau ye tun?

bila dah macam ni, susah la sistem kewangan kita nk berkembang, pelaburan yang ditawarkan kerajaan pun org tak percaya, sbb masing masing dah "pandai" dan dah "pakar"...

tgk AIG, walaupun kompi bankrap, kerajaan AS suntik lagi 700billion USD untuk jaga kepentingan pelabur supaya tak rugi.. itulah namanya pelaburan yang dijamin kerajaan..

Bukan mcm swisscash, Buluhmas dan macam macam lagi...
pelik juga diam diam kat rumah duit masuk dalam bank...pakai sihir jin ke ape?

ekonomi pun boleh terjejas jika terlalu banyak aliran wang yang tidak dipantau oleh sistem kewangan...

siapa yang ada masuk skim skim cepat kaya sekarang ni baik selamatkan duit anda sebelum kompi itu menghaibkan kompi mereka... biar dapat sikit jangan tak dapat langsung!

No, Damien, we have to make sure the government agencies do the job correctly if not these agencies will never learn. Our government's social responsibility will never improve then. If we want a good government, it's our responsibility to make sure they and monitor them do the job correctly.

Take care Damien.

A'kum Tun,

Ini adalah hukuman Allah kepada manusia yg mengamalkan materi dunia sebagai tangkal hidup.

Presiden Amerika tidak ada pengetahuan tentang Islam kerna itu dia sanggup memporak perandakan Negeri Islam seperti Iraq.
Sekarang kita boleh lihat azab Allah yg diturunkan kepada Rakyat Amerika. Masyallah kompeni-kompeni yg gagah boleh jatuh muflis.
Ekonomi Amerika boleh jatuh muflis dgn sekelip mata.
Penipu dan perompak pun boleh jadi CEO didalam syarikat besar Amerika.
Itulah yg dimegahkan oleh President Bush tentang demokrasi Amerika.
Boleh tergelak bila kita tengok hari demi hari negeri Amerika dilanda krisis kewangan kerna dulu dialah yg mentertawakan negeri Asia apabila dilanda krisis kewangan...

Dear Tun,

What will happen if credit dries up? No more consumer credit. What is available is only enterprise, industrial and trading investments (rprofit sharing) BUT not credit (with interest)!

Consumption will slow down. People will spend within their means for consumption; just like all the poor people in this world.

Less cars, less vehicles, less industrial activities which swallows fossil fuel and spurt out carbon into the environment.

Yet there will still be growth, albiet at a sustainable rate. Where more people of the world will have a chance to benefit from this development. Not just the developed countries. Development for humanity sake not for pure development sake to keep the developed countries ever always ahead of the other countries. In doing so to allow them to waste the limited world resources unabashedly. While the poor suffers in poverty and hunger. Without clean water, food, safe shelters, etc..

This will force the obscene opulence of the rich to face reality. That you cannot live on credit. That one cannot live on borrowed time. That credit (with interest) actually encourage such sinful wastefulness. Lets dump credit (with interest) but instead prosper on real investment (profit sharing) funds for enterprise, development and trades.

Think about it - for those who want to think. Allah has given us the faculty to think - bagi orang2 yang berfikir.

Assalamualaikum Tun,
i do really need your help. saya betul2 tidak bersetuju dgn cadangan utk exchange sc & math in Malay again. pada pandangan saya, ini adalah satu idea utk meruntuhkan anak Melayu. Namun, tiada langsung yang membantah. Sedangkan, belajar dalam English langsung tidak mendatangkan apa-apa masalah. saya adalah batch 1st yg belajar subjek2 tu dalam English tp alhamdulillah I can get along with it. Malahan, saya & rakan-rakan berjaya score dalam exam kami. Benar kata Tun, Melayu mudah lupa...yg lain hanya menganga bila bangsa lain cadang itu dan ini, mereka kesah ape,sebab mereka tetap terus mara, sedangkan kita? masih di takuk lama. Utk. pengetahuan Tun, saya hanya bersekolah di kampung pada Tahun 6 namun, saya berjaya melanjutkan pengajian ke MRSM dan seterusnya kini, di university dlm Foundation in TESL(teaching Eng. as Second Language). plz Tun, siapa lagi ingin bangunkan Melayu di Tanah MElayu ini sendiri? I'm really disagree about that idea..english language doesn't mess the students, but it really help them esp. Malay...plz Tun..

Assalamualaikum Tun

Menarik cerita ni. Saya pun terkena sekali dengan sepupu sendiri yang ajak labur dalam direct selling dia. Berpuluh ribu lesap dan dia pun melarikan diri.

Rasa pun mungkin sindir pelaburan negara juga. Tak boleh bayangkan kenapa Maybank tak buka cawangan saja dan kembang sedikit demi sedikit di Indonesia. Silap2 semua duit keluar tu lesap dan Maybank pun tergadai. Mungki nasib Bank Bumiputra akan berulang pada Maybank.

Kerajaan bagi RM 408 juta pada negeri Terengganu dan kata royaty bukan lagi wang ehsan. Tapi TM Najib umumkan negeri Terengganu akan labur rm 10 billion ke luar, jadi akan dapat hasil kemudian. Kalau ada hasil pun tak tentu negeri Terengganu masih bawah BNdan jika bawah pembangkang tak tahu apa TM Najib nak kata nanti. Atau pun 10 billion tu bila labur akan lesap nanti kata rugi masuk poket somebody. Kenapa 10 billion tu tak majukan Terengganu saja dari hilang lesap....???

kalau Malaysian seperti Pak Man telo makan RM19 juta, tentulah orang Amerika lebih hebat lagi makan berbilion dolar. Yang saya hairan kenapa Amerika yang berhutang trilion dollar masih mampu mengepalai IMF dan Bank Dunia. Pakar2 ekonomi ni adalah satu kepala dengan Bernard Madoff, macam mana hendak merompak negara2 dunia ke3. Tapi ada juga pemimpin politik di Malaysia yang mengagungkan pakar2 kelentong Amerika ni.

..... U.S. dan UMNO, PERIUK DGN BELANGA

Mengata US sama mengata Umno. Tabiat Umno serupa US. Orang buat tak boleh. Dia buat boleh (Bail out). Dia buat betul orang buat salah.

Orang buka mulut beri pendapat dia buka keris mengancam (Iraq kena serang). Orang bermesyuarat dgn aman kena ancam soal, orang merempuh menceroboh mengganas jaguh. Dia berarak merata jalan sah dan aman, orang lain mengacau ketenteraman.

Orang beri pendapat diancam kerakyatan, orang keluar kata ancaman dihadiah keris. Orang menghina Sultan tak disiasat (sepanduk di Terengganu), wartawan kena ISA. Orang menuduh tanpa bukti tak disoal (MB penyapu), orang difitnah kena ISA.

.....DEPAN LIHAT MUKA BELAKANG NAMPAK PUNGGUNG.

Rescuing a financial institution has elements of public service. It is a public institution, trusted cos it is publicly regulated, entrusted with public deposits besides investments. The collateral impact on the economy and general public is widespread.

Bailing out private companies is entirely different. It is pure shareholders risk and not much to do with the public. The fallout of its collapse is limited.

Mahathirism..

Bail out fund approved, parliament has no say who gets rescued, how much.
Bail out for private companies also.
Bail out companies barely few yrs old and hardly icons(crony institutions)
Management status quo (mostly)
No legal action.

US..

