

REMOVING SUBSIDIES

June 08, 2010

chedet.co.cc

1. Since the report that Datuk Seri Idris Jala had announced that the country faces the possibility of going bankrupt if the Government continues with the high subsidies to various items, there has been much concern and debate.
2. The Malaysian Insider claims that UMNO has a distaste for subsidy cuts because it has rebuked Idris. I suppose the Insider and the opposition are all against subsidy cuts even if they lead to Malaysia going bankrupt.
3. Everybody must have read about the fate of Greece whose borrowings exceeded its GDP. The European Union has had to bail out Greece to the tune of 300 billion Euro to prevent it from going bankrupt and pulling down the European Union with it. Already the Euro has depreciated substantially and many are predicting the demise of this European common currency. The European economy, once powerful and rich, faces the possibility of a recession, simply because of the bankruptcy of one of its members.
4. Idris has not predicted bankruptcy today or next year or any time soon. He says if the debt goes up by 12 per cent per annum we would be bankrupt by 2019 when our debt would be equal to our GDP. Do we want to let the country slide into bankruptcy?
5. What Idris is saying is that if we continue with the present level of subsidy (already reaching RM74 billion per annum) and we cannot pay our debts, we will certainly not be able to arrest the slide.
6. To pay our debts we must cut back on spending, A big item is the subsidies for food, fuel and power, health, education and tolls.
7. I believe he will not cut subsidy, or at least not much, on food, health and education. But the subsidies for fuel and power and toll payments should be gradually reduced.
8. When I was Prime Minister the price for one barrel of oil was only US\$30. The subsidy was not too big. It is now US\$80. To keep the same price would mean to increase the amount of subsidy to make up the difference. Similarly when the Government agrees not to increase toll rates it has to reimburse the losses sustained by the operators. This cost a lot of money.
9. Borrowing money to pay for the increasing cost of subsidy is not the answer. A good Government must ensure that servicing loans is sustainable.
10. The Insider and the Opposition must know all these. If they are against cuts in the subsidies it must be because they want the country to go bankrupt so that the Government party would be defeated. You may defeat the Government but if you inherit a bankrupt country, you will not be able to turn around the country either.

Dear Tun,

I live in the city, but God knows I struggle to put food on the table for my parents and sisters everyday. Need not I explain my situation.

"But the subsidies for fuel and power and toll payments should be gradually reduced." In reference to this sentence of yours, I just hope that it is done with full consideration of those who are suffering from urban poverty as well. I do understand the need to cut the subsidies.

I also think the government must find ways to curb the problem of cut-throat food sellers. We all know it's necessary for them to increase the food price when the petrol was priced at RM 2.7/litre, and we all also know that it's typical for them to not reduce it back when the petrol price went down to RM 1.8/litre. The situation is very much expected. But why is this happening Tun? I'm pretty sure you understand the importance of food supply in a country. With the current prices around KL especially, people are having problems even to eat. [I know you're no longer in the govt, but I just feel better expressing my feelings to someone like you]

But I know the issue may seem petty to some.

Young and Naive,
MSAR.

By heizalAuthor Profile Page on June 26, 2010 11:07 PM

Good day Tun,

Just want to give my piece of mind on the current topic. Malaysia will definitely be going into the direction if the current government still acts corrupt in every way. Spending people's money like their own. God knows how many corrupt practices that have been swept under the carpet. The government talks about cost saving but instead they spend on things that are against it. Look at yourself first! The so-called UMNO which say they are the ultimate hero for the Malay but mostly involved only for the sake of getting rich of themselves and the family. Some rules state more than 10 or even more 30 years... Can you imagine... We need fresh people with fresh ideas not these people who talk nonsense. Wake up please. It's the government that is bankrupting the country... When they cannot make money with new investment... They turn their back to rakyat by claiming money is not enough and need to cut subsidy or even worse taxing people... This is plain stupid and ridiculous... Think...

By bunniesAuthor Profile Page on June 23, 2010 3:29 PM

Hi Tun,

We know what Idris is saying. We are not dumb!

The thing we are saying is this.....

If we are going to be bankrupt, God only knows how many years time, isn't it wise.. no scratch that out.. wise is not a correct word.. responsible is more like it.. yes, RESPONSIBLE for BN to stop all their nonsensical spending NOW!?

Spending nonsensically can be in terms of building what we already have in abundance that doesn't benefit the general soul like Me or that minachi down the road. Another palace when we already have 2? How many Agungs do we have? He has a few rather comfy cars to ferry him around right? He can survive the distance from say, old palace to Putrajaya without any problem right? In fact, I think it would be good for him to walk from say his old palace to Plaza Damas if he needs to go there for some scones and tea! Noope, he won't grow another inch but it would be good for his legs. I heard he went to Germany for some leg problem. So, walking would cut down on the need to go Germany for leg repairs! Going to Germany

for leg repair is expensive and again, not really necessary. You had your heart fixed here.. and I think heart is more important than LEGS!

Another mosque when we already have more mosques than a lot of muslim countries? Perhaps this is not as nonsensical but than again, if we are to build another mosque, perhaps it is because the existing one is bursting at its seams? If yes, I am all for buiding places of worship may it be mosques, churches or temples.

Well, these are just a few examples of what was told to us or rather exposed to us. God knows how many more secret palaces or what else that BN has perhaps gone on to build without us knowing. Oh! let's not forget the toying idea of building a new Parliament house. Hmmm... if we are to be bankrupt, I think MPs and all should meet under the Angsana tree and use kipas satay!

Spending nonsensically can also be in terms of maintaining or creating or even dreaming up one sided deals with private companies such as toll concessions, private duno what power deals and plenty more that are equally shocking if not distressing!

So, in a nut shell, DONT COME AND TELL US THAT WE ARE GOING TO GO BUST IF WE DONT CUT SUBSIDIES WHEN THE GOVERNMENT CONTINUES IN ITS MERRY WAYS TO SPEND OUR..I REPEAT, OUR! MONEY IN THE MOST IRRESPONSIBLE AND SELFISH WAYS/FASHION! If BN wants to continue in such a fashion, than it better be prepared to be sacked in the next election. I for one is willing to take a chance with the Opposition. Afterall, LGE has done a tremendous good job with Penang. He can do it with the whole country given time and if nuisance people from BN are kept at bay!
By Duyam1968Author Profile Page on June 23, 2010 12:47 PM

Salam sejahtera, Tun,

Saya hanya seorang orang kampung. Sefaham saya kalau subsidi ditarik balik maka harga barang/perkhidmatan tersebut akan naik/mahal.

Cuba bayangkan, si X berpendapatan sebulan hanya RM1,000 (itu gaji kasar kalau bersih hanya RM890) sebulan dan tinggal di Kuala Lumpur atau Johor Bahru. Kalau subsidi minyak ditarik balik maka harga minyak akan naik, tambang bas akan naik, harga barang lain (termasuk makanan) akan naik, sewa rumah akan naik, yuran sekolah akan naik dan kesemuanya termasuk sumbangan kepada ustaz untuk mengajar agama akan naik.

Persoalannya bagaimana kerajaan (yang memerintah atau pembangkang) untuk memastikan kehilangan subsidi tersebut dapat digantikan dengan sesuatu yang memberi manfaat terus kepada si X. Kasihan si X kerana kenaikan barang/perkhidmatan datang dari semua sudut. Dan si X ini adalah salah seorang yang penting di dalam satu-satu organisasi sama ada kerajaan/swasta walaupun gajinya kecil contohnya pengawal keselamatan, juru gegas (despatch), budak pejabat, pembersih dan pembantu pejabat (tea lady, cleaner), jurutaip dan lain-lain seumpamanya.

Kemudian datang idea Model Ekonomi Baru di mana orang macam saya ini faham bahawa pendapatan rakyat Malaysia akan melonjak. Tapi tidakkah kalau pendapatan naik maka harga barang akan naik. Takkanlah si Y yang membuat roti tidak akan menaikkan harga roti setelah melihat si X gajinya telah naik (walaupun hanya RM200 sebulan, Sipenasihat ekonomi akan mengatakan okeylah itu, sebab peningkatan gaji sebanyak 20%). Menurut hukum alam (ini yang saya faham), kalau pendapatan seorang itu naik maka akan ada si Malang yang pendapatannya tidak akan naik ataupun turun. Akhirnya, simpanan bersih yang si X ada, akan balik asal, tidak ada peningkatan pun. Baru naik gaji, barang dah pun naik. Malang sungguh si X.

Saya dapat tahu bahawa idea Model Ekonomi Baru datang setelah kajian dibuat oleh para bijak pandai. Tetapi adakah penemuan/penyelidikan itu telah dicabar atau "tested" atau "proven"?? Atau bijak pandai tersebut hanya "syok sendiri"? Saya minta bijak pandai ini pergi jelajah keseluruhan negara (jangan hanya buat seminar dekat pusat konferen yang berhawa dingin sahaja dan hanya "one way traffic"

perbincangan). Jumpalah mereka yang dibawah sekali iaitu petani, buruh, pengawal keselamatan untuk dapatkan maklum balas.

Cuba bayangkan, sekarang ini apa boleh buat dengan duit RM1.00. Kalau dekat KLCC, nak makan pun tidak dapat. Dulu (saya nyatakan pengalaman saya yang lahir hanya sebelum 13 Mei), air botol RM0.20, suratkhbar RM0.20, roti canai dan mee goreng RM0.20, tambang bas RM0.20. Tapi sekarang tiada. Saya ada terjumpa belas pelayar (ex-sailor) orang kita di London di mana dia mengatakan bahawa semangat duit sudah tiada (Ini saya nyatakan apa yang dia katakan). Cubalah yang bijak pandai fikirkan supaya tabungan bersih (net saving) rakyat akan bertambah dan bukan hanya pendapatan sahaja yang naik.

Pada pendapat saya, pengagihan kekayaan negara secara adil dan telus adalah penting. Contoh yang mudah, kalau bagi sebutharga untuk pengawal keselamatan, mereka akan nyatakan dalam sehari memerlukan 3 pengawal keselamatan yang kosnya RM1,200 per shif (rakyat tempatan). Tetapi pada realitinya, pengawal keselamatan itu hanya 2 orang (syif 12 jam) dan gajinya RM400 iaitu pesara tua. Jadi inilah yang menyebabkan pengagihan kekayaan yang tidak efektif dan adil. Ini hanya pengawal keselamatan, bagaimana pula projek pembinaan, IT dan lain-lain. Bagaimana pula dengan RASUAH?

Oleh itu fikirlah masak-masak. Jangan terikut-ikut dengan pemikiran barat tanpa kajian dan semakan yang mendalam dibuat untuk menyesuaikan dengan keadaan di Malaysia. Memang mudah untuk dicakapkan kalau nak duit negara lebih maka tarik balik subsidi. Tapi implikasinya bagaimana? Adakah kekurangan duit negara disebabkan kerakusan pihak tertentu mengaut untung atau ketidakcekapan kerajaan memungut hasil atau RASUAH atau kegagalan kerajaan menoptimalkan khazanah negera?

