

GAZA AID CONVOY
June 03, 2010
chedet.co.cc

1. The Israelis claim that the activists on the M.V. Mavi Marmara had attacked their commandos with guns, iron rods, scissors and pointed sticks.
2. The last time Free Gaza sent a small boat to take relief supplies to Gaza, Israeli commandos boarded it and towed it to Ashdod.
3. The activists must know that the same thing might happen to them. But it is ridiculous to suggest that the civilian activists planned to fight against the well-armed and well-trained Israelis.
4. Claiming that the activists attacked the commandos first is equally ridiculous. The forces ranged against them were powerful and enormous, capable of sinking their boats. The Israelis have been known to ram supply boats with their armoured naval vessels. What is clear is that the Israeli's were the ones to attack first by dropping their commandos from the helicopter.
5. The Israelis claim that the activists seized the pistols belonging to the commandos. Again this is ridiculous. These are trained soldiers, wearing protective armour and most certainly skilled in unarmed combat. It is most unlikely that raw activists can disarm and seize the guns of the black-suited commandos.
6. In any case, shooting with live bullets against a group of civilians probably armed with wooden sticks is unjustified. The hazy pictures shown by the Israel propagandist of rods being used may not be iron rods at all. They could be wooden sticks as the pictures are dark silhouettes which cannot be identified as activists or soldiers.
7. Our Malaysian reporter who has been released and is in Jordan tells of wooden sticks and water jets from fire-hoses which were used by the activists. His story is much more credible. But knowing the Israelis, they will continue to lie about their criminal acts even if they are seen to be committing them by the whole world.
8. Incidentally, the Rachel Corrie is named after a brave 23 year old American girl who stood in front of a bulldozer which was about to destroy a Palestinian house. The Israeli operator of the bulldozer simply ran over her and killed her. This is the standard behaviour of Israelis. The much condemned Chinese faced with the same situation, stopped his tank.
9. It is no surprise that the Israeli commandos would readily kill unarmed civilians. This is the degree of their arrogance. Their sufferings during the holocaust has not made them better humans. They are worse than the Nazis.

Semoga mendapat izin dan berkenan Tun..

Tun..what is so difficult to manages is this kind of gentleman who is refines in his attitude an application.The danger in this kind of approach is so appealing to masses of the people and the people of the masses.I really hope his conduct is more like our "Cultured Prof Azmi"..Nevertheless..here goes..

[[That was your question. But I already explained to you that Prophet Ibrahim was the first person to do Salat.]]

You were wrong Encik Abdul Aziz.The first person who performs solah is Prophet Adam a.s.The subuh prayer's.

[[You just said that Quran is not specific. When God stated clearly, that it is fully detailed.]]

Again.You were wrong.Here is something for your dear perusal.

AN Nur [32]

Dan kahwinkanlah orang-orang bujang (lelaki dan perempuan) dari kalangan kamu, dan orang-orang yang soleh dari hamba-hamba kamu, lelaki dan perempuan. Jika mereka miskin, Allah akan memberikan kekayaan kepada mereka dari limpah kurniaNya kerana Allah Maha Luas (rahmatNya dan limpah kurniaNya), lagi Maha Mengetahui.

How does Allah explains marriage in Quran explicitly? And how does Muslim get's married? According to Rasullulah s.a.w decree or according to iKOS??

Ikut Kepala Otak Sendiri??

[[I am very sincere with you brother Wajaperak to make you understand and be as polite as I can. But I know it is very hard to explain because you do not read the Koran. If you read, God will guide you because He is the teacher of the Koran]]

Ha..ha..How to respond to this..bro?..I read Quran daily almost 30 words per day..But the very essence of Al Quran is not read like when read "mathematic".You cannot read mathematic..You have to understand the arimethic in part of the equation..More so AL Quran..

[[Can you imagine if the whole Muslim population and anyone out there would read Quran and study it, how powerful would it be? How much blessing will God give upon us? You ever asked that yourself?]]

They did..are doing and ever will do..But the outcome is not what most "layman" care to imagine.Most saw achievement in something they can show..In Islam the supreme and divine knowledge is in something that you can

Reproduce.

[[When Abraham implored God in 14:40, he did not ask for wealth or health; the gift he implored for was: "Please God, make me one who observes the contact prayers (Salat)." The religious duties instituted by God are in fact a great gift from Him. They constitute the nourishment required for the growth and development of our Souls. Without such nourishment, we cannot survive the immense energy associated with God's physical presence on the Day of Judgment. Belief in God does not by itself guarantee our redemption; we must also norish our souls (6:158, 10:90-92). Additionally, 15:99 states that observing the religious duties instituted by God is our means of attaining certainty: "Worship your Lord in order to attain certainty."]]

Abdul Aziz..I truly feels for you..My question is simple.And I will repeat it as simply as it is..

How..and how do you performs solah?..
Methodologically how from the command from Al Quran?..How??

[[The proof that Salat was already established through Abraham is found in 8:35, 9:54, 16:123, & 21:73.]]

Again..you found the path in the middle..It was started from Nabi Adam a.s.Jibril's taught and showed Adam a.s how to do it explicitly..

[[God's law is God's law. You cannot play around with it. That is why I cannot rely on Hadith because it does not provide me authentic proof that whatever they wrote come from Muhammad. Muhammad;s duty was only to deliver the message which is the Koran. But not to explain the Koran. Because God says He is the teacher of the Koran. If Muhammad were to explain the Koran, then of course people are no longer worshipping God but instead worshipping Muhammad]]

If I says your argument is childish you will surely angry at me..But look at the way you put forward your argument..Explains the way how muslim's consumated their marriages where you and I and everbody else "sprung" from this covenant.

[[Hadith was written 200 years after Muhammad died. So how can you guarantee me that whatever is written in Hadith is true and correct? Can you prove that?]]

You were wrong here Abdul Aziz.Hadith were not written.They were documented.Please see the different and the distinguish aspect Properly.Ask yourself truly.How were you borned? In Hospital? At home?..SVD? Caesarean? Forceps?..Who documented them? What is the narration in the case notes?..From the attendant? The nurse? The Doctor?..Who is the figure's of the authorities?..What malparctice take place or guaranteed not take place? Under whose jurisdiction this is allowed to happened? Under what Convention? And you truly believes you birth certificates saying and claiming that you are somebody,son of somebody..Why?..Why do you believe's this world "dictation" ..rule,law's and regulation?..Why?..But at the same moment you queries Hadith that is more authentic than any of this world Institution?

DONT YOU GET IT???

[[I hope I asnwer your question. But you must also show me prove of my question from previous post]]

You sure do that shows how much shallow is your argument.

It is well established principle of Malaysian Criminal Law that the general burden of proof lays throughout the trial on the prosecution to prove beyond reasonable doubt the guilt of the accused for the offence with which he is charged.There is no similar burden placed on the accused to prove his or her innocence.

Mine in accord.

Tun like alway's someone will wonder what this all got anything to do with GAZA AID CONVOY the title of posting?

Beat the hell of me too..:)

A;kum Tun,

Please allow me to reply to brother Wajaperak.

By wajaperakAuthor Profile Page on June 19, 2010 1:26 PM

Assallammualaikumwarahmatullahiwabarokatuh..

Semoga mendapat izin dan perkenan Tun..

Tun..may you allow the space and time to indulge me Encik Abdul Aziz.
He will run out of steam soon..very soon.

So..Encik Abdul Aziz..just answer's my very simplest question.

Macam mana cara anda sembahyang?

How do you perform daily prayer's?

On what medium the command,rule's and regulation came to you?

Al Quran does not state it as specific.

How do you do it?

Where is the documentation and how do you obtain it?

Humour me.

That was your question. But I already explained to you that Prophet Ibrahim was the first person to do Salat. Even before Muhammad was born. In this case, God protect the Salat according to His will. He does it the way He wanted it. He kept it safe and correct since then. But the wrong thing we did today was by mentioning other names in your contact prayers. That is wrong. You do not need to mention any other names except God.

You just said that Quran is not specific. When God stated clearly, that it is fully detailed. So I cannot argue with you because you do not believe in the Koran, instead you believe in the Koran and something else. So long you have this, then we can never get to understand each other. I am very sincere with you brother Wajaperak to make you understand and be as polite as I can. But I know it is very hard to explain because you do not read the Koran. If you read, God will guide you because He is the teacher of the Koran.

Can you imagine if the whole Muslim population and anyone out there would read Quran and study it, how powerful would it be? How much blessing will God give upon us? You ever asked that yourself? Instead of having sections among us, we should be united by studying the Book alone. Nothing else. Since God stated that He is the teacher of the Quran, so He will guide whoever He wills. Does not mean if that person is from Malaysia, Nigeria,England or anywhere in the world. If God decides to bless them and give them good news about the Koran, God will do it. It is very easy for Him. We human being have no power on that.

But first of all, we should be united in studying the Koran alone. Then insyallah God will guide us all. That is all I am asking here. Nothing more, nothing else. After that, God will guide you because He is doing everything.

On your question about where can we find the way to do Salat in the Koran and where do I get the information from.

When Abraham implored God in 14:40, he did not ask for wealth or health; the gift he implored for was: "Please God, make me one who observes the contact prayers (Salat)." The religious duties instituted by God are in fact a great gift from Him. They constitute the nourishment required for the growth and development of our Souls. Without such nourishment, we cannot survive the immense energy associated with God's physical presence on the Day of Judgment. Belief in God does not by itself guarantee our redemption; we must also norish our souls (6:158, 10:90-92). Additionally, 15:99 states that observing the religious duties instituted by God is our means of attaining certainty: "Worship your Lord in order to attain

certainty."

The Contact Prayers (Salat)

The five daily contact prayers are the main meals for the soul. While a soul may attain some growth and development by leading a righteous life, and without observing the contact prayers, this would be like surviving on snacks without regular meals.

We learn from 2:37 that we can establish contact with God by uttering the specific Arabic words given to us by God. Sura 1, The Key, is a mathematically composed combination of sounds that unlocks the door between us and God:

1. The Dawn Prayer must be observed during two hours before sunrise (11:114, 24:58).
 2. The Noon Prayer is due when the sun declines from its highest point at noon (17:78).
 3. The Afternoon Prayer can be observed during the 3-4 hours preceding sunset (2:238).
 4. The Sunset Prayer becomes due after sunset (11:114).
 5. The Night Prayer can be observed after the twilight disappears from the sky (24:58).
- * The Friday noon congregational prayer is an obligatory duty upon every Submitting man and woman (62:9). Failure to observe the Friday Prayer is a gross offense.

Each contact prayer is valid if observed anytime during the period it becomes due until the next prayer becomes due. Once missed, a given contact prayer is a missed opportunity that cannot be made up; one can only repent and ask forgiveness. The five prayers consist of 2, 4, 4, 3, and 4 units (Rak'ahs), respectively.

The proof that Salat was already established through Abraham is found in 8:35, 9:54, 16:123, & 21:73. This most important duty in Islam (Submission) has been so severely distorted that the contact prayers (Salat) have become a practice in idolatry for the vast majority of Muslims. Although the Quran commands that our contact prayers must be devoted to God alone (20:14; 39:3, 45), today's Muslims insist on commemorating "Muhammad and his family" and "Abraham and his family" during their prayers. This renders the prayers null and void (39:65).

So here you know that from the Koran that Prophet Ibrahim did the contact prayer. He taught his family to do the same and protected and guided by God. Up until today, God still protect the Contact Prayer.

Please do not question whatever is written in the Koran. You just have to read and follow. That is it. Nothing else. God's law is God's law. You cannot play around with it. That is why I cannot rely on Hadith because it does not provide me authentic proof that whatever they wrote come from Muhammad. Muhammad's duty was only to deliver the message which is the Koran. But not to explain the Koran. Because God says He is the teacher of the Koran. If Muhammad were to explain the Koran, then of course people are no longer worshiping God but instead worshiping Muhammad. Muhammad does not want that. Muhammad is the best example of human being that followed God's law and live a righteous life just like other Prophets. Harun, Musa, Ismail, Ishak, Yaakob, Yusuf, Ayub, Zakarian and many more. We support Muhammad of what he had brought us, the Koran. Not hadith. Hadith was written 200 years after Muhammad died. So how can you guarantee me that whatever is written in Hadith is true and correct? Can you prove that?

Even today you see how many millions of Muslims around the world do not even bother to read the Koran. So long they choose not to be with God (by not following the Koran), so long the Muslims will live a miserable life in this world.

I hope I answer your question. But you must also show me prove of my question from previous post.

Thank you Tun, and God bless you!

Dear Wajaperak,

The problem with us today is that, we are claiming ours is the best Islam and what not, but God knows which is accepted and most righteous.

Then God will judge us. As simple as that.

But if you have Hadith and Koran to follow as your guidance, which one you wanna choose then? Can you please tell me? I've given you proof from the Koran when God says that there is no better Hadith other than the Koran!

A'kum Tun,

Please allow me to show some prove to our friend Wajaperak about the existing of Islam!

Millat Ibrahim

Islam is called "Millat Ibrahim" (The Religion of Abraham) throughout the Quran (2:130, 135; 3:95; 4:125; 6:161; 12:37-38; 16:123; 21:73; 22:78). Moreover, the Quran informs us that Muhammad was a follower of Abraham (16:123).

Due to a general unawareness of the fact that Abraham was the original messenger of Islam, many so-called Muslims challenge God: "If the Quran is complete and fully detailed (as claimed by God), where can we find the number of Rak`ahs (units) in each contact prayer (Salat)?" We learn from the Quran that all religious practices of Islam were already established before the Quran's revelation (8:35, 9:54, 16:123, 21:73, 22:27, 28:27). Verse 16:123 is direct proof that all religious practices in Islam were intact when Muhammad was born. Muhammad was enjoined to "follow the religion of Abraham." If I ask you to buy a color TV, it is assumed that you know what a color TV is. Similarly, when God enjoined Muhammad to follow the practices of Abraham (16:123), such practices must have been well known.

So here, you do not need hadith to tell you or explain to you about how to do contact prayers. Majority of the people today believe that Hadith has made us all understand on how to do Contact Prayers. Are you saying that people before do not do correct prayer? During the time of Prophet, they do not have any Hadith to follow. That time there was no Hadith yet. Hadith was only written down by the Sahabat 200 years after Muhammad passed away. So here, you are saying that we need Hadith to explain to us on how to do our daily contact prayers with God. God stated clearly that Ibrahim was the pioneer and the first Muslim to practice the 5 rukun Islam. I do not think that what we are doing today is the same as the one did by Ibrahim!

You only do your contact prayers with God. That is your communication with God. You are not communicating with anyone else except with God. So why do you need to mention any other names in your contact prayers?

I ask you a very simple question. How do you think Prophet Ibrahim read his Syahadah? Do you think he would say syadah in his contact prayers the way majority of the people read it today?

"There is no God, except The God, and Muhammad is the messenger of God"

or he would just read it,

"There is no God except The God"

Ibrahim was the first person in this world to do contact prayer. Its proven in the Koran. So are you saying that Prophet Ibrahim would mention Muhammad's name in his Syahadah when he is actually doing Contact prayers with God?

Please do not get confused with statement of fact with statement of faith.

Muhammad is a messenger of God is a statement of fact. Many more messengers out there, and do we need to mention all the prophets name?

You only need to mention God;s name in your contact prayers.Simple as that. That is your statement of faith. La ela ha ela Allah'

We get confused that's why we mention all the names in our daily contact prayers. How can God give us blessing in this world if you keep mentioning other ppl's name when you are doing your contact prayer with Him? He just ask us to worship Him alone and nothing else. It is very simple to understand but most of us choose to make it complicated. We instead choose to follow Hadith just to satisfy our ego.

I ask you with sincere heart, and I hope you reply to me with a sincere heart as well. Please find if there is any Syahadah in the Koran that mention Muhammad's name beside God's name? Please show me from the Koran. Not Hadith but the Koran.

And another question is, please show me about the taking of Wuduk?

Even the taking of Wuduk is not the same between the Koran and Hadith. Please show me the difference and tell me which one to follow?

Thank you

A;kum Tun,

Dear Wajaperak, I do not think I should contact you personally to argue about this. If you are really honest and sincere with finding the truth about the best religion in this world, I am sure God will give you His blessings to get back on the right track! Which is to believe in the Koran alone and nothing else. As long as you are not sincere and not honest with God, He will not guide you.

The problem with us today is that, we are claiming ours is the best Islam and what not, but God knows which is accepted and most righteous. Then God will judge us. As simple as that.

But if you have Hadith and Koran to follow as your guidance, which one you wanna choose then? Can you please tell me? I've given you proof from the Koran when God says that there is no better Hadith other than the Koran!

If you are still looking for answers, pray for God's guidance! I am sure God is Most Merciful and He will guide you, provided if you are sincere looking for the truth!

Look around you brother Wajaperak! Look at the Muslim world! It is enough to see something is wrong with the way the majority of the Muslim are practicing Islam. They follow culture,history and claim it to be from God!

Whatever is written in the Koran is enough for us. God says that the Koran is fully detailed, easy to read and complete! What else do you want? If you do not agree with this then you do not agree with God's words!

thank you

It has been suggested that the Zionist state of Israel is showing signs 'insecurity' and thus they have developed the behaviour of 'aggression' as a result of such sense of 'insecurity'. I however, do not agree with this suggestion.

Psychologically speaking, as for insecure individuals some of them would display a certain sign of aggression towards others while some of them may show signs of recluse. It does not develop into only one behaviour. However, it should be noted that insecure individuals would not display signs of defiance and/or arrogance. Whereas, in the case of those Zionist-Israelis these are exact characteristics that they have displayed in the Middle-East, as well as towards the rest of the world. Thus, in no way do they feel insecure.

Insecure individuals would need moral & psychological help and support to overcome their problem. Do we think that Zionist-Israel needs our moral & psychological support to overcome their so-called 'insecurity'..? I very much doubt so. Instead, it is those defiant and arrogant ones who would need a 'good-beating' or very tight slap to make them come to their senses. And that's exactly what Zionist-Israel needs to be given. But again, who would dare do so..!?

Over and again history have shown us that tyrants such the Pharoah (Fir'aun), Namrud, The Roman Empire, Adolf Hitler (under Nazi Germany), etc., were all defiant beast and arrogant rulers with their sense of supreme superiority over the rest of mankind. If the Fuhrer of Germany, i.e. Adolf Hitler had once uttered – "Today Germany, Tomorrow the World...!" , then do not be surprised of some lunatic Zionist might just as well utter – "Today Israel, Tomorrow the World"...!

It is true that we must not be quick to point fingers and blame the Jews for what is going on in the Middle-East as well as in the rest of the world. There are good Jews and bad Jews. Similarly, there are good and bad Arabs, Chinese, Malays, Japanese, Indians, Africans, Europeans, Eskimos, etc. The culprit here are not the Jews per se, but the ideology of many of such Jews. And the bad or negative ideology here is – Zionism...! Likewise, Nazism was a bad and negative ideology. As was, the European's ideology of Colonialism and Imperialism. The consequence of such ideologies have carved out the world into what we have today – i.e. into various political boundaries (countries) as well as into Developed as well as 3rd World Nations. That is what the world have become today for all us to dwell in.

In this regard, one must understand what Zionism is all about. Is it a threat to mankind or not? Does it have a specific or some hidden agenda? These questions must be met and answered. Blaming politicians for causing discord and strife in this world are mere finger-pointing excuses without providing any answer or solution to the issue. If in the past when the Kings, Sultans, Khalifahs, Emperors, Pharaohs, Caesars, Mongols & Huns Warlords, etc., had caused great wars and vicious battles throughout history, it clearly shows that they were not elected politicians..., and yet a great number of wars and battles had still ensued way back then causing great misery and suffering.

The advent of war, battle and strife is second nature to man. As long as good & bad or righteousness & wrong co-exist, then war and strife shall surely ensue. And how do we have to avoid war and strife is another issue altogether. In fact, not even the tyrants and evil ones would want to wage war and waste their resources, if they can achieve their goals via peaceful means. But there is also a price to be paid (by the vanquished), if tyrants achieve their goals via peaceful means. The video excerpt as below clarifies this:-

<http://www.youtube.com/watch?v=ucUKk2OL8RY>

Also, the above video surmises that Zionist-Israel have to suffer a defeat to make it come to their senses and thus make concessions. Again, who are those of us willing stand-up against Zionist-Israel and put them in their proper place. We shall to wait and see.

In conclusion, we must realise that the terrorist-lunatic state of Zionist-Israel is not in the 'insecure' mode of behaviour. Clearly, they are in their 'defiant' mode (as against all UN Resolutions and also The International Court of Justice's rulings), as well as in their 'arrogant' mode of behaviour (with regard to the blatant massacre & murder of Palestinians in Gaza Strip and also the construction of the 'Apartheid Wall' in The West-Bank) that have caused and continue to cause great misery and suffering of others. Secondly, we must not simply blame and point our fingers to a race of people (The Jews) for all the miseries that had happened and is still now going on in the Middle-East. There are many Jews who oppose the ideology of Zionism and the formation of the state of Zionist-Israel. Be reminded that Dr. Norman Finkelstein (as appearing in the video as above) happens to be a Jew – who is whole-heartedly against International Zionism. Finally, we have to observe the ideology of Zionism and identify their agenda and objectives (known or hidden), that is detrimental for the good of mankind. We must also find ways and means to garner support from the whole international community to expose and curb the Zionist-Israeli's agenda that can be a horrible 'disease' for the future of mankind.

Wassalam.

A'kum Tun!

Excuse me Tun for taking this opportunity to say few word to our friend wajaperak.

It does not matter what I call my name. My parents give me the abdul aziz and people around me all call me aziz. Do you think God will punish them for calling me Aziz? Do you think God is so cruel to punish the people calling me my name correctly? To God belongs every name in this world. All the good names

belong to Him. Many more names are there which bring good meaning and it has nothing wrong with us calling it the way we wanted it. God knows our innermost thoughts. People who are not sincere will be punished by God and He only can be the judge!

You mentioned about me being anti hadith. I am not anti hadith! I just dont agree with Hadith. That is all. It has nothing to do with anti and pro hadith. It's just I dont take it as the law for my religious duty. The Koran is sufficient enough.

Quran, the Whole Quran, and Nothing But the Quran

[6:19] Say, "Whose testimony is the greatest?" Say, "GOD's. He is the witness between me and you that this Quran* has been inspired to me, to preach it to you and whomever it reaches. Indeed, you bear witness that there are other gods* beside GOD." Say, "I do not testify as you do; there is only one god, and I disown your idolatry."

*6:19 This verse proclaims the Quran as the only source of religious guidance. Those who uphold additional sources, such as Hadith & Sunna (lies attributed to the Prophet), are defined as idolaters.

The Best Hadith (Quran)

[39:23] GOD has revealed herein the best Hadith; a book that is consistent, and points out both ways (to Heaven and Hell). The skins of those who reverence their Lord cringe therefrom, then their skins and their hearts soften up for GOD's message. Such is GOD's guidance; He bestows it upon whoever wills (to be guided). As for those sent astray by GOD, nothing can guide them.

[39:24] What is better than saving one's face from the terrible retribution on the Day of Resurrection? The transgressors will be told, "Taste the consequences of what you earned."

[39:25] Others before them have disbelieved and, consequently, the retribution afflicted them whence they never expected.

[39:26] GOD has condemned them to humiliation in this life, and the retribution in the Hereafter will be far worse, if they only knew.

Quran: No Ambiguity

[39:27] We have cited for the people every kind of example in this Quran, that they may take heed.

[39:28] An Arabic Quran, without any ambiguity, that they may be righteous.

[39:29] GOD cites the example of a man who deals with disputing partners (Hadith), compared to a man who deals with only one consistent source (Quran). Are they the same? Praise be to GOD; most of them do not know.

Hadith: A Gross Blasphemy

[39:30] You (Muhammad) will surely die, just like they will die.

[39:31] On the Day of Resurrection, before your Lord, you people will feud with one another.

[39:32] Who is more evil than one who attributes lies to GOD, while disbelieving in the truth that has come to him? Is Hell not a just requital for the disbelievers?

Quran: Absolute Truth

[39:33] As for those who promote the truth, and believe therein, they are the righteous.

[39:34] They will get everything they wish, at their Lord. Such is the reward for the righteous.

[39:35] GOD remits their sinful works, and rewards them generously for their good works.

Dear wajaperak, there are many more proves to say the Quran is the only source of religion for Islam. Nothing else. So as long as you want to take two sources, Quran and Hadith, that is up to you. God will deal with you. But for me and many other people, Quran is sufficient enough.

No Intercession*

[2:254] O you who believe, you shall give to charity from the provisions we have given to you, before a day comes where there is no trade, no nepotism, and no intercession. The disbelievers are the unjust.

*2:254 One of Satan's clever tricks is attributing the power of intercession to powerless human idols such as Jesus and Muhammad (Appendix 8).

[2:255] GOD: there is no other god besides Him, the Living, the Eternal. Never a moment of unawareness or slumber overtakes Him. To Him belongs everything in the heavens and everything on earth. Who could intercede with Him, except in accordance with His will? He knows their past, and their future. No one attains any knowledge, except as He wills. His dominion encompasses the heavens and the earth, and ruling them never burdens Him. He is the Most High, the Great.

The majority of the Muslim today believe that Prophet Muhammad can give Syafaat or Intercede them to allow them to enter Paradise when God clearly stated in the Koran that no soul can forgive another soul. Muhammad is human like us. God will not allow him to intercede on behalf of God. Even though he is a prophet, but God does not allow that to happen. I am not against Hadith, but Hadith said that Muhammad can help another soul. So here we have two sources to follow. Which one to follow then? Which one is more consistent than the other? I believe in the Koran and because it is from God and Hadith is human made!

Allah made the Koran easy for us to learn:

[54:17] We made the Quran easy to learn. Does any of you wish to learn?

This is another prove to show that most of the Muslim today keep saying that Koran is hard to learn because it is in Arabic and what not. But the truth is God made it easy for us. He is the teacher of the Koran. He will guide whoever He wills. No one can stop that.

We are saying it hard because we want to believe in other book to explain the Koran. How can Hadith which is written by human 200 years after Muhammad passed away, can be taken so seriously over the Koran which is authentic and consistent and the truth?

The duty of Prophet

[5:99] The sole duty of the messenger is to deliver the message, and GOD knows everything you declare and everything you conceal.

[5:92] You shall obey GOD, and you shall obey the messenger, and beware. If you turn away, then know that the sole duty of our messenger is to deliver the message efficiently.

Quran, the Whole Quran, and Nothing But the Quran

[6:19] Say, "Whose testimony is the greatest?" Say, "GOD's. He is the witness between me and you that this Quran* has been inspired to me, to preach it to you and whomever it reaches. Indeed, you bear witness that there are other gods* beside GOD." Say, "I do not testify as you do; there is only one god, and I disown your idolatry."

*6:19 This verse proclaims the Quran as the only source of religious guidance. Those who uphold additional sources, such as Hadith & Sunna (lies attributed to the Prophet), are defined as idolaters.

Brother Wajaperak, you can call us anything you like. You can believe in whatever you like. And I can believe and follow whatever I like.
God will guide us all. So long you want to hate and argue with people who do not agree with you in this topic, that is up to you. But for me, the best people in this world are the one that live their life according to God's law.

Surely, those who believe,
those who are Jewish,
the Christians,
and the converts;
anyone who
(1) believes in God,
(2) believes in the Last Day, and
(3) leads a righteous life,
will receive their recompense from their Lord;
they have nothing to fear, nor will they grieve. [2:62, 5:69]

Thank you Tun!

ISRAEL AGGRESSION –SIGN OF INSECURITY

>> <http://mthago.wordpress.com/2010/06/11/israel-aggression-%E2%80%93sign-of-insecurity/>

No countries surrounding Israel are willing to accept her sovereignty as a nation. American and British did not consider the opinions of the surrounding countries when they created the nation of Israel many years ago. Because no countries around the region were willing to accept the birth of Israel, the existence of Israel from the day of its birth is full of miseries and turmoil. British and Americans should take the responsibilities for the mistake they have made by creating Israel without taking the opinions of the Muslims Arabs that live around Israel. United State of American and Great Britain are the two superpowers that created the nation of Israel in the wrong way. Since Israel began in the wrong way, peace and tranquility has never achieved by Israel since its birth as a nation.

As a nation, Israel does not feel secure, as all the nations surrounding her are enemies to Israel. Israel does not feel secured ever since she was born and the feeling of insecurity leads Israel to practice aggression. When a person is not secure, he or she becomes aggressive. Insecurity leads to stress and stress leads to aggression. Israel has become a very aggressive nation because it began with a wrong beginning. It started wrong and forever it can never become right. Israel recent action towards the ship that carries foods, medicines and peace activists to Gaza clearly reveal her aggressiveness. The ship carry only medicines, food and peace activists and not war ammunitions but Israel attacked the ship and

killed many peace activists including many from Turkey.

