## DEDICATION To

All my students who would follow all their life what I always emphasize in classes during my lectures—Read and Lead! Seek knowledge with this intention that you should not simply become the bricks and stones of the existing morally corrupt and Islamically bankrupt institutions and structures in the society, but to bring a constructive change in the society, in Ummah vis-à-vis mankind. Be agents of change to liberate the Muslim Ummah and the crises-ridden humanity from the shackles of neo-colonialization.