Wasalam

Tun,

Izinkan saya memberi pendapat 3 sen (nilai Kerajaan Malaysia apabila membuat perjanjian dengan negara asing) saya berhubung pengurangan/pemansuhan subsidi terhadap barang keperluan rakyat termasuk minyak dan tenaga.

Saya tidak membantah terhadap pengurangan atau memansuhkan terus subsidi kepada rakyat tetapi persoalannya Tun adakah ia selari dengan usaha kerajaan untuk meningkatkan pendapatan rakyat? Umum mengetahui jika harga minyak dan tenaga elektrik dinaikkan, ia akan menyebabkan tindak balas berantai iaitu kos pengangkutan akan naik sekali gus menyebabkan kenaikan harga barangan makanan, begitu juga dengan kenaikan harga elektrik.

Menyentuh mengenai pengurangan subsidi tol oleh kerajaan, kalau tidak silap saya Tun, rakyat sudah habis membayar kos pembinaan Lebuhraya Utara Selatan malah melebihi kos sebenar melalui pembayaran tol.

Adakah rakyat harus membayar kos penyelenggaraan lebuhraya di negara ini pula untuk selama-lamanya?

Kalau tidak silap saya lagi Tun, ada negara di Barat yang mengenakan sistem tol kepada rakyat tetapi tidak ada cukai jalan di negara berkenaan.

Begitu juga ada negara yang mengenakan cukai jalan tetapi tiada sistem pembayaran tol.

Tetapi di Malaysia kita ada kedua-dua sistem tol dan cukai jalan sekali gus.

Tun, kerajaan terutama mereka yang kaya (saya tidak iri hati dengan orang kaya malah berbangga jika mereka berbangsa Melayu) harus sesekali memandang ke bawah melihat penderitaan rakyat marhaen terpaksa membayar tol setiap hari.

Dulu kerajaan menjanjikan jalan alternatif tanpa tol tetapi sekarang rakyat seolah-olah dipaksa melalui jalan bertol kerana tiada jalan alternatif disediakan.

Bayangkan kos RM100 atau lebih sebulan terpaksa dibayar rakyat membayar tol yang boleh digunakan untuk membeli barangan makanan runcit untuk sebuah keluarga miskin sebulan?

Tun, saya bukan antipembangunan, binalah sebanyak mana infrastruktur dan bangunan mega kerana percaya ia akan memberi keuntungan kepada rakyat dan negara pada masa depan.

Persoalannya Tun, dalam masa kerajaan bercakap mengenai keperluan mengurangkan dan memansuhkan subsidi, rakyat juga mendengar pelbagai skandal yang merugikan melibatkan bukan jutaan ringgit malah berbilion ringgit wang rakyat.

Rakyat meluat, sebagai contoh melihat kemurahan hati kerajaan menyerahkan dua blok kawasan minyak kepada Brunei tetapi pada masa yang sama bercakap mengenai kerajaan akan bankrap jika subsidi kepada rakyat tidak dihapuskan.

Saya kurang setuju dengan saranan Tun bahawa parti pembangkang pun akan sukar memulihkan pendapatan kerajaan jika berkuasa apabila kerajaan sedia ada tumbang dan bankrap.

Walaupun saya bukan penyokong pembangkang, tetapi tidakkah sebagai sebuah kerajaan juga harus bijak menguruskan pendapatan negara seperti CEO sebuah syarikat korporat?

Sama ada kita suka atau tidak kepada parti pembangkang, kita mesti akui bahawa ada tindakan mereka yang bukan sahaja popular di kalangan rakyat malah berjaya tanpa menjejaskan pendapatan kerajaan. Saya benar-benar kesian dan bimbang Tun terhadap nasib bangsa Melayu dan kerajaan sedia ada jika tumbang pada pilihan raya nanti dan berharap kerajaan sekarang akan berjaya pada pilihan raya umum akan datang.

Salam Tun.

By n.ajis Author Profile Page on June 15, 2010 2:20 PM

Tun,

Subsidy means any Government measure that ensure prices below market clearing levels for consumers or above market clearing levels for producers...so "over-priced" Government procurement by definition should be included as subsidy items. I think maybe the Government should work out on how to overcome the "procurement overpriced" issue first, as outlined/highlighted every year by the Auditor's General office before talking about cutting other "people's subsidy".

By parameswara 2 Author Profile Page on June 14, 2010 2:16 AM

dearest Tun,

I don't think we can cut the subsidies...

do you think if you call your children for a meeting to discuss ending their rm500 allowances..they will be happy to say ok?They thought you want to increase...suddenly cancel,you think they can accept ah?Don't think so.Same story with rakyat/subsidy

if in Shell,MAS you can do these to prepare your staff for the eventuality,and if they protest-you can sack them.

but for a nation if Government dare to go ahead when they are not happy the rakyat will sack the government!

Only way to go whether Najib likes it or not is;-

a- Just gotta make sure all the GLCs make Billions of profit-so just do the right things,get the right people,etc!

b- Just show real commitment to end corruption,not lip service so no more leakages

c- MACC, is really independent? Get the opposition take charge of MACC.Why worry-you think can simply charge people without proof ah?

d- Malaysia is an extremely beautiful country with all the exotic things tourist want at our doorsteps only.But so far only Genting Highlands seem to be helping Malaysia bring in lots of tourist.Actually if the Government really and seriously develop and promote Malaysia ,we are surrounded by 1/2 a billion of our SEA neighbours alone not yet talk about the 2 + + Billions from China and India,we are actually a Gold mine but all the tourist now know is KL,Twin Towers,Putra Jaya,Batu Caves,Sunway and Genting.Oh sorry forgot..Langkawi oh Langkawi and our other exotic islands.

Maybe Tun with your experience developing and selling Langkawi before maybe they should appoint you to see how we further develop all our other attractions esp in my favorite and very neglected state of Perak.Important thing is we can make money for Malaysia ma.

Let's have big targets like double our tourist arrivals from 22 mio to 44 mio,why not China and Spain can we cannot meh?But of course lah after we have the tourist products. Tourism is important because it is also the other reason why we must have this subsidy thing going because it will help make Malaysia still cheap for tourists to come ma.

I think this is Government job to think of increasing revenue for Malaysia so they better do it.If I do all the thinking than Govt got no job already.Than all the big fat salary for what,to say yes bos only ah?As usual set up think tank loh.

Emotional acct of Govt with the people is mostly overdrawn,we are basically despaired already to see any real changes of happening soon.Originally we were happy with the promise of Change or Collapse and

were convinced when Najib actually amended the UMNO constitution to allow anyone to challenge him only to betrayed later by I help you you help me episode in Sibu. This betrayal is an enormous withdrawal of the emotional acct. Nowadays at the click of the finger only people can see for themselves whatever they have heard is true or not. So a subsidy cut now is suicidal to UMNO in PRU 13.

If the govt has no intention of cutting subsidies yet-best not to talk about it at all. As it is now unnecessarily, the Govt make us hate them already for giving us this much dreaded news at time our confidence with the Govt is at it's lowest. Every moment as we discuss and discuss and discuss.. I think now ah even if Govt don't cut the subsidies also UMNO consider gone case already come PRU13.
By IdeaAuthor Profile Page on June 14, 2010 1:21 AM

Dear Tun,

I would like to thank 'samuraimelayu' for his compliments.
By HajarAuthor Profile Page on June 13, 2010 9:14 PM

Salam YAB dan diKasihi Tun,

1. Masalah utama mengenai subsidi ialah ORANG KAYA PUN MENIKMATI SUBSIDI termasuklah subsidi makanan, tol, kesihatan, minyak dan etc. Memanglah kerajaan boleh BANKRAP jika orang kaya pun diberi subsidi. Subsidi patut diberi kepada mereka yang BETUL-BETUL BERHAK/LAYAK (tidak berkemampuan dari segi kewangan). Mungkin satu sistem kupon boleh digunakan.

2. Secara peribadi, saya ok (setuju) saja jika subsidi dikurangkan kerana mesti ada cara untuk setiap keluarga MERANCANG PERBELANJAAN. Jika harga minyak naik, kurangkan penggunaan minyak; jika tempat yang hendak dituju dekat saja, elok berjalan kaki atau kalau ada pengangkutan awam, boleh guna. Begitu juga dengan tol. Kalau mahal, jika ada pilihan, guna saja jalan yang tidak bertol. Untuk makanan, bagi yang berkeluarga, eloklah memasak di rumah dari makan di luar – memang jauh lebih murah; jika bekerja, bawalah bekal. Belajarliah hidup SUSAH SIKIT.

4. Sebagai rumusan, "we must not spend more than what we earn". Apa yang saya nampak, ramai yang gaji jauh lebih rendah dari saya, pakai kereta jauh lebih mahal dari saya, dan rumah pun mesti besar & sebenarnya di luar kemampuan. Sebab itulah bila hujung bulan, sentiasa SENGKEK/KEKURANGAN WANG. Banyak yang tidak tahu membezakan antara keperluan dan kemahuan ("luxury").

5. Lagi satu, kerajaan pun kenalah BERBELANJA SECARA BERHEMAH. JANGAN MEMBAZIR.

Saya rasa Tun wajar dilantik sebagai PENASIHAT KERAJAAN kerana Tun dapat menerangkan kepada rakyat dengan lebih berkesan berkenaan perbagai isu berbanding pemimpin-pemimpin sekarang. Kebanyakan mereka cuma tin kosong.

*** Saya doakan Tun sekeluarga sentiasa sihat sejahtera & dilindungi Allah SWT ***
By ahmadsAuthor Profile Page on June 13, 2010 8:48 PM

Salam Tun,

The opposition is just looking for a scapegoat. This is just another propaganda by the opposition. In my view upgrading of infrastructure is good but to spend inappropriately is something to think about. Eg the recent Mosque that can occupy 20000 people per seating seem to be a wastage. Big grand mosque in kl is abundance.

Allah dont look at a big grand mosque to justify ones' iman...

Allah bless a nation when there is justice and harmony among beings.

well spent money to aid the poor in raising their standard of living and help the poor in getting good education and so on. imagine with that kind of money the government spend can really lift up their standard of living for the poor. Have mercy for the poor. Thanks

By junechang Author Profile Page on June 13, 2010 4:51 PM

Hi Tun,

I feel that our gov good in approved spending project and talk alot rubbish. Debt goes up by 12 per cent per annum is malaysian fault? Who should take this respon.?

Who approved the 20 billions project for Johor Iskandar? Until now no result come out? Year 2007 got few high cost projects at east & west coast.. all about hundreds billions. Then how about Port Klang case? How many ppl enjoy gov money for themselfe in all these projects? All are happy for fullfill their pockets only.