The action of Israel has drawn international criticism and public demonstration against Israel. The big mistake Israel had done in the incident was the killing of many peace activists from Turkey. Although in the past, the relationship between Israel and Turkey was very good but the sad incident has led to the good diplomatic relation enjoyed previously shattered. Although Israel has poor diplomatic relationship with her surrounding Arab Muslim countries but her relationship with Turkey had been very good. Turkey even had military partnership with Israel. Turkish is known to be a very strong and brave race and although Turkish were not Muslims when they conquered the great Muslim empires hundreds of years ago but later on, the Turks embrace Islam and becomes Muslims. Later on, the Muslims Turks conquered Constantinople and spread the Muslim empires towards the west, up to Yugoslavia. Turks known to be a brave and strong race than the Arabs are. Prophet Muhammad s.a.w used to warn the Arabs not to disturb the Turks. The Turks came to Bagdad to do trading and when the Arabs Muslims did injustice to the Turks traders, their King attacked Bagdad and defeated the Muslims. They demolished the Muslim empires and destroyed the civilization, established by the Arabs to ashes.

Because of the recent attack by Israel on the ship, that carries humanitarian aids to Gaza, Turkey join the group of countries that has enmity with Israel. The recent attacks have increased the number of countries that have enmity with Israel. Israel becomes more insecure and isolated and thus becoming more aggressive. In order to make Israel to become less aggressive the whole world particularly the 'maker' of Israel, Americans and British have to make Israelites feel more secured. Many Jews live peacefully with the Muslims in all over the world. What is the reason the Jews cannot live peacefully with the Muslims in the Arab world now. Many Jews live in Medinah at the times of Prophet Muhammad s.a.w and they live peacefully with the Muslims. The Jews driven out of Medinah only when the Jews at that time did not comply with the treaty they made with the Prophet Muhammad s.a.w and the Muslims at that time.

Many Muslims believe that Allah forever curses the Jews and because of that, many Muslims hate the Jews. Many Muslims think that all Jews are bad and they are not fit to live and many Muslims think it is an act of worship to curse the Jews. They cursed the Jews because they believe that Allah forever had cursed them. Allah never cursed anyone because of their race, color of skin but Allah curse someone because of their bad actions. The Muslims should not think that all Jews are bad and must be curse. Jews are the same as any other race and among the Jews, there are bad as well as good Jews. We should give values and respect to a person not because of their race but because of their actions.

The actions of the government of Israel to order their soldier to attack the ship on peace and humanitarian missions were wrong. The Jews who do those actions should be curse and brought to justice. Allah and the whole humanity curse, and hate those actions. However, the Jews do this because the Jews think and feel that they are insecure. Israel will forever feel insecure as long as American and the British are not doing anything to bring Israel and all the countries surrounding Israel, to a discussion and meeting table. All the countries that are neighbors to Israel should be call to the meeting. As Muslims, we should be kind to our neighbors. Muslims should not try to drive the Jews out of Israel as Allah has made them to become our neighbors. Allah has made the Jews to live among the Muslims and the Jews should not drive the Muslims out of Israel.

Jews must not regard the Muslims as enemies and the Muslims too must not regard the Jews as enemies. Political people and those who want power and wealth would not like people to live with peace and harmony. When people live in peace and harmony, political people cannot become popular and powerful. Many Jews leaders as well the Arabs are propagating the sentiment of racism. They are spreading the fear that the other side is trying to take our lands and to drive us out of our homes. The fear created by the opportunists is sufficient to make the region to remain forever unstable and turmoil. American and the British are not trying to eliminate the fear that makes both sides to become aggressive. As Israel has more sophisticated weapons, and feel more insecure they become more aggressive than the Arabs do.

Both the Jews and the Arabs can live together in peace and tranquility. A treaty shall be made not only between Israel and Palestine but also with all the countries surrounding Israel. The war between Israel

and the Palestinians will continue forever unless the fear that both parties have eliminated. Israel will continue her aggression against Palestinians who are unarmed and fight only using stone and sand. Americans and British are responsible for the aggression done by both sides and they should dismantle the aggression by negotiating a treaty between Israel and all the neighboring countries.

The issue of Israel Brutallity,the US brutallity,
the uncivilized threats towards Islams should not be repeatedly
focus of what they have done towards us.

This incidence will happen again and history will repeat itself.

And us remains cowardly hopeless.

Lets talk more of organizing ourself with strength of
military unity,economic unity,etc.

Lets hold hands,organise our own military capabilities,

be it our unity be a threat to others,as much as others have threaten us,and us remains helpless.

They do it again today,tomorrow,the next day and next,

and us behaving coward,helpless, not oragnizing anything concrete to uphold our honor.

In response to - ray2467.

As you say..., "The Israelis are one of the smartest people on earth". Arguably, this statement may be true. Nonetheless, having a smart brain but without having a pure heart, would make one be nothing more than being a smart but arrogant monster. And that is what those Zionist Israelis have become – smart beasts & monsters..!

They are so smart that they have managed to influence & 'control' so many of those American Presidents all these while, as well as the majority of The US Politicians & Congressmen, and to have it their way for America's support towards the International Zionism's agenda as well as in favour of the terrorist & lunatic state of Zionist-Israel.

With their superb skills in 'creating', manipulating and the control of (fiat) money – the world over, they have thus virtually controlled the world's financial & banking institutions (especially The US Federal Reserve, The International Monetary Fund, all the major Central Banks as well as The Bank for International Settlement). And with their control of the (fiat) money, thus the control & manipulation of several other political & economic sectors (especially those weak and corrupted government leaders & statesmen as well as the major mainstream-medias) are thus only an automatic conclusion.

That is how so smart they are. Apparently, they are so smart and seem to get away with all their evil and arrogant antics as of to-date. But remember, being too smart for only oneself may spell for one's own destruction. The glaring signs that the Zionist-Israeli state are drawing towards its own destruction is impending, despite the notion of many that these smart people seem so indestructible.

History have shown us over and again how those evil nations & civilisations in past history have been

destroyed due to own evil ways, arrogance and folly. And now, the Zionists-Israel terrorist & lunatic state shall not be an exception. Clearly now, what the Zionist-Israelis have done to the innocent Palestinians are blatant cruelty to its extreme degree. And yet, those Zionist-Israelis have regarded those acts as being 'smart moves' on their part.

The land of the Palestinians does not rightfully belong to the Israelis. The 10 Lost Tribes of Israel were the Israelites (of the Northern Kingdom) who were exiled from Palestine into Assyria about 745-720 B.C. under King Shalmaneser V. The Israelites from the area of the Palestine (of the Southern Kingdom of Yahud) were conquered, exiled and deported some 200 years later, beginning about 600 B.C. by King Nebuchadnezzar (Babylonians), that had also led to the destruction of The Temple of Solomon.

However, it was the Persians under the leadership of Emperor Cyrus (II) The Great (that many have regarded as being 'Iskandar Dzulkarnain' – as mentioned in the Holy Al-Quran), who had then conquered the Babylonians and had set free the Israelites. Some of the freed Israelites had returned to Palestine (but had also brought back with them the corrupted faith/system of their Babylonian Talmud) in their effort to begin the rebuilding of the destroyed Temple and the City of Jerusalem. The Religion of Judaism was also mixed with the writings of the Babylonian Talmud and the Jerusalem Talmud. The Talmud is a mumbo-jumbo written mixture of opinions and pagan (non-scriptural) statutes, rules, regulations, Kabbala, Jewish mysticism and traditions of men. Even during the life of Jesus Christ, the Israelite 'Yahwism' of the time had become a corrupted 'ritualistic' system of animal sacrificial worship. It was then completely destroyed in the destruction of the Temple and The City of Jerusalem by the Romans in 70 C.E., that began a minor and final Diaspora (scattering) of True Israel into Europe. They all left the City of Jerusalem before its complete destruction.

The people in the present state called Israel – i.e. the Zionist-Israelis, Zionist Jews, and all those who call themselves Jews; and who practice the religion called Judaism (Jew-dah-ism), are not the true Israelites of Scripture. They are not descendants of Jacob/Israel. They are not a Semitic people. Most of them are descendant of the Khazar-Ashkenazi-Gomer-Japhetic race. That is why most Jews call themselves Ashkenazi Jews. Many other Jews are called Jews simply because they practice a religion called Judaism. True Israelites are never called Jews, and have never been Jewish. True Israelites never practice the cultic religious system of the Jews. The Jewish State of Israel, and the right of Jews to live in Palestine is not based on the hypothetical physical origins of the Jewish people, because they are not of the descendants of Jacob/Israel. It is not based on the covenant of Abraham with God Almighty.

The 'rights' of the Jewish State that is now called Israel to exist in Palestine is based only on the International Law - i.e. on The United Nation's decision in 1947 to partition Palestine that was previously a Turkish province, that later on became a British Mandated Territory, and subsequently turned into an Arab/Palestinian and a Jewish State. This United Nation's decision had thus displaced the inhabitants of Palestine (i.e. The Palestinians) and gave a large portion of the land they were dwelling-in, to the new people group called the Jews (i.e. Khazars) who have no historical claim whatsoever to the land.

The word Palestine is synonymous with the Scriptural word Philistia, of the historical people living in this land, before Israel captured it under Joshua around 1440 B.C., who were mostly Philistians or people of Philistia. A Palestinian (or Philistian), is a resident or inhabitant of Palestine (Philistia). Thus, only the present-day Palestinians have a physical claim to the land of Palestine. As a race, they bear the name of their historic land. Modern Jews have no historical physical claim to the land whatsoever, and did not exist as a religious group until about 1000 C.E. And true Israelites no longer have an historical claim to the land either, since 'True Israel' was prophesied never to return to Palestine and will remain dispersed among nations.

Thus in essence, the land of the present day Palestine DOES NOT belong to the terrorist-lunatic state of those Zionist-Israel Ashkenazi Jews. Period..!

It must be noted that no one is provoking a so-called 'mighty' nation that is being backed a superpower.

One is only chiding and protesting to the inhumane and ghastly actions of Zionist-Israel toward its fellow-man as well as the rights and sovereignty for the people of the land. On the contrary, it is this little lunatic nation who have provoked its neighbours such as previously Egypt (which they have now tamed down), and recently its other neighbours such as Syria, Lebanon and now the nation of Iran. It must also be noted that this lunatic state would not be able to do so without the backing of USA, of course.

Then again, why would USA being so foolish in doing so – i.e. supporting Zionist-Israel all these while...? The answer is simple. It is because International Zionism have grabbed USA 'by the balls', a long, long time ago. If we can recall earlier, they have full-control over the US Federal Reserve. They control all the major US mainstream-medias. They control the major financial & banking institutions in the USA. They even control Hollywood and the US entertainment industry. But up and above all these factors, they have great influence and 'control' over most of the modern-day US Presidents since the time of President Woodrow Wilson– and now most probably even the present day US President – i.e. Barack Hussein Obama.

Also, most of the US Congressmen are already 'in their back-pockets', regardless whether or not those congressmen are from the Republican (GOP) or the Democrat party. Apparently, with exception of a notable few of the US Congressmen like (say) Dr. Ron Paul (Republican), Dennis Kucinich (Democrat), Mike Gravel (Democrat) and Cynthia McKinney (formerly Democrat now with the Green Party) and some other congressmen who would make exemplary US Presidents & Vice-Presidents. Nonetheless it is understood that a majority of the US Congressmen & politicians are heavily influenced and 'controlled' by those Zionist-Israeli special interest groups, so much so that exemplary politicians are often overshadowed by politicians who favour the Zionist-Israeli interest.

It is thus no secret that the USA shall continue to support and protect at all costs the lunatic state Zionist-Israel (regardless of whatever evil acts that lunatic state have done), by virtue of the fact that the economic & political power structure of The United States of America for a long, long time had been 'in the back-pocket' of International Zionism, the so-called Neo-Conservative Globalists and the New World Order Proponents.

With regard to the Arab nations (regardless however rich and wealthy they may be), it is also a sad fact to say that most of them for long time had been 'neutralised' by The United States superior military might as well as its in foreign policy towards other nations, of course all in the interest of the lunatic Zionist-Israeli state. Thus, the USA's practice of 'Might is Right' over the Arab Nations have worked very well indeed to keep the Arab nations in check. One may notice that the US have for long time now huge military bases even in some of the Arab states in the likes of (say) The Kingdom of Saudi Arabia..! That's how The USA exerts its 'Might is Right' concept over some of the Arab states. And that is also why many leaders of the Arab nations dare not speak above their breath when it comes to condemnation of the lunatic state of Israel. That is the real and sad scenario when it comes to some of the Arab nation when they 'do not do anything' towards Zionist-Israel...!

Thus, is it not wonderful that as Malaysians we have the freedom and liberty to voice our dissent towards such evil and tyrannical ideology and regime without any fear or favour...? Are we not proud to be Malaysians whilst at the same time despise to associate anything that have to do with those despicable and contemptible Zionist-Israelis...?

So again, being smart without having a heart would make one be nothing more than becoming smart but arrogant monster...., like something that have culminated into what is now - the terrorist-lunatic Zionist-Israel...!

Cheerio.

A;kum Tun,

I would like to say few words about our friends in this blog. Especially to Mr Wajaperak.

Please argue with good arguments and not just by attacking people who are against you. Use good language and don't mock others. God do not like that. Please argue with sincere heart. No point us arguing here just to prove that we are smarter or more clever. No one is! Everyone is here to share their sincere knowledge. If they do attack you, so what? Please pen out your points and elaborate on it. You do not need to mock others just to satisfy your ego.

On another note, I would like to say about the impact of what happened during the attacked by Israelis. Its been more than 10 days since it happened and it seems that everybody is forgetting about it already. It is no longer covering the main page of newspaper around the world. People of european or even in the whole world do not care anymore. The world cup is covering the front page and news. BP oil spill in the US sea is another main issue now.

It shows that nobody in the world care about Palestine state. Only us the Muslims are making noise and it seems it fell on a deaf ear.

We should not ask for their help. We should help ourselves. We should start from the bottom. Education is vital. Plan a long term strategy. Muslims around the world have to start being more reasonable and rational in their thinking and action. Do not act like people who are without guidance. We have the Koran to follow. Ask for God;s blessings and Insyallah He will grant us. Start worshipping God alone in your contact prayers and start believing in him. Dont just believe in lips service but your heart.

Then Insyallah He will bless us the ummah of the world. Do not need to ask for others to help for the Palestine. Even we cannot do anything about it. Ask God to help the Palestinians. Insyallah God will guide them out of the darkness they are in living in. Killing among themselves(Fatah and Hamas) and claiming it to be 'In the name of God' act. Provoking others to commit suicide bombing and promise them Heaven. Nobody can promise Heaven or Hell to you except for Him.

Therefore, we Muslims should start study our own problem.

Wajaperak, you mention about looking at yourself in the mirror. That is exactly what we should do. We should look at ourselves in the mirror. Do not just look at others and find problem with them. We need to live our live according to God;s law then God will grant us His blessings. He choose whoever He wants to give blessing to. Does not matter if you are black, white, poor or rich, handsome or ugly, Muslims or Jews or whatever you wanna call them, God will decide. Not you, not me but Him..

Thank you Tun!

Assalamua'laikum.
Semoga Tun di Rahmati Allah.

Tun;

Attacks against aid ships to the Gaza are not given special emphasis by the United Nations, but Israel and supported by the Western Great Powers; trying to engage the world by diverting ON IRAN NUCLEAR ISSUE.

THAT is clear that Muslim countries should collectively establish a consortium with the objective of Nuclear research in an integrated manner and not do independent research as done by Iran and Pakistan.

**** We do not have to listen to the propaganda of the West. The so-called nuclear program for military purposes will result in the abuse that can be released to the terrorists.

Therefore it should be limited in use only among the Western Great Powers. This ruling made by them is unfair.

Who is the terrorist ..?. Is the Fundamental Islamic state or the country that does not follow their wishes and agenda, or any other country which is expected to compete with and overcome them.?

**** It seems clear that the knowledge (of the God) which has uncovered the secret, seems to try monopolized by them. Thus it is for them to dominate the world, bullying the weak and the countries without nuclear power have to follow the resolution that they determine.

****Demikianlah hebatnya Tenaga Atom, iaitu antara salah satu ilmu tersirat yang telah dicipta oleh Allah, tetapi banyak ilmu-ilmu tersirat tersebut telah dibongkar rahsianya dalam kemajuan manusia ini hanya dilakukan oleh orang Barat.

R & D - KONSORTIUM

Negara Islam yang ada kepakaran dan kemudahan tersebut (atau kepakaran dalam bidang kelengkapan lain) harus berpakat melakukan R & D secara bersama dengan Negara Islam lain di bawah satu Konsortium.

Mungkin jika perlu, boleh dengan bantuan Negara Sekutu yang menyokong (without bias) secara win-win situation seperti dengan China dan Russia, atau Negara lain yang sedia membantu.

Negara Islam harus meniru kesatuan Eropah yang menubuhkan Konsortium untuk melakukan R & D peralatan ketenteraan mereka, seperti dilakukan Perancis dengan Spain/Portugal, Belanda dengan Denmark, Italy dengan German/Swedem dan beberapa Negara lagi yang tidak banyak diketahui masyarakat dunia.

Antara contoh; kita lihat bagaiman KAPAL SELAM SCORPENE yang dibeli oleh Malaysia dibuat oleh Konsortium Perancis/Spain dan beberapa Negara lain.

Apabila ada kesatuan yang kuat, makan sebarang tekanan Negara Kuasa Besar yang bersifat membuli bagi pihak Israel akan dihadapi secara bersama dan bersatu padu secara berkesan.

Tetapi ini lah kelemahan utama Negara Islam, iaitu pemikiran mereka amat sukar untuk didorong kearah bersatu padu dan bergerak, bersepakat secara berkesan.

Tidak seperti pemikiran orang Barat yang pandai menggunakan otak mengatur strategi mengatasi sesuatu masalah secara bersama bagi menjamin keselamatan dan demi kelangsungan hidup komuniti mereka.

Sikap menyerah kepada Allah semata-mata; tanpa berfikir menggunakan OTAK/AKAL FIKIRAN YANG ALLAH BERIKAN dengan sebaik-baiknya, berbuat sesuatu secara berkesan seperti MEMBINA KEKUATAN SENDIRI bagi melindungi ummah adalah satu keingkaran kerana gagal menunaikan Fardhu Kifayah.

***Muslims are encouraged to strive and to develop strength and survival of his coreligionists. But without trying to do the R & D: it will not give any meaning and success of the Muslims.

The Quran has stated that "Allah will not change the fate of a nation or ummah, except their own who want to change it."

Muslims will remain behind, if not then understand and exploit the wealth and the secret knowledge of God which is hidden and concealed, as it should be demolished by the force of effort and thought to be

utilized, as done by the community (Kafir) in the West.

Tun initiatives could inspire and trigger the minds of Muslims worldwide to be more positive and proactive thinking; for the sake of survival of the global ummah.

Sekian terimakasih Tun.

Salam Tun...

Satu soalan saya...

Tiadaakah bijak pandai di Malaysia yang mampu menciptakan satu cara atau konspirasi tertentu untuk membangkitkan rasa marah masyarakat Arab seperti Mesir, Arab Saudi & lain-lain kepada Israel?

Insiden Mavi Marmara berjaya meluahkan rasa marah dunia terutama Turki. Saya berpendapat, satu usaha lain perlu dilakukan untuk mewujudkan rasa marah negara Arab pula.

Sekian...

Dear Tun,

Today's Star. Saudis to allow airspace for raid by Israelis on Iran's nuclear facilities. Similarly, Egyptian complicity in blockade of Gaza.

The coordinator is the American.

If the Saudis disallow use of airspace by Israelis bombers, their radars are going to be jammed anyway.

In the case of Egyptian, The American has been giving aids to them usd1 billion annually since 1970 when Anwar Sadat signed peace accord with Isreal.

Dear Tun,

All these comments do no good.

The Israelis are one of the smartest people on earth.

The land rightfully belongs to them. They were ousted by the Persians (now known as the Iranians) centuries ago and have claimed back what belongs to them rightfully. As stated in the Bible, Israel belongs to the Jews and Jerusalem is the birthplace of Jesus Christ.

If the Muslims can quote the Quran, so can the Jews. There is point provoking a mighty nation who are backed by superpowers.

Look at the other Arab nations, why are they not doing anything.

I asked hanan a question he did not fully understand's the message.Who is your neighbour? Qoute..

My neighbour is the one who want's to kicked me to the sea and another afrails of this kind of neighbour.Mr Ilai.The maxim we are what we eat applied here.The neighbour is corresponding to what we treats them..

[[All this mess started 4 years ago when former prime minister Ariel Sharon decided to go out of the Gaza Strip and evacuate all Israeli citizens and soldiers. My party, Meretz, opposed the idea of evacuating Gaza without an agreement with the Palestinian Authority]]

Which Palestinian Authority?..Sure..The one that only agrees to our term and condition!!

[[We said it would weaken the pragmatics and strengthen the radicals. We said it would be an insult to the Fatah movement and will be a victory to Hamas and the other terrorist organizations that used force instead of negotiations]]

Hamas only respond to Israel correspondingly.

[[The problem was that all our worries came true. A few months later the Hamas terrorist organization has taken control of Gaza, killing Fatah Palestinian supporters]]

That is the official version.The unofficial one is this..

"We have fails to convince Hamas to works with us.We have fails to "grease" Hamas like we did Fatah.In short we have failed to "soften" them.Now..They can only one force here in Palestine.That is us"..You chose otherwise and will face our consequences!!

[[One soldier was kidnapped and is being held in Gaza for 4 years without any visits or rights given by the Geneva Convention]]

Oh..oh..so sad..In Israel prison's there is "unnumbered" and "unsubstantial" number of Palestinian.Israel even imprisoned babies and children..Which Geneva Convention fit this "phenomenon"? Please enlighten me..the uneducated about this equation..

[[In 2009, after a few years of almost no massive retaliation, Israel attacked Gaza.]]

Meaning? You shot your own foot? Or you must "let steam released" because you cannot get back at Hassan Nasrallah Hezbollah??

[[There were a lot of casualties, because terrorists used civil population as a shelter and sacrificed children for their cause. Israel made a mistake and attacked them anyway. Terrorist..Terrorist and more Terrorist act..You know Mr Ilai..In Stone Age,there is no mirror..So you cannot see the reflection of your own image..But here in modern world there is a lot of mirror..Which mirror is Israel using to see their act of reflection?

Which bloody hands that hold the mirror for you?My suggestion..

Look deep in the mirror of your own souls..

[[All these years that Hamas is controlling Gaza Israel doesn't allow free flow of merchandise into that area. Again, there is a reason]]

Mr Ilai.Not many knows this.Since you did not have any influence in Hamas infrastucture and transaction you chose,to play hard ball.Transact with us through our intermediaries or suffer's!!

[[We're not sadists]]

Meaning we don't have a hand in Shabra and Shatilla massacres.It was the Phalangist..The Phalangist..Not us!!..Yeah..Yeah..sure Mr Illai..And can you imagine Tun even dared accused Israel are the one behind the bombing of 911 World (? Not America ?) Trade Center?.. Tsk..Tsk..Tun..how could you?....)

[[Hamas used construction and agriculture materials in order to build more and more rockets. When we allow metal tubes for construction, they take it and use it as the rocket body. So are other kinds of materials. Food is not included in the blockage. The people of Gaza get food all the time. They're poor, very poor, but not hungry]]

Damn you the world media!! How could you do this to innocent Israel? WE ARE THE ONE WHO SUFFER'S HERE..Please..Let our "imbedded" journalist and media tell's you the "real stories"....)

[[The blockage can be lifted any minute. They just have to do two things: hand Gaza back to the hands of the Palestinian Authority, the legitimate Palestinian administration, and free the Israeli soldier. His name is Gilad Shalit. He was 19 years old when he was kidnapped during his compulsory military service and he has done nothing wrong. That's inhuman. When they do it there will be no blockage on Gaza]]

And we will gradually release all the Palestinian prison's inmate.All they have to do is promise not to take part any more activities that will harm the lives of "innocent" Israelis..

[[They didn't thought about the Israelis that were killed by the rockets]]

Mind you.One Israel life is equivalent of 100 non Jew's life!!

[[Israel couldn't allow the ships to break the blockage for the reasons I have described. The government decided to stop it as quickly and clean as it could. They showed the basic plan to the Israeli public]]

Ha..Ha..without telling them our "implanted agent aboard"

[[We've all seen the pictures. Israeli commando soldiers came from a helicopter. In order not to risk the demonstrators, they were equipped with paintball guns. They also had pistols, but with a very clear order to use them only in a case of a life risk. They came from the helicopter one by one. Each soldier was taken and brutally hit by 4 people on the boat. Two pistols had been taken from the soldiers and were used against them. One soldier was dropped from the upper deck to the lower one. Some soldiers were stubbed by knives. The first shots were fired by the people on the ship. Only then the soldiers returned fire]]

I am sad to breaks the bubble Mr Ilai.Your "implanted agents" managed to "convinced" some activist to

attacked the commando. And this must I repeat must be captured by the ship CCTV. Conveniently. And when the soldier's descended a single file (not the proper way as we have learned how to storm a ship..) the angle of the CCTV must in exact positioned to recorded this. "The pointer" communicated in the proper code word..and lo and behold..the unmarked activist are the one who laid lifeless"

[[The result is very sad: 9 people killed and about 30 wounded, including 7 soldiers. No one in Israel wanted that to happen. I blame the government for not thinking about such a case, but it was not the original intention. Please try to understand Israel's motives. I wish the people of Gaza to be free without the rule of Hamas. I regret this incident and hope for a better future]]

Yes..such dramatic ending Mr Ilai. For reason's known to themselves, Secret Services all over the world can verify my "imagination". But they won't and the civilian always wonder how the military exercises were executed. This is how it is done and I will not blame civilian of the naivety..

But Mr Ilai it is too much to expect all of us is

THAT UNINFORMED..

Terima kasih Tun..

// A few aspects that I would like to highlight to trigger our thoughts as to accept the truth

1) If they are so cruel and inhumane why then Allah did not just destroy as done to others before?

as we know the difference between prophet Muhamad and other prophets is that prophet Muhamad request Allah to hold any punishment on earth and would give and have time for Ummah to repent (taubat nasuhah) //

Dear checker ,

1) Are you sure that Allah will not punish wrong doers on earth as has been done to those who have come before us? So are you saying all the ayats in the Qur'an warning the people against God's punishment on this earth itself for sinning, wrong doings, mischiefs, evil, etc are only historical events that will not happen again , even when it comes as a clear promise? Even when God have made it clear that the Quran is eternal, i.e, consistent for all times? Just because these promises have not yet come to pass?

2) Can you provide me authority to your claims that our prophet have requested God to hold our punishment on earth....

Thanks Tun

Assalamualaikum Tun,

Why the Muslims do not use the power of oil. It is Allah's given gift.

I strongly support and approve of your leadership in PGPO. I never thought the sending of ships to Gaza

could bring so much impact to world attention. Hopefully later we can send much more ships simultaneously overwhelming Israeli manpower. I hear in the dewan rakyat about using military force in the OIC (like NATO). Alternatively, Allah have granted and blessed many Muslim countries with oil. Is it just to make us richer, or it can be used as a peaceful weapon. We do not need missiles and bloodshed to make our point heard and considered. We have to unite and agree among Muslim top oil producers in the OIC to stop oil production/export for a couple of days/weeks or etc in response to human rights violation in Palestine by Israel. Surely there will be some losses from the oil producing countries, but we can set up on an agreed mechanism to reduce the losses and just create enough 'heat' felt worldwide. Therefore the peaceful Muslim nations will be seen 'united', 'important' and 'powerful', then we will be heard.

Salam , YBhg Tun dan Isteri, moga sentiasa dipanjangkan umur untuk sentiasa berjihad ke jalan ilahi..

