preface

THIS is the 6th volume of the Federation of Malaya Year Book. We believe that this edition is comprehensive in its coverage of the Federation of Malaya in all its many aspects. The increased number of pages marks the extensive research that many of our friends have willingly undertaken on our behalf.

We hope that this reference book on Malaya and its people will once again be of use to you the reader and any suggestions that you may have please forward them to us.

All the information included has been checked with the competent authorities and was accurate at the time of going to Press. We are sure you will appreciate, that a publication such as this takes some time to prepare and changes in policies and the names of people holding public office often change suddenly.

We would like to express our thanks to all those who have supplied the information without whose help this book could not be produced.