Our gov really good in expenses, did our gov talk abt increasing gov income? Like outsider' investment, tourism, tax, export... NO.. Just look like NON OF MY BUSINESS..

Not easy to management a country, if they dont know the management, planning & correct action skill, then we will

By speedbird Author Profile Page on June 13, 2010 6:03 AM

Dearest TUN,

I think you are smart enough to know that comparing the Japan cost of living against Malaysia's cost of living shold not be mentioned in the first place. I am really fed up when malaysian politician says that our cost of living etc are the cheapest in the world. For people who earn Rm50,000 per month like them, For foreigners who earn Rm100,000 a month...definitelt everything is cheap of course. But what about our policemen and military boys, low ranking government servants and clerk who earn Rm1000 a month?? Have they thought about them? Even earning Rm3000 is not enough to raise a decent family. Do your math properly.

Removal of subsidies issue? Of course for people like Idris Jala and the rest of the politician...they don't need the subsidy. The amount of income they earn per month is more than an average malaysian earn in a year or 3 years, some 10 years!!

Look at our own backyard first before saying anything. The country will go bankrupt in 9 nears if they continue with corruption, massive spending, unnecessary developments which feeds the rich and influential. The country will go bankrupt if they spend rm800 million on new parliament building, on new fighter jets when The MIG-29 is just a few years old (somebody sees a great opportunity), on submarines that doesn't work. Country will go bankrupt is they spend Rm10 billion for something which is worth Rm1 Billion. Country will go bankrupt if they do not prosecute people who are responsible to give away malaysian petroleum wells to Brunei (when we can fight in international court for Sipadan & Pulau Batu Puteh, why can't we fight for the Petroleum blocks? Of course Singapore won't pay for the island so will not Philipines. Brunei, the oil rich kingdom? Maybe.)

CERTAINLY THE COUNTRY WILL NOT GO BANKRUPT IF THEY CONTINUE TO SUBSIDISE FOR THE SAKE OF ORDINARY CITIZEN WHO ARE TRYING TO MAKE END MEETS.

Fight corruption and we will be a rich nation

By speedbird Author Profile Page on June 13, 2010 5:47 AM

Dearest TUN,

We all know that you are indebted to Tun Razak for all the good things that he has done to you. You are now repaying his good deeds by supporting Najib. Very noble But there are limits!! He is giving away the Malays privileges to garner the support of the non-malays. But sadly, the Non Malays still are not supporting Najib. To make things worse, the malays are distancing themselves because they think Najib & UMNO cannot protect the malays anymore. Very ironic, the Chinese have their chambers and

associations, what does the malay have? The malays only have UMNO which is forgetting it's root cause!!

By junechang Author Profile Page on June 13, 2010 2:38 AM

Hi Tun,

Do you feel dissapointed with wat gov said in past few days? Tun so concern about subsidies' issue and try to explain gov difficulty here but...

Sometime i really confuse - R they politicians or 4 years old boys? Why so foolish circumstances can happen? A week before concern abt subsidies issue & come out with "bankrupt by 2019" statement but now talking how to spent money million2.. haha.. how much to spent on new Parliment house? 很矛盾

,Putrajaya ,Sepang Circuit ,Sepang Airport ,we still can see the highcost projects like KLCC ,s time'When Tun not more project ,In these ten years .which are useful for next generation if proper manage by gov ..Cyberjaya .ocus on bidang pelanconganespecially not f ,are really benefit for long future

Or they used to close their ears but open mouth without ?s1960Our politicians still think malaysian live at ?Why the last election still not enough for them to wake up ?thinking

I love my country and my government so HOPE TUN CAN PASS OUR MESSAGE TO OUR LOVELY .THANKS A LOT .POLITICIANS

,Dear Tun

cutting ,Worst is when it becomes unsustainable .s the board subsidy is not sustainable for any economyAcross
.It can even change the government or cause riots .back will be very difficult

t effect is to distort the real free Its ne .Across the board subsidy will tax the government coffers to no end
.market forces taking effect to efficiently move the economy

Creativity and efficient use of .Demand is not moderated and supply is unsustainable over the long run
.demand high but supply is diminishing resources will not be maximised as the low cost keeps

,Just as an individual using credit for personal consumption .Subsidy supporting pure consumption is not good
Where else if he uses credit for .especially non essential consumption will cause him negative growth
.stment he can expect growth for the returns from his investmentinve

no matter how long it may take but –With investment we expect returns .Subsidy must be for investment
.returns are expected

.es given out the rakyaatexamine the kinds of subsidi–The goverment therefore needs to re

Not .It Must be for growing the economy .It must grow the economy .Government spending MUST yield returns
.for pure consumption

.velopmentsSo are necessary infrastructural de .basic food stuff are investments &Basic health care ,Education

,using subsidies ,Keeping fuel prices low .In a free market economy prices depends on supply and demand
Demand increase as .It further increase demand straining further the government coffers .distorts this equation
.and more efficient use of fuel ,nor look for cheaper alternative of traveling ,elpeople will not curtail trav

.It a zero sum game

...gas and what have you ,cooking oil ,Same goes for sugar

The government should have forked out the funds to build .we have been going about it the wrong way...Highways
Toll price will .Than tender out for operators to run and maintain them .its infrastructural development –them
The government will get a cut from the Toll for the .initial investment cost be for the upkeep only and not the
.enforcement cost

With this Toll prices can be kept in check and the goverment DO NOT have to GIVE the operators money from
.its coffers

,Dear Tun

The fact remains that .We cannot be in a state of denial .Make no mistake about it .What Idris Jala said is right st has been subsidizing practically everything to make the rakyat feel comfortable and sustain their co .the govt should continue maintaining the subsidy at a higher .But for how long the govt .of living at the lowest possible it could make this country ,Yes .continues to maintain status quo on subsidy .It will be suicidal if the govt .level .Jala rightly said bankrupt as what Idris

so as not to affect drastically the cost of ,The right thing to do is for the govt to reduce the subsidy gradually should also do is to plug all the loopholes .What the govt .living of the rakyat particularly the lower income group pilferages on subsidy item by item for a given period of time and then find the best alternative solution to and .reduce the impact of the reduction in subsidy

.ingThey are worth noth .let them menyalak sampai ke pagi ,”meyalak”As for the oppositions who keep on racial –They have no credibility except trying to destroy the fabric of our delicate multi .t give them a damn'Don !!They are in fact a menace to society .society

.y will destroy this countryThe !!!The can fly kite .t think the oppositions can be of any good to the rakyat'I don !!! I CAN SMELL RAT .Everything will turn into ashes if given them the chance to rule .Make no mistake about it PM 3:40 2010 ,11Author Profile Page on June 01By priss

t believe this BS'wonder why most Malaysians don ,Ohh Malaysia cannot sustain subsidy

.Tun M dan keluarga Salam kasih Ayahanda

.Sekadar hendak berkongsi maklumat sahaja .Isu subsidi

an saya sempat membeli gula pasir60kanan ditahun –Di zaman kanak.1 Kalau tak .setin 0.65sekati dan susu pekat manis 0.25dengan harga

.silap saya

.Tetapi ayahanda Tun M .am murah jeHarga ketika itu kelihatan mac.2
Basikal ketika itu mungkin .Kami nak beli basikal pun tidak mampu
Arwah ayah .??sebuah apa lagi nak beli TV gambar hitam putih 120RM
Nasihat arwah ayah dan emak sangat kami .pekerja am JKR ketika itu
.hargai

.Ilah kami adik beradik semua hidup sihat sampai sekarangAlhamdulillah.3
Walau pun ketika itu ada buku teks kena .Hasil dari jimat cermat
Tengah.Yang ada buku saving pos office .Tiada ASB dan ASN pun.beli
.Sekarang BSN .bulan hitam ibu jari kanan arwah emak

Saya terpanggil .lebih hebat dari dulu ,an ini2000hun Dizaman ta.4
Ada .Ada yang pro dan ada yang kontra .dengan kenyataan subsidi
jika keluarga yang berpendapatan :Contoh kecil .pelbagai alasan
Mungkin selepas subsidi .ekor 4rendah makan dengan berlauk ikan
.Sebab semuanya dah mahal katanya .ekor ikan 2di dtarik mampu beli

ada yang mampu ,dalam daripada yang kurang kemampuan ,Peliknya.5
Ada yang mampu miliki .Canggih pulak tu .milik dua telefon bimbit
.yamampu milik motorsikal cc kecil dan sebegini ,dua set TV
...Entahlah

Tiada pemimpin .Yang penting penarikan subsidi biarlah berhemah.6
.yang mahu melihat negara Malaysia ini miskin

.Di doakan ayahanda Tun M dan keluarga sentiasa sihat walafiat.7
rkatidi be ,Semoga sumbangan ayahanda Tun M kepada yang memerlukan
.Allah SWT

,Wasallam

,Dear Yang Amat Dihormati Tun

Why .the Government could have thought of better idea instead of reducing or removing subsidies ,To my mind
we all know that Petronas makes more profit when the ,For the case of fuel ?suffer it is always people have to
we people are sick with the ,And for toll rates .price increases which is then passed back to the Government
in commercial parts but given leeway in terms The toll operators are extremely protected .lopsided agreement
The riding quality of our toll highways is not up to the standard .of maintenance and providing comfort to users
ered at all at These operators are not both .Look at the queue at toll gates .and hazardous at certain stretches
!how far it stretches for users to pay them

How can the Government allow the toll operators to increase the toll rates when these operators are making
are not allowed How can the Government have to compensate them when the toll rates ?huge profit each year
If the operators are given ?How can the Government could have agreed with such agreement ?to be increased
t the Government get some advantage when the traffic volume exceeds the 'why can ,traffic guarantee

t the Government 'Why can .s mind'ings that revolve around most peopleThese are the th ?projected figure
.t have to suffer'renegotiate the agreement so that people don

.Actually there are many steps or actions the Government can take in order to avoid sacrificing the subsidies
.have all the experts to do this job but please be aware that people have suffered enough m sure we'I

.Thank you Tun for the space

?maybe cutting IPP payments will help

AM 3:28 2010 ,11QAuthor Profile Page on June By THARI

assalamu alaikum tun

power also one more important section .food subsidy is important so no way to removing subsidy in this section
n can remove or reduce subsidy as tun say in power sectio .education also same as above ,as food and health
fuel strictly can remove subsidy it force people to use the government and public ,toll .except home supplies
supply food items directly by .govt can try to make a department for food .transport and it stop useless travel
we need good analyse above .way subsidy correctly get to Malaysian only and can avoid misuse the subsidy this
.....our growth is nation growth .sections subsidy and gdp growth

assalamu alaikum tun

PM 11:47 2010 ,10By skaizerAuthor Profile Page on June

,Salam Tun

--:Saya berpendapat subsidi tidak patut dihapuskan atas alasan berikut

Mereka ini malas untuk bekerja .Kerajaan Malaysia selepas Tun diwarisi oleh kepimpinan yang pemalas .1
.esenangan yang Tun usahakanIngin nikmati k .Mereka ingin duduk rilek .mencari duit untuk negara
Sebab itulah potongan subsidi dibuat supaya beban kerajaan untuk bekerja kuat diringankan dan dipindahkan
.Perluakah rakyat membayar akibat kepimpinan negara yang pemalas.kepada rakyat