Saya amat tertarik dengan komen dan maklum balas yang diutarakan oleh para bloggers dan juga the readers. Terlebih dahulu ingin saya ucapkan tahniah kepada semua yang terlibat dalam misi penghantaran bantuan kemanusiaan ke GAZA tempoh hari, walaupun kita tewas separuh jalan, tapi kita berjaya membuka kepekungan Yahudi @ Zionist selama ini, yang akhirnya mata2 dunia kini terbuka sekelumit walaupun walau tidak sebesar mana, tetapi ia menjadi tamparan kepada Israel yang dilaknati. Saya ada terbaca petikan sejarah israel dihukum sebegitu rupa oleh Adolf hitler pada berabad dulu, memang nyata bahawa hitler telah terlebih dahulu menilai bahawa yahudi ini adalah bangsa yang amat kukuh dustanya dan telah menjatuhkan ekonomi jerman pada suatu ketika dulu. sebab itulah beliau berpendapat bangsa yahudi ini perlu dilenyapkan dari bumi pada ketika itu. Tetapi apakan daya kini Israel mempunyai penjamin yang amat kukuh yang mana hampir kesemua Negara di Eropah menyokong setiap tindak tanduknya. Persoalannya bagaimanakah dan bilakah dunia perlu yakin dan sedar bahawa Israel adalah sebenar2 nya pembuli dunia yang rakus sedang melenyapkan rakyat palestina, israel memang angkuh kerana sokongan padu sekutunya yang mana tidak perlu saya ulas lebih lanjut. sehingga kini satu-satunya yang ditakuti oleh Israel adalah negara Iran, sebab hanya Iran sahaja yang mampu melakukan sesuatu terhadap israel dan disebabkan itulah sekutunya terus mendesak agar sekatan dikenakan terhadap iran. Saya amat hairan kerana dari segi geografinye, sebahagian sempadan gaza adalah bumi mesir sendiri, tetapi yang bertambah malangnya adalah apabila umat islam sendiri menidakkan hak saudara seagamanya iaitu jiran kepada palestina sendiri. Ini terbukti bahawa umat islam sendiri tidak bersatu dalam membantu palestina. saya amat memahami mungkin kerana perbezaan fahaman politik mempengaruhi kerajaan mesir ketika ini dari menghulurkan bantuan ke GAZA, tetapi wajarkah ia sebagai negara islam terhampir menidakkan haknya. Disini amat jelas sekiranya, jiran sebelah rumah pun tidak mahu @ tidak boleh membantu apakah lagi jiran2 yang berjauhan bukan...Apapun, saya pipitkan doa agar allah s.w.t sentiasa memberi kekuatan kepada seluruh umat islam agar bersatu dan keluar dari cengkaman barat ini, barulah kita akan melihat satu petanda positif di GAZA. Sekian dari saya.Wsalam

Kindly watch & listen to on-live talk on Russia Today between:-

Peter Lavelle (host), Dr. Norman Finkelstein, Mitchell Barak & Chris Garners (The United Nations Humanitarian Aid Representative in Gaza Strip).

Take a look here:-

http://www.youtube.com/watch?v=G81256_g7ks

Observe how Dr. Norman Finkelstein had 'demolished' the Zionist fella (Mitchell Barak) on the blockade issue.

Take note that - it is sickening to see that the Zionist idiot (Mitchell Barak) had suggested that the children in Palestine are being punished by virtue that their parents, who had voted for the Hamas government - in which the Zionist had rejected and dubbed as being a terrorist government. Likewise, Dr. Finkelstein had

also called the Zionist-Israel nation as being a terrorist state in terrorising the Palestinians in Gaza Strip. See how those damn Zionist behave..! Like pure gangsters & terrorists. They MUST be taught a lesson someday..!

And everybody should take heed from the good suggestion by the UN Human Aid representative (Chris) so that 'The Karni Crossing Point' blockade be lifted & opened-up to fully facilitate all form of aid for the Palestinians. Why isn't this happening all this while..!?

Assallammualaikumwarahmatullahiwabarokatuh.

Semoga mendapat izin dan perkenan Tun..

[[ezani]]

Saya amat kesal dengan kenyataan anda kerana saya berpendapat anda tak "nampak" apa yang sebenarnya berlaku. Dan anda memandang persoalan ini dari sudut orang awam (civilian). Sekarang saya terpoaksa membuka "sedikit" rahsia dari pandangan seorang "tentera".

[[1.First of all, there is no need to prove that the Zionists are evil. This has already been stated by God in the Quran. We can also see with our plain eyes from the television and news media what the Zionists have done to the Palestinians since they first occupied Gaza in the 1980's.]]

It is not matter of proving Mr ezani. It is matter of breaking the resolves. Tun are using the conventional civilian approach.

[[2.Sometimes I do not know what the peace activists are doing going to Gaza now. They know the Zionists have an active and powerfully equipped navy which has stopped all marine vehicles from entering Gaza from the coast in the past. So why are they doing the same thing ? The result is what see now and is very predictable :- WE HAVE LOST ALL OUR SHIPS TO ISRAEL INCLUDING ALL THE DONATED EQUIPMENTS AND FOODS WHICH ALL OUR SINCERE DONORS FROM MALAYSIA AND ALL OVER THE WORLD HAVE KINDLY GIVEN. AND OF COURSE WE KNOW WHAT ISRAEL IS GOING TO DO WITH THEM ? I wonder how many hundreds of millions of dollars will go to waste including the loss of the 2 ships Mavi Marmara and Rachel Corrie which is not cheap.]]

Good point. But again. This is a civilian approach. Tun should tries the military approach using "the untraceable" resources. Mercenaries.

[[3.Israel attacked the Mavi Marmara and Rachel Corrie in international waters and they were the aggressors by invading the ships from the helicopters. Although I believe the Arabs (especially the Turks) tried to attack commandos coming down the rope with sticks in self defence, this has given ammunition for the Israelites to say they were attacked first.]]

This debatable Mr Ezani. Israel always use Agent Provocateur. They act as POINTER.

That is way it is not suprising that Israel have managed to kill all the resistance leader's that they feels need to be "neutralized". Their agent's pointed it to them. They act as the provocateur as seen from the video. And IDF only shoot the "unmarked" pointer. This a lesson civilian would not understand and pointless to tell them. The keyword is,

THERE IS TRAITOR'S IN THE MIDST, RANK AND FILE.

4. There is no point keeping on going to Gaza with peace activist ships only to be stopped by Israel commandos and for the ships and aid to be confiscated and lost forever. It is better for the armies of the world to unite (excluding Israel and United States of course) and then launch a full scale war to subdue Israel and then after disabling Israel army, THEN ONLY IT CAN SEND AID TO GAZA PEACEFULLY. But

if the armies of the world were to unite and confront Israel, be ready to face the armada of Israel's big brother, the United States, with its full scale aircraft carriers, F-15 jets and Tomahawk cruise missiles!

Again.From a civilian point's of view.Mr Ezani.

Where skill's is concerns,there is clinical and technical views in application and approach.Israel always won because they are clinical achiever.

INSTEAD OF COMPLAINING..WHY DON'T WE BECOMES CLINICAL ACHIEVER OURSELVES??

Ribuan terima kasih Tun.

>They hate Muslims ; they got a President half a Muslim

>They laughed at the way we solve the "current"cy cisis ; now we smiled sinisterly at how their rogue traders or Pak Man Telo New York (dalam bahasa ayahda Tun) "short-circuited" them and the world of a financial dialysis

>They create war in the GULF lands of Iraq to get black oil ; now they are in "war" fighting oil flowing to their shores from their black GULF waters

>Britain pride with them to help obliterate Afghanistan and GULF Iraq ; now Britain's BP gulfed them the oil they so wish to "rob" from Iraq

>They hang Sadam due to hate; now their trillion dollar debts are hanging by the thread waiting to break

>They love risk so as to make quick bucks by introducing all sorts of "risky" financial instruments ; now they seek for "rizKi" to continually feed their affluent happy moments

>they laugh at us at helping bail for our financial institution; but they worry now of bankruptcy due to their bail-out of Euro nations

rizKonomi vs risk-economy

Isn't their God and our God too..... GREAT!!!..... in HIS "ways" for those who seek HIS atonement

Our God and their God too hates people of PRIDE !

Our God and their God too hates people who think they only know what's best of other people on Mother Earth !

But the Truth is that our God and their God too ONLY knows whats best for HIS Creation.

Ketika "Al Hilal" dan "Kejora" dan "Jupiter" ter"senyum" di langit 3Zulhijjah 1429, apakah petanda cahaya bagi anak2 yatim; orang2 tua; orang2 miskin; orang2 yg daif; orang2 yg lemah; orang2 yg kurang upaya; orang2 yg dianiaya dan dizalimi; dan hamba2Nya yang berjuang di jalan Nya dan hamba2 nya yg jujur dan hamba2 nya yang sabar..... akan menyinar.

Ayahda Tun berkata seperti dalam akhbar hari ini putaran roda akan bertukar "dalam masa 50 tahun lagi apabila blok Timur mengimbangi blok Barat". Apakah dengan izin Tuhan jua kerana beberapa kerat bangsa Melayu Islam yang tawadduk menaiki kapal Flotillamaka tersebarlah berita baik hari ini bahawa Israel telah mula menabur makanan sejak 3 tahun mengepung Gaza kerana "malu" dengan tekanan DUNIA. Apakah firasat dan doa datuk saudara saya disebuah pekan kecil diLinggi Negri Sembilan 40tahun yang lalu ada munasabah nya sekarang.

Teruskan perjuangan ayahda Tun ! seperti perjuangan Tun dengan "MASA" atau "WAKTU" atau "Al_Asr" ... cuma 30min di awalkan diketika Tun mengambil alih kepimpinan dimana sahabat kita yang "kiasu" di Selatan pun tunduk ikut serta langkah kita.

Ayahda Tun ,

Sejak tahun 1980 lagi saya ingin menyampaikan mesej menghormati waktu ini kepada Tun secara peribadi (paling hampir ialah lebih kurang sebulan lebih yang lalu di majlis dinner di Putrajaya dimana saya duduk selang semeja dengan TUN; tetapi tak tergamak saya memuji Tun berdepan orang ramai) tentang berjaya nya sebuah bangsa yang menghormati waktu seperti juga kejayaan Tun yang tak putus2 dengan luahan ilmiah dan perjuangan Tun.

Saya pernah mencadangkan MMT vs GMT sebagai peluang keemasan megetengahkan Mekah sebagai PUSAT BUMI berbanding Greenwich ketika Dato Syekh Muszafar keangkasa di malam 10 terakhir Ramadan utk bersolat waktu MMT berbanding waktu Baikonour (email ke Pejabat PM; JAKIM; Utusan Malaysia; ANGKASA dan ramai lagilah) tapi tak dilayan. Hanya Dato Noraini yang ketika itu Ketua Puteri UMNO seorang sajalah dari berpuluh, yang membalas email saya (terima kasih Dato... saya tahu Dato juga minat blog Che Det macam saya dan akan membaca coretan saya ini).

Dato Syeikh Muszafar akan membawa astronaut2 ISLAM berkumpul di Malaysia tahun 2010 ini. Tun saya harap dapat sekiranya menerajui hajat saya sekali lagi bersama astronaut2 kita agar Mekah Mean Time berkumandang diangkasa bersama azan solat masuk waktu apabila kapten Faiz (bermakna kejayaan) ke angkasa sekali lagi. Bayangkan tak putus2 hamba2Nya yang tawaf depan Kaabah mengerjakan Umrah dan Haji dan yang solat pula dari seluruh pelusuk BUMI tak putus2 walau sesaat pun agaknya, mengadap Kaabah kerana putaran BUMI yang bulat. Bukankah dengan itu melayakkan Mekah menjadi pusat bumi atau waktu.

Dato Zamzam (kerana berkat nya air ZAM ZAM) dari Telekom Malaysia bolih mengetuai GLC2 yang lain menghadihkan sebuah "atomic clock" seperti di Greenwich kepada kerajaan Arab Saudi untuk ditempatkan di kawasan sekitar nya air zamzam di Baitullah..... mudah2an berkatnya rezeki syarikat GLC2 kita dan rizKonomi negara kita. Dato Zamzamzairani juga pasti arif betapa sistem telekomunikasi syarikat beliau begitu bergantung kepada atomic clock GMT untuk kelancaran saluran2 telekomunikasi TM yang berbilion2 kerlipan sesaat. Doa dan harapan saya, satu ketika nanti dari sekarang..... sistem peralatan semua syarikat2 telekomunikasi negara2 Islam dan waktu2 penerbangan dan waktu2 perkapalan dan sebagainya akan berpandukan atomic clock di bumi suci Mekah.

Ayahda Tun; di Greenwich tiada apa2 istimewa di musim sejuk. Di musim panas di "park" atau laman nya, anjing2 menabur "baja" nya ke rumput dan wanita2nya menjarangkan pakaian. Dua kali saya kesana termasuk sekali dengan seluruh anggota keluarga.

Cukup disini sahaja ayahda Tun ikhlas dari saya...Salam buat bonda Tun Dr Siti Hasmah dan terima kasih kepada semua peminat blog Che Det kerana sudi membaca coretan saya ini

Lebih dari 100 gunung tertinggi didunia duduk nya di banjaran hiMALAYA termasuk lah gunung Everest

Dari Wilkepedia - sila lihat nama bumi MALAYA di akhir nota ini

The hiMALAYA Range (Sanskrit: literally, "abode of snow", Hindi/Sanskrit: हिमालय, IPA: /ɦɪˈmɑːləj(ə)/), or the HiMalaya for short, is a mountain range in Asia, separating the Indian subcontinent from the Tibetan Plateau. By extension, it is also the name of a massive mountain system that includes the Karakoram, the

Hindu Kush, and other, lesser, ranges that extend out from the Pamir Knot.

Together, the HiMalayan mountain system is the planet's highest, and home to the world's highest peaks, the Eight-thousanders, which include Mount Everest and K2. To comprehend the enormous scale of this mountain range, consider that Aconcagua, in the Andes, at 6,962 metres (22,841 ft) is the highest peak outside Asia, whereas the HiMalayan system includes over 100 mountains exceeding 7,200 m (23,622 ft).[1]

Some of the world's major rivers, Ganges, Indus, Brahmaputra, Yangtze, Mekong, Salween, Red River (Asia), Xunjiang, Chao Phraya, Irrawaddy River, Amu Darya, Syr Darya, Tarim River and Yellow River, rise in the Himalayas, and their combined drainage basin is home to some 3 billion people (almost half of Earth's population) in countries which includes Afghanistan, Bangladesh, Bhutan, People's Republic of China, India, Nepal, Burma, Cambodia, Tajikistan, Uzbekistan, Turkmenistan, Kazakhstan, Kyrgyzstan, Thailand, Laos, Vietnam, ... Subject: Surat dari seorang teman di Israel

My comments regarding the flotilla incident

Dear friends,

It's not easy to be an Israeli these days. I see hate from all over the world. I want to speak, to explain, to make people look about it in the other way, but it's hard. I really regret the results, and I wish it was different. If I had known these results I would have opposed the operation. But I didn't. I even thought it was the right thing to do at that time. You'll probably ask me why, so I'll explain.

All this mess started 4 years ago when former prime minister Ariel Sharon decided to go out of the Gaza Strip and evacuate all Israeli citizens and soldiers. My party, Meretz, opposed the idea of evacuating Gaza without an agreement with the Palestinian Authority. We said it would weaken the pragmatics and strengthen the radicals. We said it would be an insult to the Fatah movement and will be a victory to Hamas and the other terrorist organizations that used force instead of negotiations. But we had to make a decision: to support Sharon and get out of Gaza or to stay in Gaza. We chose to evacuate the Gaza settlements and return to the international border even without an agreement. The other option of staying in Gaza was even worse.

The problem was that all our worries came true. A few months later the Hamas terrorist organization has taken control of Gaza, killing Fatah Palestinian supporters. Hamas terrorists started to attack Israel, even though there was not even one Israeli soldier inside Gaza. Israeli towns and villages around Gaza suffered massive rocket attacks. Civilians were killed, including some children. Israelis living around Gaza had to suffer constant rocket attacks and fear for their lives. Israeli soldiers defending the international border were attacked and killed. One soldier was kidnapped and is being held in Gaza for 4 years without any visits or rights given by the Geneva Convention.

In 2009, after a few years of almost no massive retaliation, Israel attacked Gaza. There were a lot of casualties, because terrorists used civil population as a shelter and sacrificed children for their cause. Israel made a mistake and attacked them anyway. I don't run out of responsibility, but what can you do when terrorists fire rockets at your civilians and attack your soldiers? What would you do if instead of neighboring countries you would have a terrorist organization on your border?

All these years that Hamas is controlling Gaza Israel doesn't allow free flow of merchandise into that area. Again, there is a reason. We're not sadists. Hamas used construction and agriculture materials in order to build more and more rockets. When we allow metal tubes for construction, they take it and use it as the rocket body. So are other kinds of materials. Food is not included in the blockage. The people of Gaza get food all the time. They're poor, very poor, but not hungry.

The blockage can be lifted any minute. They just have to do two things: hand Gaza back to the hands of the Palestinian Authority, the legitimate Palestinian administration, and free the Israeli soldier. His name is Gilad Shalit. He was 19 years old when he was kidnapped during his compulsory military service and he has done nothing wrong. That's inhuman. When they do it there will be no blockage on Gaza. Now back to the recent incident: 6 ships with hundreds of people tried to break the blockage. I'm sure most of them were really good people. They thought Israel tortures Palestinians without any reason. They thought they can do something for the poor people in Gaza. They just didn't thought about the implications of lifting the blockage. They didn't thought about the Israelis that were killed by the rockets. They didn't thought about the fact Hamas is preventing Israel and the Palestinian Authority of reaching a peace agreement. But I respect them, because they had an ideology and they were willing to do something about it.

Israel couldn't allow the ships to break the blockage for the reasons I have described. The government decided to stop it as quickly and clean as it could. They showed the basic plan to the Israeli public. Soldiers were supposed to get aboard the ships and take them to Ashdod harbor in Israel. The cargo was supposed to be checked and transferred to Gaza by land with the inspection of the people who came with the ships. Then the demonstrators were intended to be sent back to their countries. This plan seemed good and human. That's the reason I supported it. But something went really wrong.

Israeli Navy called the ships and explained the described plan. They had been told there was no intension of harming them. They were warned to stop heading into Israeli held territorial water, but they proceeded. That's legitimate. They were demonstrating. But they risked the blockage of Gaza that is important because of the described reasons. The Navy decided to take the ships at night, before they enter territorial water. That was a mistake, but the intention was to do it fast under dark and without casualties. 5 of the 6 ships were taken exactly by the plan with no casualties at all. On one ship, the Marmara, things were different.

We've all seen the pictures. Israeli commando soldiers came from a helicopter. In order not to risk the demonstrators, they were equipped with paintball guns. They also had pistols, but with a very clear order to use them only in a case of a life risk. They came from the helicopter one by one. Each soldier was taken and brutally hit by 4 people on the boat. Two pistols had been taken from the soldiers and were used against them. One soldier was dropped from the upper deck to the lower one. Some soldiers were stubbed by knives. The first shots were fired by the people on the ship. Only then the soldiers returned fire.

You can see the video here:

The result is very sad: 9 people killed and about 30 wounded, including 7 soldiers. No one in Israel wanted that to happen. I blame the government for not thinking about such a case, but it was not the original intention. Please try to understand Israel's motives. I wish the people of Gaza to be free without the rule of Hamas. I regret this incident and hope for a better future.

Salam Tun

I have a few points I would like to make on the Israeli attack on the Gaza Aid flotilla which I have been following closely on Astro AWANI :-

1. First of all, there is no need to prove that the Zionists are evil. This has already been stated by God in the Quran. We can also see with our plain eyes from the television and news media what the Zionists have done to the Palestinians since they first occupied Gaza in the 1980's.

2. Sometimes I do not know what the peace activists are doing going to Gaza now. They know the Zionists have an active and powerfully equipped navy which has stopped all marine vehicles from entering Gaza from the coast in the past. So why are they doing the same thing ? The result is what we see now and is very predictable :- WE HAVE LOST ALL OUR SHIPS TO ISRAEL INCLUDING ALL THE DONATED EQUIPMENTS AND FOODS WHICH ALL OUR SINCERE DONORS FROM MALAYSIA AND ALL OVER THE WORLD HAVE KINDLY GIVEN. AND OF COURSE WE KNOW WHAT ISRAEL IS GOING TO DO WITH THEM ? I wonder how many hundreds of millions of dollars will go to waste including the loss of the 2 ships Mavi Marmara and Rachel Corrie which is not cheap.

3. Israel attacked the Mavi Marmara and Rachel Corrie in international waters and they were the aggressors by invading the ships from the helicopters. Although I believe the Arabs (especially the Turks) tried to attack commandos coming down the rope with sticks in self defence, this has given ammunition for the Israelites to say they were attacked first.

4. There is no point keeping on going to Gaza with peace activist ships only to be stopped by Israel commandos and for the ships and aid to be confiscated and lost forever. It is better for the armies of the world to unite (excluding Israel and United States of course) and then launch a full scale war to subdue Israel and then after disabling Israel army, THEN ONLY IT CAN SEND AID TO GAZA PEACEFULLY. Not enough death from natural disaster? Huh, that's not enough! Death must also come by way of war, otherwise, no respect cause people not fearful. War – is the way to be truly mighty.

The calls to save the earth, trees and all, the importance of understanding of global warming, the what and what for , disposing plastic and etc?

What is the LINK - human, the great beings, the one with brain and together with a heart will supposedly do the right things, or otherwise, for the future generations - your child, my child, our children, theirs, their continuity. No, no double standard here, not colour, not religion. This is the consensus. Then why, we can be kind to trees and understand where we are going with that, but, at the same time, we let people die every day, causes grief to them? And, we say, we cannot help, because helping is, a wrongdoing to our

friend, there are boundaries to observe. To being human? Why be choosy, it is ok to help the others, but not this one, this one we cheers, make a toast, be happy because they are grieving, no doubt about it, they deserve it, they are terrorist, they ought to die, all of them, even their women and children, slowly but surely, give time.

Which GOD died and someone takes over and decided who gets to be alive, to be killed or left to die, rot and decay.

Palestine and Israel are put in front of us all as an example, a test to our human side. What are being said, going where with that, doing what and what drives, being careful, but in the end, honesty prevails. If ever should the decision is not to help, won't or cannot, then no need for twisted words written or spoken in 1st class English, layered with pretence and sometimes imitate accent, just so, you could look the other way.

That gigantic nations, full with values, look up to by most in awe, drools and all, mesmerised by their presentation, what great actors, best acting and actions, a great watch, often the images lingers on, falling in love with the actors and imagining what to do on a chance meeting—hmmph, row row row your boat gently down the stream, merrily, merrily merrily, life is just a dream. It's not entirely wrong, but enough, time to wake up, for the sake of our children!

When I was a younger man, I enjoy bowling, watching the pins go ke baa boom!!! Disturbing a Minah when she is about to throw her ball, a pitching pee weet, to distract her, so the ball roll in the drain instead. I won, that was fun. But I cannot bowl all the time, I have to come back home to rest. On my own, the fun lingers on but for how long, emptiness took over, nothing last for very long. That's the way, it's not entirely wrong, wrong is when, we make excuses not to wake up, happy with our dream. For the sake of our children, wake up, who to say that it is not going to happen to us!

I have a family now. We've been through the ups and downs, thick and thin, sick and sin, not all bed of roses, but it's meaningful. I wish my Palestinian friends could experience the same.

We are conscious of our surroundings, neighbourhood, countries and the world. Even though we knew we are a tiny part of a real big picture. we can still have our say, through many communication medium – spoken or written. Right now, what we want to say is that we are human we don't have to be citizen to be sad. MALAYSIA is a 'prihatin' nation, that is true. We do not support war, we rather help a country pick up the pieces, to built not destroy. To us when the killings continue, the aid should continue too, the situation now is not like last time when war was fought gentlemanly. As human, we just cannot close an eye, for the sake of our children.

Dear Tun,

You've 151 comments already on this subject and I'm going to be very brief. Most of the comments are merely adding to the condemnations and lamentations on the atrocities and high-handed actions of the Zionists. There does seem to be any suggestion on a new approach to get the humanitarian assistance to the beleaguered Palestinians. We seem to be planning to mount a new flotilla and Iran Red Crescent plans to send 2 aid ships to the Gaza by end of this week, probably escorted by the Iran's elite Revolutionary Guards (NST. Teu June 8 p.25. Israel (with the help of US, UK and probably France) will be ready to intervene and any armed confrontation would be most disastrous. US would welcome such a clash to justify its intrusion or ingression into Iran.

Doesn't OIC or the Arab League have any alternative approach to make the Israelis listen to reason and allow the flotilla to go through without an armed engagement on the high sea? What would make Israel listen to reason? Would we fight someone if that party is holding some of our men, women and children hostage, to be instantly released unscathed and unharmed if we allow the party through? Work on getting the hostages but treat them with Islamic gentleness as an illustration of the Muslim's Ihsan. No details need be mentioned here. But on a longer term plan to meet any western design to phase out Islam or the Muslims, we should now consider the possibility of each Muslim country to elect a non-political Mursyid to represent the country in a Jumaah al-Mursyid to be headed by a Mursyidul Alami (like a

Caliph). Only then can we face the west with one voice, overcoming the current internecine quarrels among the small and divided Muslim nations (the result of western design after the fall of Constantinople. The Jumaah will explain and defend Islamic principles to the western world, interface with the Christians and the Jews and work with them on an agenda to maintain world peace. We all know that politics and economic interest can only divide this world and perhaps lead us to a WW3. And we know that the entire Muslim world could not stand against Israel in an armed conflict with the superpower backing that it has. We have no choice but to resort to some subtle all-point infiltration strategy, using some of the finer points of Islamic teachings, since current diplomatic maneuvers would not get us anywhere with the Zionists.

Thanks you, Sir.

The commentators here are not candid enough. The Turks 'fronting' the flotilla propaganda efforts because Ankara pines for the good old days when they had Arabs serving them breakfast in bed, as in the Ottoman halcyon days. There must be something compelling about this need of a superiority complex over Islamic Arabs.

Same applies to the Iranians in their desire to own nuclear devices. How could the Shite Ayatollahs forget the Western powers pressing the Shah to secularise and modernise Iran, to the detriment of the Ayatollahs? Expediently, these same Western powers left the Sunni Saudis alone to promulgate conservative and fundamentalist Wahhabism.

There is now a contest to own the leadership of Islamic Arabs. And the Muslim non-Arabs are now leading the way. Al-Qaeda's Sheik Osama is right so far; Islam's ascendancy has to be fronted by non-Arabs, hence, his choice of Afghanistan's Taliban as a close ally. Egypt's Anwar Sadat tried and his country was bled dry in the defeats to Israel. Iraq's Sadam Hussein tried, but his connection to Baath Party (a political ideology co-founded by a Christian Arab, Michael Aflaq, as an alternative to Islamic theocracy): made it only a temporary occurrence till the end of Iran-Iraq War. After which, Sadam's penchant for poor decision-making in the choice of enemies ensured his demise by the Western powers.

Therefore, Israel has no real friends only opportunistic enemies in its neighbourhood,

Kill a Turk and Rest
by Uri Avnery
(Saturday, June 5, 2010)

"More than 200 years ago, Thomas Jefferson declared that every nation must act with a "decent respect to the opinions of mankind". Israeli leaders have never accepted the wisdom of this maxim. They adhere to the dictum of David Ben-Gurion: "It is not important what the Gentiles say, it is important what the Jews do." Perhaps he assumed that the Jews would not act foolishly."

On the high seas, outside territorial waters, the ship was stopped by the navy. The commandos stormed it. Hundreds of people on the deck resisted, the soldiers used force. Some of the passengers were killed, scores injured. The ship was brought into harbor, the passengers were taken off by force. The world saw them walking on the quay, men and women, young and old, all of them worn out, one after another, each being marched between two soldiers...

The ship was called "Exodus 1947". It left France in the hope of breaking the British blockade, which was imposed to prevent ships loaded with Holocaust survivors from reaching the shores of Palestine. If it had been allowed to reach the country, the illegal immigrants would have come ashore and the British would have sent them to detention camps in Cyprus, as they had done before. Nobody would have taken any notice of the episode for more than two days.

But the person in charge was Ernest Bevin, a Labour Party leader, an arrogant, rude and power-loving British minister. He was not about to let a bunch of Jews dictate to him. He decided to teach them a lesson the entire world would witness. "This is a provocation!" he exclaimed, and of course he was right. The main aim was indeed to create a provocation, in order to draw the eyes of the world to the British blockade.

What followed is well known: the episode dragged on and on, one stupidity led to another, the whole world sympathized with the passengers. But the British did not give in and paid the price. A heavy price.

Many believe that the "Exodus" incident was the turning point in the struggle for the creation of the State of Israel. Britain collapsed under the weight of international condemnation and decided to give up its mandate over Palestine. There were, of course, many more weighty reasons for this decision, but the "Exodus" proved to be the straw that broke the camel's back.

I AM not the only one who was reminded of this episode this week. Actually, it was almost impossible not to be reminded of it, especially for those of us who lived in Palestine at the time and witnessed it.

There are, of course, important differences. Then the passengers were Holocaust survivors, this time they were peace activists from all over the world. But then and now the world saw heavily armed soldiers brutally attack unarmed passengers, who resist with everything that comes to hand, sticks and bare hands. Then and now it happened on the high seas – 40 km from the shore then, 65 km now.