Approval for specific financial institutions and purpose.
Pte companies are not on rescue. Big three rejected.
Companies asking for rescue are 100yrs icons (national institutions)
Management cannot stay.
Legal prosecution to follow.

Sigh ... some people just read too much between the lines and missed the real deals. Pak Man Telo is not MLM and MLM is not Pak Man Telo. If anyone is interested to know what MLM is, all u need to do is look it up and check it with the responsible ministry looking after consumers affairs. As much as i emphasised with those who have lost their hard earned money in any get rich quick scam, i wonder whether they have checked it out and make sure that the companies are properly registered to operate only in the approved activites. There are many operators aka scammers who get people to part with their money by way of 'exclusivity and early bird' promises with no approved documents being sighted but only application pending approval documents from the ministry. Some scammers also resorted to falsifying documents.

Anyway, whilst Pak Man Telo have gained an infamous reputation, we can't deny that he has contributed to a much better awareness to those who want to listen and be more careful next time, i doubt very much the government could have done a better job of creating such awareness programme with quite affirmative result...

Yeah, in case any of you are wondering i myself have lost some money on some get rich quick scam thank you ..

Tun,

generally when the economy is facing difficulties the Rakyat will become less welcoming to foreign workers. People always have this weakness of blaming their economic ills on foreigners. But I see a lot of unpleasant work is still done by them. Jobs like cleaners, domestic maids, garbage collectors & koptiam assistants will still go to foreign workers whether there's recession or not. I can't imagine our M'sian people doing this type of job. Let's hope the economy will quickly recover so that we can still afford to keep these guest workers. Hope China, Korea, Japan US & other G7 nations can put their economies back on track so the smaller nations' economy will not slide further. Over at my place there are at least 35 people retrenched each day.

In an interview with the Star [Sat 13Dec2/08], Datuk Mohkzani Mahathir responded to a question "How has your father shaped your life?" was :

My father taught me that there's always two sides to any story. Listen before speaking and then listen some more. Be decisive, be curious, inquisitive and alert to all the things around you as they always change. Aim for the sky and work hard to reach your goals. The list goes on but the most important one is probably 'always listen to your mother'....//

Hi Abbas,

I totally agreed with Mukhriz on this matter because most Asian (including Malaysian but exclude Phillipines) women are more passionate and responsible in whatever they do so that they can protect the family. If women can protect family, then they can protect the country. However, in Malaysia, we women do not hope and never want to be the PM.

Keep on writing your comment Abbas for our country because this is the only way that we can do to help Tun to drive us out from the Pak Man Telo's mess.

Tun

BOLEHKAH 'COMMON SENSE' DIHIDUPKAN SEMULA DALAM DASAR PENDIDIKAN?

Saya ingin membawa kembali isu ini memandangkan Tun ada membuat kenyataan menyokong. tentu sekali kerana Tun punca masalah ini.

Jadi ini lagi berat kerana semua orang masuk kepala dalam pasir.

Pendapat saya Tun bukan sahaja perlu ungkai Pak Lah tetapi dasar ini.

Saya rasa semua penyokong dasar Bahasa Inggeris bagi pengajaran Sains dan Matematik tidak pernah ke sekolah arus perdana. Maksud saya mereka tidak pernah lihat masalah pengajaran dan pelaksanaan dasar itu di sekolah-sekolah kebangsaan kita. Golongan menengah Melayu yang telah melepasi sistem persekolahan dan berjaya sebagai teknokrat boleh bercakap mengenai tajuk ini dari sudut kepentingan peribadi yang sempit, tanpa melihat masalah yang ditimbulkan kepada orang lain disekeliling mereka. Pertama masalah dan cara penyelesaian masalah bercanggah. Masalah kelemahan bahasa apa pun berpunca dari kaedah pengajaran bukan kekurangan bahan atau tenaga manusia. Perhatikan bagaimana Bahasa Inggeris bagi majoriti pelajar tidak akan menjadi Bahasa Kedua kecuali mungkin pelajar dari golongan Melayu kelas Menengah yang sudahpun mengamal cara dan gaya hidup ala Barat dan menerima ini sebagai bahasa pertama mereka. 'New Age Malays', kata orang. Mereka terang-terang menolak penggunaan bahasa Melayu dari kehidupan seharian dan urusan kerja. Dalam urusan kerja pun hasil usaha mereka tidak akan dapat dimanfaatkan kepada bangsa sendiri kecuali kalau semua sudah mahir bahasa Inggeris.

Masalah kedua, punca pertama pelajar diajar bagaimana menjawab kertas Bahasa Inggeris, 'testing' dan bukannya latihan bahasa yang berstruktur. Bayangkan anak-anak di hantar mengaji Qur'an tetapi tidak

dibenarkan bersuara, apa kesannya. Saya bagi contoh keputusan UPSR Negeri Terengganu bagi Bahasa Inggeris cemerlang, dan ramai mendapat A. Tetapi ini hanya kerana mereka telah dilatih menghafal dan teknik menjawab yang begitu intensif. Tetapi hakikatnya 70% yang mendapat A sebenarnya adalah apa yang dipanggil ahli linguistic sebagai 'false beginners'.

Apabila pelajar ini naik ke sekolah menengah mereka tidak mampu lagi menguasai bahasa kedua. Jadi dapat A sekarang tetapi 'dysfunctional' kemudian.

Sekarang pelajar yang tidak faham bahasa kedua diharapkan faham Sains dan Matematik dalam Bahasa Inggeris? Bukankah isi matapelajaran hanya mampu difahami kalau nahu bahasa itu sudah dikuasai, dan bahan diajar kemudiannya boleh dibincang diluar kelas, atau pulang ke rumah nanti boleh tanya atuk di rumah mengenai apa yang cikgu sebut. Bahasa Melayu mampu mewujudkan suasana ini.

Sekarang bagaimana?

Sains dan matematik yang diajar dalam bahasa Inggeris sekarang sebenarnya tidak diajar sebagaimana patut, tetapi balik kepada mengajar cara menjawab. Analisa dan fakta yang dikemukakan oleh Kementerian tidak sah dari segi kaedah penyelidikan. Antara lain kajian ke atas 'moving target', dan hanya menyebut jumlah pelajar yang memilih menjawab dalam Bahasa Inggeris. Tentu sekali ini tidak boleh jadi ukuran kerana soalan dalam dwi-bahasa. Berapa ramai yang meneka setelah membaca soalan dalam Bahasa Melayu kemudian menjawab dalam Bahasa Inggeris. Lagipun keperluan menjawab hanyalah tanda sama ada A,B,C,D atau E.

Bagaimana boleh disandarkan kejayaan dasar. Masalah utama bukannya dasar itu berjaya dalam pelaksanaan tetapi dasar itu SALAH dari segi kaedah ilmu pengajaran, kelogikan dan juga bertentangan dengan undang-undang Negara.

Amat sedih sekali sikap penyokong dasar yang meluahkan isi hati di dada akhbar berbahasa Inggeris, yang melihat masalah hanya dari segi utilitarian tanpa memikir nasib bangsa Melayu secara menyeluruh. Kalau kita baca Hikayat Abdullah, rintihan serupa juga dinyatakan beliau, betapa hairannya beliau pada sikap orang Melayu membelakangi bahasa sendiri.

Pelajar Melayu yang cemerlang dalam penguasaan Bahasa Melayu dan faham isi matapelajaran tidak mempunyai masalah menguasai bahasa kedua. Masalah sekarang dasar tidak memberi peluang mereka memahami isi, tetapi mengasah daya ingatan dan diajar cara mengatasi system peperiksaan.