Adakah ini .billion akan masuk dari pelaburan Western Digital dll-ion Datuk Najib mengatakan pelaburan berbil .2
.Saya rasa ini sembang kosong bila subsidi hendak dipotong.hanya sembang kosong

an tidak ada kerajaan di dunia macam di bawah kepimpinan Tun yang mencari duit untuk negara dan menyalurk .3
Tidak pernah beban kerajaan dipindahkan .gula dan bahan makanan lain ,balik kesenangan melalui subsidi minyak
.kepada rakyat semasa zaman tun

bukan saja ,tetapi kepimpinan sekarang lebih teruk ,Di zaman Pak Lah subsidi minyak dipotong banyak kali .4
.tapi gula dan bahan makanan lain juga ingin dipotong,yak min

PM 7:03 2010 ,10By Wenger KhairyAuthor Profile Page on June

,Dear Tun and followers of Tun

.I now publicly absolve Tun from all issue surrounding the IPP subsidy for natural gas

Price for natural gas in Asia is .The reason is because that the subsidih is artifical based on an artificial price

x the 2Asians pay almost) .not the same as the price in the US even though they are exactly same the product
(price

(based on the Asian price)the IPP "to subsidy"left hand the Gomen is spending money So even though on the
.on the right hand the Gomen is making money from Petronas due to this high price

ed to export their gas Even the Indons are forc .there is more supply of gas than there is demand ,Furthermore
So really the Gomen is not losing money on the IPP because if .to the US because there is so much gas around
Petronas will be forced to export to the US and in the US they will not pay the ,the IPP did not use the gas
.we pay same high price

Its just an accounting from left to right .0So the opportunity cost is

(Tun is cleared from this -Anyhow .Am surprised Tun did not explain this)

,Salam Tun yang amat dihormati dan disanjung
pernyataan berkenaan subsidi dan kemungkinan .Memang benar setelah Datuk Seri Idris Jala mengumumkan.1
Malaysia mufliis jika kerajaan meneruskan subsidi yang cukup tinggi yang diberikan oleh kerajaan dalam perbagai
terus sector telah mendapat pelbagai reaksi dari segenap lapisan masyarakat samada secara terus atau tidak
.dan samada melalui PEMANDU atau tidak

Pengumuman ini samada bermotifkan politik jangka pendek atau jangka panjang bukan lah persoalan pokok .2
yang tetapi yang lebih penting lagi ialah ketidakpuashatian semua pihak samada yang akan teruk terkena atau y
hanya sekadar merasa akan terkena teruk ataupun juga hanya sekadar ingin menjadi wira untuk kepentingan
tertentu atau sesiapa juga yang tidak merasa puas hati jika tindakan menghapuskan subsidi samada sedikit
Persoalan kemufliisan Negara jika tindakan menghapuskan .ijalankandemi sedikit atau sebanyak demi sebanyak d
.subsidi ini dengan apa cara sekalipun adalah amat bergantung kepada kebijaksanaan kerajaan menangani isu ini
ng amat tinggi kepada pihak .Kebijaksanaan ini telah dibeli oleh rakyat dengan memberikan gaji dan imbuhan ya
,menteri kabinet 2timbangan ,kabinet 2menteri ,Timbalan Perdana Menteri ,kerajaan samada Perdana Menteri
ahli parlimen dan adun yang memang merasakan mereka adalah pejuang ,pembangkang ,ketua pembangkang
sebuah Negara yang terbaik dari kaca mata mereka samada bersetuju atau tidak untuk menjadikan Malaysia
Jadi ini adalah tanggung jawab mereka yang terpilih menentukan .bersetuju dengan isu pemotongan subsidi ini
Kalau masalah ini tidak mampu .n datangapakah yang terbaik sekarang dan akan menjadi terbaik juga di masa aka
ahli parlimen dan ,ketua pembangkang ,timbangan menteri/ditangani maka lebih baik tak payah menjadi pak
Saya .jujur dan berpandangan jauh menyelesaikan masalah ini ,sebagainya dan biarlah orang yang lebih layak
yakin masih terlalu banyak orang yang di luar sana mampu melaksanakan tugas ini dengan lebih baik tetap
Apa yang penting sekarang ialah seseorang pemegang tampok .dengan niat yang suci serta penuh kejujuran
bukan setakat jujur ,ak malah mestilah Nampak padaipemerintahan Negara bukan hanya sekadar pandai secara h
kenyataan saya ini ..bukan sekadar layak malah mesti kelihatan layak ,malah mesti kelihatan jujur
olah hanya perfectionist yang hanya layak duduk di tempat ini dan tiada seorang manusiapun yang-seolah
jadi faktor kerja keras berasaskan ilmu dengan penuh kejujuran adalah tambahan kriteria ,perfect dimuka bumi ini
.lain yang perlu bagi menyelesaikan isu ini

Idris telah melakukan kajian ekonomi melalui .4Memang benar secara persamaan ekonomi jika GDP .3
Tidakkah ini merupakan ?Adakah ini tugas seorang menteri .adalah tarikh keramat beliau 2019PEMANDU dan
maka kita ada ,tugas seorang eksekutif kanan dan jika ini adalah tugas seorang yang di bayar sebagai menteri
u ia sendiri yang menurunkan level menteri berdasarkan jutaan orang yang layak menjadi menteri ata

Dan jika ini diterima sebagai tanggungjawab menteri maka saya ingin nyatakan secara jujur ?kebijaksanaan beliau ni adalah kerana Antara sebab terbesar saya mengeluarkan kenyataan i .Malaysia berada di ambang kemusnahan adalah mudah untuk menjadi seorang menteri di Malaysia kerana apa yang perlu dilakukan ialah mengumumkan hasil kajian dan menyerahkan kepada pendapat ramai untuk menyelesaikan masalah ini dan jika masalah ini i terlalu tinggi maka kita perlu memotong subsidi tersebut mengikut persamaan adalah di sebabkan oleh subsid .Jadi masalah MUFLIS ini dapat diatasi .ekonomi yang diperolehi

Saya sangat yakin dan percaya bahawa masih terdapat beribu cara untuk mengatasi masalah ini dan ini adalah .5 akan tanggungjawab menteri yang dibayar untuk mendapatkan kaedah yang terbaik dan berkesan untuk merup menangani masalah ini dan jika masalah ini menjadi amat sukar untuk diselesaikan dengan persamaan ekonomi jujur dan penuh keinsafan demi kebaikan Negara maka ia mesti secara penuh ,moden yang idris pelajari bermushawarah bagi mendapatkan penyelesaian terbaik dan saya merasakan masih terdapat banyak yang amat bersedia menyertai perbincangan ini kerana tidak (pembangkang yang membina ,lain 2menteri)orangnteri dan pembangkang yang tidak jujur dalam menjalankan tanggungjawab merekasemua me

Akhir sekali saya memohon maaf kepada ayahanda Tun dan juga kepada Datuk Sri Idris Jala kerana kritikkan kali hawa MALAYSIA ADALAH NEGARA KITA Tetapi secara jujur ingin saya nyatakan baini adalah agak keras YANG KITA CINTAI DAN CABARAN MEMBANGUNKAN NEGARA ADALAH CABARAN KITA DAN IA TIDAK MENJUAL BAHAGIAN YANG TIDAK MENGUNTUNGAN ,SEMUDAH MEMOTONG BAHAGIAN YANG SAKIT ABKAN DAN BERMACAM MACAM LAGI KAEDAH MUDAH PENYELESAIAN HANYA DISEB .etc.....KITA

Wassalam

...Asalamualaikum

sia sehingga 'engapa sebelum ini subsidi membatu rakyat juga dapat membangunkan myg menjadi pelik bin ajaib m ...sia duduk atas pokok'di kenali seluruh dunia yg mana sebelum ni depa ingat org m nak kata adatu semua 2p mana duit...mengapa di zaman ada sumbangan petronas tetiba negara akan bankrap media eletronik jgn lah 2nak minta tolong sangat kpd pengacara..problem kurang gula ni....pembangunan ntah lah yg duktu 'ayat'dah jelak dah di dendangkan ngan ...duk kata jgn makn gula banyak nati dapat kencing manis yg duk terkejut tu peniaga ...gula takder bukan yg gunakan gula sekampit sebln terkejut beruk sangat saya sekampit...an2kecil

kita yg marhain ni tak kisah gula ada ke takder sbb ...dari taun lepas duk ada lg sbb kurangkan gula sejak azali uat lempeng cicah ikan kering atau sambal tumis ikan bilis jgn nati kami kalo tak dapat buat manisan kita boleh b gamaknya kena hidu jer 2di dendangkan kuarangkan mkn cili kurangkan mkn tepung gandum kurang itu ini lama mengapa zaman bapak jadi pm...sedih...jgn makan nati obesiti

saya agak yakin ygmengapa saya rasa tak percaya...betul ke rakyat di dulukan...k seteruk iniproblem ni tida ...idris jala bukan mengiyakan kenyataannya'camdek'artikel bapak ni sebenarnya bapak

AM 1:17 2010 ,10By junechangAuthor Profile Page on June

,Hi Tun

?take so long time to find the ways & issue so susah to solve 'why the subsidies--doubt I feel

Most malaysian are "s beban'son have to understand father & Father need to know the stress of son "I agree we didnt ,Exp .pt the reasonable decision by govacce & educated so we will have our own reasonable judgement .make noise for every saturday we need to buy plastic beg when we shop

..My cadangan for cut the petrol subsidies

n average the whole The .for retail selling (x)per litre .Gov make analysis to ensure how much available to sub .Less X to get new retail price for next coming mth ,s world market price'mth of petrol

then new retail price for Jun 3.00is RM 10litre for May /average world mkt price ,litre/0.50RM .gov sub ,Example .2.50will be RM 10

.litre/RM .gov can decrease sub -optional ,or a year 2/1Later after

I feel this make gov more .easy understand wit the formula & PPL can be easily to live wit the slowly inflation .easy and straight to the point

of coz ppl)waste money to do a lot of survey & (price still increasing at this moment)No need take long time Work easier way to cut off wastage and .before decision come out (not agree for price increase without planning .effective to the target

