PREFACE

The present volume is the last of a series of three books which together cover the approved syllabus in History for Forms 1, 2 and 3 in Malayan lower secondary schools. The object in this book, as in the other two of the series, has been to present the topics in the syllabus in as interesting and as comprehensive a way as possible. It is sincerely hoped that it may prove useful to teachers of History in Malayan schools.

Carefully selected comprehensive questions are included at the end of each chapter to enable teachers to assess the knowledge of their pupils. Teachers are also requested to formulate their own questions to supplement those given here.

The photographs and maps have been chosen with care to add realism and further interest to the narrative so as to enable pupils to better visualise the people and events that they read about.

Last but not least, my grateful thanks as due, firstly to Mr. W. Williams, former Lecturer in History at the Malayan Teachers' College, Penang, for going through the manuscript and making valuable suggestions and secondly to the authors of the many books which I have consulted, for factual contents.

JOGINDER SINGH JESSY.
