preface

THIS is the sixth issue of the Malaysia Year Book covering all the territories of Malaysia and it is our hope that this edition offers a comprehensive picture of Malaysia today. All of the chapters in this new edition have been revised maintaining our policy of providing a Year Book containing as accurate and up-to-date information as possible. We would like to thank those who have contributed so much time and effort in providing us with expert information without whose help this publication would not be possible.

It will be appreciated that policies and names are liable to change but to the best of our knowledge and belief all information was correct at the time of going to Press.

Welding tools, trucks, nations.

We know a lot about welding. But in spite of the 'Oxygen' in our name, gas welding is only a part of it. We have the gear and expertise for manual arc and all the new semi-automatic and automatic welding techniques. We supply the world-famous Lynx MIG process. We make electrodes to the most advanced specs right here. As members of the BOC Group, we can show you how to cut and weld virtually anything faster, better—and at lower cost. Then how to paint it!