Saya rasa penggubalan dasar membuktikan memang benar orang Melayu yang mempunyai pendidikan tinggi –sama ada mereka orang politik atau profesor di universiti - tidak semestinya berilmu. Adakah kerana mereka lemah dalam bahasa ibunda, yang sudah tiada ruang dalam kehidupan harian mereka, sehingga mereka tidak langsung nampak kepincangan dasar?

Dan saya juga perhatikan pegawai pelaksana dasar di Kementerian amat sukacita kerana setiap kali dasar diubah tender akan keluar dan peruntukan ditambah. Jadi meja bulat sebenarnya TETAP MERUPAKAN GIMIK untuk mewujudkan penyelesaian tanpa mahu mencari kebenaran.

Sudah masanya orang Melayu insaf diri.

Wallahualam bisawab.

By HaizarFarizTahir on December 17, 2008 7:30 AM

Asalamualaikum Tun,

The "Mat Salleh" created many things including the Financial Markets. We are at the current cross roads because of them and their creations.

Anyway, ada advantage dan disadvantages, jika seseorang itu mahu merasai kekayaan di dunia ini, seseorang itu harus belajar (menimba Ilmu) dan mengasah skill mereka (experience).

Masyarakat Melayu pada umumnya, tidak sabar dan kebanyakannya tamak dan enggan belajar dan sangat ketara, ingin sesuatu dengan cara yang mudah.

Kesanggupan memberi wang titik peluh dan ada diantara sanggup membuat pinjaman bank untuk melabur cara mudah, akhirnya kena tipu bulat-bulat oleh mereka yang ambil kesempatan.

Tiada cara mudah di dunia ini, kita kena sanggup belajar dan buat sendiri jika ingin berjaya.

Saya sendiri minat dengan financial markets, bemula dengan minat untuk diri sendiri dan kecil-kecilan

kini mempunyai website sendiri, abletrendforex.com
saya mengambil masa selama 3 tahun untuk belajar dan faham dari A-Z, dan proses pelajaran dan pengalaman tidak akan habis, bukan senang dan bukan hendak angkat diri sendiri tetapi jika kita ikhlas ingin belajar insyallah tuhan akan menolong kita, tetapi kenalah berusaha gigih.

Jangan beri duit titik peluh kita sebarang kepada sesiapa pun melainkan yang dilesen oleh BNM dan jangan collect duit orang, salah disisi undang-undang.

Mengikut pengalaman saya, tidak semua akan berjaya, kerana semua bergantung kepada kesanggupan (limit) anda sendiri untuk berjaya.

Maaf, kebanyakan orang melayu tidak mahu berusaha tetapi ingin senang dengan cara mudah. Jadi orang seperti Pak Man Telo, ramai diluar sana menanti untuk mengambil kesempatan dari orang melayu yang ingin kekayaan dengan cepat.

BANGSA MELAYU, Sedarlah, tiada yang mudah, Susah dahulu Senang kemudian adalah cara terbaik untuk mengekal apa yang dinikmati sekarang dan masa depan, dan ingatlah ALLAH sepanjang masa dan patuhi rukun Islam, Insyallah, kita akan berjaya dalam segala kerja yang dilakukan.

Sifat TAMAK, DENGKI dan RASUAH Akan hanya menghancurkan diri sendiri dan negara yang tercinta ini.

What a scam!

Btw tun, nice speech and joke on yesterday the 16th dec 08 event at PWTC. Somehow that's gave some hint to the people in the company wic they think MONEY IS EVERYTHING.

I wouldnt name those but you may guess who.. they have been given a big account and yet are not satisfy. They want to get all the big numbers as possible where the quality has started to deteriorate. And yet they are not willing to listen from the ground level.

Good example by Ford co. I can see some ppl face had been smack by you. But I think you can smack them further. Generally, large corp nowadays are acting like ford.

The burning desire of turning ppl towards global class Malaysian is always be my own mission even

though it is at this below level, with so-so support. By having some role in the country (if I have the chance) plus some experiences from our great leaders and a great-focus team, together we accelerate this and par it with vision 2020.

//By Lahm on December 16, 2008 1:53 PM

Dear Tun,

you have to admit. George bush reflexes is faster than yours. (The shoe vs the spray)//

***Since Lahm brought up the spray case, I realized that the person who sprayed at Tun was to balas dendam, a member of PPP. It was because of the Pak Man Telo versi 1998, our neighbour singapore attacked our RM with the assistance of our ex-bank governor, Anwar (he was our finance minister then) and wong si hwa, deputy finance minister through Penang. In order to safe our country from being controlled by IMF , Tun has no choice but to de-peg our ringgit against US\$ and sacked Anwar to save our economy. As for whether anwar had had committed sodomy or not, we just wait for the result from the court in february 2009, we just cannot believe anwar is innocent because of his wife, Wan azizah, without trial.

Yes indeed there was "segolongan jutawan" kena teruk because of sikap tamak and believed the formula of pak man telo in 1998. At that time, our RM was serang and our economy mainly relied on foreign investments and imports to grow our industry sector that can save million of jobs, the de-peg system indeed has saved our nation out from the attack. If you were Tun, who will you save first, 27 million rakyat or 5000 jutawan (the figure is only an example) yang bongkak and sombong, kaya because of strong cables (connections lah)to the top guns in the kerajaan???? Since Tun did not involve in rasuah, of course Tun will save the 27 millions rakyat because they are innocent, however, the 5000 jutawan deserved to be punished because of sikap tamak and they believed high risk, high return, who fault then, even Bernard Madoff himself cannot answer?

Now pak man telo came back after 10 years, now it involved not only the top guns in BN but also involved our construction sector (thanks to the current housing minister, Mr ong ka chuan). Because of these scandals, MCA and Gerakan were trying to win chinese votes by main2 isu perkauman eg. hak istimewa melayu, penghapusan 30% bumiputra equity, pendatang asing, against one school system etc. to protect themselves, but too late because rakyat dah buka mata because of our most respected Tun's che det blog.

Now we can see that our pak lah strongly supported by najid to gain confidence from rakyat and foreigners by setting up a new badan pencegah rasuah to gain confidence of the rakyat and foreigners because they are takut to loss their position, kekayaan, powers which they have enjoyed during Tun's time, no matter what they do now, the rakyat will never trust them anymore.

As for pakatan rakyat, of course lah using the rakyat votes in PRU 12, they have forgotten what they promised the rakyat, that is to be the watchdog representing our grivances, but now they dare to go against the country's perlembagaan negara by abolishing the ISA supported by PPP too so that they can topple the government in short period without showing the rakyat their capabilities, and changing road sign in Penang, wondering why can't they just wait until PRU 13, obviously it's because of own interests lo.

PR supported Japan's Toyota camry car models to be used in Perak, but not our country car Proton?

Proton is our national car, if PR want to be our government with niat yang amanah and bersih, they cannot just deny our national cars because they hate Tun and if this is their reason to go against the national car, then they are indeed topple the government untuk kayakan dan syok diri sahaja. Now Proton has agreed to work with Mitsubishi to upgrade its quality, we should see it as a positive way, because proton is no longer a national car that favour only to a certain groups with government connections if proton needs to survive in domestic and international markets.

Kita dah ada BN yang syok diri dan kayakan family and connections sekarang because of pak lah and najib, rakyat do not want the ruling party to follow the current BN's langkah, it's time we rakyat stand up for TAK NAK bukan shaja untuk rokok malah juga rasuah. Buatlah kempen Rakyat Nak Apa to save millions of job and bring down the kadar inflasi rate by recommending langkah2 terbaik untuk negara dan ekonomi kita.