?feel so Do you

AM 12:22 2010 ,10By hassanAuthor Profile Page on June

,Tun.Salam Ybhg

Isu subsidi yang diperkatakan sekarang bagi saya adalah satu peroses pendidikan kepada rakyat dan kerajaan ak perkara dan cara boleh dilakukan utk Dipehak kerajaan saya fikir bany.untuk berhemat dalam perbelanjaan -:Diantaranya.mengurangkan perbelanjaan tanpa menjejaskan kualiti hidup rakyat

dengan melaksanakan perolehan secara tender yang %10Kerajaan boleh mengurangkan bajet sehingga .1 ,kompetitif dan terbuka

juta 27Berdasarkan penduduk malaysia hanya .n bilangan kakitangan kerajaan yang terlalu ramaiMengurangka.2 .juta kakitangan awam adalah yang tertinggi didunia1.2bilangan

buah 20mpir Agensi kerajaan yang bertindih fungsi seperti di Kementerian Pertanian yang mempunyai agensi ha.3 .begitu juga agensi di kementerian lain,perlu dikurangkan

Banyak .Agensi pemungut cukai mesti menambah fail pembayar cukai terutama Hasil Dalam Negeri dan Kastam.4 rikat atau orang cukai terlepas dari dipungut kerana kegagalan ejensi pemungut cukai mengesan sya .perseorangan yang layak membayar cukai

dan ,Menteri,Pemimpin politik mesti menunjuk tauladan yang baik dengan hidup sederhana bermula dari PM.5 .Wakil Rakyat

ugas dengan jujur supaya undang terutama di sempadan negara mestilah menjalankan t-Penguatkuasa undang.6 penyeludupan barang bersubsidi .dapat dibendung

Kerajaan mesti TEGAS melaksanakan polisi supaya barangan bersubsidi HANYA UNTUK RAKYAT MALAYSIA .7 m terus dan tidak Oleh itu sebarang pembelian oleh waraga asing seperti warga singapura dihara.SAHAJA .dibenar sama sekali hatta satu kilo pun utk dibawa pulang ke Singapura

,Terima Kasih

,pembaca semua &Assalamualaikum Tun

Either we .WIN situation–bad side or WIN ,s good side'we can either choose to see it ,d changesAll the propose .choose to see it as half empty glass or half full glass

a bahawa ada seseorg yg sanggup menganalis ,saya amat bersyukur pertama ,Sebagai seorang rakyat Malaysia ,tentang keadaan ekonomi negara dan membuat kesimpulan bahawa kemungkinan besar negara kita akan mufliis
Its a good to know something earlier even though sounded very .dan berkongsi dengan kita semua tentang ini .we can prepare for the future negative at the beginning because at least

B /B SEKIRANYA / ,saya tidak khawatir kalau semua subsidi ditarik balik oleh kerajaan ,Sebagai seorang warga kerjaan mestilah dapat menyelesaikan terlebih dahulu masalah masalah yg selama ini bertahun tahun tertimpa .atkepada raky

Saya rasa masalah ni dah lama .Salah satu contoh adalah pengangkutan awam dan traffic jem di Kuala Lumpur ni Tidak pernah kerajaan kita menganalisa sejauh manakah paling berkesan utk memberikan .tahun 30-20semenjak corak sistem yg dikeluarkan untuk 1Tidak ada .baik kepada rakyat sistem perkhidmatan awam paling ter Sekiranya kerajaan boleh membuktikan terlebih dahulu bahawa .mengatasi masalah ini yg sekian lama terpendam ,yang selesa ,selamat yang ,mereka dapat mengadakan sistem pengangkutan kenderaan awam yg menepati masa kita sbg rakyat mahu dan akan menggunakan perkhidmatan awam ,secara otomatik ,yang teratur ,yang berkesan .dan tidak akan bergantung kepada kenderaan persendirian

Dulu saya ingat .uatu sistem yg baru Tetapi janganlah hanya hangat hangat tahi ayam bila memperkenalkan ses Langung on time tu ?semuanya on time lepas tu apa jadik skrg ,waduh ,lagi bila bas rapid KL mula diperkenalkan Kita mahukan sistem terbaik yg ?inikah sikap atau sistem yg kita nak ,pelbagai alasan diberikan ,tidak ada .rterusanbe

mereka hanya berfikir ,Kerajaan kita selalunya tidak berfikiran panjang untuk membuat sesuatu infrastruktur Pernah tak menteri .tahun akan datang 10-5untuk jangkamasa selesai skrg bukannya berfikir utk kapasiti lihat betapa ,petang selepas org pulang bekerja 7-5LRT waktu antara menteri kita ni skrg pergi ke KLCC Tidak ?tahun akan datang 10-5Itu sekarang dan apa akan terjadi sekiranya ?ramainya kapasiti manusia di situ gok sendiri dan turun padang Ten .mungkin infrastruktur skrg akan dapat menampung volume manusia yg tinggi .compare dengan infrastruktur negara negara yg mempunyai pengangkutan awam terbaik di dunia ,dan setelah itu negara Singapura sudah cukup elok dilihat betapa mereka memikirkan jauh kedepan apabila ,Jangan pergi jauh but I do have ,not that I pro or like Singapore)rastruktur pengangkutan awam utk rakyat mereka membuat inf (respect in their public transport system

Kalau ???Kenapa kerajaan mahu mengambil dahulu sebelum menyelesaikan masalah yg selama ini tidak selesai ataupun tidak prihatin dengan kehendak or the ,masih ada in the government "p under the carpetswee"budaya .tidak akan jauh bezanya pun kalau subsidi ditarik balik ,root cause of what actually the people wanted

kenapa ,sepertimana contoh ialah public transport Sbg rakyat kita cuma mahu the simple things and one of it dan barulah bercerita tentang ,kerajaan kita tak nak selesaikan dahulu masalah yang dah berpuluh tahun ini ??? penarikan subsidi daripada rakyat

Ask yourself what you can or will do for us ,t Ask to Take back Our Subsidy first'Don" ;To Cabinet Ministers kita tak nak ,Rakyat Malaysia kebanyakannya sudah bijak pandai . ".and show us your outstanding result first We are not interested .kita mahu lihat hasil dan implementasinya ,erajaan hanya dengar cakap atau janji manis k .we are interested in getting the real fruits from a real tree AS SOON AS POSSIBLE ,to see a drawing of a tree

dapat (cth public transport)a ini sekiranya saya lihat masalah yg dah lam ,Sebagai seorg rakyat Malaysia .kerajaan ambil balik subsidi ,saya tidak akan khawatir dan gusar sekiranya ,diselesaikan dgn elok

but then later promise heaven and ,Tetapi saya akan lebih gusar dan khawatir sekiranya the government take first After that great at giving excuses after excuses to our people why .eventually nothing at the end earth but .certain problems never resolved for so many years

I LOVE MY COUNTRY MALAYSIA VERY MUCH THAT I DO NOT WANT IT TO BE BANKRUPT HOWEVER I

S NEEDS AND PROBLEM IS ACTUALLY 'E MORE BECAUSE OUR PEOPLE LOVE MY MALAYSIAN PEOPLE
.S NEEDS AND PROBLEM WHICH NEED TO BE RESOLVED FIRST'OUR COUNTRY

,Kind Regards

think that cutting the subsidies will You really !REMOVE SUBSIDIES TO ENRICH CORRUPTED GOVERNMENT
the country .Eventually .All the saving will only goto corrupted government officer !Very wrong ?enrich country
judges Because all the ?Why these corrupted officer not being detained or charge in court .will also go bankrupt
??? kononnya demokrasi woh ,police controlled by Government ,(anti curruption agency)ACA
i ,i will not care about it because you deserve it (just like Tun)if a capable person involve corruption ,Tun
i ,if a person just on board without showing his or her capability But .believe a lot of Rakyat will stand with me
a lot of ,Especially the recently issue .think most of the Rakyat will be very angry and rejecting these officer
The person ?Why we choose them ?Sometime i wonder they have brain or not .officers talking without thinking
sometimes i think a secondary student ,These officer always talking nonsense .who choose them is more stupid
Idiot excuse .always try to give a very very idiot excuse to hide their mistake ,is better than these idiot officer
???Kindergarden standard ?What happen to the BN !!until a primary student also will not believe
We .Rakyat today is different ,officer "kindergarden standard"t blind blind to support a 'I really hope Tun don
.know how to think
I think most of ?Why so coincidence ?denly Jackpot will strike in Sarawak recentlywhy sud ,Say for one example
t know whether 'I don .the Rakyat will know that this Jackpot is chainage to the Political Money in Sibuan Election
.But atleast i am really think of that way ?is true or not
guarantee BN will ,if not ,please choose capable candidate ,if BN really want to win in the next election ,oS
!loose out all the state just like other country

?tSubsidi Kerajaan atau Subsidi Rakya

(?Government Subsidy or Malaysian Subsidy)

Malaysians have been fed with FALSE impression that the government is ,All this while .I beg to differ
akyat The r .it's the other way around ,Nowadays .What was then cannot be applied in present .subsidizing them
.please remember that ,is subsidizing the government
,NAP ,(NEP)Maybe the idea of subsidizing was true enough during the early years of implementation of DEB
opulations of the p ;But as Malaysian standards of living improves .GLCs and such ,and creation of Proton
This leads to the hasty government .income earners gradually increases as well-income and middle-high
Due to .(and mismanagement)s development 'decision to create more absurd tax and duty to fund the country
dragging these people back to square ,way-come earners was interrupted halfin-the development of middle ,this
Not because of their lack of financial .income earners once more-income earners become low-Middle .one
.policies "Ah Long"it's because of the government unfair ,planning

the buck to the people Passing

?what do Malaysian get generally in return if subsidy to be removed ;The main issue as it has always been is
"give"the government must have something positive to "positive"if these steps are to be taken as ,Surely
We are witnessing a systematic way for .we gain nothing at all ,in our case ,nfortunatelyU .back as well
.indirectly "rakyat"government to transfer debts to the

s most expensive Automotive Industry'The world

removed and get Proton and other local car if subsidy to be (%100)Will the government implement AFTA tax and tariff on Mercedes and %200 (or at least reduced)No more ?manufacturer to compete fair and square .I doubt so ?No more expensive Tin Milo Proton ?No more rebadge cars ?No more AP Kings ?BMW's

Public Transport Inefficient

.unplanned and inefficient our public transport is ,ve no need to elaborate more on how terrible'I

Double Standards of Banking Sector

nal loan years perso 5and they will only provide you maximum (Banks)Go to any Private Financial Institution .(for private sector workers %7roughly)with the highest interest rate
re lucky enough to be a government servant 'backed Financial Institution and if you-go to any Government ,But 15to 10with maximum loan period up to (ghlyrou) %3.3ll be given interest rate as low as 'you ,or a GLC worker generally the private sector workers are ,Malaysians .Talk about double standards .(certain bank)years .(veland yet their services are still not in satisfactory le)GLC servants /Million government 1subsidizing the

Triple and Quadraple Taxing System ,Double

tax my tiny ,the government taxes my tin milo cars ;Malaysia has set a good example on how this system works y want to and now the ,increase my highway toll ,services with GST/tax my already expensive goods ,income multiplication tax "we are using ;we are way beyond that ,tax system-Talk about tier .remove my fuel subsidy .at Chow Kitt area usually does to its unsuspecting customers "Ah Long"This is what ."system