In retrospect, the British behavior throughout the affair seems incredibly stupid. But Bevin was no fool, and the British officers who commanded the action were not nincompoops. After all, they had just finished a World War on the winning side.

If they behaved with complete folly from beginning to end, it was the result of arrogance, insensitivity and boundless contempt for world public opinion.

Ehud Barak is the Israeli Bevin. He is not a fool, either, nor are our top brass. But they are responsible for a chain of acts of folly, the disastrous implications of which are hard to assess. Former minister and present commentator Yossi Sarid called the ministerial "committee of seven", which decides on security matters, "seven idiots" – and I must protest. It is an insult to idiots.

THE PREPARATIONS for the flotilla went on for more than a year. Hundreds of e-mail messages went back and forth. I myself received many dozens. There was no secret. Everything was out in the open.

There was a lot of time for all our political and military institutions to prepare for the approach of the ships. The politician consulted. The soldiers trained. The diplomats reported. The intelligence people did their job.

Nothing helped. All the decisions were wrong from the first moment to this moment. And it's not yet the end.

The idea of a flotilla as a means to break the blockade borders on genius. It placed the Israeli government on the horns of a dilemma – the choice between several alternatives, all of them bad. Every general hopes to get his opponent into such a situation.

The alternatives were:

* a. To let the flotilla reach Gaza without hindrance. The cabinet secretary supported this option. That would have led to the end of the blockade, because after this flotilla more and larger ones would have come.

* b. To stop the ships in territorial waters, inspect their cargo and make sure they were not carrying weapons or “terrorists”, then let them continue on their way. That would have aroused some vague protests in the world but upheld the principle of a blockade.

* c. To capture them on the high seas and bring them to Ashdod, risking a face-to-face battle with activists on board.

As our governments have always done, when faced with the choice between several bad alternatives, the Netanyahu government chose the worst.

Anyone who followed the preparations as reported in the media could have foreseen that they would lead to people being killed and injured. One does not storm a Turkish ship and expect cute little girls to present one with flowers. The Turks are not known as people who give in easily.

The orders given to the forces and made public included the three fateful words: “at any cost”. Every soldier knows what these three terrible words mean. Moreover, on the list of objectives, the consideration for the passengers appeared only in third place, after safeguarding the safety of the soldiers and fulfilling the task.

If Binyamin Netanyahu, Ehud Barak, the Chief of Staff and the commander of the navy did not understand that this would lead to killing and wounding people, then it must be concluded - even by those who were reluctant to consider this until now – that they are grossly incompetent. They must be told, in the immortal words of Oliver Cromwell to Parliament: “You have sat too long for any good you have been doing lately... Depart, I say; and let us have done with you. In the name of God, go!”

THIS EVENT points again to one of the most serious aspects of the situation: we live in a bubble, in a kind of mental ghetto, which cuts us off and prevents us from seeing another reality, the one perceived by the rest of the world. A psychiatrist might judge this to be the symptom of a severe mental problem.

The propaganda of the government and the army tells a simple story: our heroic soldiers, determined and sensitive, the elite of the elite, descended on the ship in order “to talk” and were attacked by a wild and violent crowd. Official spokesmen repeated again and again the word “lynching”.

On the first day, almost all the Israeli media accepted this. After all, it is clear that we, the Jews, are the victims. Always. That applies to Jewish soldiers, too. True, we storm a foreign ship at sea, but turn at once into victims who have no choice but to defend ourselves against violent and incited anti-Semites.

It is impossible not to be reminded of the classic Jewish joke about the Jewish mother in Russia taking

leave of her son, who has been called up to serve the Czar in the war against Turkey. "Don't overexert yourself" she implores him, "Kill a Turk and rest. Kill another Turk and rest again..."

"But mother," the son interrupts, "What if the Turk kills me?"

"You?" exclaims the mother, "But why? What have you done to him?"

To any normal person, this may sound crazy. Heavily armed soldiers of an elite commando unit board a ship on the high seas in the middle of the night, from the sea and from the air – and they are the victims?

But there is a grain of truth there: they are the victims of arrogant and incompetent commanders, irresponsible politicians and the media fed by them. And, actually, of the Israeli public, since most of the people voted for this government or for the opposition, which is no different.

The "Exodus" affair was repeated, but with a change of roles. Now we are the British.

Somewhere, a new Leon Uris is planning to write his next book, "Exodus 2010". A new Otto Preminger is planning a film that will become a blockbuster. A new Paul Newman will star in it – after all, there is no shortage of talented Turkish actors.

MORE THAN 200 years ago, Thomas Jefferson declared that every nation must act with a "decent respect to the opinions of mankind". Israeli leaders have never accepted the wisdom of this maxim. They adhere to the dictum of David Ben-Gurion: "It is not important what the Gentiles say, it is important what the Jews do." Perhaps he assumed that the Jews would not act foolishly.

Making enemies of the Turks is more than foolish. For decades, Turkey has been our closest ally in the region, much more close than is generally known. Turkey could play, in the future, an important role as a mediator between Israel and the Arab-Muslim world, between Israel and Syria, and, yes, even between Israel and Iran. Perhaps we have succeeded now in uniting the Turkish people against us – and some say that this is the only matter on which the Turks are now united.

This is Chapter 2 of "Cast Lead". Then we aroused most countries in the world against us, shocked our few friends and gladdened our enemies. Now we have done it again, and perhaps with even greater success. World public opinion is turning against us.

This is a slow process. It resembles the accumulation of water behind a dam. The water rises slowly, quietly, and the change is hardly noticeable. But when it reaches a critical level, the dam bursts and the disaster is upon us. We are steadily approaching this point.

"Kill a Turk and rest," the mother says in the joke. Our government does not even rest. It seems that they will not stop until they have made enemies of the last of our friends.

Alhamdulillah. Well Done, Tun Dr Mahathir Mohamad.

Dear Tun Dr Mahathir Mohamad,

A Hope For A Better World
(a prayer for a better life)

A Day in November
by Uri Avnery
(Saturday, May 29, 2010)

"AIPAC is blackmailing Obama, and until now it has been successful. It will go on doing so after November. Obama should face up to the idea and decide: no more....Will he have the courage to do so? I

don't know. I hope."

RAHM EMANUEL is, so it seems, the American most hated by the leaders of Israel. He is considered the most dangerous opponent of the Netanyahu government in the White House. Behind closed doors, they shower him – if one is to believe the media - with anti-Semitic epithets. "Jewboy" is one of them. In Zionist usage, he is a "self-hating Jew".

And lo and behold, here he is strolling around the Galilee in shorts. He visits the occupied Golan Heights, which foreign diplomats normally take great pains to avoid. The IDF flies him between its installations. He prays at the Western Wall. A good Jewish tourist from America.

Emanuel's son has reached the age of Bar Mitzva; where better to celebrate than the Land of Israel, where his grandfather was a member of the Irgun – an outfit that the US administration would have branded a terrorist organization, like Hamas today.

In short, the self-hating Jewboy has revealed himself as a Zionist with a warm Jewish heart, an admirer of the IDF and a supporter of the annexation of the Golan Heights.

THE VISIT was not, of course, a passing whim. It joined a long series of gestures by Barack Obama designed to win the hearts of the Jews before the upcoming congressional elections.

It seems that at some stage, months ago, Obama came to the conclusion that he had lost the first round of his contest with Binyamin Netanyahu, and that it would be better to live and fight another day.

He himself spelled it out in a conversation with Jewish leaders: at the beginning of his path in the Middle East he stepped on some landmines. He has learned his lesson.

The result was a campaign of sweet-talk and flattery:

He invited Elie Wiesel, Mr. Holocaust in person, to a private lunch at the White House. Perhaps they exchanged memories about some common experiences, like "How to accept the Nobel Peace Prize and keep a straight face." Wiesel's contribution to peace is one of the great mysteries of the universe. (My own opinion of Wiesel found its expression in a Hebrew word I invented especially for him: "Shoan" (something like "Holocauster".)

After that, Obama met with several sets of "Jewish leaders" and told them about his unwavering support for the security of Israel, his admiration for Netanyahu and love for Israel in general. Never mind that just recently a major opinion poll has shown that these "leaders" represent mostly themselves – the great majority of the younger Jewish generation in the US opposes the policies of the Israeli government and is becoming more and more alienated from Israel.

Sending his No. 1 confidante to Israel in the guise of an ardent Zionist and extending an invitation to Netanyahu to come and visit him in the White House are further stages in this campaign.

WHAT IS the aim? Well, that is as clear as the mid-day sun.

On November 2, the 93rd anniversary of the Balfour Declaration, elections will be held in the US. All the seats in the House of Representatives and 34 in the senate will be up for grabs.

For Obama, these elections are hugely important. In the worst case, the Democrats will lose control of one of the houses of Congress, making it impossible for Obama to get most of the laws he desires passed. The best he can realistically hope for is that the Democratic majority in both houses will be reduced, making the life of the President much more difficult.

AIPAC has already shown that it can have a big impact on election results. When the lobby decides to topple a member of Congress, that is the end of his political life. When the lobby concentrates its financial

and political might on a certain spot, it is almost invincible.

Obama now needs all the support he can get in both houses. Therefore, he must neutralize the pro-Israel lobby. The expense of the Bar Mitzva party of the Emanuel family was a negligible price to pay for this.

When Obama says that he stepped on a landmine, he means the mine called AIPAC.

THE PHENOMENON itself is nothing new. It repeats itself every four years, and sometimes every two.

Since the first day of the State of Israel, all Israeli governments have been aware that an election year in the US provides them with unparalleled political opportunities.

Israel was founded in May 1948, half a year before the US elections. Harry Truman was in a critical situation. Many believed that he would be roundly defeated. He was in desperate need of money. Some rich Jews dug into their pockets and saved Truman, who won by the skin of his teeth.

All of Truman's political and military aides advised him not to support Israel's independence. But Truman recognized the new state (de facto at least) immediately after it was established.

From that day on, whenever the Israeli government needs US support for a controversial act, it waits for an American election year. This has almost always succeeded. The exception: a week before the 1956 elections, the Ben-Gurion government (urged on by Shimon Peres) invaded Sinai in cahoots with France and the UK. The Israeli leaders believed that no American politician would dare to oppose Israel on the eve of elections.

They were wrong. President Dwight Eisenhower, a former supreme allied commander, was supremely confident of his election victory. Therefore he ignored the Jewish lobby and, together with his Soviet colleague, presented Israel with an ultimatum. That got David Ben-Gurion out of Sinai and Gaza in a jiffy.

Those who hoped that Obama would prove to be a second Eisenhower were wrong. In spite of some resounding successes, his political situation is far from impressive. The oil spill in the Gulf of Mexico has not improved his political health. As a realistic politician, he has decided that this is not the right time to take on the Jewish establishment.

Perhaps he remembered the sober advice of Niccolo Machiavelli: If you can't kill the lion, don't provoke it.

HOWEVER, THERE is a huge landmine buried on the road to election day: the settlement freeze.

When Obama compelled Netanyahu to freeze the settlements officially in the West Bank (and unofficially in East Jerusalem, too), a ten-month period was agreed upon. This will come to an end in September.

When the time comes, Netanyahu will face immense pressures from the settlers and their allies to start building again. "What are you afraid of?" they will say, "two months before the elections Obama will not dare to lift a finger! And (quoting a Jewish sage) if not now, when?"

The situation in Israel will increase the temptation. It seems that "we have never had it so good". There are no attacks. Our economy is booming. In spite of the criticism echoing around the world, Israel's political standing is robust. Just last week Israel was accepted as a member of the OECD, the world's most prestigious economic club. Obama has capitulated. When the army's Homeland Command held extensive exercises this week, the people just winked and did not bother to run to the shelters.

The temptation to renew the building in the settlements will be strong. But Netanyahu will think about the day after. And so will Obama.

AND INDEED, what will happen the day after the elections?

Optimists believe that on that morning, a new era will start. No further elections are planned before November 2012, when Obama's first term expires. For an entire year, at least, he will be free to act.

That is a "window of opportunities". A wide-open window. During this time Obama can realize his hope of bringing peace and retrieve the position of the US in the Middle East. As an added bonus, he will also be able to vent his accumulated fury against Netanyahu.

According to this forecast, in this one year, from the end of 2010 to the end of 2011, the final act of the drama will be enacted. Obama will present an American peace plan, the pressure on the Israeli government will intensify, Israel will finally have to choose between peace and territories, peace will at long last be on its way.

But there is also an opposite forecast: Obama will continue to disappoint, as he has disappointed until now. He will already be thinking about the next presidential election and continue to be afraid of AIPAC.

This forecast has a lot going for it. When I was very young, my father admonished me never, but never, to yield to blackmail. He who pays a blackmailer once will continue to pay to his last day. A blackmailer never lets go of his victim.

(In the course of my life I have tried to adhere to this advice. My technique is this: when somebody tries to blackmail me, threatening to do me some harm, I imagine that he has already done so. This way, the threat loses its sting.)

AIPAC is blackmailing Obama, and until now it has been successful. It will go on doing so after November. Obama should face up to the idea and decide: no more.

Will he have the courage to do so? I don't know. I hope.

Terima Kasih dan Salam Takzim, Tun Dr Mahathir.

Dear Tun Mahathir,

You may not get the aid to Gaza as intended by the Flotilla but you have created ripples of awareness beyond imagination all over the world. People who were not aware of what is happening in Gaza or merely didn't bother to take notice of Israel's atrocities are now wanting to become peace volunteers and fight the blockade. Take comfort in that. There's reason behind all this. It's just the beginning, Insyah Allah.

Not many people knew you were the man behind the Freedom Flotilla itself. I salute you for that.

Dear Tun,

I guess Palestinians plight would have been forgotten without people like you.

Here's some facts that no one, even the Israelis can deny:

1) The world will be a better place today (less wars, less killings, less terrorism) had the United States not supporting Israel like they have been doing in the past 25 years. Israel won't be as arrogant and lawless, and several countries in Middle East namely Iraq, Iran, Afghanistan and Lebanon won't be affected by unjustified attacks and sanctions just to protect the interests of Israel.

2) Jews believe that they are masters of this world, other races are second class citizens of the earth. Whatever actions by them are right, if other races or countries go against them then these people are stupid and noisy. Life of the Jews are comparatively more valuable. Since Jews are superior

economically, defensely and knowledge wise, there are always at an advantage - so can do whatever they want including rough treatments to anyone who acted against them.

As it is, there is little that the world can do about Zionis. Unless China, Russia, Korea, Japan, etc are become stronger than U.S. or the UN Office move to another neutral country, or the world stops using US Currency... we are all doomed!! (of course, God is Greatest and Most Merciful)

Take Care Tun. Assalamualaikum.

It just really shows the disparity in terms of wealth in this country. The rich or the well off are concerned about things happening on the other parts of the world. I'm not saying that this is bad. It's good that we care.

But we must give priority to what's happening in Malaysia. The rich is getting richer. The poor is getting poorer. We STILL have poverty here in Malaysia. People living of scraps. What about them?

Salam Tun; dan semua pembaca blog Chedet.

Salam perjuangan demi Negara, Islam dan rakyat Palestin.

Bantuan Gaza telah dicemari dengan tragedy hitam yang dilakukan oleh sejenis Manusia yang berwajah shaitan. Israel adalah LANUN dan SHAITAN Afrit yang bertopengkan Manusia.

Allah telah memberi peringatan bahawa musuh utama Manusia ialah Shaitan dan juga golongan manusia yang menyamai Shaitan.

Tun, apa yang membimbangkan ialah sifat Shaitan Israel ini yang menjadi LANUN BERLESEN diperairan antarabangsa dengan MEROMPAK kapal yang membawa barangan, peralatan dan bahan binaan yang dirampas untuk dihantar kepada penduduk Gaza itu akan DISALAHGUNAKAN.

****Tun, di kkuatiri barangan dan peralatan tersebut mungkin diserahkan pula kepada PENDATANG HARAM YAHUDI untuk membina penempatan baru mereka diatas tanah yang dirompak daripada orang Palestin itu.

Di harap pihak kita dengan ikhtiar Tun, dapat memastikan melalui PBB agar barangan tersebut tidak disalahgunakan oleh pihak Israel bagi tujuan haram tersebut.

Sekian, terima kaseh Tun.

Salam Tun,

Locally there was the darkest day in our country's history when the official and obvious fact was denied. Dr Chua Soi Lek's son, Chua Tee Yong the MP for Labis said in Parliament session on March 16 that there is race in Malaysia is the majority.

Please refer to www.merdeka-online.net for verification.

Unfortunately, the UMNO Youth Chief, 'Madam' Khairy who participated in the debate just kept quite. Most probably he agreed to what Tee Yong said.

Many wonders what was the intention(s) of Tee Yong, now elevated to a deputy minister as a reward from MCA for his braveness.

Soon after elected as Deputy President of MCA last time, his father was quoted as saying that Chinese should be equally treated like the Malays.

Any objection?

Bismillahirrahmanirahim.

Tun,

1.Saya menjangkakan bahawa Israel akan merencanakan suatu peristiwa/isu sebagaimana contoh peristiwa 911 yang telah berlaku bagi meneutralkan kembali pandangan masyarakat antarabangsa kepada Israel.

2.Kemungkinan apa cetusan hebat yang bakal terjadi adalah merupakan survival Israel/Zionis versus masyarakat DUNIA sejagat. Perlu diingatkan bahawa Israel dan proksinya adalah merupakan pemegang peringkat tertinggi bagi teknologi-teknologi hasilan manusia terkini YANG MUSTAHIL PADA PANDANGAN BIASA.

3.Meneruskan tindakan mencemarkan imej Islam disamping memecahbelahkan dan menghancurkan perpaduan umat Islam adalah agenda paling utama Israel bagi menentukan survivalnya berterusan yang mana telah bertahan sehingga kini - 62 tahun usia 'Negara' haram Israel. Survival Israel adalah secara 'manipulate' dan parasit kepada seluruh umat dunia sejagat.

4.Terdapat pola menunjukkkan sokongan dan simpati dunia terhadap Palestin / Gaza telah meningkat dan pakatan antara Negara Islam akan menjadi lebih positif. Imej agama dan umat Islam juga telah diberi perhatian oleh masyarakat antarabangsa yang cintakan keamanan.

5.PERKEMBANGAN INI TIDAK BAIK UNTUK ISRAEL/ZIONIS. Israel takkan berdiam diri dengan hanya mengikuti dan memandang sahaja terhadap perkembangan yang telah berlaku ini. PENYATUAN ISLAM DAN MASYARAKAT DUNIA SELURUHNYA MERUPAKAN KEMUSNAHAN MUTLAK KEPADA ISRAEL/ZIONIS.

6.Apa yang saya lihat Tun merupakan harapan pada masa kini untuk menyatukan pemimpin-pemimpin negara-negara Islam, umat Islam dan masyarakat dunia keseluruhannya. Mungkin pandangan saya melampau tetapi tindakan Tun adalah merupakan 'detonator' bagi memastikan berlakunya letupan kebangkitan umat Islam dan dunia sejagat yang telah lama tertindas. Teruskan usaha Tun, kami Rakyat Malaysia, Umat Islam, Masyarakat dunia yang cintakan keamanan sentiasa di belakang Tun. Speak Louder Tun ...

UNTUK melemahkan Israel perlu kita melemahkan tailbarut Israel dan Amerika.OIC mesti ada ketenteraan sendiri,bukan hanya perhimpunan yg kosong saja,yg tunduk pada UN dan negara kafir,supaya ISLAM Tidak dihina dan dizalimi.

Ini hari berita hangat,besok lusa senyap saja.Belaku lagi dimasa depan kecoh dan senyap lagi. Sampai bila perkara ini kita biarkan berlarutan.

ISLAM dicemar dan tidak ada badan atau negara yg bangkit untuk Islam.Ada perjuang seperti Alqeadah,Hamas,Hisbollah dan sebagainya kesilapan besar kita,kita menyahut hasutan US,Israel dan talibarutnya menganggap perjuang ini sebagai Terrorist.

Adatidak kita seperti Yahudi yang menamakan perjuang yg berjihad ini sebagai terrorists.

OIC perlu ada tentera,kalau tidak setiap kali Islam DIHINA

OIC asik Oh I see,bila nak game.

Salam Tun yang dihormat,

The Arab countries don't seem as strong to defend muslimins' rights and interests because of a strong USA/UK supporting an equally strong Israel.

The Arab world in the past history have been cut up into separate individual countries by the previous non-muslim british colonisers. Lebih baik jika pemimpin-pemimpin negeri-negeri Arab itu disedarkan tentang hakikat ini dan bertukar fikiran dan bergabung bersatu seperti EU (European Union), eg. AU (Arabian Union). Perbuatan non-muslim british memecahkan dunia muslimin Arab haruslah kami orang muslimin meyedari dan ditukarbalikkan.

History of the Arab world, that have been brokened and seperated by the non-muslim british, should be corrected and rejoined again by us muslimins even if it is just a loose coalition of a Union to begin with. History, wronged by the non-muslim british, should be corrected back again by us muslims. Dear Tun, please do us a favour and talk to your counterparts in the Arab world about this if/when you meet them next time. Blessed Regards.

"Bless the activists who went there for humanitarian efforts"

Assalamualaikum Tun,

Ramai yang menyuarakan agar memboilot barangan keluaran Israel, malangnya saya masih tak tahu apakah barangan tersebut.

Salah satu barangan keluaran Israel yang saya biasa temui dan baiki adalah mesin 'autoclave' yang banyak digunakan di hospital swasta malah turut juga terdapat di hospital kerajaan.

Jenama : Tuttnuer

Alatan ini kononnya keluaran USA (luaran), malangnya ia adalah buatan yahudi. Jika tidak percaya sila lihat komponen dalaman alatan ini. USA hanya 'proxi' atau lebih jelas lagi sebagai 'pengelabu mata' atau ejen jualan.

Assalam alaikum

YABhg Tun dan seluruh warga chedet yang hormati

Pertubuhan Bangsa-Bangsa Bersatu atau UN telah menjadi "United Nothing." Tidak membawa apa-apa. Rasanya sudah tiba masanya "United Nations" yang baharu dan bersifat demokratik diwujudkan oleh negara-negara bukan kuasa VETO.

Saya berasa hairan dan pelik mengapa Liga Arab membisu terhadap kejahatan rejim zionis laknatullah terhadap sukarelawan-sukarelawan yang berjihad atas nama kemanusiaan.

Usia saya masih lagi muda baru mencecah 28 tahun. Kemungkinan besar saya akan memohon untuk menjadi ahli sukarela mana-mana organisasi sukarela Malaysia. Dan misi saya ialah misi kemanusiaan (terutamanya di bumi Palestine).

Untuk misi kemanusiaan yang seterusnya, bekalan makanan, ubat-ubatan, dan sebagainya perlu dibawa dengan kapal perang dan tempur yang canggih. Tentera rejim zionis laknatullah pasti tidak teragak-agak melepaskan tembakan walau sedas pun. Apatah lagi membidik.

Salam Tun & CheDet's Fellow Bloggers,

It is an established fact that the Jews are like that as clearly described in Quran (for those who read and understand Quran) They can even challenge Allah's commands so who are we that they need to listen to?

A few aspects that I would like to highlight to trigger our thought as to accept the truth.

1- If they are so cruel and inhumane, why then Allah did not just destroy them as done as to others before?

--- well as we know the difference between Prophet Muhamad SAW and other prophets is that Prophet Muhamad SAW request Allah to hold any punishment on earth and would give and have time for ummah to repent (Taubat nasuhah) before one died and Allah probably will forgive them.

The behaviour of the Jews have not really changed since then. 2 drawn conclusion:-

a) This should remind the the faithful (yg beriman)to strengthen belief in the power of Allah as Allah promise such people who disobey Allah's command with extreme punishment in the afterlife that difficult for one imagine.

b) for that behaviour, Hitler wish to exterminate all Jews from the face of this earth. Of course, he was not successful and condemned for his cruel treatment of the Jews. But he, if still alive,would feel proud to tell us now that what he did was right. That's why he left some of them (Jews) alive to as a proof or reason for his action. Think about it.

2) One of our bloggers and many pro-Jews have suggested that why not the Palestinians just emigrate to other nearby Arab countries based the earlier migration done by Moses & the Jews themselves from Egypt to Palestine and Prophet Muhammad SAW & Mekah Muslims to Madina. True and had been successful for the following reasons:

- These events were commands from Allah.
- The newcomers were welcome and well-treated by the existing residents of the place and they lived together in peace & harmony.

However, the current situation is different by miles, since the creation of Israel in 1948 by force, of course the local (Palestinians) will reject and have to defend themselves for their lands. More European Jews were illegally brought into Palestine so that they can create instant majority to dominate politics and can claim that they are a democratic country. As expected, the Zionist from Europe took over the government and were the trouble maker, not those original residents who have now minority voice. The culprit in this issue is the British Government that planted the seed of hatred that remain and perhaps would remain unresolved until the end of the world. Now the countries who were responsible, namely the British that gave away the land and USA to support in UN for the creation of to become today Israel washed their hand clean. Putting salt to the wound, the 2 countries, US in particular condemned the Palestinians as terrorist just because they keep on fighting the injustice created by the Jews on them. Of course, everybody know the rest.

Therefore you the pro-Jews, don't pretend that you do not learn history and assume we are so stupid to accept your naive suggestion as to solve the problem.

The facts as shown what kind of people are the Jews. Why can't they accept the concept of 2 states? what should they, when they feel they are strong. They further provoked, frustrated and made life hell for the Palestinians because they want to chase out the Palestinians to become a stateless nation, believing that they then will be left in peace. Jews are arrogant, untrustworthy, liars, cheaters and all the negative that you can name, they practice them as a national culture.

May Allah protect us all from such evil.

"A Global Civil Society Campaign to De-Legitimise Israel?"

By Thalif Deen

UNITED NATIONS, Jun 4, 2010 (IPS) - If, as expected, the U.N. Security Council remains politically impotent and refuses to penalise Israel for the killings of nine pro-Palestinian civilians on a ship carrying humanitarian aid to Gaza, what is the next course of action?

A global civil society campaign to de-legitimise Israel? Formal or informal sanctions by individual states? Worldwide arrest warrants?

All of these - and more - are in the realm of possibility, say two leading constitutional experts, Professor Richard Falk, U.N. Special Rapporteur on Occupied Palestinian Territories, and Michael Ratner, president of the New York-based Centre for Constitutional Rights.

The gridlock in the Security Council is likely to remind civil society forces that justice for the Palestinians will depend on bottom-up conflict resolution, and a global delegitimising campaign that worked so well in the struggle to defeat South African racism, Falk told IPS.

Asked how Israel could be punished and/or penalised for its atrocities - if action is to be taken outside the Security Council chambers - Falk said there are two sets of punitive responses outside of the U.N. system.

First, by strong diplomatic initiatives, as for instance, the deterioration of Israeli trade and security relations with Turkey, and others; and by some governments adopting informal or formal sanctions - again the South Africa analogy is relevant, he said.

Secondly, by civil society initiatives that move toward further de-legitimation of Israel, such as a citizen tribunal on Israeli aggression on the high seas or slow genocide in Gaza; an intensifying campaign fueled by outrage, including the failure of the United Nations to uphold international law in relation to Israel, said Falk, who is also professor emeritus of international law at Princeton University.

Ratner told IPS the injured citizens from various countries can and should begin criminal prosecutions in their home countries against Israeli officials who ordered this attack in international waters.

"Worldwide arrest warrants should be issued. Israeli officials should understand that they may have impunity in Israel, but that they leave Israel at their peril," he said.

The Israeli attack on the flotilla of ships carrying humanitarian aid, which resulted in the killings of eight Turkish nationals, has provoked anger and protests worldwide.

According to news reports, there were more than 600 civilians from 32 countries on board the six ships which flew the flags of Turkey, Greece and Comoros.

But after a 12-hour session Monday, the Security Council issued a tame "presidential statement" condemning what has been described by critics as "high seas piracy and banditry".

The United States, which has traditionally thrown a protective arm around Israel - whether the Jewish state is right or wrong - was primarily responsible for "watering down" the statement and refusing to adopt a formal resolution against Israel.

Secure under a protective U.S. umbrella, Israel is unlikely to be singled out for condemnation or even subjected to Security Council sanctions or resolutions.

"Yes, it is likely that Israel will continue to enjoy de facto impunity as a result of Euro-American geopolitical protection," Falk told IPS.

But he predicted that European support for Israel is likely to be under strain "after such a flagrant disregard of international law and such a cruel and arbitrary use of force".

Ratner told IPS that "at some point - [and] we may be reaching that point - the anger at Israel by Muslim populations of countries like Turkey and Pakistan, and by extension their anger at the U.S., UK and France for their continued support in the Security Council for Israeli lawlessness, may force a change."