The more PR is supporting these issues, the more they show to the rakyat yang mereka memang tidak layak, mereka hanya interested in own personal agenda through of course lah the anwar's blog, raja petra's blog, now we have another blog, The Malaysia Think Tank headed by Zaid Ibrahim, one of our malaysia's pak man telo, who think that he can fool the rakyat again and again???? as for the MIC matter, Samy does not want to resign because he needs the RM50 juta to help his family and few supporters, because he has made the biggest mistake due to sikap tamak juga by not helping the indian during his tenure.

Bush kena paling kasut by Iragi, now the world need to know what Obama will do to punish Bush of what he had done to Iraq. if Bush is not punished by the Americans, then why should the world support and believe them, right?

Till then Tun.

Ybgh Tun,

Saya juga setuju dengan pandangan dari pegawai kerajaan. Belum dapat membaca tujuan utama tindakan kerajaan mengimport tenaga asing, tidak mungkin semata-mata kerana ekonomi atau tenaga murah. Implikasi tindakan kerajaan banyak menyebabkan kesejahteraan dan kesejahteraan warga malaysia terancam dan terganggu.

Suasana sedia ada dengan kehadiran pendatang sebelum merdeka pun dah menyebabkan gangguan ini, apatah lagi dengan pendatang selepas merdeka.

Jangan sampai kera dihutan disusukan , anak di rumah kelaparan. Pemimpin Melayu yang dipuncak tu , kebanyakan nya dipilih oleh melayu dengan harapan dapat membela kaum melayu. Namun nampaknya bila dah diatas , mereka ingin menjadi juara semua kaum. Cuba DSAAB atau Anwar Ibrahim bertanding di Bukit Bintang atau dimana mana majoriti bukan melayu, boleh ke mereka menang ? sendiri mau fikirila.....

Dah jelas, antara yang menyebabkan manusia yakin diri ialah bila ada kekuatan. Kekuatan tenaga, keewangan dan sebagainya. Mungkin masalah melayu masa kini ialah, kekuatan pelajaran dan kewangan. Itulah masalah melayu yang mesti ditangani. Kerajaan mesti memberi perhatian khusus dalam isu tersebut.

ASB satu usaha yang berjaya dengan pulangan yang memberangsangkan, jika mampu usaha itu dipergiatkan hingga pulangan nya mencapai satu amount yang membuat melayu teruja dan berusaha merebut peluang membeli saham ASB.

Peluang untuk melayu memberi anak-anak mereka belajar hingga peringkat yang tertinggi dengan lebih

mudah terus diusahakan oleh pemimpin yang melayu pilih tadi. Jangan ganggu perasaan melayu dengan isu-isu yang memualkan.

Sendiri mau fikir laa.

Mendoakan kebahagiaan dan kesejahteraan Ybgh Tun selalu.

Assalamualaikum Tun,

Pertama sekali saya nak ucap terima kasih kepada kerajaan Malaysia kerana menurunkan lagi harga minyak RM1.80 seliter. Boleh tak turun kan lagi??? Harga minyak di Indonesia sekarang RM1.60 seliter. Bukan apa supaya rakyat dapat mengimbangi perbelanjaan harian mereka disebabkan harga barangan keperluan harian yang tak turun-turun. Kepada menteri yang berkenaan jangan hanya tahu bercakap tapi tiada tindakan tidak diambil bagi mengatasi masalah tersebut.

Menyentuh tentang isu pembelian kereta buatan luar negara bagi kegunaan rasmi kerajaan negeri, sebelum ini negara heboh tentang pembelian kereta Mercedes C200 oleh kerajaan negeri Terengganu bagi kegunaan rasmi Menteri Besar dan ahli Exco negeri tersebut. Alasan Menteri Besar negeri tersebut adalah kerana kos membaikpulih kenderaan rasmi iaitu proton Perdana V6 yang tidak ekonomikal. Punyalah sensasi isu tersebut sehingga melibatkan campurtangan Perdana Menteri Dato Seri Abdullah Ahmad Badawi, dimana beliau telah membuat keputusan dengan mengarahkan Menteri Besar Terengganu tidak menggunakan Mercedes C200 yang telah dibeli sebagai kenderaan rasmi.

Baru-baru ini kerajaan negeri Perak pula telah menyatakan hasrat untuk menggunakan Toyota Camry sebagai kenderaan rasmi kerajaan negeri tersebut atas alasan yang sama seperti kerajaan negeri Terengganu. Ianya telah menyebabkan UMNO Perak mengeluarkan kenyataan bahawa pemimpin kerajaan negeri tersebut tidak patriotik. Tidak patriotik?? Persoalannya disini siapa yang tidak patriotik?? Saya nak tanya kepada mereka-mereka yang mengeluarkan kenyataan tersebut, kereta jenis apa yang mereka pakai??

Tidak perasankah mereka kenderaan yang digunakan oleh berbagai kementerian. Saya ambil contoh Kementerian Kesihatan Malaysia, kenderaan jabatan dibawah kementerian tersebut adalah dari jenama luar negara sebagai contoh Land Rover Defender (4x4), Nissan Innova (MPV), Nissan X-Trail (SUV) dan sebagainya. Memang betul belum ada kategori kenderaan yang saya sebutkan tadi dikeluarkan oleh pengeluar kenderaan tempatan. Tetapi isunya disini patriotik atau tidak kementerian tersebut??

Saya bukanlah penyokong Parti Rakyat. Tetapi janganlah mengeluarkan kenyataan yang amat memalukan kerana tidak puas hati disebabkan oleh kehilangan kuasa. Bukan apa UMNO sudah cukup dihina dan diletakkan ditempat yang paling bawah oleh kebanyakan orang melayu hari ini. Malah kaum lain juga mengambil kesempatan untuk menghentam UMNO.

Cubalah fikir dan mencari jalan atau formula untuk menyatukan semula orang melayu yang telah berpecah belah. Mencari kaedah untuk memantapkan lagi kuasa ekonomi orang melayu supaya dapat bersaing dengan bangsa asing.

Kesimpulannya pemimpin UMNO sekarang masih lagi leka dengan isu-isu remeh yang dimainkan oleh parti pembangkang. Kalau terus diamalkan akan menyebabkan bukan sahaja UMNO tapi orang melayu akan dihapuskan secara sistematik dinegara ini.

Sekian Wasallam

Assalamualaikum Tun yg di kasihi,

What I'm going to write to you here is infact out of context from the subject but I have no choice. My concern here is more abt the new CIQ in Johor Bahru.

This morning was the first time I tried the new CIQ after it was open yesterday. I left home at 5 am in the morning and planned to have my suboh prayers in Singapore where I'm working. I reach JB KTM where I parked my motorbike at 5.20 am and need a 10 minutes walk to the new CIQ where I need to queue for immigration clearance. I queue for 1 hour and cleared the immigration at around 6.30 am. After that I went down to the bus station where I was really shocked to see the crowd chasing and fighting to get into the bus. I finally squeeze into one of the bus kilang at 6.55 am and reach singapore at around 7.15 am with a bit jammed at the causeway. I finally cleared singapore immigration at 7.30 am and straight head for work where I arrived at 7.55 am.