Other Chain Effect in the local Market

price at "teh tarik"and even ,services ,the government will loss control of price of goods ,Remove subsidy my roti canai kosong would end up equivalent to a price of ;in the near future ,It is possible .stalls "mamak" .Hawaiian Pizza Hut Deluxe

s Economic Advisors'Man The Rich

Economist ,PhD holders ,s and his batallion of Economic Unit advisors are all made of purely bankers'Ildris Jala .experts and Captains from various industries
presume not even one of them uses I .income earners-income and middle-Not even one of them is from the low So how in the heck .kapchais-the public transport on daily basis and not even one of them rides motorcycle And we ?we turn to them for answers ,And yet ?these so called "experts" understands people's sufferings .my foot ,Yeah right ?tually accept it without asking whyhave to ac

Conclusion

do you think Malaysia will be spared (and many more unfortunately)With all sorts of injustice mentioned above ?from the alleged bankruptcy
s 'posat made by the government is NOT meant for nationit seems that the pro ,From the way I see it rather it is tailored to suit to satisfy the lust of the elites and corrupt regime to maintain ,bankruptcy protection squeezing ;One might say .their cash cow in case the current government lose big in the next general election .the lemon juice till the last drop

PM 3:21 2010 ,9Author Profile Page on June 777By hansemaze

bumiputras alike and -bumiputras and non ,Subsidies must be maintained for the well being of all Malaysians s just a wishfull thinking if we try 'It .ies have to be well managed just like other thingsSubsid .whoever resides in to find the perfect mechanism in ensuring that the subsidies will reach the targeted population because we live .society-in a multi

citizens –Citizens and non .s income via fiscal means'o improve the nationThe government must find ways t
.Adjustments have to be made .who enjoys the subsidies must contribute back to the nation (legal and PATIs)

Look into other .people everyday lives GST is one method but still it will certainly affect prices of goods and
high costs landed houses and condos via a &medium ,for prime land areas)areas such as annual property tax
These .luxury goods tax &citizens automotive sales tax –non ,(years or so5reschedule every &tax schedule
Impose vehicle entry .citizens–ill at least get back some of the subsidies enjoyed by the rich and the nonw
.permit to foreign vehicles entering our country which are enjoying our subsidies meant for Malaysians

for example rescheduling personal tax schedule)e to pay taxReassessment of income tax to encourage peopl
hand with the government to overcome the –in–Maybe Baitulmal can work hand.(and increasing corporate tax
.s fiscal deficit'nation

diesel because these are &petrol ,garsu,cooking oil,Maintain subsidies for essential items such as rice
the subsidies given have to be controlled and ,healthcare &As for education .s lives'necessities in people
id water to avo &Reduce subsidies gradually in electricity .monitor in order for it to reach the qualified persons
if the operator ,As for tolls .wastage as well as constructions items should they are being subsidised currently
from ,cannot maintain then they should hand over their concessions to the government to handle everything
.e operationsfinancial matters right down to th

Try to make sure that development reaches into every .the government should spend wisely ,Last but not least
kampungs or in their native lands ,muslim bumiputras living in the cities–non &to the muslim ,part of the country
.umisb–as well as the non

.may Allah bless us with His mercy all the times ,Finally

....Salam

PM 2:26 2010 ,9By hazikAuthor Profile Page on June

,salam Tun

.the possibility Malaysia going bankrupt due to subsidies is only one of the factor

.the most important factor is to control corruption

if we are ,how much money we save from cutting the subsidies,no matter how much money Malaysia has

.corrupted the money will not be enough

.still Malaysia wont have the money,it will land in corrupt pocket

.stop the bleeding first then the transfusion can work/first we have to arrest,when there is bleeding,in medical

.if we continue the transfusion while the bleeding continues we might not achieve our target

.gain success

AM 11:41 2010 ,9By frosleyAuthor Profile Page on June

,Dear Tun

I would say that I agree and disagree in the move to cut down ,As a citizen in the middle income group
.subsidies

is impossible for the government to continue with the subsidies forever as it will lead to extreme I agree as in it
.deficit in the governments coffers

I disagree with the subsidies being pulled out without counter plans as the outcome will be ,However
shall have tremendous impact .etc ,sugar ,flour .e.ncrease in the price of oil and basic goods iAny i .disasterous
The chain reaction will almost definitely kill of a significant portion of the middle .on the prices of other goods
.income group income group and shove them into the lower

is insufficient to 200A short trip for grocery shopping in hypermarkets and wet markets will show that RM
.provide a decent meal and basic necicities for a family of four for a week

ufficient to comfortably provide for a family of four month is ins/5,000A household income of approximately RM
which makes up ,and I do not dare to imagine the impact of rise in cost of living will do the these families ,today
.the majority of Malaysian population

but as ,2020o push for Malaysia to be a high income nation by The government is saying that they would like t
.we are likely to end up in the low income group ,far as a middle income citizen like me can see

not move in in general does (s'do not include government and GLC)The salary structure in private companies
.tandem or as fast with the rise in the cost of living

I feel that it is only fair for the government to look into ways to create development thus giving the opportunity
save money without actually for its people to grow and earn more rather than look at drastic ways to
.considering the impacts it has on its people

,Dear Tun

Cutting subsidies on fuel and toll would bring hardship to the people the majority of whom are fixed income
not ,ould be Pakataan RakyatThe beneficiary w .They would vent their frustration in the ballot boxes .earners
.12It would be the repeating of same mistakes in PR .10the way Tun describe in point number

amin tan

on education as it will produce better Fuel and energy subsidies must be removed from the system and use it
To use the subsidies on education does not mean by donating some mega ringgit to a school .nation in future
.that oppose the government but it would be much better to build more class rooms and train more teachers
.more attention they gets ,s pupil in a classLes

Our rich .Insider should think what will happen to our children and nation in future if the country is bankrupt
irspace or neighbough next door will be coming and knocking on our door to donate some food or coal for an a
At that time we would probably agree with anything even to exchange some land in their bush with .for oldwater
.our strategic island

the Malaysian public at the need "shock and awe"s statement as a positive hyperbole aimed to 'I view Idris Jala
A few days after his announcement I thought the effect has been largely .to let go of the subsidy mentality
Of course the opposition were making !Change or die .turbid but they got the messagepeople were per ,good
It was when some in UMNO itself that starter to .some noises but I thought their arguments were rather weak
s 'has started to change negative towards Idris only then the public mood ,statements 'appear to dispute Idris
Are Malaysians and Malays in particular so ?s on feet'is this a case of shooting one ,Too bad .comments
on even with the prospect that the effects ,addicted to subsidy that any talk of letting them go scares them
I applaud the move to reduce and eventually abolish all .s economy in the future is unsustainable'Malaysia
t sure want to see Malaysia 'but I don ,Reforms may be painful .to hell with those who say otherwise ,subsidies
.he pain now when we are still economically healthyBetter t .turn into another Greece

AM 2:18 2010 ,9Author Profile Page on June 2By parameswara

,dear Tun

t 'why can,If other countries can live without it .is not good for us,I am of the opinion that any sort of crutches
Especially if not .the sooner the better -ment should hesitate no more and just remove itSo the Govern?we
it is not impossible to do these cuts if it is made to be ,Theoretically.2019doing it will take us to Idris Jala Vision
will be a huge withdrawal from the emotional accounts of the ,As it is now removing subsidies.not so painful
you must first make a terribly huge emotional -to ensure that they can accept this unpopular action,Now.rakyat
the emotional account after so that as long as there is a positive balance in-bigger than the withdrawal,deposit
.eventually,the Rakyat can take it,the withdrawal

but rather on how to build the deposits in the emotional ,So the challenge really is not to cut the subsidies

Now from my ponderance this is what i think will be a tremendously huge deposit to win .accounts of the people
-:s heart immediately'the rakyat

Get Sime Chairman and the whole board sacked immaterial of whoever is guilty for they have failed to do -1
Seeing Musa Hitam get the boot will make me so happy I .their job of ensuring profitability for the shareholders
.Same goes with other GLCs!per litre 3t mind if the price of petrol is RM'don

t matter the race as long 'Doens.s and not clever talking politicians'Ensure proffesionals only to run the GLC -2
paper -Show us their business credentials.as they are Malaysians and can bring profit to the company
Experience .Real business experience is a must.Oxford alone is not sufficient/MBA from Harvard,alificationsqu
t 'Doesn.If no locals get foreigners.Departments not valid for consideration at all,running Government Agencies
.long as it catches mice matter if the cat is black or white as

they must think like the private ,All GLCs must shed their Govt servant mentality -3
Try the Komuter .TENAGA is very sadly still hopelessly inefficient or very Governmently,TELEKOM,KTMB.sector
Again choose people based on .nt to see drastic changes immediatelyWe wa.t believe me'services if you don
and -These are business organizations for heavens sake.at all levels-as long as Malaysian ,performance not race
.arry to take chargeDick or H,non profitable organizations you can choose any Tom ,not any social

A multi racial country like .devote a much bigger portion of the GDP for sports ,Make Sports a big thing -4
Malaysia must not waste the extraordinary leverage sports magic can do to bring the hearts of the different
And a happy and caring Malaysians will be rational enough to absorb reasonable .together races of Malaysia
-the urgent thing now is to revamp FAM -So do whatever necessary to bring glory to sports again.subsidy cuts
We must catch up with the ..?results immediately s for proffessional to run and deliver us'introduce the KPI
.Sports is an area to explore for emotional deposit,Yes.Koreans and Japanese once again

.A think tank should be set up immediately.Whatever else to make the people happy soonest possible -5

remove the -,e,i,e thing to recommend once the Government is ready to do the inevitableNow just one mor
like how Bambang Yudhoyono did it in ,this painful job must be done one shot -toll ,power,subsidies for fuel
the opposition will help)will be a huge withdrawal it-everytime you cut,Because if you cut gradually.Indonesia
the emotional withdrawals will ,so three times you gradually revise it(dramatize to make it huger than it really is
e emotional deposit as long as you know the people have already been given a hug,So just once !be times three
.Pak Lah did it wrong the last time.then theoritically everything will be OK ,whatever that it is

.s what I think'That

AM 2:11 2010 ,9By boboAuthor Profile Page on June

Are they considering cutting their own .tableI believe that the BN government must first show they are accoun
?expenditure and excesses

Will they stop ?and make the perpetrators accountable ,Will they investigate the PKFZ scandal transparently
When they ?"w to use Facebookkho"paying tens of millions of ringgit to a PR firm which teaches ministers
?will they accept a ministerial pay cut ,remove the subsidy

Will the ?Do Malaysians need to pay the salaries of a bloated cabinet and an extremely bloated civil service
?illions of ringgitPrime Minister stop blatantly trying to buy votes with m

