MANAGING ECONOMIC CRISIS IN SOUTHEAST ASIA

The **Saw Centre for Quantitative Finance** was established at the National University of Singapore on 1 December 2003. The Centre is named after a distinguished NUS alumnus Professor Saw Swee Hock, whose generous endowed gift has enabled the founding of this Centre. The Saw Centre is situated within the vibrant community of the renowned NUS Business School.

The Saw Centre's purpose is to conduct quality research, educational activities and training programmes related to the financial services industry in the Asia Pacific region. With the resources of the university and active contribution from industry professionals, it is a resource centre that will benefit both academics and practitioners.

The **Institute of Southeast Asian Studies (ISEAS)** was established as an autonomous organization in 1968. It is a regional centre dedicated to the study of socio-political, security and economic trends and developments in Southeast Asia and its wider geostrategic and economic environment. The Institute's research programmes are the Regional Economic Studies (RES, including ASEAN and APEC), Regional Strategic and Political Studies (RSPS), and Regional Social and Cultural Studies (RSCS).

ISEAS Publishing, an established academic press, has issued more than 2,000 books and journals. It is the largest scholarly publisher of research about Southeast Asia from within the region. ISEAS Publishing works with many other academic and trade publishers and distributors to disseminate important research and analyses from and about Southeast Asia to the rest of the world.