Along the way, I saw a lot of inconvenience for pedestrians who have to walked all the way to the new CIQ and I encounter an old makcik who was complaining and rushing into the bus. I really pity her being sandwiched in order to get into the bus. I believe it's didn't affect the motor cyclists and motorcars as they have their own vehicles but it's really inconvenience and burden to pedestrians like me who have to walk all the way to the new CIQ and longer waiting time.

Previously when there are jammed in JB immigration or causeway, there are lots of peoples who will walk all the way to the Singapore immigration and it only takes roughly around 15 minutes walk. I, myself will walk to the Singapore immigration in the morning and walk to JB in the evening as it is a means of exercise for me and also save on the transpost costs so that I can donate to the orphanage. Also, normally I left home at 6.30 am and can still reach my work place by 8.00 am.

While waiting for the officers to scan and check my passport, I noticed the queue was not in order because there are no immigration officers to instruct. But when the queue becoming from bad to worse, I saw one of the officer came and shouted at us and told us to queue in one straight line and treated to handcuffed us and (even showed the handcuff) if we fail to do immediately. I was really shocked and sad to see such incidents at such hour when everybody were rushing to work to earn a living.

I really hope and wish that we, the pedestrians can use back the old immigration as to ease our burden and trouble. I propose, only public buses (Causewaylink and SBS) go through the old checkpoint cause for bus kilang, the workers didn't have to worry as the bus are waiting for them. My main concern are for the public buses. My second proposal are I hope the government can open back the old immigration for pedestrians only (No buses or vans). Let's say I parked my bike at the KTM, I can just walked all the way to Singapore Immigration.

Tun, I really hope that you can help me in this cause I didn't know who should I go to. Honestly, what I earned in Singapore in spent in Malaysia including taking care of my mum and in laws. When I spoke to immigration officers instead of assisting me, they will shout at me. I'm being honest with me words and may Allah protect you and long live TDM.

Wassalam

asalamualikum Tun

saya cukup kagum dan bangga dengan setiap apa yang diperjuangkan oleh Tun, Secara peribadi saya rasakan rakyat Malaysia cukup bertuah

kerana dikurniakan seorang PM mempunyai wawasan yang jauh.

Tun mempunyai pandangan yang cukup tajam berkenaan politik, dan perkara itu memang tidak dapat disangkal lagi. Setelah pengunduran Tun dari arena politik dan pentadbiran negara. Rakyat Malaysia telah kehilangan punca rujukan dan punca semangat untuk maju ke hadapan. Nasib kami sungguh malang kerana terpaksa ber-Perdana menterikan seorang yang singkat pemikirannya dan kabur dari segi halatuju. Kami amat merindukan suntikan semangat dan ide baru dari Tun.

Sehubungan dengan itu saya ingin meminta Tun mengambil kesempatan untuk menulis dan bercerita tentang idea-idea baru yang boleh dikongsi oleh semua rakyat Malaysia. Ini adalah kerana dibawah kepimpinan sekarang kami tidak mendapat sebarang input atau idea baru yang boleh kami jadikan pegangan untuk bersama-sama memajukan diri dan negara.

saya berharap Tun boleh mempertimbangkan permintaan kami.

Sekian, terima kasih

Salam TDM,

Memang betul kalau Pak Man Telo pandai cakap orang putih and pergi US, boleh jadi kaya. Tapi sekarang kalau Paul Madoff datang sini, mungkin dia jadi kaya jugak. Ini kerana kepimpinan sekarang mungkin terpedaya. Harap-harap March 2009, kita akan ada kerajaan yang telus dan teratur dibawah UMNO.

Sekian.

Salam Ayahanda Tun, just as widely expected, the Indians mega-steel money are digging deeper into Ford stables. And the latest news is even Amex is poised for a US government bailout. The http link below makes for an interesting read. I think that the well connected writer was trying hard to sugar coat the US governments bail out program by buttering every paragraph with patriotism and nationalistic pride - trying to make the bail out look heroic. Trying very hard to say that: Tun and his policies of once were absolutely correct to the hilt. Now we see if the Republicans would let the newly elected Obama incoming be that easy without the auto bail-out program. It has become quite complicated now with almost every cartel that has interest in cars, petroleum, pollutions and the stashed Jewish cash having their say and lobbyist in it. In Congress, you only have one chance to push for a bill to pass through. You fail at that, and then it's not going to be that bill anymore. The OPEC petro-dollars don't seem to be buying much anymore these days when even the workers union won't budge any longer over holiday pay issues. If let say the bail out comes through and OPEC goes right ahead in cutting oil productions, the speculators would have a field day making last minutes Christmas shopping money here. They could make more cars in Detroit's big three, but could they sell them? Easy credits were what that had gotten them into all this mess in the first place. So it's fascinating to see now, as money could just be made both ways, but it's just that either way would still spell doomsday for the US auto industry. So what value does the USD really holds anymore? In my book the situations in America has just comes down to one's own pocket rather than the nation's coffer; it's every man for him-self with the US auto industry now. And I have little doubt that Obama today does quietly shares the wish that he has the political will power such as the one Tun had during the 1997 Asians financial crisis. You just don't go through several committees in order to get green light to resuscitate a drowning victim do you? Take care and keep warm Ayahanda Tun.

SALAM AYAHANDA RAKYAT TUN
IZINKAN,

...

7. Pak Man Telo would probably have done better if he had gone to New York where he would not have the Malaysian Government overseeing such activities. Or perhaps the SEC might learn some lessons from Malaysia as indeed the US Government has learnt about bailing out companies.

PAK MAN TELO-NEW YORK ASIDE, HOW ABOUT THE MALAYSIAN GOVERNMENT OVERSEEING THE CURRENT UNHEALTHY STATE OF AFFAIRS IN OUR COUNTRY?...

THE ECONOMY, POLITICS AND ABOVE ALL THE 'PERPADUAN RAKYAT' WHICH 'IF NOT SERIOUSLY TREATED' WILL SLOWLY BUT SURELY SLIPPED INTO THE DEEP END OF THE LAKES OF PUTRAJAYA!

IS IT ORDAINED BY THE ALMIGHTY THAT WE HAVE TO FACE A 'BLEAK' FUTURE OR JUST HUMAN 'APATHY' AND NOT APPRECIATING THE BLOOD, SWEAT AND TEARS OF AYAHANDA TUN AND HIS PREDECESSORS BUT DONKEYED BY 'GREED' FOR POWER AND WEALTH?

MAY 13TH, 1969 WAS A BITTER LESSON LEARNED.. DON'T NEED ANOTHER ONE!

IT WILL BE A PITIFUL SIGHT TO SEE THE ASPIRATIONS OF ALL THE 'HUI LINGS' WANTING TO BE PROUD/STARS OF MALAYSIA ALONG THE ROUTE OF VISION 2020 VANISHED DUE TO FAILURES TO LEARN FROM HISTORY!

BRADER 'JAMILMALIK88' COMMENTS ARE GOOD FOR THOUGHTS BUT FRIDAY 21, 2012 (GMT)..LET US NOT MEDDLE WITH THE ACT OF THE ALMIGHTY, OK?

ALFATIHAH, AMIN

By Kassim Mohd Hussain on December 17, 2008 11:13 AM

Salam Tun,

Some Malaysians have chosen to be ignorant of the evil intentions of people like Pak Man Telo. Like Pak Man Telo, Bernard Madoff engineered a scheme targetting 'select people'. Greed makes them gullible, therefor an easy prey. By nature, only people with money fall into this simple scam promising high returns within a certain time frame. These people are driven by none other; but greed! By allowing this greed to overwhelm them, they lose their rationale.