.s own subsidy'the extremely disproportionate and bloated civil service is the ruling party ,Come to think of it

Is the government willing .which leads to wastage and inefficiency ,”vote bank”The bloated civil service is their
?go of this subsidy to let

Does Najib risk losing MPs and party members if they are not ?s subsidy as well't the cabinet Najib'Isn
Palanivel was appointed as a deputy minister to ?Is that why the cabinet is huge ?appointed as Ministers
later turncoat ,A former opposition strongman .component parties MIC and UMNO prevent a fallout among BN
Former parliamentarians who lost their seats were appointed as senators and as .was appointed a senator
?ying their salaryWhy are the rakyat pa ?t suitable MPs chosen instead'Why weren .ministers

But it .I will support a removal of subsidies ,If BN shows that they are willing to live without their own subsidies
.t look like BN will any time soon'doesn

....Asalamualaikum

mereka hanya tau bercakapmaaf lah...saya sebenarnya dah muak n penat dgn perkataan subsidi n bankrapsi ni
tapi tidak memberikan

inggi jalan utk menggurangkan masaalah mcm saya jugak walhal mereka di peringkat tert/pilihan lain

yg berumah banglo tapi bila bab hantar anak p belajar kat luar negara 2kalo ada antara org...pemerintahan

nak potong subsidi bolehyg pendapatan tak seberapa/org kg 2masih mengharap biasiswa ape jadi ngan anak

yg tidak dapat ke sekolah kerana ibu bapa tidak mampu 2akan ada anak tapi boleh tak kerajaan menjamin tidak

...atau nak beli baju sekolah..nak bayar duit bas

kalo terasa dahaga minum air paipsi ...la ni pun saya rasa masih ramai yg datang kesekolah dgn poket kosong

sia lepas tu 'sia masih membeli barangan yg bersubsidi sama harga dgn rakyat m'kenapa bukan rakyat m...cola

..sia'berapa juta org asing tanpa izin dlm m....kita bising kata negara akan bankrap

....kereta secara gelap/berapa ribu antara mereka yg ada motor

mampu membeli barangan keperluan harian atau sekadar mkn bubur tepung beras henggit 800adakah gaji bawah

mcm saya mkn masa saya

bila subsidi minyak di kurangkan bukan ke harga minyak akan naik n hargasekolah dulu kerana tak mampu saya teringin nak tau kalauedangkan gaji tidak seberapasesua barang akan naik juga termasuk tuala wanita s ada negara yg tidak memberi subsidi kpd warganegaranya dlm masa yg sama semua harga barangan dlm negara da dah penat dgn ayat kerajaan dah tak a 2saya benar....mampu di beli oleh semua rakyat mereka kerajaan gaji depa naik hampir setiap taun 2org...tetap naik gaji 2tapi menteri....bankrapasi/subsidi/duit negara di luar sana ekonomi masih tak ...kewangan negara stabil ke tidak ke mereka tetap menuntut bonus...kut 2mana tak bankrapnya negara ni kalo glc(berita kata gak)..jak naik jugaksia melon'ekonomi m (berita kata)tentu yg membawa negara bankrapasi bukan kerana pemberian subsiditidak di urus dgn berhemat mcm sime darby sia lepas tu bebaskan rakyat 'm kat 2kpd warganya tapi kerana sifat tamak sesetengah ahli lembaga pengarah glcmarhain

AM 1:03 2010 ,9By flyingheadAuthor Profile Page on June

,Salam YAB Tun

Sekiranya hasil pendapatan tidak mencukupi untuk membayar .Ianya adalah perkara yang mudah untuk difahami .sebagai contoh sebuah negara atau syarikat akan muflis ,beban hutang

in yang menjana pendapatan hasil yang la-dan hasil ,Tetapi sebagai sebuah negara yang mempunyai hasil bumi adakah masih tidak cukup untuk digunakan oleh kerajaan untuk menjalankan tanggungjawab terhadap ,negara ,apakah tujuan hutang tersebut ,Apakah negara ini perlu berhutang melebihi pendapatan ?negara dan rakyat kerana sudah semestinya ,ianya pasti pelaburan yang akan memberikan keuntungan ,buransekiranya untuk pela .pakar yang akan menguruskan pelaburan tersebut-pakar

dan ,Sekiranya hutang tersebut untuk perbelanjaan sudah semestinya tidak akan mendatangkan pendapatan Sekiranya perkara .bila-cara logik negara tidak akan mampu untuk melangsaikannya sampai bilaseterusnya se !pasti Rakyat ,siapa yang akan menganggunya ,tersebut berlaku

g harus saya berharap supaya dua benda yan ,sekiranya masih tidak dapat dielakan ,Berkenaan dengan subsidi secara automatik ,ianya seperti domino ,Petrol sekiranya dinaik kan .diesel dan education/petrol ,dikekalkan dan akan menyebabkan perbelanjaan oleh rakyat ,barang yg menggunakan pengangkutan juga akan naik-barang njanaan ekonomi didalam negara juga akan berkurangan dan kemungkinan dan seterusnya pe ,akan berkurangan Education adalah sebagai pelaburan kepada rakyat untuk menjadi pakar didalam .banyak yg akan gulung tikar .kategori miskin kerana majoriti rakyat di negara ini adalah didalam ,pelbagai bidang professional

,Dear Tun

Though I am not well versed with government .not for the rich ,Subsidy is needed for the poor .Interesting topic my instincts tell me most of those money under the pretext of subsidy goes to the already rich ,spending we should try not to go against market forces and let the ,Also .are wrong Now this is where things .Malaysians People buying a kilo of sugar cannot appreciate the subsidy money because .market dictates price of goods rnment can educate people to act gove ,However .they do not practically see the money being paid as subsidy we still need to subsidize the poor so that they ,Having said that .as pressure groups to control prices of goods the ,Lastly .The mechanism used to reach them must be effective and less corrupt .are well taken care of Serious .lest solution the present government can work on is to reduce wastage and promote savings simp ,campaigns and roadshows need to be explored and wise spending by government agencies must be rewarded .“Anugerah Kualiti Perbelanjaan Berhemah” introduce ,say .Have a nice day Tun and may you be in good health all times

Thank you

PM 11:32 2010 ,8By shahrulAuthor Profile Page on June

t burden 'But does the government spend its money wisely and wouldn .removing subsidies for betterment is Ok ?of people with small salaries the majority group We paid .We saw the GLCs companies waste our tax money every year and non of them can be recovered back .the GLCs CEO by millions and they still make losses and do not give any fruits to the people cies buy thing at prime cost while the people are begging at supermarket mercy We saw the government agen From pendrive to military aircraft non of them were bought at discount price !for discounts on every weekends .or below book value ,pensive cost eventhought the watchdogs barked at below costWe saw the government still make project at ex .Million 500Million buy at RM 5cost at RM .e.i of course our country will go bankruptcy if all the above are still practicing wisely by our beloved ,Yes .government

.Nya–tunjuk olehSemoga usaha Tun diberkati dan diberi pe

m not against the subsidy removal 'i ,and frankly .m just a moderate person'i ...m not an economist'i ,First of all ...but i sincerely do hope more information given to rakyat such as

...!!! price goes up then our country should have more moneyso if the oi –Malaysia is oil net exporter country –1 ...the most we should pay is the processing fee ...why do rakyat need to pay for our own oil ,btw

a low quality oil to .k.a 'cheaper'thus we export our oil and import ,I was also told that our oil is HIGH quality -2
?is it true ...earn more money

as you ...i think you also have this question ???Rakyat will also want to know where are all the money gone -3
ut your leadershipmore than what you are getting througho 2the money given to current G is much ,said earlier

they will announce few billions of saving and they always say that ,Everytime when the G reduce the subsidy -4
!t see that happening'i live in Malaysia but i don ...the money will be well spend to improve public transportation

poor ...etc ,IPP ,agreement with guaranteed profit to certain party such as PLUS 'bias' 2he G sign manyWhy t -5
t do 'but can ...rakyat like me can only see all our hard earn money from taxes are given to these few companies
Jika kita benarkan 'wonder if a minister can make a statement like It make rakyat like me really .anything
'?siapa lagi akan buat highway pada masa akan datang ,mereka rugi

trillions of dollars of oil reserved to Brunei as /billions 2we were also told that we had given our right to many -6
.are extremely rich country and trying to give some donation to Brunei if we

...Hope you can share some light here

!Thank you and may Allah bless you always

,Tun

,% 100Saya rasa tidak ?ju ke arah mufliis adalah disebabkan subsidi Ada ker Tun fikir negara kita sedang menu
daripada apa yang dapat saya tahu ialah rasuah di dalam kerajaan yang berluasan dan menyalahgunaan dalam
..dasar ekonomi baru yang menyumbang kepada apa yang Tun sebutkan tadi

kira puluhan ribu –na yang kita dapat dengar setiap hari bahawa kontrak kerajaan yang bernilai kiraSeperti ma
cuma bayangkan berapa jumlah wang rakyat yang ,tetapi tuntutan sebenarnya ialah setinggi jutaan ringgit
apa jua projek yang siap dibina tak akan ,Bukan itu sahaja .terpaksa disalurkan kepada pihak yang tak berpatutan
..iaitu kerajaan terpaksa mengeluarkan perbelanjaan baru untuk memperbaiki (runtuh semua)tahan lama

kaya raya Negara yang ???Ini kan yang diperjuangkan oleh kerajaan BN untuk kesejahteraan rakyat selama ini
kenapa negara yang kurang dalam segi seperti ,dengan segala sumber bumi tetapi boleh menuju ke arah mufliis
??? Singapura tak perlu menghadapi semua ini

,Tolong Tun perjelaskan untuk rakyat Malaysia

.Sekalin Terima ksh

PM 5:42 2010 ,8Author Profile Page on June .0312By pokleh

,Salam Tun

dan petrol ,Sokong kerajaan kurangkan subsidi gula

TKVM

PM 5:39 2010 ,8By LManAuthor Profile Page on June

, Salam Tun

sesuatu yang " 2019a akan bankrap pada negar "Adakah perkara .Tajuk yang sgt bagus untuk diperkatakan ?golongan mana yang akan terasa bebanannya ,Sekiranya semua subsidi di tarik balik ?benar mengikut fakta .Saya rasa kita semua tahu jawapannya

bagaimana pula implikasinya ,an sesuka hati Sekiranya semua subsidi ditarik balik tetapi perbelanjaan oleh keraja seharusnya ,Bagi saya apa pun yang pihak kerajaan ingin lakukan .Itu semua harus diteliti ?kepada negara tapi Saya tidak menidakkan keperluan menarik balik semua subsidi te.kebajikan rakyat jelata harus diutamakan .tidak pula bersetuju semuanya dikekalkan

Sebagai rakyat .Seharusnya pemerintah yang lebih tahu keadaan sebenar ekonomi negara dan masa depannya .jelata kami cuma mengharapkan yang terbaik untuk semua