This is not because those countries care a whit about Palestinians, he said, but because their security depends on not alienating millions in an area they deem crucial to their economic and physical security.

"So I have not given up hope for increased pressure on Israel from the Security Council," he said.

The Security Council's failure to condemn this attack is also part of its failure to act on prior occasions when Israel has violated international law, such as in Gaza, said Ratner. At a minimum, the Security Council should refer this matter to the International Criminal Court (ICC) in The Hague, he added.

"The Security Council overlooking lawlessness in the past has led to more lawlessness in the future. It has given Israel impunity to carry out horrendous human rights violations," he noted.

As the Security Council, controlled on this issue by the U.S., the UK and France, protects Israel, "We are seeing the emergence of a remarkable phenomenon: militant activism by thousands from all over the world taking action that is the best hope for forcing a change that could end the blockade, end the settlements and has the potential to bring peace," he said.

Addressing parliament Wednesday, a visibly angry Turkish Prime Minister Recep Tayyip Erdogan said that, "Even despots, gangsters and pirates have specific sensitiveness, (and) follow some specific

morals."

"But those who do not follow any morality or ethics, those who do not act with any sensitivity, to call them such names would even be a compliment to them," he said.

"This brazen, irresponsible, reckless (Israeli) government that recognises no law and tramples on any kind of humanitarian virtue, this attack by the Israeli government must by all means be punished," he added.

Referring to the Israeli version of the attack, Erdogan said the government in Tel Aviv, "has made lying its state policy and does not blush about the crime it commits".

Instead of expecting the Israelis to open an investigation, "the international community must investigate this incident in all its dimensions and must give the legal response", he added."

If the Israel regime cannot trust others (especially Muslim countries) to send the humanitarian aids, why not we ask United States to bring the aids to Palestine using the US warships. I think this might be helpful since only US can be trusted by Israel regime.

A New Assessment On Bringing Relief To Gaza Has To Be Made, Says Dr Mahathir

KUALA LUMPUR, June 7 (Bernama) -- A new assessment on the effectiveness of shipping humanitarian relief aid to Gaza has to be made to ensure the aid reaches the people of Gaza, said former Prime Minister Tun Dr Mahathir Mohamad.

He said: "We have to make an assessment first as to the effectiveness of the method of bringing relief to Gaza. This is not just a propaganda.

"We are very worried that the cement for example is not allowed by the Israelis to be imported into Gaza. They (Palestinians) may make use of it to build military bunkers to fight against them (Israelis), but without the cement they (Palestinians) cannot build the houses," said Dr Mahathir when asked on the next move of the Perdana Global Peace Organisation (PGPO) to bring aid to the Gazans following the hijacking of the relief vessels by Israel's navy...Dr Mahathir is the chairman of PGPO, a non-governmental organisation involved in relief missions.

It was involved in the Gaza Aid Flotilla mission to bring humanitarian aid to Gaza this past week but the

Israeli's refused to let the ships in it to go to Gaza but instead diverted them to Ashdod Port in Israel.

The Israeli's also attacked one of the ships in the convoy, causing nine deaths which sparked an international outrage and demands that Israel lift its blockade of Gaza...When asked whether humanitarian aid can be transported by air, he said that he did not think so, and added that "it might be by land".

"If Egypt opens it border with Raffah in Gaza, they want to examine everything and every item that we take and that may cause delays, and also they may consider certain things as dangerous," he said.
-- BERNAMA

Well said, Tun; and what do Turkey and Syria have to say?
For entries through Eyypt to Gaza why can't there be an inspection center at Raffah? It is better late than never, Tun.

Salam Takzim.
(on another note, why can't there be a non-Malay TPM after PRU13?)

Di dalam usaha membantah keras tindakan tidak berperikemanusiaan tentera Israel terhadap konvoi Bantuan Keamanan, jangan kita lupa bahawa segala masalah yang berlaku di perairan antarabangsa Gaza mungkin boleh dielakkan jika negara Mesir, jiran Gaza dan puak Hamas di Palestin dapat bekerjasama di atas nama Islam dan umat Islam.

Tetapi ianya bukan begitu!!

Peristiwa pergaduhan berdarah di antara Mesir dan Palestin di sempadan Rafa, jelas menunjukkan bahawa usaha kita bukan sahaja tertumpu kepada menyalahkan negara Israel tetapi juga untuk menyedarkan negara Mesir dan Hamas supaya menggunakan otak mereka dan berfikir ke arah penyelesaian di antara mereka.

Semua dunia dah tahu negara Israel memang kejam dan zalim. Secara diplomasi dah tidak boleh digunakan. Hanya tekanan sahaja yang boleh diberikan. Itu pun tak pasti lagi selagi dapat sokongan Amerika. Mungkin kita boleh buat satu hari cuti umum bagi ANTI ISRAEL yang disokong oleh dunia.

The failure to implement the recommendations of the Gladstone report has encouraged Isreal to more violence And aims they will get away with this Also as the Un resolution seems to recommend investigation by Isreal, that would be hilarious if it was not tragic. the American response has been muted but they have cancelled Bibis trip small sign of displeasure , on the other hand Us has increased military aid to Israel a sure sign of encouragement .Us and now Canada's blatant support to Israel has to be mellowed for there to be any chance of civilized behavior by Isreal .I would recommend action by Muslim states and for starters that should mobilize as many boats, ships and load these with essential items and sail for Gaza.

Dearest beloved Tun,

The Israeli Dilemma

- 1- The Palestinians are truly resilient people
- 2- Their children's future, education, etc, is not a priority
- 3- All that they desire is to shahid, and punish Israel for her follies
- 4- While their military Hamas rain rockets on the Israeli civilians
- 5- Their civilian rain stones on the Israeli military
- 6- if this don't help them win the war against Israel
- 7- They will attempt blowing themselves up
- 8- Israel's best cheerleader USA, is not cheering loud enough now, she is not feeling well
- 9- Suspected deficiency in vitamin M,
- 10- And also maybe, don't want to look like cheering the wrong side
- 11- For their monopoly on world opinion has now been broken
- 12- By none other than their own smart invention, the internet.
- 13- So, should Proud Israel remove the blockade on Gaza now?
- 14- And appear to have conceded victory to a retired PM from the Far East?
- 15- From an insignificant nation due to bankruptcy by 2019 if subsidies not removed?
- 16- Or should they fast forward the clash of civilizations now
- 17- Before the retired PM gets any stronger?

May Allah protect you at all times.

The video shows the protesters attacking the IDF using non lethal weapons and we also do not know when this happened . Possibly after the Israelis had started to fire indiscriminately . You are right the Israelis are doing to the Palestinians what was done to them in North Europe , with the exception of gas chambers .The blockade is really economic sanctions , denying the Palestinians export possibilities and therefore further impoverishing them , they have converted the whole of Palestine into ghettos and have usurped water .The brazen and continued American support further encourage the Israelis . My issue is that if the UN forum is ineffective Muslim states and other sympathizers should use alternative forums .What was effective against apartheid will also be effective against Israel .There need to be continued and sustained action and not just reactions over atrocities .

Dear JJJ,

I too can't help laughing at your pro-Tun comment, as usual.

The way you comment you could be from middle class family or close to upper class or your family has connection with UMNO. So wealth is no problem.

Have you seen a poor Malay, Chinese and Indian family? Do they deserve this? When petrol rise do you have any objection? Of course not cos you can afford even price rise to \$4.00/litre.

Imagine our rich nation's wealth is equally distributed, where you think we all be now. Rakyat will prosper with the CLEAN government. Look at Singapore and Brunei. BN/UMNO ministers building mansion and stole RAKYAT \$\$\$ billions. What's your views? If one fine day your family member is robbed or shot by notorious PDRM or robbers, how will you react?

I don't care whether is Anwar or Tok Guru, what we need is a CLEAN government. I will support BN if they are clean but 22 years under Tun things are progressing in the WRONG path cos Tun BECOMES GREEDY. Current govt. corruption is the legacy of Tun.

More than >500,000 Msians emigrate to overseas for the past 2-3 years. I'm not surprise you could be one of them if things get worse. FDI reduced tremendously due to serious corruption issue in Msia.

So JJJ, you don't like Anwar is fine with me but we need a clean govt so that RAKYAT can prosper. If Rakyat don't prosper, they will go after you and your family, if you are rich.

Tun knows he made a BIG mistake but future new clean govt will go after TUN, his family and BN MONSTERS and recover all the STOLEN RAKYAT's WEALTH. Go read alternate news...Mkini, Malaysia Insider...more and more RAKYAT getting furious.

Assalamualaikum Tun,

Tahniah atas komitmen kental sukarelawan m'sia khususnya dan dunia amnya dlm misi "JIHAD" utk membantu rakyat Palestin diGaza.Walau pun misi ini digagalkan oleh rejim jahat Israel tetapi alhamdulillah perbuatan ganas dan tak bertamadun mereka sudah pun membuka mata masyarakat seluruh dunia.Harap momentum kebencian masyarakat dunia terhadap kekejaman rejim Israel ini akan

berterusan. Adalah menjadi tanggung jawab kita semua dari pemimpin negara hingga pemimpin dunia menekan rejim Israel agar mematuhi undang undang Antara bangsa. Seperti yang kita semua maklumm rejim Israel boleh melakukan anika kekejaman terhadap sesiapa saja. Israel tidak pernah dipersalahkan kerana dibelakangnya ada AMERIKA. Kalau dah terang lagi bersuluh amerika tetap menyebelahi Isarel kenapa pemimpin dunia berdiam diri? pelik...Seluruh pemimpin dunia tahu Amerika menghancurkan Afganistan dan Iraq dengan alasan yang tidak boleh dibuktikan sehingga hari ini. Sudah sekian lama Amerika tidak boleh dipercayai haruskah pemimpin dunia mengikut telunjuk Amerika?. Saya dapati sanction yang hendak di kenakan terhadap Iran tidak adil. Sebenarnya ini kemahuan israel dan Amerika jadi kenapa pemimpin dunia nak sokong?. pelik...Saya memohon agar Tun dapat melakukan apa yang termampu demi keamanan dunia.

i still remember the story of an Israeli army officer who empty a full magazine of 10 bullets on a 13 year old Palestinian girl (iman al-hams. is one bullets is not enough to kill a little girl? it needs 10? He obviously in a sick way enjoyed it hence multiple shots. it's more likely to believe that the Nazis massacre them for a reason. You would think someone who is a former victim would not do the same inhumane thing to other people because he/them knows how terrible it is in the first place.

salam Tun,

I can't help but laugh out loud at Karma's comments.Poor typical anti Tun thinking.

Funny isn't it when the Rachel Corrie incident happened, everybody including the opposition wanted to jump on the anti Israelis bandwagon, when in fact Tun was one of the organisers.

Now PAS & PKR want to act like heroes, when many years back they spread countless lies and slanders against him. Typical empty tins.

Now we can see who is the talker and who is the doer. Talk is cheap.

Also now we can see that Tun got it right all these while. God willing, the 'semen in the b**thole' will finally prove a mountain too high for DSAI's defense team to conquer, unless they devise some outlandish explanations and outrageous conspiracy theories within the next few weeks purportedly to study some documents which in fact they had in their possessions all this while! LOL!

Imagine the great lengths some people go to protect their golden investment. They must really love this man for some reasons even when many years back these were the same people that demanded him to be put to trial and calling him AL JUBURI.

/// 3. The activists must know that the same thing might happen to them. But it is ridiculous to suggest that the civilian activists planned to fight against the well-armed and well-trained Israelis. ///

Tun, imagine you are the Israeli soldier. I am sure you have seen the Palestinians hurling stones and Molotov cocktails at the soldiers. Heck, even children planned to fight against the well-armed and well-trained Israelis.

/// 4. Claiming that the activists attacked the commandos first is equally ridiculous. The forces ranged against them were powerful and enormous, capable of sinking their boats. The Israelis have been known to ram supply boats with their armoured naval vessels. What is clear is that the Israeli's were the ones to attack first by dropping their commandos from the helicopter. ///

Dropping their commandos is just that - dropping. How can take be construed as attacking first. So, if the riot squats move to take up position to dispel rioters, it is considered as attacking first, and so rioters are justified to attack the police?

/// 5. The Israelis claim that the activists seized the pistols belonging to the commandos. Again this is ridiculous. These are trained soldiers, wearing protective armour and most certainly skilled in unarmed combat. It is most unlikely that raw activists can disarm and seize the guns of the black-suited commandos. ///

And of course Anwar's black eyes were self-inflicted.

/// 6. In any case, shooting with live bullets against a group of civilians probably armed with wooden sticks is unjustified. ///

What about the Malaysian police shooting civilians? Are they justified? I have yet to hear you utter a squeak against the murder of the younger teenager who was shot dead driving his sister's car.

Salam,

This is my first time posting here, I need some feedbacks & views on it. Hope you could look into reading it. Its just a thought with common sense being in the picture.

Did u notice that the Sinking hole in Guatemala (31/5/2010) happened on the exact same day as the IDF attack on the Flotilla(31/5/2010)?

First & foremost, just having an open mind towards it, don't you think that if the Sinking hole in Guatemala had happened on a different date as the IDF attack which was on 31/5/2010, would it be a BIG issue for the world to view and have in mind? I see that it should have been rather a serious issue. It is a rare sight, and at certain proving a part of the end of the world.

Well, for certain, as stated by the "medias", which undoubtedly is represented by the Jewish themselves, explains to the public that the Sinking hole is just caused by the movement of land caused by floods etc etc.

Well everyone knows what's on the newspapers, and whats in the news. But not many of us are actually looking into it with such common sense.

It is a big issue, but with all due respect towards of what happened towards the flotilla (which is rather a bigger issue), the Sinking hole in Guatemala seems to be an issue that is not much concentrated on. The publics (world) viewpoint has been totally diverted into focusing themselves (ourselves) into the uncivilised conduct of the IDF towards the humanitarian aid Flotilla which was heading to the land of Gaza. Do you & the readers agree with me? (Please keep an open mind).

What about the Sinking hole in Guatemala of what the public knows actually? We know that scientists are looking into it, we know that it's a sudden happening that was caused by movement of ground which eventually was caused by water movement underground, or something like that. That's what the general public thinks. But is it for real? Is it true that it's not something to actually look into and worry into?

Without a doubt, what the IDF did towards the Flotilla should have got everyones attention & concentration on it, but what about the Sinking hole in Guatemala?

Try looking for it and doing some research on it over the internet. Some ppl even say it is the opening of Gates of Hell. Some say it's the signs of Ya'Jub & Ma'Jub (sorry for my spelling on it). But what is happening? What is the truth behind it?

Now still, having that open mind, what do you think about this issue with having common sense put in? Without being buyers towards the media which the Jewish controls, and with having only to look at it without having the IDF issues which is bigger in mind.

Is this a COVER UP towards something bigger than what it may seem it is? Is ISRAEL and the Jewish community trying to cover up something on the Sinking Hole in Guatemala which could be a BIGGER issue that what had happened towards the humanitarian aid Flotilla to Gaza? Is the IDF attack just a world media propaganda to divert peoples attention away from what happened in Guatemala? Is this

another of the Jewish games towards the world? Are they hiding something yet again? (Similar to what happened to WTC, Iraq attack, Afghan attacks, Lebanon attacks, etc.) What is actually happening to the world nowadays? Keep an open mind, and without being buyers towards the media in any form.

Again, with all due respect towards of what had happened to the Flotilla, and together with other humanitarian aid heading for Gaza, I speak my prayers together with the rest of the world over of what had happened.

This is just a thought which I speak, just for you and the public to think about. Nothing to be resolved, it's just a thought given.

Hope you could well look into this at a glance and give this post some feedback of what you think personally.

Thank you Sir.

Regards & salam.

Salam Tun

It was reported in the news tonight that one of the humanitarian activist who died on Mavi Marmara was shot for 30 times. Wow! i am sure a fully trained commando is able to discharge one shot to disable a wood/iron rod wielding man coming towards him, 2 or 3 shots to kill him. What were the other 27 bullets for? Something to think about for those who still supports Israel's inhumane act. Cant wait for the Malaysians involved to return home and hear their account of what happened.

Assalammualaikum w.b.t Ayahanda Tun dan isteri,

Semoga dirahmati ALLAH s.w.t selalu,

Konvoi Mavi Marmara dan Rachel Corrie berjaya membuka mata dunia sehingga BAn Ki Moon, Setiausaha Agung PBB meyelar dan mengarahkan siasatan terperinci terhadap kejadian tembakan yang membunuh 9 aktivis warga Turki dan Amerika. Namun begitu, kejayaan sepenuhnya dalam menghantar barang2 dan bekalan makanan, ubatan, bahan binaan ke Palestin tidak akan tercapai seratus peratus kerana kapal-kapal pasti akan ditahan dan dibawa ke pelabuhan Ashdod, diperiksa dan mungkin separuh sahaja yang akan tiba ke Palestin. Penghantaran 100 buah kapal sekaligus yang dicadangkan oleh KJ juga belum tentu akan berjaya kerana Israel akan menggunakan taktik yang lebih keras seperti mengebom sebuah kapal untuk mendatangkan ketakutan, kegerunan (deterent) kepada kapal-kapal yang

berada dalam konvoi. Saya mengusulkan supaya Ayahanda Tun menggunakan cara lain yang lebih baik seperti memohon Mesir membuka sempadannya untuk penghantaran barang2 melalui jalan darat. Dengan ini, penghantaran barang2 ke pada Palestine akan lebih berjaya. Kejayaan Vietnam mengalahkan Amerika semasa Vietnam War adalah keupayaan Vietnam menggunakan jalan-jalan tikus dan terowong2 bawah tanah yang menyambungkan pelbagai tempat. Wassalam

Tun M,
Let me discuss other issue which is more important. The Poor Rakyat.

You have created many MONSTERS during your 22 years rule. Daim, Vincent Tan, Eric Chia, Tajuddin Ramli, Halim Saad, Mirzan, Mukhriz, Ananda Krishna, Samy Vellu, Gani Patail, IGP...not forgetting UMNO leaders including YOU. Our country is RICH but YOU and your MONSTERS plundered billions.

Perwaja, Bakun, Putrajaya and other wasteful mega projects are your legacy of SHAME. You introduce corruption in a big time. You destroy judiciary, police, monarchy and many others. Democracy destroyed.

In the name of ALLAH, please return all billions stolen from Rakyat. This money can build our economy. For e.g no toll, free road tax, free education, free medical, cheaper cars and many more. Teachers salary starts with \$3000, police constable \$2500, govt clerk \$1800 and etc. These are real growth my dear TUN. STOP talking about Israel or other country. Focus Poor Rakyat FIRST!

Salam to Tun and family,
We must do something:

1. Create another military might which totally excludes Israel and USA, and is the equivalent of NATO and UN.
2. Someone who will champion the creation of a BORDERLESS global Muslim-led organisation which will register male military volunteers (and non-military women volunteers) from all over the world, to fight zionism and zionism-related atrocities, attacks and threats to any independent states or nations.
3. Let me be the first woman volunteer in this global Movement to free Ghazzah a.k.a. Gaza.

I reckon only a few of us are aware about the incident (way back in the 1960's) where The Israeli Defence

Forces had attacked the US Naval ship - i.e. The 'USS Liberty'. The attack that had left 34 US sailors dead. And till this day nothing is being said in the US mainstream-media nor from the US Government themselves on that dreadful tragedy. Instead, all that had happened to the 'USS Liberty' had been pushed aside, covered-up and to be left a forgotten issue from all of the US people as well as the rest of the world.

Here are some URL links that can clarify & confirm the incident, as below:-

<http://www.uss-liberty.com/>

and the YouTube version:-

<http://www.youtube.com/watch?v=Ujoc1DYjuPE>

as well as the full-length Google Video version:-

<http://video.google.com/videoplay?docid=-3319663041501647311#>

Mind you, the attack by the Israeli forces back then was done towards a US Naval ship and not towards some Arab nation's naval forces or a some civilian sea vessel. And yet, the US Government did not even lift a finger towards the Israeli Government on this despicable attack and are keeping mum about that incident even to this very day. Such great lies and hypocrisy in its highest degree..!

So now and today, do we expect the USA and the Western Nations (or even The UN Organisation) are going to do anything about the recent raid and murder on the 'Freedom Flotilla' which was on its way to Gaza recently..? If they (The US Government) and the powers that be had refused to call for some inquiry & investigation on the 'USS Liberty' incident, but had instead covered-up the attack that happened towards their own warship..., then do we think they are going to do something about a tragedy that had happened towards some 'Freedom Flotilla'..!? Forget it..! It's not going to happen.

When is the whole world going to realise that that this world of ours is full of lies and hypocrisy..!? And why so..?, if we were to ask. Answer – in a short while.

So what are we to do..? Well, I know what I am going to do. I am not going on-board some 'Freedom-Aid Flotilla' sea-vessel and in the process get clobbered, shot at or murdered by those Zionists Special Forces. If I do ever get go to Gaza or Palestine to help the Palestinians, then I will make sure I am well-equipped like some 'Rambo' or 'Steven Seagal' and fully armed up to the teeth with sophisticated weaponry. I will make sure that I shall 'take down' dozens of those IDF (Israeli Defence Forces) idiots, before anything happens to me. That's the only way to teach those damn Zionist lunatics a lesson. But I don't think that is gonna happen. Anyhow, I won't go to Gaza or The Palestine in effort to help the Palestinians by merely providing for them – Biscuits & Blankets..!

So what else can I do..? Anyway the best that I can do is that I am going to get myself well-informed with real information and knowledge. I will seek the truth and get the real picture. I am going to spread the knowledge & info to relatives, friends & colleagues - and even to strangers if I have to. And I will do all this via the Internet. I will be a 'cyber-warrior'. For now, that's the best I can do for humanity.

In that effort, I am going to expose those Zionists lunatics, their cohorts and conformists – like (say) 'Hanan The Horrible'. Once before, I had some very heated arguments & discourse with some of those IDF (Israeli Defence Forces) members over the YouTube forum, while chatting over the net. In fact, I had even called them as Israeli Dumb F**ks - to their displeasure of course. Surprisingly though, not many of them even know who Rachel Corrie was. You see, even their Israel mainstream-media have filtered & censored the real & true news to their own people. So I have done a real 'favour' to those IDF idiots by 'educating' them who Rachel Corrie was and what their evil Zionist Regime had done to foreign people like her..., in exposing the real story on how their own government are fooling them. Hopefully, some of those Zionists shall come to their senses. Mind you, some of them have - if they have real conscience.

Anyway, as Dr. Norman Finkelstein puts it that - Israel is Lunatic Nation. And they have hundreds of nuclear weapons & missiles. By looking at what had happened in the Sabra & Shatila concentration camps, the Gaza Strip massacre as well as the recent 'Freedom Flotilla' incident, one can only imagine what those lunatics can do with nuclear arms & weapons in their hands. It's a frightening and shuddering thought indeed.

Well for now, to me I am doing the best that I can - to expose the lies and present the real picture - to all and everyone that I can. I am not going to sit back and allow all these 'fitnah' (menutup yang benar - conceal the truth) to overwhelm each & everyone of us. I am not going to be duped by some evil Globalists & New World Order proponents.

And I am no 'Conspiracy Theorist'. I deal with facts & figures. And from facts & figures I have gathered over the years, I am now convinced that there is some Global Agenda by some Hidden Powers & Elites - i.e. the 'hidden powers' that is far beyond the powers of the Zionists & the Neo-conservatives - who really the mere pawns & lackeys. So if those idiots are mere pawns, then what are WE...!? Well for some of us..., due to our complacency and comfort-zone mentality, we are mere chicken feed & cattle fodder to these evil global elitists.

And In my case, I am not willing to be their chicken feed or cattle fodder. I shall try level best to expose those 'hidden powers' (whoever they are)..., via the internet - that is my Jihad. And something which I expect many others to do the same for the good of mankind. The choice is ours to make - either we sit back and do nothing or we do something about it. Allah SWT is watching and ever aware in what we do or not do..!

Wassalam.

Salam YAB Tun,

Menghantar convoy (para utusan dari Malaysia) ke negara-negara liga arab rasanya lebih bermanfaat iaitu untuk memberi peringatan dan mengajar mereka tentang ajaran Islam yang sebenar yang pada asal

dahulu telah dibawa oleh datuk-nenek mereka sendiri selepas Nabi saw.

Kalau dahulu pedagang-pedagan dan ulamak-ulamak Islam datang ke negara kita untuk menyebarkan ajaran Islam, maka sekarang tugas kita pula untuk melakukan perkara yang sama terhadap mereka memandangkan ramai diantara mereka itu pula yang telah kembali ke zaman kegelapan jahiliah.

Kalau majoriti keturunan Bani Israil boleh rosak akidah dan telah hilang perikemanusiaan sekarang maka tidak mustahil keturunan Bani Ismail juga mengikut langkah yang sama bila meninggalkan segala suruhan dan ajaran kitab-kitab suci yang telah dibawa oleh para nabi dan para rasul kepada mereka.

Peringatkan kepada mereka bahawa Nabi saw dahulu melarang para sahabat beliau selama 13 tahun di Mekah supaya sentiasa sabar dan tidak membalas perbuatan jahat musuh dengan kejahatan dan menghadapinya dengan tabah dan sabar serta sedia memberi pengampunan kepada musuh.

Peperangan didalam syariat Islam hanya dibenarkan atas 3 sebab:

- (1) Peperangan untuk mempertahankan diri (self-protection),
- (2) Peperangan membalas (punitive wars), dan
- (3) Peperangan untuk mendapat kebebasan beragama (to secure freedom with a view to break the power of those who kill those who accept Islam). Itupun setelah mereka benar-benar faham tentang ajaran Islam dan setelah terbukti mempunyai keimanan yang mantap dan kekuatan.

Maka sesiapa yang berminat untuk berjihad kerana Allah swt maka fikirkan cara dan kaedah sesuai untuk membetulkan penyelewengan akidah umat Islam yang sedang berleluasa didalam negara-negara Islam dan bersedialah untuk menyertai AID CONVOY TO THE ARAB LEAGUE.

Wassalam.

*****A WORD OF GRATITUDE FROM THE SLEEPING UMMMA TO DR. TUN MAHATHIR MOHAMMED

Dear Dr. Tun Mahathir,

On behalf of the sleeping Umma,
On behalf of the Silent Umma,
On behalf of the Cowardice of the Umma
On Behalf of the Passive and Complacent Umma

Thank you for all your efforts in supporting and assisting in the numerous ways the Gaza Peace Flotilla.

Most of the news about your generosity and help for the Gaza Peace Flotilla efforts are found in the foreign press and unfortunately NOT IN THE ARABIC or Main stream press.

I want the readers to know that behind the scene Tun has been a driving force and shining beacon of support and help for the Gaza Peace Flotilla in every way he can.

We love you Tun

We love you O' Tiger of Malaysia.

Not all Muslims are sleeping. We see and we hear and we truly Love you from the bottom of our hearts. I just wish there were more leaders like you around the world.

As an Arab, i am ashamed of all our failures and silence.

I hold myself first responsible and look up to your leadership and mentorship.

Malaysia is truly lucky to have a MALAYSIAN TIGER that is so generous and humble, as all his efforts are done with very low key humility. So were the deeds of the Sahaba (God Blessings be upon them). They did the good deeds and their humility forbade them from publicizing it.

But i must say, Tun's deeds must be publicized, for they are a role model for all the Peace Loving people around the world Muslims, Christians, Jews and Others that believe in peace and freedom.

May God Bless Malaysia for Producing such a Nabigha (Arabic word means a Unique one", who never ever stopped caring and loving the Umma.

I just wanted to let you know that we know your great generous deeds.
We Admire you.
We love you.

And may God bless you and your family forever.

Al Salamu Alaykum Wa Rahmatu Allah Wa Barakatu

God Bless Tun the Tiger of Malaysia
God Bless Tun and family

*****A WORD OF GRATITUDE FROM THE SLEEPING UMMA TO DR. TUN MAHATHIR MOHAMMED

Dear Dr. Tun Mahathir,

On behalf of the sleeping Umma,
On behalf of the Silent Umma,
On behalf of the Cowardice of the Umma
On Behalf of the Passive and Complacent Umma

Thank you for all your efforts in supporting and assisting in the numerous ways the Gaza Peace Flotilla.

Most of the news about your generosity and help for the Gaza Peace Flotilla efforts are found in the foreign press and unfortunately NOT IN THE ARABIC or Main stream press.

I want the readers to know that behind the scene Tun has been a driving force and shining beacon of support and help for the Gaza Peace Flotilla in every way he can.

We love you Tun

We love you O' Tiger of Malaysia.

Not all Muslims are sleeping. We see and we hear and we truly Love you from the bottom of our hearts. I just wish there were more leaders like you around the world.

As an Arab, i am ashamed of all our failures and silence.