This too can happen to a developing country that needs international loans to build their infrastructure. Such loans can only be gotten upon accepting the 'recommendations' from the 'funder'; and these make-believe recommendations normally coerce the borrowing country to engage companies and their expertise from the 'lender' country. And this is how the lender country would funnel back the money thus enriching their own corporations, leaving the borrower bankrupt and forever beholden to their creditors.

Beware! These financial institutions operate in different names, but their goal is to enriching themselves building an empire and to turn you into their slaves.

Salam Tun,

Apa kata Tun ulas mengenai VIRTUAL MONEY yang akan kita guna pada masa akan datang apabila kita sendiri sudah tidak percaya dengan sistem kewangan yang ada sekarang. Main frame telah ada dan dibangunkan oleh bangsa yahudi..."

"Virtual Cash" adalah sebuah modul sistem kewangan "virtual" untuk digunapakai dunia kelak. Penggunaan sistem ini di Malaysia (anjuran bank-bank) sudah pun mula ada. Inilah platform terbaru ciptaan para pakar kewangan Yahudi demi untuk rancangan "New World Order" mereka. Krisis yang bakal diundang adalah lebih dahsyat daripada apa yang telah pernah kita lihat selama ini. Dan pastinya, mereka telah pun juga ada penawarnya sekali. Rentak sistem kewangan dunia yang ada hari ini hanyalah sebuah "concerto philharmonic" Yahudi. Di harap Menteri Kewangan yang ada pada hari ini tidak juga nyenyak lena dalam pejabat seperti mana Menteri Kewangan sebelum beliau dulu, iaitu Pak Lah – semasa sistem virtual cash ini telah diperkenalkan di Malaysia beberapa tahun dahulu.

Terima kasih Tun.

Saya sangat tidak bersetuju dengan pendapat Pegawai Kerajaan diatas ini. Tapi itu lah. Setiap orang memiliki kebebasan untuk menyuarakan pandangan dan pendapat masing-masing. Jangan salahkan Pemandang asing jika orang kita kekurangan peluang pekerjaan. Kita sebenarnya yang tidak mahukan bekerja sebagai buruh kasar. Anak saya, anak kamu dan anak diorang. Kadang tu kita tuduh pendtg asing mencuri. Padahalnya anak kita sendiri. Cuba cermin diri dulu.

Salam Tun,

Dulu Pak Man Telo , otaknya agak cerdas kita semua kena tabik dengan dia kerana keupayaannya buat duit cepat kaya . Bank Negara sepatutnya ambil dia ini jadi perunding ekonomi. Bernard Madoff ini lagi pandai ,otak geliga tipu satu dunia dan yg melucukan dia tipu Co,Bank dll yg besar dan terkenal pula tu . Tipu pula bukan juta tapi billion. Sungguh melucukan bila yg cerdas pandai kena tipu.Bank bank diMalaysia ada yg dah kena dengan Bernard Madoff ?

Pendapat PegawaiKerajaan memang betul Di mana mana Indon ,Bangla,India pendatang.Kerajaan tidak control? atau gejala rasuah?.Ada pula berniaga macam di Pasar Chow Kit,Maluri ,Selayang Pasar Malam penuh dengan Indon & Bangla.Pendatang ini diambil untuk kerja Estate & binaan kenapa berniaga pula. Tolong batalkan lesen kalau dapat tangkap bagi Pendatang guna lesen orang. MPT,BPR pun kena melawat pasar sekarang.

Rasuah ini ambil pun salah & beri pun salah (makan duit haram)

Tun

Memang Pak Man Telo ada di mana-mana tetapi yang paling sedih sekali ialah orang yang diharap menjadi 'watchdog' sendiri tidak boleh diharap. Kebanyakan penyelewangan dan jenayah di negara kita dalam pengetahuan pihak berkuasa tetapi dibiarkan kerana muslihat dan rasuah.

Kita lihat sendiri betapa banyaknya bekas Menteri Kewangan Dato Seri Anwar Ibrahim dan kunco-kunconya memperabih duit dalam ABRAR tetapi hingga kini dibiarkan. Malah beliau sekarang berani bercakap pasal penyelewangan dan rasuah. begitu juga Pak Lah, gubal MACC bukannya apa tetapi bagi mengaburi mata rakyat tentang kegiatan anak dan menantu.

Begitu juga Tun Daim ketika dalam kerajaan berbilion dilesapnya tetapi tiada tindakan. jadi kalau orang Melayu yang berkuasa merasakan mereka kebal dari tindakan undang-undang, dan memilih serta menyokong jembalang di kalangan mereka, maka tunggulah kehancuran bangsa.

Sandiwara Dato Seri Anwar misalnya-beliau paling ramai membela balaci yang sebat dan rasuah, dan sesetengah mereka ini menjadi ahli Parlimen PKR sekarang. Seorang jadi banker di Melbourne. Berapa ramai taukeh Cina yang mengaut keuntungan dari permit, lesen, judi dan pemberian kontrak tanpa tender di zaman beliau menjadi Menteri Kewangan.

Semua sebat tetapi nampak macam hebat sekarang sebagai pejuang Keadilan. Kalau nak Keadilan minta pulangan wang rakyat. Semua bilang mau tabungan 'war chest' tetapi semua lesap dengan 'chest' nya sekali. Dalam PAS orang seperti Husam pun sama, berapa ribu ekar tanah hutan Ulu Kelantan diserahkan kepada tauke China untuk tanam kelapa sawit. Premium dia dan kunco-kunco dalam exco Kelantan sebat lebih dari premium perolehan Kerajaan Negeri.

Jadi Pak Man Telo di mana-mana, yang berkot dan berkopiah, berhaji dan berhajah, tanpa segan silu menipu dan terus menipu.
Sungguh Tuhan akan laknatkan mereka jua sehingga 7 keturunan kerana makan duit haram kemudian laungkan perjuangan dan kebenaran. Porah!

Assalamualaikum Tun,

Baru2 ini negara telah mempunyai 1 pintu masuk yang baru untuk menggantikan Pintu masuk tambak johor walaupun tanpa ada jambatan baru pada hemat saya, bangunan sultan iskandar(CIQ) yang baru2 ini dirasmikan daripada pandangan saya adalah amat tidak strategik dari segi keselamatan dan kedaulatan tanah air. ini adalah kerana secara logik akal nya pintu masuk darat mana2 negara adalah terletak disempadan negara. akan tetapi CIQ yang baru ini terletak terlebih kedalam negara. maksudnya masuk dahulu baru periksa bayangkanlah jika ada mana2 penjenayah atau ejen2 perisikan dari negara lee kuan yew yang nak melarikan diri kesini. mereka dengan mudah dapat meloloskan diri kedalam negara kita tanpa melalui pemeriksaan keselamatan..macamana nih ?? dimanakah letaknya kedaulatan

negara yang dilau-laungkan selama ini?? saya sebagai orang kebanyakan ingin tahu buah fikiran dan pandangan tun dalam hal ini.

Salam TUN.

Kita rakyat Malaysia ini di kira lebih bertadmadun dan maju kira di banding dengan sesetengah negara luar sana tu.

Banyak rakyat nagara luar kini mencontohi teladan nagara kita.Dan ramai dah percaya sistem urusan negara di pelbagai bidang menjadi model mereka. Negara maju barat juga kini mengakui banyak perkara yang kita lakukan sememangnya baik dan wajar.