. terima kasih ,Sekian

Semoga apa yang Tun lakukan .emperjuangkan nasib rakyat Palestine yang ditindasSemoga Tun berterusan m* .memberikan semangat dan kekuatan untuk semua sukarelawan terus berjuang

,Yang Berbahgia TUN

pakar ekonomi yang telah memberi pandangan samada -Saya bersetuju akan pandangan Tun dan pakar
.entang cadangan pemotongan subsidi untuk mengelakkan negara menjadi bengkrapmenyokong atau men

ti saya ini bangkrap hanya boleh berlaku apabila kita tidak mempunyai harta Dalam kefahaman orang bisa seper
Dalam sebuah .Atau jumlah hutang melebihi harta yang kita ada .atau hasil mencukupi untuk membayar hutang
Jika jumlah hutang melebihi GDP .(GDP)negara kita membandingkan jumlah hutang dengan Keluaran Negara Kasar
.kita telah tergolong dalam kategori negara bangkrap

Dibumi Malaysia yang bertuah ini kita telahpakar ekonimi sekalian-Yang Berbaahgia TUN dan Pakar
sumber manusia yang ,suburan tanahke ,hasil bumi -dianugerahkan oleh Allah SWT berbagai bentuk kekayaan
Jika kekayaan sumber alam dibandingkan dengan jumlah penduduk yang kita ada .berkebolehan dan sebagainya
mengawal nafsu .Kesederhanaan dalam meletakkan matlamat .sepatutnya kita tidak boleh menjadi bangkrap
at maju dan mengadakan tabdirurus yang berdisplin dan cekap kita boleh menghindarkan negara cep/cepat kaya
.dari bangkrap

mampu /cita yang terlalu tinggi sehingga tidak sempat-Malangnya semenjak merdeka kita telah meletakkan cita
Perancangan untuk projek yang hebat hanya untuk membanggakan .iditampung oleh keupayaan rakyat negara ini
Sebahagian projek itu tidak .diri telah menyebabkan kita terjebak didalam perbelanjaan yang diluar kemampuan
Kita .cang untuk merekacita untuk mereka dan meran-Kita yang meletakkan cita .pernah dituntut oleh rakyat
Sama seperti .Akhirnya kita terjebak dengan hutang yang besar .ingin menjadi hebat dengan kos yang tinggi
remaja yang ingin kelihatan mewah atau menikmati kehidupan mewah dengan mengguna berbagai sumber hutan
.kad kredit-termasuk kad

Skim cepat kaya sebenarnya bukan sahaja diamalkan taau diminati oleh masyarakat pertengahan dan bawahan
.Ini yang paling bahaya jika keinginan yang sama mempengaruhi mereka .tetapi juga oleh mereka yang berkuasa
contoh jika orang tempatan tidak cukup dan kurang upaya Kita sering mengambil jalan mudah sebagai
Akhirnay pekerja luar bukan sahaja mencari .melaksanakan tugas kita mengimpot pekerja luar dengan ramai
l kita akan Apabila mereka semuanya balik kenegara asa .rezeki tetapi juga menimba pengalaman dan kemahiran
.menghadapi masalah untuk menggantikan mereka untuk menggerakkan ekonomi

Apabil .negara bekas jajahan SOVIET UNION dahulu menghadiapi sindrom yang sama-Pengalaman negara

pekerja –anya kerana pekerjakilang besar terpaksa ditutup h–mereka mencapai kemerdekaan banyak kilang
Begitu juga .negara baru merdeka ini menjadi lumpuh–Negara .keturunan Russia balik kenegara asal
lain menggerakkan pembangunan negara bukan –Qatar dan lain ,Saudi Arabia ,negara Arab seperti UEA–negara
Setelah sekian lama kini rakyat mereka menjadi lemah dan .i tetapi oleh pekerja asingatas kekuatan rakyat sendiri
.Mujur Allah masih sayang dan mereka dianugerahkan minyak .tidak mampu mwembangunkan negara sendiri

bukan bertujuan untuk menakutkan tetapi Saya percaya nasihat Datuk Idris Jala .Kita masih beruntung .Malaysia
Saya percaya kita boleh mengurangkan risiko .untuk memberi amaran dan kesedaran agar kita bermuhasabah diri
:langkah berikut–bangkrap jika kita mengambil langkah

Bilangan rakyat kita masih tidak .i lebih bersederhanacita dan selera besar dan menjad–Mengurangkan cita .1
.membebankan berbanding dengan kekayaan anugerah Allah yang ada

Kurangkan tumpuan kepada kebanjirn pekerja asing terutama disektor moden kerana ini akan melemahkan .2
.Pekerja asing hanya boleh diteruskan disektor pertanian .gka panjangkeupayaan warga sendiri dalam jan

.Pengurangan subsidi harus dibuat secara berperingkat agar tidak memberikan kejutan kepada rakyat .3

h secara ekonomi yang kalau kita tidak mahu dijaja (FDI)Kurangkan pergantungan kepada Pelaburan asing .4
.akhirnya melemahkan kerajaan pilihan rakyat

.undang–Bersikap tegas dalam melaksanakan dasar dan undang .5

Agar semua rakyat .Laksanakan semula Dasar penyusunan semula masyarakat seperti Dasar Ekonomi Baru .6
.t hidup selesa dalam negara merdekatanpa mengira kaum dapa

.....AMIN .mudahan negara kita terurus dengan baik dan bijaksana–Mudaha

MAZAI

PM 4:27 2010 ,8By sheridansulikAuthor Profile Page on June

Assalamualaikum Tun M

we do ,During the recent brief price hike of Petrol prices .or toll rates has its goodness ,Reducing in Fuel prices
resulting new ,reduction of cars on the streets of KL and more people resort to Public Transportation ,see
and also the revival of the double tracking trains throughout ,LRT lines longer ,busses needed on the road
.Malaysia

But that also resort price hike of transportation and the commercial sector is putting the burden of this price
try to ,ut to reduce subsidies and at the same timeBut if the government could figure o .hike to the consumers
.the results would be encouraging ,maintain the price of daily goods

is something 2020Reducing subsidies to ensure Malaysia prosper and achieved a Developed Nation by year
the cost of living will be increasing as ,consequences and I bet you knew about it the ,However .need to be done
?How can people like normal government servant to survive to live in Malaysia .well

How .make ends meet or do other moonlighting jobs just to ,govt servants resort to corruption ,We see today
We wont achieve Developed Nation by .could we improve the effectiveness of governance if this is to continue

.Poverty and high corruption rates will be as high as before .2020year

G & Petronas too need to be competitive in other O .cash to sustain Malaysia 'We cannot rely on Petronas companies around the world We do need other GLCs to make money for the Nation and encourage cash flow in .the country

nt should practice probably the governme ,So how do we want to encourage the Govt Servants to be effective .who contribute to the country and show eagerness to improve ,rewarding the staff who perform well

Idris Jala should be given the opportunity to run the economics as what he has done for MAS and also his re the company was doomed to be in the reds but managed to pull back into Whe .previous company in Bintulu .But managing a Nation wouldnt be as easy .profitable company

Idris Jala and yourself would have better ideas to ,but I am sure ,This is just a suggestion of mine Tun he country and ensure the balance in the economic scene and ensuring Malaysia doesnt fall into implement to t .MALAYSIA can be among the world leaders ,I always believe .bankruptcy

!Thanks Tun .cents opinion2Just my
PM 4:06 2010 ,8Author Profile Page on June 01By priss

doing .We see gov .People are not blind or stupid

s wife'page ad for PM-2
/behalf-govts-ad-rosmah/com.thenutgraph.www//:http

.(Cronies)Buying of subs and jets and paying of middle man

.Anything to do with kebajikan rakyat cut but anything to do with Cronies business blindly give

.Must ensure Cronies business continue to get subsidy

PM 4:01 2010 ,8By I See Stupid PeopleAuthor Profile Page on June

,Tun

I dun agreed by simply remove the .sidies provided have the proper planningI agreed we sud cut on the sub alot Malaysians are working class ,Furthermore !subsidies and at the same time later say will impose GST taxes hom punished a malaysian not like Australia w ,SALARY protecting them/ppl with NO MINIMUM WAGE Again Malaysia inflation was quite high compare to our .restaurant for under paying their staff last year .neighbouring countries

..il PER DAYbarrels of o 800,000If we do the calculation for Petronas latest oilfield in IRAQ which can produce havent calculate for ,s only IRAQ'Tat ??doesnt this already can cover ,billion per annum80.64roughly about RM .the rest

but if we turn ,Govmnt blame on rakyat consumed alot of petrol and the petrol subsidies was the main impact becos govmnt cant constantly ?why !s govment'It ?what make us consume so much petrol ,round the other way .upgrade the transportation infra

Those working class people whom cant afford to buy houses nearby city have to look for houses at Never they need to drive ,Therefore .LRT)s are not supported by efficient public transportand these area !Neverland house prices which nearby cities were all jackup ,Related to this !which indirectly helping Proton in car sales .se pricing and alocationss no controls over the hou'There !!and goreng by foreigners

able to sustain even without ,(except me)Anyhow I believe Malaysians are bunch of rich people ...Sigh ,Afterall per phone which 299Just like Iphone selling USD ..s money'and govment continue to suckup Rakyat ..subsidies And he ?why u charge us so high ,k so when we ask Steve Job2.5k but in Malaysia was selling RM1Mabout R ...Please ask your government :politely replied

!Vendetta prevails

PM 3:39 2010 ,8Author Profile Page on June 0509By arief

h sesetengah golongan rakyat tetapi pada hari ini subsidi tersebut dinikmati Subsidi sememangnya diperlukan oleh Mekanisme penerimaan subsidi tersebut perlu dicari agar .oleh segenap lapisan rakyat termasuk yang kaya raya .benar layak-penerimaanya merupakan mereka yang benar pihak pemerintah perlu mengurangkan subsidi sedikit demi sedikit bagi membolehkan kesan ,nWalau bagaimanapun Pasti rakyat akan melenting jika harga petrol .langsung kepada penerima subsidi tulen akan kurang dirasai Dicapang juga .(seperti seketika dulu) 2.70a harga RMtiba dijual pad-liter tiba/2.00yang kini dijual bawah RM harga jualannya dipasaran untuk rakyat jangan ,walaupun pada masa akan datang harga komoditi tersebut turun .diturunkan secara drastik hanya kerana untuk meraih sokongan rakyat

PM 3:28 2010 ,8le Page on June By LionelcheeAuthor Profi

,Dear Tun

But did we .It is true that we need to look into the subsidies cut to prevent the country from getting bankrupt These two setbacks also .also not look into the lavish spendings of politicians and corruptions in the country We need Tun to save the .I believe Tun has the solution to the problem.ycontribute the cause of bankruptc .country

.You are the greatest .Take care Tun

PM 3:10 2010 ,8By DinAuthor Profile Page on June