I hold myself first responsible and look up to your leadership and mentorship.

Malaysia is truly lucky to have a MALAYSIAN TIGER that is so generous and humble, as all his efforts are done with very low key humility. So were the deeds of the Sahaba (God Blessings be upon them). They did the good deeds and their humility forbade them from publicizing it.

But i must say, Tun's deeds must be publicized, for they are a role model for all the Peace Loving people around the world Muslims, Christians, Jews and Others that believe in peace and freedom.

May God Bless Malaysia for Producing such a Nabigha (Arabic word means a Unique one", who never ever stopped caring and loving the Umma.

I just wanted to let you know that we know your great generous deeds.
We Admire you.
We love you.

And may God bless you and your family forever.

Al Salamu Alaykum Wa Rahmatu Allah Wa Barakatu

God Bless Tun the Tiger of Malaysia
God Bless Tun and family
God Bless Malaysia

Asalam Tun;

Finally the world open esp. the Arab countries and others opened their eye and hear what supposed to hear.

I am happy with you - the genius one's behind all these humanitarian effort which you able to unite those activities and used "Rachel Corrie" sentiment but I am frustrated with Obama.

He is not a technical person to sort-out the oil spillage on BP's at Mexico gulf, I presume he may get oppression from US internal white house Jew i.e. 70% composition.

I pray for all Muslim and your effort and health, your age is double then me - He pro-long your life because you are the leader to lead people via your vast knowledges and strategies....Amin!!

By the way, Ayahanda Tun,

What happened to MIED, MIC's Investment Arm for Education???

MIC's Sammy was offered 6 million shares or 1 million shares by TM?

Maxis is also run by Indian, and Maxis also got their own Education centre, why Maxis can do well?

A client of mine, Indian, with tertiary background in B.A (honours) from UKM, invested in F1 formula launched by PM, has closed down, why????

I guess he trusted Politicians more than What Market Needs!!!!

Who's fault, PM, BN, Government or His???

That's all for today, Ayahanda Tun.

Dear Tun,

Are you not the person who said that in politics everything is fair?
Well, why condemn the Israeli and their army when back home the UMNO/ Barisan government and our
police force are no different? In fact under similar circumstances the UMNO/Barisan government and
our police force would have done even worse. Remember how we treated our own people when they
wanted to stage peaceful protest and demonstrations?

Of all person, YOU ask for fairness? Remember you harvest what you sow... There cannot be two rules,
one for you and another for them.

ASWBT Tun Mahathir,

Apakah firasat arwah Datuk saudara saya hampir empat puluh dekad yang lalu (awal 70an) ada mungkin nya jadi kenyataan!

Di dalam sebuah pondok usang di sebuah kampong di pekan kecil di Linggi, N.Sembilan seorang tua umur anggaran 60an berkata pada cucu nya dalam samar2 lampu pelita kerana tiada letrik dirumah tersebut

".....Satu hari bangsa Melayu lah yang akan membebaskan Al-Aqsa."

Ketika itu usia saya agaknya 15tahun dan hanya saya dan dia yang mengelamun di dalam kepekatan malam di suasanai bunyi riuh-rengik cengkerik. Baru kini saya mengerti akan hikmah berjaga malam dan tiadanya kelalaian yg timbul melalui hiburan dan TV. Alangkah baik nya jika anak2 saya pun melalui pengalaman sedemikian ?

Apabila buat pertama kali dalam sejarah Tanah Melayu, beberapa sahabat2 kita yang tawadduk telah

masuk ke Israel secara paksa kerana ditawan, dan seluruh dunia membuak marahnya kepada Israel..... apakah ini satu permulaan kepada firasat tersebut! Wallahua'lam.

Teruskan perjuangan ayahanda Tun menjadi pelopor kepada perjuangan mengembalikan kedaulatan agama di bumi suci tersergam nya Kiblatun awal Masjidul AlAqsa. Semoga firasat dan doa Datuk saya jadi kenyataan insyaAllah bagi hamba2Nya yang Jujur dan Sabar.

Mossad Chief Meir Dagan said on Tuesday that Israel is progressively becoming a burden on the United States.

"Israel is gradually turning from an asset to the United States to a burden," said Dagan, speaking before the Knesset's Foreign Affairs and Defense Committee.

Dagan said that the U.S. government has recently examined the possibility of coercing a settlement on Israel and the Palestinians, but retreated from the idea after realizing it would not lead to a peace agreement.

Netanyahu was right !!!!! (READ THE ARTICLE ITS TONGUE AND CHEEK)

All the prime minister's predictions have come true. He always said the whole world was against us - now he is right.

By Gideon Levy

The time has come to take off our hats to the prime minister. Benjamin Netanyahu's predictions have proved accurate, and his prophecies are coming true right before our eyes. Now we can proudly declare that our government is led by a man of vision, a statesman who has foretold the future. Even his greatest critics can't deny it; the facts speak for themselves.

Netanyahu said the whole world is against us. Wasn't he right? He also said we live under an existential threat. Isn't it beginning to look like that? Give it another minute and Turkey will be at war with us too. Netanyahu said there's no chance of reaching an agreement with the Arabs. Wasn't that spot on? Our prime minister, who saw danger lurking in every alleyway and enemies waiting around every corner, who has always taught that there is no hope, who has drummed into us that we shall forever live by the sword (just as his father the historian taught him), knew what he was talking about.

We haven't had anyone like him since David Ben-Gurion. He's a genuine prophet whose every prediction comes true, one after the other - someone who can really be proud of his accomplishments. Enough mockery, enough ridicule. For Netanyahu is not only a prophet; his leadership has swept up the entire country. There is no longer anyone who can stop him from realizing his vision, and soon the pundits will be writing that Netanyahu was right.

This country now has a blind captain in the cockpit, flying his blindfolded passengers with exemplary precision toward the destination he envisioned. If there had still been any object of his scaremongering that had not yet been attained before this week, along came the outrageous seizure of the flotilla, and that goal too was in the bag.

If anyone was still entertaining a glimmer of hope that our pilot wasn't totally blind, that he had some special sight-enhancing gadget, along came his declaration that the blockade of Gaza would continue. Let the world and wisdom and Gaza all go to hell, and incidentally Israel too - and dash that glimmer of hope as well. After the saws and knives seized on the Marmara have been publicly exhibited, we will be able to convince ourselves once and for all that there is indeed a danger lurking in every alley, an Al-Qaida operative on every ship, weapons on every deck - and even that the Marmara was an existential threat, no less, just as our leader had foreseen.

Of course, no one will demand to see the guns that the activists are alleged to have fired, or the video footage in which Israeli soldiers are seen firing, or the confiscated photographs taken by journalists. For us, the pictures of the severe beatings that the IDF Spokesman's Office has released are enough.

Some 7 billion human beings (less about 5 million Israeli Jews) are wrong. They haven't got a leader like Netanyahu, and that's why they go on thinking that seizing passenger ships in international waters is an act of piracy, no different from the deeds committed by the pirates of Somalia. They think (wrongly of course) that Israel has no right to stop a fleet of boats; that the victims are the people of Gaza and the bleeding passengers, not the naval commandos who raided the ship and were beaten; and that the aggressors were the troops who were dropped onto the ship from a helicopter, killing nine civilians with live fire and wounding dozens.

The world is wrong and Netanyahu, with us in tow, is right. We will not lift the blockade.

For four years it has yielded not an ounce of benefit, just damage, but what does that matter?

Giddyup! Let's fulfill Netanyahu's vision. We'll become an even more despised country and won't have a single friend left in the world, not even the United States.

True, it was Netanyahu's predecessor, Ehud Olmert, who began this terrible landslide with Operation Cast Lead, after which the world became intolerant of all violent behavior by Israel, but Netanyahu is following in his path.

Despite it all, his vision has not yet been realized in full. He gave rise to one hope: an "economic peace" that would bring prosperity to Palestinians and Israelis. But as yet there has been no greater saboteur of

Israeli exports than Netanyahu, and soon everything produced here will have to be sold no further afield than Petah Tikva. Even prophets are entitled to err on occasion, but he had better not give rise to any more hopes.

About half of Israelis want a commission of inquiry, according to a poll published yesterday. It can be assumed that this is only because our soldiers were beaten and humiliated. Why, what else is there to investigate? After all, we have a prophet-statesman whose predictions are coming true, one after the other, and the redeemer is (not) coming to Zion.

***** END *****

What i dont understand is when would we ever ever ever be able to write a critical article in the Arabic News Papers highlighting the errors of the leadership of the Governments in the Arabic World.

Israeli writers can, but Arabs CAN NOT... Sadder than Sad...(I am an Arab...)...Speechless...

God Bless Tun & Family

Israeli commando who shot six passengers in aid convoy in line for medal

Six of the nine passengers killed in an Israeli raid on an aid convoy bound for Gaza were shot by a single Israeli commando, who is being considered for a medal of valour for saving his injured comrades as passengers attacked them with clubs, knives and even guns they had taken from downed Navy Seals.

.....

And a British passenger who witnessed the deadly pre-dawn encounter in international waters said that some of the more peaceful activists on board had tried to protect captured Israeli soldiers being set upon by a hardcore of passengers, most of them believed to be Turks linked to an Islamic charity accused by Israel of having links to extremists.

The Israeli commando who killed six of the passengers of Mavi Marmara, the Turkish ferry owned by the IHH charity, said that he had been the last of 15 soldiers to rappel down the rope from an overhead helicopter on to the decks of the ship, which he described as "a battlefield".

.....
.....
.....

The Rachel Corrie, an Irish-flagged ship, is named after a young American peace activist who was crushed to death by an Israeli bulldozer in 2003 while trying to prevent the army from demolishing a Palestinian home in Gaza. Organisers said it was steaming straight for Gaza with Mairead Maguire,

winner of an Irish Nobel Peace Prize, on board.

Dear Tun

This great humanitarian effort by the shipping convoy is due to the blockade of imports and exports at Gaza.

Gaza has two boarders with two different countries. There was also i believe a Malaysia led effort if I'm not mistaken last year to deliver aid to Gaza by land thru Egyptian boarder. This convoy was also harshly treated by the Egyptian authority and there was some violence although I'm not sure if there was any loss of life.

However I don't think i heard any criticism of Egypt by Tun. Why is that and why does Egypt also has blockade in Gaza? I kindly hope Tun can clarify on this matter.

Thank You

Lebih menakutkan sekarang ialah nampaknya pemimpin no.1 Malaysia berjinak-jinak dengan pemimpin ala Zionist di selatan negara.

Berita RTM balik-balik menunjukkan MB Johor memberi kenyataan bahawa perundingan antara Malaysia dengan Singapura keatas tanah KTMB menguntungkan kedua belah pihak.

Kalau Menteri Mentor mereka berpaksi kepada Israel,bolehkah dipercayai janji-janji mereka?
Mana mungkin perundingan yang memakan masa selama 20+ tahun atas sebab tiada penyelesaian yang menguntungkan kedua belah pihak, tiba-tiba selepas 1 tahun jadi PM Malaysia,semuanya berjalan lancar.

Dr Mahathir telah menimbulkan balik isu jambatan bengkok.Kita lihat bagaimana pentadbiran DSNajib & Lee Shien Loong menangani hal ini tanpa sebarang konflik.

Sekarang ini hubungan Khazanah-Parkway-GIC ibarat main tarik tali.
Kalau Khazanah tidak hati-hati hajat untuk membeli balik syer daripada Fortis pada harga yang tinggi akan merugikan kerajaan Malaysia.

Paling saya hairan satu akhbar Inggeris(bukan pro-kerajaan)telah melaporkan pada sudut yang bertentangan dengan satu lagi media arus perdana yang juga berbahasa inggeris mengenai usaha Khazanah hendak membeli saham Parkway ini daripada Fortis.

Yang mana satu telus?

Buat kata Presiden US (tak ingat yang mana satu);

Ayahanda Tun,

We should be grateful for Lim Kit Siang who has joined Anwar Ibrahim in Israel attack protest in front of US Embassy.

Did Ayahanda Tun sees any part of the world having Chinese protesting Israel's attacks?

The Chief DAP, Lim Kit Siang has lost his direction on why Malaysians should vote Middle Malaysia?

Chinese should vote Middle Malaysia because of Anwar Ibrahim?

Chinese are not interested in Anwar's case because majority of us knew what happened.

Chinese do not protest not because we are heartless and don't forget, Chinese were oppressed and controlled by Cruel Military Force before Mao Zedong took over China 60 years ago.

Take care Ayahanda Tun.

Groups protest in front of US embassy over Israeli raid (Update)

By SIRA HABIBU and STEVEN CHIEW

KUALA LUMPUR: A huge crowd that included Opposition leader Datuk Seri Anwar Ibrahim protested outside the US embassy along Jalan Tun Razak on Friday burning the Israeli flag and a poster of Israeli Prime Minister Benjamin Netanyahu over the Israeli raid of a Gaza-bound aid flotilla that killed nine.

The protest caused a massive traffic jam along the road between 2pm and 4pm.

The protest, organised by 30 NGOs, started after Friday prayers and groups marched from various mosques nearby to the embassy.

Some demonstrators burned the Israeli flag while others waved posters reading "Destroy America, Destroy Israel - Long Live Islam" and "Allah will destroy you Israel".

Anwar went into the embassy to deliver a letter signed by leaders of his Pakatan Rakyat alliance as well as the NGOs.

The letter called on US President Barack Obama to condemn the violence against the flotilla and for Israel to end a blockade on Gaza.

"We are appalled and deeply disappointed by your weak and inadequate response on the matter," the letter said.

They also want Obama to push for an international independent inquiry into the fatal attack on the Freedom Flotilla under the auspices of the United Nations Security Council.

They said US had the capacity to take the lead in breaking the deadlock and calling on all parties involved to return to the negotiation table to find ways to resolve the long-standing conflict.

They also called on US not to ignore Hamas in negotiations to resolve the conflict, as it was a democratically elected government in Gaza.

Earlier Friday, Pakatan Rakyat and 35 non-government organisations had a round-table discussion at Sultan Sulaiman Club in Kampung Baru and called for Israel to be charged at the International Criminal Court for attacking civilians.

Strongly condemning the attack on Freedom Flotilla on international waters, they said Israel must pay full compensation to all the victims.

They also want Israel to return all the goods taken by the armed forces following the Monday morning attack on the Turkish ship Mavi Marmara.

Among those present were Opposition Leader Datuk Seri Anwar Ibrahim, DAP adviser Lim Kit Siang, PAS deputy president Nasharudin Mat Isa, PKR president Datin Seri Wan Azizah Wan Ismail, Tenaganita executive director Irene Fernandez, and Jamaah Islah Malaysia secretary-general Nahar Md Nor.

"We also demand that the international community force Israel to lift the blockade on Gaza with the help of Egypt," they said in a joint statement.

They also want the international community to recognise the Palestinian struggle as a fight for justice.

"We want Malaysia to play an important role in breaking the Israeli hegemony," they said, adding the country should not be manipulated by forces that had direct and indirect links with Israel.

Another vessel, the Rachel Corrie, which is sponsored by a Malaysian foundation, is set to arrive off Gaza on Saturday with Malaysian and Irish activists aboard.

Israel has said that it intends to intercept any ship that sought to breach its blockade of Gaza.

Below is the account of how the protest unfolded:

3.45pm: The crowd is dispersing.

3.15pm: They burn the Israeli flag and a poster of Israeli Prime Minister Benjamin Netanyahu.

2.55pm: Crowd breaks through the police cordon about 400m from the embassy entrance and is now at the gates. Heavy traffic jam on Jalan Tun Razak.

2.50pm: Among political leaders spotted there are PKR leader Datuk Seri Anwar Ibrahim and DAP adviser Lim Kit Siang.

2.45pm: Crowd swells to about 10,000 according to police estimates. Jalan Tun Razak is still open to traffic.

2.30pm: About a 1,000 people have already gathered in front of the US Embassy shouting Hancur Israel (Destroy Israel). Heavy police and FRU presence in front of the embassy. However, Jalan Tun Razak is not closed to traffic.

2.20pm: FRU units with water cannons at the junction of Raja Abdullah and Jalan Sultan Ismail. No untoward incidents.

2.10pm: A group of Muslims leave Masjid Jamek and start heading towards the US embassy via Jalan Raja Laut, Jalan Sultan Ismail and Jalan Ampang.

KUALA LUMPUR: A number of groups are heading towards the United States Embassy in Jalan Tun Razak on Friday to protest the Israeli raid on an aid ship heading toward blockaded Gaza that resulted in nine deaths.

The groups began heading to the embassy after Friday prayers ended at nearby mosques. They were headed by 30 NGOs, led by Lifeline 4 Gaza.

On Thursday, police had urged them against holding demonstrations in front of the embassy.

Assalamualaikum Tun,

1. I am sure the heinous crime committed by the Israelis must have the tacit approval of the American, otherwise they will not dare lift a finger. The American provide them with money, weapons, military and political support. That is why they are so brazen and ignore all the condemnation.
2. So, America is the greatest terrorist state currently. They invade, plunder and kill in other legitimate sovereign states. They sponsor armed terrorism, political subversion, economic subversion and financial subversion. As a result of their action, there is instability in the world today. Their conscience made them feel unsafe.
3. As a result of their actions, they are financially in debt. Today, I read their debt is at US\$13 trillion, just under 90% of their annual gross domestic product. Pray that they have no more money to pay for all the misery that they are causing in the world today.
4. Ironically, our Prime Minister is very proud of having being courted by Obama recently. I felt "jijik". No wonder our Diplomat who voted against the resolution to sanction Iran recently was severely punished.
5. Tun, both your successors are of queer characters. It is unfortunate that we have these type of leaders. I have commented in your earlier blog regarding the people you chose.
6. I pray that Allah will save our Malaysia.

Salam sejahtera to you Tun.

Assalamualaikum Tun,

I am very dissapointed with Mr. Obama. He took the presedency with promise for change. Looks like he is just like past US presidents, a puppet for Israel and zionist jews.

I hope Malaysia and other nations would continue to send more peaceful envoys to help the Palastinians. This will increase the pressure on Israel.

Thank you, Tun.

Israel is protected by USA, the policemen of the world. How can there be any fairness when USA is controlled by the Jews?

Human rights does not exists for the Palestinian?.

dear tun,

The Palestinian Predicament

- 1- Israel is a rogue state
 - 2- USA is the helper of this rogue state,so another rogue state
 - 3- All the Arab countries are helpless and hopeless against these rogues
 - 4- Except for the fellow muslim nations,the rest of the world couldn't care less
 - 5- The rest of the world is not really sympathetic with the muslims.
 - 6- In part due to Western media demonization campaign
 - 7- In part the muslims themselves to blame
 - 8- Influenced by wrong understanding of jihad taught by their confused ulamaks
 - 9- They give Islam a negative look
 - 10-tell the muslims don't fight or blow themselves up
 - 11-tell them to have faith in God and pray regularly to him
 - 12-remind them always to say"from God we come and to God we shall return" and only by this way will they receive guidance from their Lord.
 - 13-And if they can't stand the heat,get out of the kitchen!

Assalamualaikum TUN && All,

INI BERITA SAYA DAPAT from MAIL BOX..

Semalam Razali Awang, pemberita TV3 yg pergi ke Gaza baru-baru ni, datang ke my company tu share his experience. Persatuan Islam Pekerja yg anjurkan. Razali ni tiap kali dia bercerita, mesti tersekat2 sebab dia kata dia tak dpt lupakan pengalaman yg dia akan kenang smpai mati. I ada things yg nak share yg buat I tak boleh tido mlm tadi: Mesir

Razali kata ni Firaun modern. Nama je Islam tapi dah very secular. Sanggup kencing di dinding2 masjid. Mesir sekat sempadan ..the only way ke Gaza . Makanan dan ubatan2 sume rosak kat sempadan Mesir-Gaza. Sempadan Gaza and Mesir is 14 km long. Kalau lah tak de sekatan, rakyat Palestine takkan kebuluran... "Mesir lebih rela bersempadan dgn Israel drp bersempadan dengan Hamas!" – Apa punya manusia ni, kata Razali Awang.

Khutbah Jumaat di Mesir mengharamkan khutbah mengenai keganasan di Gaza . Razali btaw rakyat Palestin yg dia interview, kat Malaysia tiap Jumaat kami bacakan Qunut Nazilah dan bersolat hajat demi kesejahteraan rakyat Palestine ... Berapa banyak checkpoint dia kena lalui kat Mesir...tapi dgn pertolongan Allah SWT lepas pulak..tapi perit nya..yg mintak rasuah...charge naik bas 500 meter is RM70!!! Memang sekutu kuat Amerika and Israel . (Eee...tak ingin hantar anak gi Al Azhar..lebih baik hantar ke negara Islam lain..UIA pun dah bagus!!!)

Gaza (Palestine)

Terbahagi kepada 2 – Hamas dan Fatah...Belah Fatah ada kasino! Kata wartawan dari Belgium dan Itali, the best strawberry in the world comes from Gaza !

Imam Shafie lahir di sini (sebak pulak bila dengar yg ni). Razali kata rakyat Palestine sgt berpegang teguh kpd ajaran Islam dan mazhab Shafie.

Org Palestine sgt baik dan friendly as compared to other Arabs esp yg kat Mesir tu.. Moyang Rasulullah SAW dikebumikan dia sini (lupa nama ..tapi dia mention Hashim....) Beautiful country, iklim

Mediterranean .boleh kalahkan Los Angeles kalau tak kerana peperangan..

Hamas

Memang kalangan yg rela mati sebab mati syahid. Rela mati anytime. Bila bersalam perpisahan dengan Razali dia org ucap "Kalau anda dtg lagi ke sini, adakah kita akan bertemu lagi"...like they know they can die anytime.

Tulang2 yg melekat kat dinding bangunan rosak, tak busuk walau dah berminggu! Mayat tak reput langsung, bila kubur dibedil oleh Israel ...punyalah jahat manusia, kubur pun nak bedil konon tempat simpan senjata.

Hamas ada 25,000 org...tak de senjata canggih tapi yg mati hanya 100 lebih je!! Hamas ni beroperasi di bawah tanah and they are everywhere. They operate in small groups.

Isteri kepada yg mati syahid, hanya ada satu misi, utk berperang dan mati syahid supaya dapat jumpa suami semula di syurga.. Bagi mereka, kanak2 yg mati berada di sisi Allah SWT. Menurut seorang ibu yg anak nya mati syahid, hari ni sorang mati, esok lahir lagi seorang bayi..

Israel

Memang pengecut sebab tak berani perang one to one ngan Hamas. Kat darat hanya duduk dlm kereta kebal. Pastu serang ngan bom pintar, bom fosforus dari jarak jauh. Dia org tau Hamas ada penembak tepat! So, depa takut nak turun dari kereta kebal.

Kereta kebal Israel musnahkan tanaman seperti anggur dan pokok zaitun sebab tanaman ni makan masa bertahun nak tumbuh balik. Biar rakyat Palestine kebulur dan tak de sumber pendapatan. Semua resolusi PBB, satu pun Israel tak ikut!!! Ada back-up besar lah katakannn...

Rakyat Palestine

Sedih Razali tengok dia org rebus rumput sebab dah tak de makanan. Kanak2 tiada cita-cita lain selain dari ingin menjadi pengebom berani mati kerana trauma melihat ahli keluarga dibunuh di depan mata sendiri!

Di hospital, pembedahan, jahit kulit ke apa ke...terpaksa dibuat tanpa bius. Sebab ubat dah tak de.

Razali kata tak tahan dia tengok budak2 menjerit2 kesakitan bila kepala di jahit!

Dia jugak pergi sendiri ke dewan bedah yg telah dibedil dgn bom fosforus ..sebelum serangan ada few doctors sedang bedah pesakit....Razali kata tak de apa yg tinggal ..semua dah jadi abu!!! Ada la nampak serpihan tulang sikit2 here and there...Fosforus ni dia hancurkan kulit dan tulang...Nauzubillah. Ada banyak lagi..but too long to write. Razali Awang memang volunteer nak pergi ke Gaza ...So, inilah yg diceritakan oleh beliau.

Salam Tun M,

Saya berpendapat apa yang telah dilakukan oleh tentera israil tu memang zalim. Pada saya mereka ini lebih zalim dari binantang.

Tentera israil sepatutnya tidak boleh menembak sesuka hati tanpa membuat pemeriksaan lanjut. kerna mereka yg berada di atas kapal MV Mirvara itu bukannya tentera, malah mereka tidak memiliki senjata. hanya sekadar menggunakan apa yg ada didepan mereka sebagai peralatan yg boleh digunakan utk mempertahankan diri mereka sahaja. Jika itu saya menyeru semua ummat islam sejagat dan juga seluruh warga di dunia yg fana ini berjuang menghapuskan rejim zionis ini. Dan sepekara lagi dimanakah OBAMA? yg pernah menjanjikan utk menghentikan segala peperangan dan kezaliman yg ader sekarang ini dinegara palestine. sepatutnya Obama lah org pertama yg berada di haluan hadapan menentang rejim zionis ini. Tun M, pada saya kita semua sebagai ummat muhammad seharusnya mula bertindak menghancurkan israil dari mata dunia ini dan kembalikan bumi palestine sebagai sebuah negara yg maju aman dan damai. insyaallah.

Saya amat berbesar hati dan amat berbangga kerna Tun M telah membuka langkah dan juga laluan pada generasi kini dan generasi akan datang utk membantu berjuang bersama menentang kezaliman yg berlaku pada ummat islam di palestine dan di seluruh dunia.

Peace No War,

Stop Criminalise War.

Wahai Ummat Muhammad, Bangkitlah Engkau Dari Tidurmu,
Berjuanglah Engkau Untuk Agama Mu,
Berjuanglah Engkau Demi Menegakkan Keadilan,
Berjuanglah Engkau Untuk Kesejahteraan,
Berjuanglah Engkau Untuk Kedamaian,

Perjuangan Ini Demi Masa Depan Anak Anak Mu,
Bangkitlah Wahai Ummat Muhammad,
Berjuanglah Hingga Ketitisan Terakhir Darah Mu,
Berjuanglah hingga Tidur Mu Itu Akan Menjadi BerMakna,
Wahai Ummat Muhammad, Perjuangan Ini Masih Belum Selesai.

Dear Ray2467,

1. Correct me if I am wrong, but the attack was done while the ship was on international waters, therefore the Israeli had no right to attack them.
2. The convoy may have attacked as they were threathned. It is of natural human instinct to defend oneself. Would you have not done the same thing if you were rushed in by a team of fully equipped commandos? Mere civilians vs trained commandos. Does not take a genuis to tell who has the upperhand.
3. Agreed. They are soldiers under command. But god gave us the great gift of brains to think and have common sense, and heart to have mercy and compassion. These two differentiates men with beasts.
4. The Vietnam boat people were on Malaysian soil and had potential to be of a serious threat. May I ask you. Have you ever visited the detention camp? do you know how well are they being taken care of? do you know how many millions of our money is spent in providing them with food and shelter? And after giving them with shelter and food, they still choose to run riot, do you still expect our forces to remain quiet? The priority of the Malaysian police and military is to keep Malaysian civilians and its guests safe at all times.

Tun,

Notice you have changed your tone and more supportive of Najib in many local newspaper reports! That is very good and please continues the fight for justice for the under-privilege people of the world and Malaysia. Your words are very powerful and you can change many things and many will support you. Nature make sure that anything that is not good and not fair will not last, Israel and America will not last long! Look what happen to British, now you find their people coming to Malaysia looking for jobs. In Malaysia the good brains are leaving the country and something must be done quickly. We are the only country in the world that import or giving PR and citizenship to the unskilled, not so educated and those without big fixed deposit in our local banks and chase away all our A's students/people for the sack of some political gimmick. In no time Malaysia will be full of unskilled and uneducated citizens that vote accordingly to what they been told. I hope those that started the importing of unskilled and uneducated people from Indonesia for their political career should help to stop this dangerous trend. I think it is time that many that claims they "cinta bangsa" to wake up or else there will only be "bangsat" and not "bangsa" to cinta.

Jewish state-sponsored terrorism is alive and well, aided and abetted by its political slaves in Washington and EU. Tel Aviv is above all int'l law and acts with impunity whenever it likes. Its thirst for blood has not been quenched for the last 65 years!!

Let's not forget that the ships are in international waters, yet the arrogant and blood-thirsty Zionist Jews do not care to respect international laws and convention. Its pointless showing doctored videos of peace activists' reaction to what is an illegal and deliberate act of sabotage by the Zionist terrorists.

Dear Tun,

I am deeply concerned on the fate of the Palestinian. I consider that the effort to bring the humanitarian supply to Gaza through sea is a great beginning. And miraculously, the event of Israeli troop attack had grabbed the attention of the world. I really hope that more and more efforts like this will be organized, so that more eyes are open. And the sooner, the better.