Tapi sedeh nya rakyat negara sendiri pulak yang tak percaya kejayaan negara sendiri. Maseh percaya sesuatu dari barat itu dah pasti baik. Menyanjung tinggi pemimpin2 barat.

Sistem ISA kita berkesan mengekang keganasan dan huru hara dalam negara. Tapi ada rakyat hendak menghapuskan nya. Nyata orang2 ini sengaja hendak merosak kan sistem negara kita. Lebih suka akan keadaan tak menentu dan huru hara.

Ada banyak negara maju juga memperkenalkan sistem seumpama ini. Malah ada yang lebeh zalim lagi, tapi tak pun kecu.

Singapura pun ada ISA. USA pun ada ISA ala Malaysia.GB.pun ada.

Saya harap kerajaan tidak akan tunduk dengan tekanan puak2 yang menentang ISA. Mereka ini ada lah puak2 yang suka mencetuskan huru hara, kerana itu mereka tidak mahu ISA.

India kini sedang mengkaji untuk melaksanakan ISA untuk mengekang keganasan.

Saya kagum melihat rakyat Iraq bergitu berani mencabar Presiden Amerika George W'Shoes'. Tapi ada rakyat Malaysia menagong2kan President Amerika tu....

Tun,

I beg to differ.Its the art of managing the risk.And that about it.

Bernard Madoff or even our own version Pak Man Telo perhap not much different than a stock broker,investment consultant and the like.The only few differences is he operate illegally(without license)so they are not bound by a set of rules and regulation by the authority, therefore their trustworthiness become an issue.

They share many similarity, their so call advised on stocks or derivative is not binding. You cannot sue

them for bad tips or wrong doing when you lost or the fund they manage went kaput. Given they follow the risk portfolio and no hanky panky of course.

As for the ability to convince the people, I think, it's the basic thing in sale and marketing and investment and etc etc. Such are true in politics also. You should know better. People won't complain when they earn a lot for many many years from such investment until their "broker" make a wrong call. And in investment hierarchy, the upper one is more or less like gambling, where things between the complicated market prediction formula and human behavior become really blurry, a calculated risk is a fancy term. Nor Mohamed should know better.

@pegawai kerajaan

Indonesia dan Bangla ni lah yang menyumbang kepada kemakmuran hence kesejahteraan kepada anda. Kaum Cina tidak akan melakukan kerja-kerja burokrasi macam mereka, mereka menjadi tauke atau paling tidak/komang supervisor, yang tinggal hanyalah melayu (malas? I don't think so) dan India. Keadaan ekonomi negara banyak berubah sepanjang masa. Mereka-mereka ini juga seperti anda inginkan kehidupan yang lebih baik, dan seperti anda juga mereka ini juga mengintai peluang-peluang pekerjaan yang lebih baik (darisegi tenaga dan juga upah) seperti mana rakan-rakan mereka yang berpendidikan yang melakukan job hopping didalam dunia korporat. Jadi kekosongan ini akan diisi oleh tenaga buruh asing. Keadaan ini adalah normal di seluruh dunia, cuma apa yang membezakannya ialah cara kita menguruskan tenaga kerja kita, yang mana bagi pendapat saya banyak kekurangannya.

Saya setuju kita patut kawal kemasukan asas a mean proper record keeping of immigration. Sebagai negara berdaulat kita perlukannya. Tetapi kita tidak boleh menghalang rakyat asing daripada menggunakan kemudahan awan. Ini adalah keperluan asas manusia dan anda sudah tentulah tidak mahu menjadi Afrika selatan dahulu.

Jika anda berkeras mahu menghalang warga asing dari menggunakan kemudahan awan ini, fikirkan bagaimana nasib mereka? mau naik kuda ke?
go figure! haha

.....SKIM CEPAT KAYA - UMNO

Pak Man Telo need not go to New York. He just needs to join Umno! Umno runs the biggest get rich quick scheme in M'sia. Compare the abilities, background, experience of these people and their riches with Madoff. Zak... D..., Ah... Is..., A..... family, R.... family and M..... family? Go thru the cronies list revealed by Tun to spite certain people at one Umno assembly.

Who needs a ponzi scheme where you can get caught? If you can run Umno, you can arrest your accusers and competitors with ISA! How sweet!

They are now hoping for a fatwa to legitimise and glorify their effort. Their 'sacrifice' is for the noble ketuanan, maruah bangsa, hak pusaka etc. How sweet they sound but they stink from a mile away!!!

Nak jadi kaya memang susah, tapi kalau kena gayanya tak minta pun dia akan datang juga. Itulah yang dinamakan nasib.

Sebenarnya di Malaysia ini, kalau kita makan gaji sekalipun sepatutnya kita harus ucap syukur banyak2. Cukup bulan terima gaji beli barang makan minum, boleh bayar ansuran motor, kereta dan duit rumah. Ada lebih boleh belanja sikit2. Cukup tahun kalau ada rezeki dapat bonus sebulan dua, kita keluar makan

angin atau tampung-tampung apa yang patut. Bila pencen duit dalam KWSP ada lebih kurang 50k (kalau gaji lebih maka banyaklah lagi) Saki Baki hidup itu kita rai anak cucu dan buat hobi2 yang selama ini tak kesempatan. Sampai mati pun tak kebulur hidup di Malaysia ni.

Tapi kalau pandai sikit, suka berjimat dan buat simpanan tetap, belum sampai masa bersara pun akan nampak hasilnya. Melabur di unit trust misalnya, melabur di ASNB (ada yang buat pinjaman bank untuk ASB pula sehingga 200,000) melabur insurans dan SSP-BSN dsbgainya boleh mendatangkan hasil yang tak kurang hebatnya.

Kalau konsisten, pekerja yang bergaji hanya 1000 dapat merasa 200,000 dalam simpanan apabila dah tua. Jangan pula bila sampai umur pencen motor-kereta tak pakai, tanah-rumah sendiri pun tiada dan dalam tabung kering entah macamana, akibat boros dan salah urus perbelanjaan sendiri.

Yang pentingnya adalah sikap jimat-cermat dan simpanan yang tetap. Namun begitu tanpa pengurusan kewangan yang betul dari awal duit itu tetap akan habis dengan cepatnya.

Bertindak segera..

Dear Tun Yang Dihormati, diharap berada dalam keadaan sihat selalu.

Terima kasih atas komen pelaburan Madoff. Banyak pengajaran yang bolih didapati, sekarang saya terkenang nasib orang2 yg melabur dlm sekim ini - mcm2 keluhan yg ditulis. Mcm mana the best brain in the world seperti dlm HSBC, Royal Bank Scotland dan lain2 badan pelaburan yg terkemuka tak dapat kesan yg sekim ini tidak ada satu business pun, tapi dapt bayar dividen sepanjang masa.

Balik kepada negara kita, KWSP dan PNB, yg menjaga duit kita, bolihkah the best brain yg kita harapkan ini tidak membuat kesilapan yang same. Dulu2 KWSP kena melabur 90% simpanan dlm bond kerajaan, walupun pendapatan nya rendah, apabila pencen ada juga duit yg kita simpan. Sekarang KWSP bolih melabur dlm syarikat perniagaan. Awal tahun ini terdapat satu kecuh dimana KWSP hampir tersilap melabur dlm satu komputer company. Sekarang terdapt satu syarikat yg dilabur oleh KWSP yg rugi, sedangkan syarikat induknya ada untung yg banyak, betulke duit diguna untuk anak syarikat.?