As a Malaysian, I really want to contribute... I do think that, someone should initiate to make the effort to save Palestine visible. More efforts to remind the world should be initiated, maybe through

- 1) Create a day worldwide dedicated for the Palestinian for example 1 June every year, Palestine day/Free Palestine Day
- 2) Open a place in Malaysia, name Free Palestine so that people can easily access the place to provide help and support for them
- 3) More publicity is given for all of occasions related to the effort to save Palestine.

And maybe the above I've mentioned already in place, but it is not visible to me, and I believe it is not visible to Malaysian and the rest of the world. I have hope and will, maybe you have hope, will and the power to initiate.

Wassalam.

Jangan takut wahi kerajaan Malaysia rezki itu daripada Allah . Jangan dengan di hamparkan permaidani merah oleh amerika kita lupa akan diri kita, Bayangkan kalau lah kita jadi saperti rakyat Palestine kita akan mengatakan mengapa negara Islam tidak membantu. Ingat lah Allah maha Adil.

Assallammualaikumwarahmatullahiwabarokatuh.

Semoga mendapat izin dan perkenan Tun.

Mr Benjamin N.."Nyetan"..yahu.Israel Prime Minister.

I strongly protest your term and definition of IKF (Israel Killing Forces) Ooopss..I mean Israel Defence Force (IDF)action and your action in defending them.Below is one interpretation of self defence.In bracket is original text.

[[DEFENSE, SELF-DEFENSE

A defense to certain criminal charges involving force (e.g. murder).

Use of force is justified when a person reasonably believes that it is necessary for the defense of oneself or another against the immediate use of unlawful force. However, a person must use no more force than appears reasonably necessary in the circumstances.]]

The bold words of appears reasonably necessary in the circumstances did not applied to your IKF force actions.They killed wilfully the activist and make sure it is overkill.

[[Force likely to cause death or great bodily harm is justified in self-defense only if a person reasonably believes that such force is necessary to prevent death or great bodily harm.]]

How?..How this activist can cause the IDF death or great bodily harm?..Stick and stone cannot hurt your IDF!!..Beside's,they are well trained to counter the activist measure's.Your military court can testify to this.I let the world to decide's.

[[The Right To Protect One's Person And Property From Injury.

It will be proper to consider: 1. The extent of the right of self-defence. 2. By whom it may be exercised. 3. Against whom. 4. For what causes.As to the extent of the right: First, when threatened violence exists, it is the duty of the person threatened to use all prudent and precautionary measures to prevent the attack; for example, if by closing a door which was usually left open, one could prevent an attack, it would be prudent, and perhaps the law might require, that it should be closed in order to preserve the peace, and the aggressor might in such case be held to bail for his good behaviour.]]

Ha..Ha..Mr Prime Minister.What is your IDF precautionary measures?

Proper warning?Something like this? "This is IDF.We warned you that you have breached "our" teritorial water with criminal intent.We advised you to stand back and stand down.We are coming aboard.

Or this with "read between the line clause"? I am using Singlish to make it more cynical."This is IDF.Wa..Lu all very brave one...Tries to force your way tru IDF?..Who do you tried to fools?..Don't play play aaa!!

[[Secondly, if after having taken such proper precautions, a party should be assailed, he may undoubtedly repel force by force, but in most instances cannot, under the pretext that he has been attacked, use force enough to kill the assailant or hurt him after he has secured himself from danger; such as if a person unarmed enters a house to commit a larceny, while there he does not threaten any one, nor does any act which manifests an intention to hurt any one, and there are a number of persons present who may easily secure him, no one will be justifiable to do him any injury, much less to kill him; he ought to be secured and delivered to the public authorities.]]

Again Mr Prime Minister.After making sure "they get the message"..that is overkill..Only did the IDF

applied these measures.

[[But when an attack is made by a thief under such circumstances, and it is impossible to ascertain to what extent he may push it, the law does not require the party assailed to weigh with great nicety the probable extent of the attack, and he may use the most violent means against his assailant, even to the taking of his life. For homicide may be excused where a man has no other probable means of preserving his life from one who attacks him while in the commission of a felony, or even on a sudden quarrel he beats him, so that he is reduced to this inevitable necessity. And the reason is that when so reduced, he cannot call to his aid the power of society or of the commonwealth, and being unprotected by law, he reassumes his natural rights which the law sanctions, of killing his adversary to protect himself.]]

What number does this involve to make certain? 10 or 20??

[[The party attacked may undoubtedly defend himself, and the law further sanctions the mutual and reciprocal defence of such as stand in the near relations of husband and wife, parent and child, and master and servant. In these cases, if the party himself or any of these his relations, be forcibly attacked in their person or property, it is lawful for him to repel force by force, for the law in these cases respects the passions of the human mind, and makes it lawful in him, when external violence is offered to himself, or to those to whom he bears so near a connexion, to do that immediate justice to which he is prompted by nature, and which no prudential motives are strong enough to restrain]]

For me, this part is for the activist. Your IDF intrudes. And they have responded to the intrusion.

[[The party making the attack may be resisted, and if several persons join in such attack they may all be resisted, and one may be killed although he may not himself have given the immediate cause for such killing, if by his presence and his acts he has aided the assailant]]

Again. How many of your life IDF must take for justifications??

[[The cases for which a man may defend himself are of two kinds; first, when a felony is attempted, and secondly, when no felony is attempted or apprehended]]

Who is the felony here? Baricading a nation and starving the population to force their will against others and stopping help for this strangulation is an act of injured party??

[[1st. A man may defend himself and even commit a homicide for the prevention of any forcible and atrocious crime, which if completed would amount to a felony; and of course under the like circumstances, mayhem, wounding and battery would be excusable at common law. A man may repel force by force in defence of his person, property or habitation, against any one who manifests, intends, attempts, or endeavors, by violence or surprise, to commit a forcible felony, such as murder, rape, robbery, arson, burglary and the like. In these cases he is not required to retreat, but he may resist and even pursue his adversary, until he has secured himself from all danger.]]

No wonder IDF did this all time. You will never feel "secured" from all danger.

[[2d. A man may defend himself when no felony has been threatened or attempted: 1. When the assailant attempts to beat another and there is no mutual combat, such as where one meets another and attempts to commit or does commit an assault and battery on him, the person attacked may defend himself, and; 2. An attempt to strike another, when sufficiently near so that there is danger, the person assailed may strike first, and is not required to wait until he has been struck]]

Ha..Ha..Mr Prime Minister..When and where is the occasion Israel wait until he has been struck??

[[When there is a mutual combat upon a sudden quarrel both parties are the aggressors, and if in the fight one is killed it will be manslaughter at least, unless the survivor can prove two things: 1st. That before the mortal stroke was given he had refused any further combat, and had retreated as far as he could with

safety; and 2d. That he killed his adversary from necessity, to avoid his own destruction]]

And when just when Israel are willing to go to ICJ??

[[A man may defend himself against animals, and he may during the attack kill them, but not afterwards]]

A single event? Or Multiple event ? Sheikh Ahmad Yassin is an invalid. Yet IDF need's few rocket to kill sorry I mean to "neutralized" this threat..

[[As a general rule no man is allowed to defend himself with force if he can apply to the law for redress, and the law gives him a complete remedy]]

Mr Prime Minister. I think this is new one to Israel!!

Mr Prime Minister, I am a simple man of simple mind. So, please forgive me for this uneducated questionnaire's.. I am using Tun blogs because I find's no other avenue to your audience. Please consider the equation on our part.

Thank you.
Terima kasih Tun.

Apa khabar Tun,

Salam Perjuangan demi Palestin dan umat Islam sejagat.

Tun, JIKA BENAR-BENAR INGIN BERJAYA MEMBANTU RAKYAT PALESTIN hanya SATU CARA TERBAIK IALAH DENGAN MELAKUKAN PENGUATKUASAAN dan PENGAWASAN DENGAN MENGGUNAKAN KEKUATAN KETENTERAAN ISLAM SENDIRI.

Kerana sebaik-baik cara bagi membetul dan mencegah kepincangan dan kemungkaran ialah dengan melakukannya dengan tangan kamu sendiri. Jika tidak boleh; maka lakukan dengan cara menegornya, dan jika tidak upaya juga maka lakukan dengan cara membenci hanya di dalam hati. TAPI SIFAT ITU ADALAH SELEMAH-LEMAH IMAN.

OLEH ITU, UNTUK TEMPOH JANGKA PANJANG; MAKA HARUS ADA 2 ATAU 3 BUAH NEGARA ISLAM YANG MEMPUNYAI KEKUATAN yang boleh menjadi PEMBELA.

Kekuatan yang di maksudkan ialah KEKUATAN dari segi KETENTERAAN(nuklear), KEKUATAN TEKNOLOGI, EKONOMI dan JUGA SEMANGAT JUANG yang betul-betul untuk keagongan Islam.

***Tun; apa kata jika Negara Islam secara positif menubuhkan satu CONSORTIUM (seperti dilakukan Kesatuan Eropah) yang terdiri dari Malaysia, Indonesia, Brunei, dan Negara OIC, mengumpul dana melakukan satu usaha penyelidikan dan pembangunan teknologi pelbagai termasuk untuk kekuatan ketenteraan yang maju (seperti yang sedang dilakukan Iran, Turki, Pakistan dan dinegara Islam lain) yang boleh diusahakan bersama-sama secara bersepadu bagi kegunaan negara anggota.

Mungkin TUN antara beberapa orang dalam OIC boleh menjadi penggerak mengadakan perundingan dan perbincangan kearah menjayakan penubuhan Consortium tersebut. Seperti yang diusahakan dalam MISI BANTUAN KE GAZA itu.

***Negara Islam harus ada KUASA NUKLEAR. Kuasa tersebut sebenarnya AMAT DI PERLUKAN sebagai TONGGAK KEKUATAN DAN KESELAMATAN BAGI SESEBUAH NEGARA agar DIHORMATI, dihargai dan di SEGANI.

****Sama seperti JONGKONG EMAS yang diiktiraf dan DI PERAKUI DUNIA sebagai sandaran & menjadi TONGGAK KEKUATAN EKONOMI dan kekuatan NILAI MATAWANG bagi sesebuah negara. DENGAN ITU BAHARU LAH SUARA UMAT ISLAM AKAN DIDENGAR DAN DIHORMATI demi untuk kesejahteraan dan kelangsungan hidup ummatnya dan manusia sejagat.**

*****Tindakan membuat bantahan, kutukan dan berarak membuat bising sebagai tanda protes hanya satu usaha kecil yang sebenarnya tidak membawa apa-apa makna dan hasil yang berkesan(satu usaha yang bersifat selemah-lemah iman), kerana langsung tidak diendahkan oleh Israel.**

Rundingan..??; bangsa Israel memang terkenal sejak dari zaman nabi-nabi dulu merupakan satu bangsa yang tidak memegang kepada janji dan tidak boleh dipercayai.

Pastinya tidak akan berjaya untuk mendamaikan Israel/Palestin ini kerana itu bukan agenda sebenar yg dikehendakinya dan juga tidak diprogramkan untuk berjaya oleh pihak Barat.

Beberapa usaha yang dilakukan sebelum ini dikendalikan secara tidak ikhlas dan hanya untuk mengabui mata Negara sekutu Islamnya seperti Arab Saudi, Mesir, Pakistan, Malaysia dan Negara lagi yg mendesak.

Kita tidak boleh mengharapkan Kuasa Besar seperti Amerika, Russia atau China sebagai pembela bagi umat kita kerana mereka tidak sehaluan dalam soal kepercayaan dan akidah.

Jika ada pun bantuan dan sokongan yang mereka berikan hanya atas dasar ada kepentingan tertentu.***

****Kita harus bertanya kenapakah Israel sebuah Negara kecil di kelilingi negara Arab menjadi berani dan tidak takut kepada negara Arab yang lebih besar dan bilangannya?.**

Jawapannya ialah kerana negara Israel membina kekuatan negaranya(untuk survival) dari segi ketenteraan dan penguasaan dalam teknologinya.

Sebuah akhbar Britain "The Guardian" melaporkan; Israel pernah menawarkan penjualan peledak nuklear kepada Afrika Selatan dan juga membantu S'pura dalam teknologi ketenteraan dan latihan.

Akhbar itu juga melaporkan(melalui perisikan); Israel mempunyai LOGI NUKLEAR kegunaan ketenteraan di sebuah tempat terpencil bernama DIMONA di tengah gurun NEGEV dan dikatakan mempunyai lebih 200 peledak nuklear buatannya dalam simpanan.

Tetapi semua ini dinafikan dengan kerasnya oleh Israel dan tidak ada Negara kuasa besar yang membuka mata untuk menyiasat. Malahan Agensi Tenaga Atom Antarabangsa pun mendiamkan diri tanpa ada syak wasangka.

*****Israel juga berupaya membuat sendiri peralatan ketenteraannya dari sekecil peralatan hinggalah sebesar peralatan seperti KERETA KEBAL, JET PEJUANG(model Mirage Perancis), UAV, PELURU BERPANDU hingga lah kepada PELEDAK NUKLEAR dengan bantuan Barat (mereka saling bekerjasama dalam bentuk dana, bertukar-tukar maklumat penyelidikan dan teknologi).**

Apakah usaha positif yang ada pada Negara Islam (secara bersungguh-sungguh)dalam membina kekuatan sendiri selain daripada IRAN yang cuba disekat Barat dan disokong Negara Islam termasuk Malaysia sendiri daripada terus berjaya?.(kononnya untuk bersama masyarakat dunia membendung penyalah gunaan senjata nuklear demi keselamatan sejagat).

*****SEMASA KEJATUHAN EMPAYAR SOVIET UNION; banyak pakar-pakar Russia(dlm berbagai bidang termasuk teknologi ketenteraan, angkasa lepas dan nuklear) dari bekas tanah jajahannya tidak diperlukan lagi, tetapi TIDAK BANYAK NEGARA ISLAM ambil peluang ini menawarkan kepada mereka untuk diambil berkhidmat bagi menggunakan kepakaran mereka, kecuali/mungkin dilakukan oleh IRAN dan Negara lain.**

****Nuklear bukan tujuan untuk berperang dan membuli Negara lain menggunakan kuasa tersebut tetapi hanya sebagai TONGGAK PENGHORMATAN.

***Sebab itu beberapa Negara seperti Barat, Korea Utara, China, Iran, India dan Pakistan(walaupun sentiasa tegang tapi masing-masing mengawal keadaan) berusaha memajukan kuasa nuklear untuk LAMBANG KEKUATAN ketenteraan mereka selain tujuan keamanan.

****Berbeza dengan Negara kita yang tidak mahu menuju kearah itu kerana kononnya Anti peperangan. Apakah Negara yang ada nuklear itu begitu bodoh dan tidak waras mahu menggunakan nuklear untuk tujuan peperangan dan menyerang Negara lain?.

Jawabnya tentulah tidak; kerana itu hanyalah tonggak untuk menunjukkan kekuatan dan amaran kepada negara yang menimbulkan provokasi supaya berfikir banyak kali sebelum memilih untuk memulakan peperangan tanpa dikawal yg boleh merebak besar-besaran(kerna menang jadi arang kalah jadi abu.....!!!).

Assalamualaikum Tun,

Few years back i read your book "Globalization and the new realities" where u wrote about how there are 13 families (jewish) controlling aspects of our lives like the media, economic (banking), and politics (lobbyist)

My opinion is that we did nothing in spreading awareness to fight the new world order and and it's secularization program and most people of the world were so used to killings we might not feel anything anymore. Most people would just consider these things as conspiracies thus rejecting the whole idea of fighting for themselves or anyone.

My question is, will you enlighten us on this subject in sharing your knowledge and your views of the babylon system and would you feel interested in finding a way to fight the NWO and the global manipulation? How will we defend ourselves and our neighbors in this individualistic world Tun?

I know you have some ideas for solution.

Lesson Learned.

US,Israel meant No peace.

They are arrogant as they have weapons and not allow others to have weapons so others we will live at their knees.

World should recognise what North Korea,Taliban,Alqaeda,Hamas what wrong their wrong doings is for the right purpose.

I am strongly against terrorists but what US and Israel are embracing we should have counter attack.

World needs North Korea,Alkaeda,Hamas,etc existence to restore respects against US ,Israel evils.

- OBVIOUSLY THE ISRAELI'S COMMANDOS ARE NOT VERY WELL TRAINED.
- ACCORDING TO THEM THE ACTIVIST BROKE THE ATTACK - YES, THIS IS RATHER INTERESTING WHEN THESE COMMANDOS WERE THE ONE WHO CAME DOWN FROM THE HELICOPTER ONTO THE BOAT. I SUPPOSE IF THEY DID NOT DO THIS, THEY WILL NOT BE ATTACKED.
- LOGICALLY IF SOMEONE TRIED TO GO ON BOARD YOUR SHIP WITH A GUN, YOU WOULD TRY TO DEFEND YOURSELF/YOUR SHIP BY ANY MEANS.
- JUST LIES UPON LIES UPON LIES.
- AMERICA, YOU KNOW IT IS NOT RIGHT. TERRORISM???

Tun,

Per 6. If they were swinging wooden sticks at the commandos the sticks should have broken upon impact. If they were swinging an iron rod or wooden bat at them. They escalated the issue. Why did the commandos suffer broken arms? At what point would you authorize the soldiers to use lethal force to defend themselves or should they have let the crowd lynch them to death?

'Unarmed people on a mission of charity' do not openly brag about martyrdom before performing charity. Are these reports from local news from 'Telrarif', 'Haber' & 'Andulu' lies & propaganda? Tun, were they innocent bystanders or did they die to prove a point? Is the hate for the Jewish Nation so intense that martyrdom is the only solution?

'In an interview with Turkish newspaper Haber, the family members of Ali Khaider Benginin (39), resident of east Turkey's Kurdistan region, revealed their relative's true intentions.

"I am going to be a shahid; I dreamt I will become a shahid – I saw in a dream that I will be killed," Benginin told his family before leaving for the sail.

According to the report, beniginin, who graduated from al-Azhar University in Cairo, served for the past two years as the chairman of a foundation for rights and freedom in education and culture. His family noted that he had spoken in the past about his dream to become a shahid in Gaza.

Another Turkish citizen killed during the raid, Ali Akhbar Iritilmis (55), a father of four from Ankara, was active

in the IHH organization, which led the naval convoy to Gaza. "He was devoted to this activity, and always dreamt about becoming a shahid," said his close friend Mehmet Faruq Cheber.

Anadolu News Agency reported that the third activist killed on boards the Marmara, Ibrahim Bilgen (61), an engineer and father of six, was active in the Islamic party in southern Turkey. "He was a role model to all of us; a true philanthropist. Therefore, it suited him to die a shahid's death. Allah gave him the death he wanted," said Ibrahim's brother, Nuri Mergen.

The fourth slain activist, Muharram Kuchak, was also a volunteer with the IHH. The three Turkish "shahids," as it turns out, were not alone. Holland-based Teltarif newspaper reported Wednesday morning that Amin Abou Rashed, 43, and Anne de Jong, 29, are probably the only two Dutch citizens that were arrested among the flotilla participants.

The newspaper's investigation revealed incriminating details from Abou Rashed's past; intelligence sources claimed he is the local Hamas leader, while the Muslim Brotherhood's website identified him as one of the organizers of the naval convoy.

According to Teltarif's report, Dutch intelligence services have been following Abou Rashed's activities for a long time. He worked, among other places, with al- Aqsa Foundation, suspected of acting under the guise of a charity, while funneling its donations to Hamas.'

God Bless these lost souls. I wish they had chosen a different path.

While I agree that the Israelis used disproportionate lethal force and should be rightly condemned for their actions, they had a valid reason to do so, which is to ensure that the ship did not contain weapons which may be used against Israel. Indeed, they found military equipment on the ship such as bullet proof vests and night vision goggles, which presumably serve no humanitarian aid purpose.

Also, I do not understand why you mention the Holocaust. That was a dark period in history where the Nazis systematically murdered in cold blood millions of the Jew. To suggest that the Israelis are worse than the Nazis needs serious evidence, and I don't think your statement is fair. As a publicly respected person, perhaps you would want to clarify your views?

Salam Tun,

We must all be wary that one of Israel's closest allies lies just south of the border. In fact they are like bosom buddies.

Be wary too of a political party here in Malaysia which shares the same aspirations and ideologies with the ruling party there.

And also look out for their sympathisers here on this blog. By the way they give their comments here, these

people are sinister and insincere.

it has been quite a long time since my last comments.Anyway I would just like to point out to ALL CHRISTIANS FOLLOWING THIS BLOG lest some people forget;

"GAZA IS A HUGE CONCENTRATION CAMP"

I did not utter these words,your POPE IN THE VATICAN uttered them.So have some pity on the Palestinians,if Gaza was not blockaded,the flotilla wouldn't have been necessary in the first place.

If Gaza is a huge concentration camp,then that would make the Zionist regime MODERN DAY NAZIS.Or in the words of Tun...WORSE THAN NAZIS.

Tun,

When the founders founded Israel they decided that no country on Earth would ever F around with the Jews again (this is something the Muslims never did and will never be capable of doing).

Israel is very weak now. I think you and the Malaysian Defence Forces should lead the Islamic armies to drive the Israelites into the Mediterreanean SEA.

This is the best oppportunity, furthermore Muslims are the most brutal people in the world. Can kill people for the flimsiest of reasons.

Why settle for humanitarian flotillas.

In any case, I do not think the nine people on the Mavi Marmara would have lost their lives if the organisers had instructed the volunteers not resist in the scenario that happened.

And why was the offer to offload the aid at ashdod not taken up.

Trying to play heroes, eh?

dear Tun,

Please advise correctly as to what the Palestinians should do. They don't stand a chance against Israel, that powerful country even mighty USA is at its command. This powerful country Israel, is not interested to co-exist with the Palestinians, all they want is all the land to themselves, or is it not that very clear yet? Whatever they are doing now is only to provoke the Palestinians, push them to the limits, and knowing the Hamas' thin tolerance threshold, it's only a matter of time before they will start showering Israel with rockets again, maybe kill a few hundred Israel civilians along the way, and give Israel the justification they needed to destroy this "terrorist muslim nation" once and for all. And USA and other Muslim dislikers worldwide will justify that poor Israel is only defending their sovereignty.

Please tell the Hamas -to wake up to this reality. That when you can't beat someone, you join them. That when you can't win and you fight- you are only committing suicide and there will be no place in heaven for fools. Tell them that to negotiate the best deals for their people and then, concede Palestine to Israel. If they can't get the best, then it's OK to be a second or third class citizen of Israel- rather than be a first class citizen of a nation, if you can call Palestine a nation at all, that is constantly over a period of 62 years subjected to unending humiliation and degradation. And if that is something that they can't do as a matter of their Arab pride, then ask them to consider an exit strategy- just get out of there, migrate or seek refuge in the neighbouring Muslim countries. The most important thing for Hamas to do is to keep the Palestinian people alive. This is no time to be sentimental over your homeland.

When the Prophet knows that the minority Muslims in Mecca were going to have a tough time after the demise of his protector - Uncle Abu Talib, he didn't stay to be slaughtered, instead he sought help from the people of Medina to give him and his people refuge.

The Jews themselves too were terribly persecuted during the time of the Pharaoh. They were confined to slavery, the men were subjected to hard labour, while their women as play things to satisfy the lust of the Egyptian men. Even all their newborn infants were slaughtered at the command of the Pharaoh after he had a bad dream. But the Jews did not lose their cool and pelt stones at the Egyptian soldiers nor had their leadership attempted any vain suicidal moves. Instead they only held their hopes in prayer to the Almighty God to liberate them from that terrible predicament. And God eventually sent Prophet Moses to liberate them and help collapse the once mighty Egyptian civilization. This is what the Palestinians should do if they call themselves Muslims-people who have surrendered to the will of God Almighty.

Let's not provoke Israel. It's too powerful for us to mess around with. It has nuclear warheads and so too has their best friend USA. And the USA have used them twice before and has no moral standing whatsoever to stop Israel from using it too. Only God can stop them, and we shall all only pray for His help. In the meanwhile stay calm and don't do anything foolish.

Dear Tun,

Heirs of a liar and nothing but a lies

A Murderous Conspiracy

Caiaphas was not thwarted when false witnesses failed to agree in their testimony against Jesus. The high priest knew the opinions of his fellow conspirators regarding any self-proclaimed Messiah. So he demanded to know whether Jesus claimed that title. Jesus responded that his accusers would see him "sitting at the right hand of power and coming on the clouds of heaven." In a show of piety, "the high priest ripped his outer garments, saying: 'He has blasphemed! What further need do we have of witnesses?'" The Sanhedrin agreed that Jesus deserved to die.—Matthew 26:64-66.

Executions had to be approved by the Romans. As intermediary between them and the Jews, Caiaphas was probably the one who presented the case to Pilate. When Pilate sought to free Jesus, Caiaphas was likely among the chief priests who shouted: "Impale him! Impale him!" (John 19:4-6) Caiaphas probably urged the crowds to clamor for the release of a murderer instead of Jesus and was among those chief priests who hypocritically proclaimed: "We have no king but Caesar."—John 19:15; Mark 15:7-11.

Caiaphas rejected evidence of Jesus' resurrection. He opposed Peter and John and then Stephen.

Caiaphas also authorized Saul to arrest any Christians whom he might find in Damascus. (Matthew 28:11-13; Acts 4:1-17; 6:8-7:60; 9:1, 2) About 36 C.E., however, Caiaphas was deposed by Vitellius, the Roman legate of Syria.

Jewish writings present Caiaphas' family in an unfavorable light. For instance, the Babylonian Talmud laments: "Woe is me because of the house of Hanin [Annas], woe is me because of their whisperings," or "calumnies." This grievance is thought to refer to "secret conclaves to devise oppressive measures."

The Israelis can do anything they like knowing that no body and no country in the world wil make an effort to stop them. As a matter f fact even if all the Arab countries were to unite and attack them, they (the Arabs) may end up losing.

This is because the Americans will always back and support them.Obama is just a Presidential figurehead/ puppet as long as the Congress is still controlled by the Jews.

Alternatively, if only the Palesitinians can unite among themselves and start an economic war instead of throwing stones and blasting themselves to pieces can ony the Israelis be brought down to their knees.

Economic war means the Palestinians should improve themselves in education and knowledge. Indilge and invlove in business globally. Stop bickering among each other. As a longshot try to make peace with the aggresor or at least stop shooting rockets. This way, the aggresors have no excuse anymore to bomb or attack them.

This is my only opinion and I think it's worth for you to take note.

Why don't we provide the live coverage for almost 24 hours when approaching to Gaza so that the world can see every details on the Israeli actions?

It's not the world not believe the stories told by these heroes who boarding the convoy ships, its just when the whole world see it in live situation, I think Israeli Forces will think twice or thrice before they act some unbelievable action on the convoy.

We can make a live coverage for football match, win and lose in Thomas; but why not we do this? I think it's worth for. Furthermore, it's just how to repel Israel's strategy in information manipulation. Of course they can't close the mouth all personnel on board, but they made the USA confused due to their manipulation.

Obama in big dilemma. Finally the world are starting to question israel, and we can't be fooled further by Jewish propaganda. If Obama decide to veto UN resolution against israel, which is what he'll eventually do, then 'the change' that he's campaigned during presidential election is kaput. Obama will just be another Bush & Blair, and the typically cunning Jews will keep giving new lectures to Obama.

Why Egypt only opened her border to Gaza now?
Why almost every Arab kingdom still mute?
Why the PKR adviser saudara Anwar quite?

I think beside more and more street demonstration emerging in many countries, we should use diplomatic solution. We need to ask our government to push UN to have special meeting on this matter and take action to the Israeli government. We need to push UN not to fear to US for taking any action. We need justice for overcome this rude, ridiculous and inhuman action by Israel.

What is your opinion to our government to do more rather than just to condemn that action taken on the aid convoy? Is it enough just by condemning and stop at there?

"This report is republished with permission of STRATFOR"

Flotillas and the Wars of Public Opinion
By George Friedman

On Sunday, Israeli naval forces intercepted the ships of a Turkish nongovernmental organization (NGO) delivering humanitarian supplies to Gaza. Israel had demanded that the vessels not go directly to Gaza but instead dock in Israeli ports, where the supplies would be offloaded and delivered to Gaza. The Turkish NGO refused, insisting on going directly to Gaza. Gunfire ensued when Israeli naval personnel boarded one of the vessels, and a significant number of the passengers and crew on the ship were killed or wounded.

Israeli Deputy Foreign Minister Danny Ayalon charged that the mission was simply an attempt to provoke the Israelis. That was certainly the case. The mission was designed to demonstrate that the Israelis were unreasonable and brutal. The hope was that Israel would be provoked to extreme action, further alienating Israel from the global community and possibly driving a wedge between Israel and the United States. The operation's planners also hoped this would trigger a political crisis in Israel.