Setelah pencen saya keluar semua duit KWSP dan masuk kedalam PNB, dah rasa berdebar sekarang, ada lagi ke duit itu esok hari dan tahun2 akan datang. PNB pun kena tanya dimana wangnya dilabur oleh syarikat pelaburan yg dilantik olehnya, kalau nasib yg samalah kita.

One, terrorised...bombed and killed people and they too in return ..got jailed, bombed and killed.

And another one, cheat and swindled off people of billions of dollars and... they get bailed out!!

Salam Ayahanda Tun, please allow me to express my support for fellow comentor HBT, in regards to her comments made on December 17, 2008 6:30 AM.

Dear HBT, I did not want to add anything to it, but when it touches on the very sacred "Nasik Kandar", I just had to stand up and throw all cautions to the wind and just rumble along with you on this one. Datuk Shahrir is one dumb bloke when it comes to the proper pricing of Nasik Kandar. Everything has gone up! On my recent trip to KL, I ordered a plate of Nasik Kandar at my favourite eatery and when the plate arrived, I actually took snap shots of it on my hand phone for my laptop screen saver and wall paper. The Nasik Kandar was gold, but the price was RM11.70 -excluding my kopi ais and fresh milk desert! This was the price for Nasik Kandar along the shop rows right next to Central Market KL. Gila kut Datuk Shahrir ni? How could he hide the facts that he is screwing up due to no stupidity of his? Off course it's his boss, Dollah Badawi the Penangnite who "lupa" the sanctity of Nasik Kandar! When he dum-d-heartedly raised petrol up 40% then, he had lost one half of his brain power already. Now he is running along on 50% capacity, what can we expect HBT? This guy is one lame cockroach sudah kena spray running about the floor. Datuk Sharir, I concur with the Star writer on the sorry state of pricing as per our cost of living in Malaysia these days. You (Datuk Shahrir) an economic grad from Lucerne Switzerland (yes, the country where they have needle park for addicts to fix joints and jabs and count stars), why don't you put your Swiss trained mind on the matter and finally say that its not your fault you cant do your stupid job; its Dollah Badawi's fault! Then you see the wave of supporters behind you. Datuk Shahrir, you must stop running along in circles in your small few hyper-marts world, that you are always using as bench-marking formula on pricing for the whole nation! Where is your enforcement teams? Maybe like I have said before, the government should just do direct trade with the public on essential goods and items. Use all nationwide government agencies facilities and use salaried government staffs as kakitangan. Use KTMB and the military logistics for dirt cheap and efficient goods transportation modes. Make the government take back these functions from un-cooperative/greedy retailers of goods. If you admit that you are failing at your job then you will see many other better options opening up. Again I say it here, I am greatly saddened by this trend in Nasik Kandar and all stuffs pricing lately in Malaysia. What was it again Dollah latest slogan? Want not Fear not? Sudahlah, cakap saja, tapi tak shrupa bikin punya, cheh! Good luck at PRU13. Remember the tag line of Woody Woodpecker: That's all folks!

Sorry Tun and I beg your kind understanding Tun, but when it comes to Nasik Kandar, we must stand firm and draw the line. I write in honor of Line Clear.

asalamualaikum Tun,

Maaf kalau saya terkeluar tajuk asal, tapi ini adalah issue "urgent" yg terpaksa saya kemukakan pada Tun, sebab dah tidak ada tempat lain nak mengadu.

Issue pengswastaaan IJN(Institute jantung Negara). Saya rasa privatisation IJN tak patut di buat.

Tiada perniagaan di dalam dunia ini yang mahu keuntungan yang sedikit. Lojiknya, kalau untung sedikit, lebih baik bertukar kepada perniagaan lain yang lebih menguntungkan, buat apa buang masa.

Janji peniaga korporat ini untuk membantu, biasanya hanya akan kita lihat terlaksana di peringkat awal sahaja. Lama kelamaan sedikit demi sedikit akan hilang atas berbagai alasan.

Maka rakyat yg miskin dan yang tak berkemampuan akan terbiar merana tersiksa dengan penyakit yang makin popular ini. Tun sendiri tahu bagaimana sakitnya penyakit jantung ini.

Pesakit-pesakit yang tidak berkemampuan ini akan hanya tunggu hari kematiannya yang mengejut sedangkan mereka tahu ada cara mengubatnya,yang telah terbukti kejayaannya beberapa tahun yang lalu di IJN, dgn bantuan keajaan. Itu lah tanggung jawab asas kerajaan yang sekarang ini telah beransur-ansur hilang.

Oleh kerana Tun adalah pengasas IJN dan juga di atas dasar kemanusiaan, saya pohon Tun untuk bersuara kepada media dan kerajaan untuk menghentikan pengswastaaan ini demi membantu mereka yang akan malang ini.

Semoga Allah merahmati Tun dengan usaha ini.

Yee.

I 100% agreed with you, Shahril Samad is not just only stupid, an economic graduate from Switzerland, who knows nothing about our economy, malulah rakyat Malaysia.

I am just like you and I hate the way he wrote his view in star online, giving alasan in launching the price reduction in Hypermarkets and Supermarkets, thus his responsibilities have already done. He excused himself that he cannot force cooked food and small retailers to decrease prices. He was the one who allowed these hyper and super markets to charge a very expensive listing fees and also allowed them to come out with their own brands, now he is protecting his wrong decision, due to our Pak Do's decision on increasing the petrol price secara mendadak, by blaming the small retailers and restaurants for not reducing the price, nampaklah dia ini a hopeless and useless menteri that needs to be swept out.

I am very dissapointed with China Press who interviewed him and put him in the headline few weeks ago, explaining to the readers that it is not easy for him as the menteri hal ehwa pengguna by showing the readers some of the nice complain SMS just to lega & tipu the chinese by protecting some non-government associations, bukan rakyat. The actual fact, he is just a lipas dah kena spray, waiting for its (his) doomsday. He has done nothing in bringing down the consumer and services prices using his responsibility as the menteri. Dia ini juga adalah menteri 2 X 5 yang rakyat TAK NAK.

I sincerely hope that through che det, we can flush out lipas2 jenis ini. Tahu naik harga, tak tahu control price bila harga minyak turun 7 kali. Our BN top guns have forgotten our Rukun Negara and syok sangat nak jadikan negara kita sebuah negara sama dengan Singapura dan America, sebuah negara demokrasi and capitalism, mana boleh!!!! Our menteri2 ingat rakyat masih bodoh ke????

Let's continue our work Kamal to make our country a decent living country that everyone is comfortable and feel safe to live in harmony and peace for our future with Tun.

Take care Kamal.

Till then Tun.

Dearest Tun,

1. Only the GREEDY and those with "akal pendek" will fall for these Ponzi "get-rich quick" schemes.
2. What's so funny is the fact that some people can be fooled by these schemes AGAIN and AGAIN..."TAK SERIK".
3. Better put the money in ASB, ASN, ASM, etc...at the end of the year we gain at least 8-9% dividend+bonus; slowly, but surely we will make money.

May Allah SWT bless Tun and family.

On one hand was one smooth, sweet convincer. On another hand were people who wanted to get rich. It is a sin to mislead people. However during this present moment of economic crisis, if there is a Malaysian Bernard Madoff, he would be doing the country a great service. At least, he is bringing in money to this country. For a start, the government can tax him and the taxes become the people's money. Or if he realizes his sins after making all the money, he can invest his money in the country and creates jobs for the people.