A logical Israeli response would have been avoiding falling into the provocation trap and suffering the political repercussions the Turkish NGO was trying to trigger. Instead, the Israelis decided to make a show of force. The Israelis appear to have reasoned that backing down would demonstrate weakness and encourage further flotillas to Gaza, unraveling the Israeli position vis-à-vis Hamas. In this thinking, a violent interception was a superior strategy to accommodation regardless of political consequences. Thus, the Israelis accepted the bait and were provoked.

The 'Exodus' Scenario

In the 1950s, an author named Leon Uris published a book called "Exodus." Later made into a major motion picture, Exodus told the story of a Zionist provocation against the British. In the wake of World War II, the British — who controlled Palestine, as it was then known — maintained limits on Jewish immigration there. Would-be immigrants captured trying to run the blockade were detained in camps in Cyprus. In the book and movie, Zionists planned a propaganda exercise involving a breakout of Jews — mostly children — from the camp, who would then board a ship renamed the Exodus. When the Royal Navy intercepted the ship, the passengers would mount a hunger strike. The goal was to portray the British as brutes finishing the work of the Nazis. The image of children potentially dying of hunger would force the British to permit the ship to go to Palestine, to reconsider British policy on immigration, and ultimately to decide to abandon Palestine and turn the matter over to the United Nations.

There was in fact a ship called Exodus, but the affair did not play out precisely as portrayed by Uris, who used an amalgam of incidents to display the propaganda war waged by the Jews. Those carrying out this war had two goals. The first was to create sympathy in Britain and throughout the world for Jews who, just a couple of years after German concentration camps, were now being held in British camps. Second, they sought to portray their struggle as being against the British. The British were portrayed as continuing Nazi policies toward the Jews in order to maintain their empire. The Jews were portrayed as anti-imperialists, fighting the British much as the Americans had.

It was a brilliant strategy. By focusing on Jewish victimhood and on the British, the Zionists defined the battle as being against the British, with the Arabs playing the role of people trying to create the second phase of the Holocaust. The British were portrayed as pro-Arab for economic and imperial reasons, indifferent at best to the survivors of the Holocaust. Rather than restraining the Arabs, the British were arming them. The goal was not to vilify the Arabs but to vilify the British, and to position the Jews with other nationalist groups whether in India or Egypt rising against the British.

The precise truth or falsehood of this portrayal didn't particularly matter. For most of the world, the Palestine issue was poorly understood and not a matter of immediate concern. The Zionists intended to shape the perceptions of a global public with limited interest in or understanding of the issues, filling in the blanks with their own narrative. And they succeeded.

The success was rooted in a political reality. Where knowledge is limited, and the desire to learn the complex reality doesn't exist, public opinion can be shaped by whoever generates the most powerful symbols. And on a matter of only tangential interest, governments tend to follow their publics' wishes, however they originate. There is little to be gained for governments in resisting public opinion and much to be gained by giving in. By shaping the battlefield of public perception, it is thus possible to get governments to change positions.

In this way, the Zionists' ability to shape global public perceptions of what was happening in Palestine — to demonize the British and turn the question of Palestine into a Jewish-British issue — shaped the

political decisions of a range of governments. It was not the truth or falsehood of the narrative that mattered. What mattered was the ability to identify the victim and victimizer such that global opinion caused both London and governments not directly involved in the issue to adopt political stances advantageous to the Zionists. It is in this context that we need to view the Turkish flotilla.

The Turkish Flotilla to Gaza

The Palestinians have long argued that they are the victims of Israel, an invention of British and American imperialism. Since 1967, they have focused not so much on the existence of the state of Israel (at least in messages geared toward the West) as on the oppression of Palestinians in the occupied territories. Since the split between Hamas and Fatah and the Gaza War, the focus has been on the plight of the citizens of Gaza, who have been portrayed as the dispossessed victims of Israeli violence.

The bid to shape global perceptions by portraying the Palestinians as victims of Israel was the first prong of a longtime two-part campaign. The second part of this campaign involved armed resistance against the Israelis. The way this resistance was carried out, from airplane hijackings to stone-throwing children to suicide bombers, interfered with the first part of the campaign, however. The Israelis could point to suicide bombings or the use of children against soldiers as symbols of Palestinian inhumanity. This in turn was used to justify conditions in Gaza. While the Palestinians had made significant inroads in placing Israel on the defensive in global public opinion, they thus consistently gave the Israelis the opportunity to turn the tables. And this is where the flotilla comes in.

The Turkish flotilla aimed to replicate the Exodus story or, more precisely, to define the global image of Israel in the same way the Zionists defined the image that they wanted to project. As with the Zionist portrayal of the situation in 1947, the Gaza situation is far more complicated than as portrayed by the Palestinians. The moral question is also far more ambiguous. But as in 1947, when the Zionist portrayal was not intended to be a scholarly analysis of the situation but a political weapon designed to define perceptions, the Turkish flotilla was not designed to carry out a moral inquest.

Instead, the flotilla was designed to achieve two ends. The first is to divide Israel and Western governments by shifting public opinion against Israel. The second is to create a political crisis inside Israel between those who feel that Israel's increasing isolation over the Gaza issue is dangerous versus those who think any weakening of resolve is dangerous.

The Geopolitical Fallout for Israel

It is vital that the Israelis succeed in portraying the flotilla as an extremist plot. Whether extremist or not, the plot has generated an image of Israel quite damaging to Israeli political interests. Israel is increasingly isolated internationally, with heavy pressure on its relationship with Europe and the United States.

In all of these countries, politicians are extremely sensitive to public opinion. It is difficult to imagine circumstances under which public opinion will see Israel as the victim. The general response in the Western public is likely to be that the Israelis probably should have allowed the ships to go to Gaza and offload rather than to precipitate bloodshed. Israel's enemies will fan these flames by arguing that the Israelis prefer bloodshed to reasonable accommodation. And as Western public opinion shifts against Israel, Western political leaders will track with this shift.

The incident also wrecks Israeli relations with Turkey, historically an Israeli ally in the Muslim world with longstanding military cooperation with Israel. The Turkish government undoubtedly has wanted to move away from this relationship, but it faced resistance within the Turkish military and among secularists. The new Israeli action makes a break with Israel easy, and indeed almost necessary for Ankara.

With roughly the population of Houston, Texas, Israel is just not large enough to withstand extended isolation, meaning this event has profound geopolitical implications.

Public opinion matters where issues are not of fundamental interest to a nation. Israel is not a

fundamental interest to other nations. The ability to generate public antipathy to Israel can therefore reshape Israeli relations with countries critical to Israel. For example, a redefinition of U.S.-Israeli relations will have much less effect on the United States than on Israel. The Obama administration, already irritated by the Israelis, might now see a shift in U.S. public opinion that will open the way to a new U.S.-Israeli relationship disadvantageous to Israel.

The Israelis will argue that this is all unfair, as they were provoked. Like the British, they seem to think that the issue is whose logic is correct. But the issue actually is, whose logic will be heard? As with a tank battle or an airstrike, this sort of warfare has nothing to do with fairness. It has to do with controlling public perception and using that public perception to shape foreign policy around the world. In this case, the issue will be whether the deaths were necessary. The Israeli argument of provocation will have limited traction.

Internationally, there is little doubt that the incident will generate a firestorm. Certainly, Turkey will break cooperation with Israel. Opinion in Europe will likely harden. And public opinion in the United States — by far the most important in the equation — might shift to a “plague-on-both-your-houses” position.

While the international reaction is predictable, the interesting question is whether this evolution will cause a political crisis in Israel. Those in Israel who feel that international isolation is preferable to accommodation with the Palestinians are in control now. Many in the opposition see Israel's isolation as a strategic threat. Economically and militarily, they argue, Israel cannot survive in isolation. The current regime will respond that there will be no isolation. The flotilla aimed to generate what the government has said would not happen.

The tougher Israel is, the more the flotilla's narrative takes hold. As the Zionists knew in 1947 and the Palestinians are learning, controlling public opinion requires subtlety, a selective narrative and cynicism. As they also knew, losing the battle can be catastrophic. It cost Britain the Mandate and allowed Israel to survive. Israel's enemies are now turning the tables. This maneuver was far more effective than suicide bombings or the Intifada in challenging Israel's public perception and therefore its geopolitical position (though if the Palestinians return to some of their more distasteful tactics like suicide bombing, the Turkish strategy of portraying Israel as the instigator of violence will be undermined).

Israel is now in uncharted waters. It does not know how to respond. It is not clear that the Palestinians know how to take full advantage of the situation, either. But even so, this places the battle on a new field, far more fluid and uncontrollable than what went before. The next steps will involve calls for sanctions against Israel. The Israeli threats against Iran will be seen in a different context, and Israeli portrayal of Iran will hold less sway over the world.

And this will cause a political crisis in Israel. If this government survives, then Israel is locked into a course that gives it freedom of action but international isolation. If the government falls, then Israel enters a period of domestic uncertainty. In either case, the flotilla achieved its strategic mission. It got Israel to take violent action against it. In doing so, Israel ran into its own fist.

Assalamualaikum Tun

What do they expect storming on to ships on international waters without permission..free lunch. Off the waters of Somalia, it is called piracy.

Anyhow, I am proud to see that Malaysians and other nationalities regardless of race and religion are doing their bit to help Gaza. It reminded me of Dr Ang Swee Chee, a Christian Chinese from Penang who served as a volunteer in Palestine during the time of Sabra and Shatila. She wrote the book From Beirut to Jerusalem, detailing an eye-witness account of what she experienced - a good read in my opinion.

Those who have been there on aid mission should do the same and share their experience individually or collectively through organisations like PGPO.

Meanwhile, I pray for the safety of those who are still out there. Whether PGPO achieves its objectives of sending humanitarian aid to Gaza this time round (via MV Rachel Corrie), i sincerely hope that efforts will be stepped up in the future to keep sending them aid. I am sure they need it.

As for Israel's action of attacking the Mavi Marmara and the excuses that followed, i dont think we should expect anything less from A ROGUE NATION WITH STONE-AGE MENTALITY. Barbaric behaviour tends to come naturally for APE-MAN who lives by law of the jungle. The fact that they still believe that the world is stupid enough to accept their justification just shows that they are running out of ideas and making themselves look stupid instead.

WHAT DISTURBS ME OF THE MALAYSIAN MEDIA IS THAT EMPHASIS IS NOT ON THE STATUS OF THE MISSION RATHER THE 'ESCAPE' OF THE MALAYSIAN CITIZENS ON BOARD AND THE DISCOMFORT THEY HAD DURING THE CUSTODY OF ISRAELIS.

HOW CAN WE SUDDENLY FORGET THE MISSION WHETHER SUCCESS OR NOT, AND THE PALESTINIANS HOPES. REPORTS SUGGEST THAT THOUSANDS OF THEM ARE AT THE VERGE OF STARVATION.

THOSE PEOPLE ON THE BOARD SHOULD HAVE A MINDSET THAT THE HUMANITARIAN MISSION HAS RISKS, AND WHATEVER HAPPENS TO THEM MUST BE ANTICIPATED. THE MISSION SHOULD BE THE FOCUS POINT.

MALAYSIANS SHOULD BE SADDENED WITH THE MISSION FAILURE, NOT OVERJOYED BY THE SAFE RETURNING OF THE ENVOYS. YES, THEIR LIVES ARE IMPORTANT, BUT THE WAY MEDIA IS TREATING IT (AND THE SURVIVORS THEMSELVES - AS IF EXPECTING A 5 STAR HOTEL TREATMENT BY THE ISRAELI GOVERNMENT) IS THAT IT DOESN'T LOOK LIKE WE HAVE THE STRENGTH OF NERVES AND CHARACTER TO ACHIEVE A PREULTIMATE GOAL. WE WOULD

EASILY LOSE ANY BATTLE/ WAR IF WE BEHAVE LIKE THIS. NO WONDER OUR SPORTSMAN HARDLY EXCEL IN THE INTERNATIONAL ARENA, AND WE EASILY GIVE IN ON RECENT TERRITORIAL DISPUTES.

Salam Tun,

What the Israelis did was criminal. It attacked a Turkish-owned ship and killed unarmed civilians in international waters and then commandeered the MV Mavi Marmara and other ships, including a US-flagged one (Challenger 1), to Israel.

Many international commentators have said that attacking foreign ships and kidnapping foreign citizens are worse than piracy and are acts of war. But Israel will not worry about this minor detail because it knows that it will be protected by the US, its capture of a US ship notwithstanding. It will look at the protests with disdain and continue to show the world (including Americans) the finger.

Thank you, Tun, for debunking the Israeli propaganda. Like you say, things that look like iron rods may not necessarily mean they are iron rods. They may be just as likely to be made of wood. And the images put out by the Israelis may not necessarily be that of Marmara. It could just be a video of an Israeli naval exercise. Israelis have been known to post fakes like this one. If Israel wants to tell the truth, then it should release raw footage from the cameras that it seized from the journalists aboard the commandeered ships. But that is as likely as the prospect of Obama acting decisively as he did against Somali pirates and sending the US Navy to recover Challenger 1.

If the world is not blindfolded by their so-called 'suffering' by the nazis on them during WWII, these lifes slaughtering maggots are seen worst stinking maggots among creatures in the bins.

Many more innocent lifes will be killed by these post WWII ramnents that has mutata similar to the nazism. The holocaust pictured by the regime on WWII suffering on jews is turning to be a myth and only decorative as what Ahmednijad has claimed. He is making sense. It is not about denying the holocaust but it is the event that had taken place had never taught them anything about not taking what doesnt belong to them and to lead a live without greed.

Assallammualaikumwarahmatullahiwarokatuh..

Semoga mendapat izin dan perkenan Tun..

Tun..saya dah pesan dulu..jangan guna bot..sekarang bawak masuk kapal lagi..tentulah Israel mengamuk..Israel ni boleh lah di umpamakan binatang haus darah..Kalau nampak 'mangsa' mana mungkin di lepaskannya..

Saya harap Tun sudi menilai semula cadangan saya yang terdahulu..

1)Mercenaries.

Kita serahkan persoalan pakar kepada yang pakar.Tun memang hebat serba serbi tapi saya masih tak nampak kepakaran Tun sebagai pakar pesilat juga panglima perang.Jadi..serahkan persoalan ini kepada yang pakar.

2)Pejuang-pejuang Tulin.

Apabila Salahuddin Al Ayubi memilih para tenteranya,baginda memilih yang sembahyang tahajud sahaja.Carilah di kalangan kita pejuang yang sebegini.

3)Strategi.

Jangan lupa pesan Saidina Umar r.a. kepada para tenteranya.

"Bebaskanlah Mesir.Kerana di sana tempat keputeraan Nabi Ismail a.s moyang Rasulullah s.a.w".

Tun; Salam Perjuangan.

UNTUK MEMBANTU NEGARA PALESTIN; MAKA HARUS ADA 2 ATAU 3 BUAH NEGARA ISLAM YANG MEMPUNYAI KEKUATAN yang boleh menjadi SEBAGAI PEMBELA. Kekuatan yang di maksudkan ialah KEKUATAN KETENTERAAN, TEKNOLOGI dan JUGA EKONOMI.

DENGAN ITU BAHARU LAH SUARA UMAT ISLAM AKAN DIDENGAR DAN DIHORMATI.

Kita tida boleh mengharapkan Kuasa Besar seperti Amerika, Russia atau Cina sebagai pembela bagi umat kita kerana tidak sehaluan dalam soal akidah.***

***Kenapakah Israel sebuah Negara kecil di kelilingi negara Arab menjadi berani dan tidak takut kepada negara Arab yang lebih besar dan bilangannya?. Jawapannya ialah kerana negara Israel mempunyai kekuatan dari segi ketenteraan dan penguasaan dalam teknologinya.

Sebuah akhbar Britain "The Gardian" melapurkan; Israel pernah menawarkan penjualan peledak nuklear kepada Afrika Selatan dan juga membantu S'pura dalam teknologi ketenteraan.

Akhbar itu juga melapurkan; melalui perisikan; Israel mempunyai LOGI NUKLEAR kegunaan ketenteraan di sebuah tempat bernama DIMONA di tengah gurun NEGEV dan mempunyai lebih 200 peledak nuklear buatannya dalam simpanan.

Tetapi semua ini dinafikan dengan kerasnya oleh Israel dan tidak ada Negara kuasa besar yang membuka mata untuk menyiasat. Malahan Agensi Tenaga Atom Antarabangsa pun mendiamkan diri tanpa ada syak wasangka.

****Israel juga berupaya membuat sendiri peralatan ketenteraannya dari sekecil peralatan hinggalah sebesar peralatan seperti KERETA KEBAL, JET PEJUANG(model Mirage Perancis), UAV, PELURU BERPANDU hingga lah kepada PELEDAK NUKLEAR dengan bantuan Barat(mereka saling bekerjasama bertukar-tukar maklumat penyelidikan dan teknologi).

Apakah usaha yang ada pada Negara Islam (secara bersungguh-sungguh) dalam membina kekuatan sendiri selain daripada IRAN yang cuba disekat Barat dan disokong Negara Islam sendiri daripada terus berjaya?, termasuk Malaysia?.(atas alasan kononnya untuk bersama masyarakat dunia yang kononnya demi keselamatan sejagat).

****Setakat membuat bantahan, kutukan dan berarak membuat bising sebagai tanda protes sebenarnya tidak membawa apa-apa makna dan hasil yang berkesan. Walaupun dengan rundingan; ianya pasti tidak berjaya untuk mendamaikan Israel/Palestin kerana itu bukan agenda sebenar dan ikhlas yang dikehendaki Barat.

*****SEMASA KEJATUHAN EMPAYAR SOVIET UNION; banyak pakar-pakar Rusia(dlm berbagai bidang termasuk teknologi ketenteraan dan nuklear) dari bekas tanah jajahannya tidak diperlukan lagi, tetapi TIDAK BANYAK NEGARA ISLAM yang ambil kesempatan menawarkan kepada mereka untuk diambil berkhidmat, kecuali mungkin dilakukan oleh Iran dan Negara lain.

****KUASA NUKLEAR sebenarnya AMAT DI PERLUKAN sebagai TONGGAK KEKUATAN DAN KESELAMATAN BAGI SESEBUAH NEGARA agar DIHORMATI, dihargai dan di SEGANI.

**Sama seperti JONGKONG EMAS yang DI PERAKUI dan diiktiraf DUNIA menjadi TONGGAK KEKUATAN EKONOMI dan kekuatan NILAI MATAWANG bagi sesebuah negara.

**Nuklear bukan tujuan untuk berperang dan membuli Negara lain dengan menggunakan kuasa tersebut tetapi hanya sebagai TONGGAK PENGHORMATAN.

*****Sebab itu beberapa Negara di dunia seperti negara Barat, Korea Utara, Cina, Iran, India & Pakistan(walaupun sentiasa tegang tapi masing-masing mengawal keadaan) berusaha memajukan kuasa nuklear untuk LAMBANG KEKUATAN ketenteraan mereka.

****Berbeza dengan Negara kita yang tidak mahu menuju kearah itu kerana kononnya Anti peperangan.

Apakah Negara yang ada nuklear itu begitu bodoh dan tidak waras mahu menggunakan nuklear untuk tujuan peperangan dan menyerang Negara lain?.

Jawabnya tentulah tidak; kerana itu hanyalah tonggak untuk menunjukkan kekuatan dan amaran kepada negara yang mencabar supaya berfikir banyak kali sebelum memilih untuk memulakan peperangan tanpa dikawal yang boleh merebak besar-besaran.

Assalamualaikum Tun Yang Amat Dihormati,

1. Memang benar apa yang dinyatakan oleh Tun, malah ramai yang berpendapat sebegitu, tetapi pihak Zinist akan terus melakukan kekejaman lain pada masa akan datang, mungkin buat seketika ini setelah dikecam hebat oleh masyarakat dunia, tetapi selepas ini kelakuan jahat kan terus dilakukan oleh pihak zionist ini.

2. Tun yang dihormati, bagaimana pula barangan serta peralatan bantuan di dalam kapal-kapal yang ditawan itu akan dihantar ke Gaza? Apakah ada jaminan bahawa kesemua barangan sumbangan ikhlas masyarakat dunia, akan benar-benar sampai. sebelum ini, juga ada banyak kes dimana barangan bantuan tidak sampai kepada pelarian di Khemah, Gaza. Contohnya, melalui jalan darat sebelum ini, banyak barangan yang lama ditahan (di sempadan mauk ke Gaza) dan menjadi rosak.

3. Semoga kapal Rachel Corrie akan selamat sampai (walaupun kemungkinan akan di sekat oleh Pasukan Marin Israel). Adalah lebih selamat sekiranya ada bot-bot atau kapal pengiring yang mewakili badan dunia (PBB), supaya pihak zionist ini tidak melakukan tindakan biadab sekali lagi terhadap kapal misi kemanusiaan ini.

4. Sekali lagi, saya mendoakan keselamatan kesemua enam rakyat Malaysia, sukarelawan dari negara lain, serta krew kapal agar selamat sampai ke destinasi.

Semoga Tun dan sekeluarga dilindungi Yang Maha Esa. Terima kasih.

What we want to see is action taken by US. Do they go around the world to seek for support to destroy Israel or at least to get Israel sanctioned. Let compare their actions when deal with Iran.

By jadiAuthor Profile Page on June 3, 2010 2:22 PM

Dear Tun,

After seeing the inhuman action by Israeli, what next course of action we should take?

Well, some quarters agree the time has come for the setting up of Muslim army based in Palestine. This set up will hinder Israeli from freely attacking Palestinien.

I see that Tel Aviv now has high rise building and for sure Israel will try not to involve deeply in war. When Hezbollah claimed they got missiles to fire into Israel, the Zionist quickly stop the attack on Lebanon.

We should be strong in order to safeguard the religion and the ummah.

2. No more humanitarian aids....no more food...no more medical supplies...

3. No more demo...no more rioting...no more street fighting with our local police...no more burning flags bought using our own money....no more wasting time & money....in our own country...or in other part of the world...

4. The burning, the riot, the havoc, the fighting, the war must be initiate in the Israel. Not in other part in the world...not here in Malaysia...

5. Why we are so stupid. Why we being doing all these time for half a decade? Why are the world so dumb and blind...Israeli violence could only stop with arm forces...or a war if that that the only way....not the useless demo and flag burnings!

Just waiting for a call to submit to the HOLY WAR!!!

Muslim world should send troops not only food. Food would only last for weeks or months the most. But troops will free the Palestinian forever.....INSYAALLAH.

The Palestinians...they don't want food...they want freedom.....

Ya ALLAH...berikanlah kami kekuatan...berilah pertolongan kepada kami....satukanlah hati kami...untuk bangkit berjihad atas namaMU Ya ALLAH....alfatihah...amin

Salam Semua,

I was just reading the news the other day about Egypt allowing some aid and the relief workers to go though the border checkpoint. From what I understand from the said news the authorities only allow 2 days in a week for any movement at the border. I am having a hard time to understand why such humanitarian efforts are subjected to such strict and psychological tormenting process.

Since the Israeli's forces keep on trespassing into the Palestinian side, may I suggest that embassies or high commissions from countries around the world set up their office along the disputed border. The muslim nations can take the initial step in setting this up.

By doing so, the Israelis will be a little bit more careful in their actions and that any trespass or damage done by the Israel armed forces to the said building will be an act of aggression to the said country or state. Secondly any incident that happen at any time in the affected area can be monitored, recorded and shared with the world community. As it is any news from the affected areas will either be censored or manipulated by the Israelis. Media blackout is also a common phenomenon.

One other thing I just wish that the Malaysian print media (the editors especially) read the foreign news feed carefully before just adopting it into your newspapers. The slants and biasness in the reporting is so abundantly clear. I can understand the western media doing this.. but such a slant in a Malaysian main

stream paper? Jangan lah copy buta-butanya. Pick up the news and write it from a Malaysian or Asian angle.

Salam.

Israel's critics ignoring facts

Jun. 2, 2010 12:00 AM

Even by the standards of a world primed and ready to condemn Israel for any transgression, the ferocity around the globe in response to the "massacre" aboard the Mavi Marmara is stunning.

And, if video footage of the incident is to be believed, thoroughly misplaced.

On Monday, a flotilla of six boats attempting to break the Israeli blockade of shipping into the Gaza Strip was intercepted by the Israeli Navy. Israeli commandoes rappelled onto the decks of all six ships, peacefully securing command of five of them. On the lead ship, however, all hell broke loose the moment the commandoes hit the top deck. At least 10 protesters died, dozens more were wounded, as were several Israelis.

Video taken from a nearby Israeli surface ship, as well as from a helicopter hovering over the Mavi Marmara, reveal dozens of the allegedly peaceful activists setting on the commandoes as they arrive, wielding what appear to be metal pipes, chairs and knives and heaving at least one firebomb. The video shows activists furiously beating commandoes on the deck and throwing one of them over the side of the top deck to a deck 30 feet below.

According to the Israel military command, the soldiers were armed with paintball guns and sidearms. At least two of the wounded commandoes reportedly were shot with their own handguns, which had been taken from them in the chaotic melee.

Surely much of what happened Monday is worthy material for the armchair second-guessers.

Was it wise to board a ship loaded with hundreds of angry protesters of Israel's blockade of Hamas-ruled Gaza? Is continuing the blockade itself proper policy? Egypt and Israel shut their borders with Gaza following Hamas-led violence in 2007, but Egypt reopened its border following the incident on the Mavi Marmara.

There is question, too, whether Israel had a right to commandeer the ships in international waters. But the Israelis cite international law regarding armed conflicts at sea that seems to address their right not only to board, but to fire on the blockade-runners.

The incident triggered near-worldwide outrage from the moment of its reporting.

The United Nations Security Council issued yet another of its condemnations of Israel. Turkey, the ship's nation of registry, announced it would recall its ambassador to Israel. And countless European and Middle Eastern nations issued condemnations. Commentators across the globe, meanwhile, peppered their anti-Israeli maledictions with phrases like "in cold blood" and "atrocious."

Israel is a tiny nation eternally under siege from neighbor nations that would dearly love to wipe it from the face of the Earth. Its forces sought to redirect the flotilla to the Israeli port of Ashdod, where authorities planned to inspect the flotilla's alleged emergency supplies, which then would be shipped overland to Gaza. The flotilla organizers refused.

A great deal of bloody mayhem erupted Monday on the Mavi Marmara. It is worth debating whether the decision to send in commandoes armed with paintball guns was sound.

But it is nothing short of hysterical Israel-baiting to construe the incident as a "massacre."

Salam TUN,

This is the Israeli's forte, they will break your patience and you retaliate, then they come in with shock and awe, thus justifying their actions in the eyes of the world communities.

The videos were produced in Hollywood to justify their action, in the name of self defence.

Even the world police is practising 'elegant silence'

They must either say YES or NO to this atrocity.

(a quote from their previous administration 'either you are with us or against us').

In 1948, the UN recognised the country name ISRAEL. Half a century later, they have evolved becoming an aggressors and bullying their immediate neighbour, the poor Palestinians.

Today, the UN has lost control of this 15 millions privilege peoples rampaging in international water.

Why are these Jews so special? Are they an endangered species? or their populations are dwindling? The status of the Jewish peoples should be reclassified under the WWF list of endangered species.

Israel is the only country in the world where the minority suppresses the majority.

Dear Sir,

While I agree that the Israelis used disproportionate lethal force and should be rightly condemned for their actions, they had a valid reason to do so, which is to ensure that the ship did not contain weapons which may be used on against Israel. Indeed, they found military equipment on the ship such as bullet proof vests and night vision goggles, which presumably serve no humanitarian aid purpose.

Also, I do not understand why you mention the Holocaust. That was a dark period in history where the Nazis systematically murdered in cold blood millions of the Jew. To suggest that the Israelis are worse than the Nazis needs serious evidence, and I don't think your statement is fair. As a publicly respected person, perhaps you would want to clarify your views?

By nazrimalikAuthor Profile Page on June 3, 2010 12:51 PM

The jews are so not human. They are roaches. No wonder the nazis killed them with gas. Should the nazis had killed them all, would the world be a better place?

Sorry to the few good jew whom may read my thought. Unfortunately, the actions of your leaders are totally unacceptable, disgraceful, so to say since the forming of your israel. Shame on you, jew.

Salam Tun Mahathir,

Your point 8 is a succinct description although presumably you meant the administration rather than the people at large.

I am a fan of Noam Chomsky as well as Norman Finkelstein, who are both critical of the Israeli administration. They are Jews.

Do you think this problem will be solved in this present or the next generation vis-a-vis, the historical events around Jerusalem since after the Islamic Renaissance period?

If so, how do you see it panning out?

Thank you so much.

PS: The best of mankind are those who benefit others and you are definitely one.
